SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Block 14 (Description of Amendment/Modification): The purpose of this amendment is as follows:

1. To cancel TGI 38KB312389A01.
2. To revise Section J.
3. To respond to the question received.

All other information remains unchanged.

Questions and Responses

Below is the question received and the Government's response:

Question (1)

For 38KB312386A01 (Para 5.10), 38KB312387A01 (Para 5.9), and 38KB312388A01 (Para 5.7), the following items are included:

GTM Intake

SSGTG Intake

Intake/Exhaust Trunk

However, there is no description of the critical coated area in the TGI.

Is it possible to confirm requirement of Critical coated area?

Government Answer (1)

TGIs don't describe critical coated area because the preservation work of Para

38KB312386A01(5.10)/38KB312387A01(5.9)/38KB312388A01(5.7) of below TGIs is touch up for coating removed areas that are reported by visual inspection.

Para 3.6.1.3 of NSI 009-032 states that even though it is critical coated area, if preservation area is not greater than 10SF and less than 10% of total paint area of the compartment, it is handled as touch up and requirement of critical coated area preservation is waived.

If the contractor reported coating removed area is greater than 10SF or 10%, additional requirement of critical coated area preservation will be processed by DL per CR.
