Quotation Submission Information

(a) **Submission:** Quotations shall be submitted electronically via email to the Point(s) of Contact by the Response Date/Time identified in the General Information Section above. A confirmation of receipt will be provided, but it is the sole responsibility of the Offeror to ensure that its response/quote is received in its entirety and in a timely manner.

(b) **Quote Requirements:** Offerors shall provide a quote with their proposed products, country of origin, and pricing (in US Dollar (USD), along with product literature for the items being offered so that compliance with the specifications can be evaluated. The quote shall also include:

1. Description of standard commercial warranty and any extended warranty and pricing (if not described in the Offeror's standard terms and conditions), and warranty for any underlying subcomponents. Any warranty information will be included in the contract by addendum.
2. If shipping is not priced as a separate line item, a statement that shipping is included in the overall price of the items.
3. Documentation from the manufacturer stating that they are an authorized dealer/reseller/distributor for the specific item(s) being procured, if applicable.
4. Software Licenses - If including a software license in its quotation, Offerors shall provide a summary of its standard federal government software license in its technical quotation. The full software license must be added as an attachment to the quote. If the Offeror does not have a Federal Government software license, the Offeror shall provide a summary and copy of its commercial software license customarily provided to the public.

(c) **Company Information:** The Offeror shall ensure the following information is submitted:

- Expiration date for quoted and submitted prices
- Company Name
- Address
- CAGE / UEI Number
- Web Page URL (if applicable)
- Company Point of Contract, phone # and e-mail

(d) System for Award Management (SAM): Offerors shall be registered in the System for Award Management (www.SAM.gov) at the time an offer or quotation is submitted. Offers received from entities not actively registered in SAM at the time of submission may be deemed non-compliant.

(e) This procurement is for new equipment ONLY. No remanufactured or "gray market" items are acceptable. All equipment must be covered by the manufacturer's warranty.

(f) Vendor shall be an Original Equipment Manufacturer (OEM), authorized dealer, authorized distributor, or authorized reseller or partner for the proposed equipment/system, such that OEM warranty and service are provided and maintained by the OEM. All software licensing, warranty, and service associated with the equipment/system shall be in accordance with the OEM terms and conditions.

Evaluation and Basis for Award

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government. Factors other than price shall be considered, and a Price/Technical Tradeoff analysis of both price and non-price factors will be conducted as part of each submission's evaluation. Trade-off considerations may result in the determination that it is in the best interest of the Government to award to an Offeror that does not have the lowest price technically acceptable offer, or similarly, an Offeror that does not have the highest technically-rated offer. The following factors shall be used to evaluate offers:

1. Compliance with Specifications

The Government will evaluate proposals based on how well the proposed product(s) meet the minimum requirements of Attachment 1.

Rating	Description
Acceptable	The proposal meets all minimum requirements of Attachment 1
Unacceptable	The proposal does NOT meet all minimum requirements of Attachment 1

2. Supplier's Past Performance

- IAW DFARS 252.204-7024 (DEVIATION 2026-O0043), the contracting officer shall consider data available in the statistical reporting module of the Supplier Performance Risk System (SPRS) regarding the supplier's past performance history for the PSC and/or NAICS of the supplies being purchased.
- Ratings:
 - Low Risk: SPRS Supplier Risk Score of Blue, Purple, or Green, indicating a higher score in SPRS and are therefore, considered to have a lower risk of poor contract performance
 - High Risk: SPRS Supplier Risk Score of Yellow or Red, indicating a lower score in SPRS and are therefore, considered to have a higher risk of poor contract performance
 - Neutral: In the case of a supplier without a record of relevant past performance history in SPRS for the NAICS or PSC of the supplies being purchased, the supplier may not be evaluated favorably or unfavorably for its past performance history.

3. Cost/Price

The Government anticipates making a determination of fair and reasonable price based on competitive quotes as described in FAR 12.204(a). If only one response is received, the Government will determine the

price to be fair and reasonable using standard price analysis techniques (e.g. knowledgeable sources, market research, historical prices, etc.).

(b) Order of Importance: Factor 1 (Compliance with Specifications), Factor 2 (Supplier's Past Performance) and Factor 3 (Cost/Price) are EQUALLY IMPORTANT.

(c) Award on Initial Responses; Exchanges with Best-Suited Contractor: The Government anticipates selecting the best-suited contractor from initial responses, without engaging in exchanges with vendors. Vendors are strongly encouraged to submit their best technical solutions and price in response to this RFQ. However, the Government may engage in limited exchanges to clarify certain aspects of quotes. Once the Government determines the contractor that is the best-suited (i.e., the apparent successful contractor), the Government reserves the right to communicate with only that contractor to address any remaining issues and revise quotes, if necessary, and finalize an award with that contractor. These issues may include technical and price. If the parties cannot successfully address any remaining issues, as determined in the sole discretion of the Government, the Government reserves the right to conduct exchanges with the next best-suited contractor and address any remaining issues and revise quotes, if necessary, and finalize an award with that contractor.
