

MARKET RESEARCH QUESTIONNAIRE
Simplified Acquisition of Base Engineering Requirements
SABER IDIQ
Dyess Air Force Base, TX

DISCLAIMER: Companies responding to this questionnaire are placed on notice that participation is voluntary only. The Government will not reimburse participants for any expenses associated with their participation in this questionnaire.

Background: This questionnaire is part of research presently being conducted to assist the United States Air Force (USAF) in refining the requirements for an on-going construction Indefinite Delivery, Indefinite Quantity (IDIQ) contract. Individual task orders under subject contract are of minimal scope (>\$250K) and complexity. The government is interested in identifying potential sources that may possess the expertise, capabilities, and experience to meet the requirements in the Statement of Work.

Point of Contact: Please refer to the Statement of Work in completing the questions below and provide any questions and/or comments you may have to TSgt Marshal Khinno at marshal.khinno@us.af.mil or Traci Hughes at traci.hughes.1@us.af.mil by **9:00 AM CST** on **23 May 2026**.

Business Entity Information

Please provide the following business information for your company/institution and for any teaming or joint venture partners:

- Company/Institute Name:
- Address:
- Point of Contact:
- Phone Number:
- E-mail Address:
- CAGE Code:
- North American Industry Classification System (NAICS) Code: 236220
- Based on the above NAICS Code, state whether your company is:
 - Small Business (Yes / No)
 - Woman Owned Small Business (Yes / No)
 - Economically Disadvantaged Woman Owned Small Business (Yes / No)
 - 8(a) Certified (Yes / No)
 - HUBZone Certified (Yes / No)
 - Service-Disabled Veteran Owned Small Business (Yes / No)

Technical Questions:

1. Please give a brief explanation of your company's capabilities (i.e., engineering capabilities, size of available facilities, etc.).
2. What are the quality assurances your company utilizes in its design, construction, and inspection practices?
3. Does your company have the resources and management structure for simultaneous construction task orders?
4. Does your company have experience performing the majority of this type of work in-house, as opposed to subcontracting out the work?
5. For occupied facility renovations, the Government plans to require a 2:1 replacement ratio for temporary restrooms (e.g., port-a-potties) when existing facilities are taken offline. Are there any foreseeable supply chain or execution issues with this standard?
6. Work at Dyess AFB frequently involves operations in Restricted Areas requiring strict escort protocols and Entry Authorization Lists (EALs). Please describe your experience managing construction schedules and workforce productivity under heavy DoD security constraints.
7. The SoW caps a single superintendent's workload at five (5) concurrent task orders. How does your firm plan to recruit, manage, and retain sufficient qualified onsite supervision to meet this requirement without delaying concurrent task orders?
8. The Government utilizes a 'Proposal Development Fee' (Design Fee) structure where the contractor is responsible for producing task order designs (up to 35% or higher). Does your firm utilize in-house architectural/engineering (A-E) design staff, or do you rely on teaming agreements/subcontractors for design work?

Industry Feedback & SoW Streamlining

1. Based on your review of the draft Statement of Work (SoW), what specific modifications, commercial best practices, or alternative approaches would you recommend to streamline task order execution, reduce administrative burden, or lower overall costs to the Government? (Note: The Government will review all suggestions to refine the final requirement, but is under no obligation to adopt or implement any submitted recommendations).
