

INSTRUCTIONS

The Offeror shall provide a completed Data Rights Assertion Matrix (RFP Attachment 6) indicating data rights asserted/proposed in Column H and rationale/comments in Column I. The data rights status or public domain status of all proposed modification items to include, but not limited to, software, firmware and hardware, regardless of origin, shall be disclosed to the Government. Anything less than what the Government requested on the DRAM in Column G (RFP Attachment 6), the Offeror shall fully explain and describe how their Intellectual Property assertions will impact fielded system's organic sustainment and repairs. If an Offeror intends to assert any restrictions on the DoD's ability to use, release, or disclose a CDRL to non-Government employees, the offeror must explain why the item does not fit withing any of the statutory or regulatory provisions that entitle the DoD to acquire unlimited rights in the technical data, irrespective of whether the technical data was developed exclusively at private expense.

The Offeror shall not add rows or columns to the matrix. If applicable, the required explanation and description shall be included in the technical volume.

CDRL Number	Data Item Description (DID)	CDRL Title	CDRL Subtitle	SOW Reference	CLIN	Gov. Needed Rights	Offeror's Asserted Right

Commercial Computer Software Licenses
Commercial Technical Data License Rights
Government Purpose Rights (GPR)
Limited Rights
Restricted Rights
Specially Negotiated License Rights (SNLR)
Unlimited Rights

Rights Category	Applies to These Types of Data	Permitted Uses within the Government	Permitted Uses by Third Parties Outside the Government
Unlimited Rights (UR)	Noncommercial TD and CS	All uses; no restrictions	
Government Purpose Rights (GPR)	Noncommercial TD and CS	All uses; no restrictions	For "government purposes" only; no commercial use
Limited Rights (LR)	Noncommercial TD only	Unlimited, except may not be used for manufacture	Emergency repair/overhaul
Restricted Rights (RR)	Noncommercial CS only	Only one computer at a time; minimum backup copies; modification	Emergency repair/overhaul; certain service/maintenance contracts
Specifically Negotiated License Rights (SNLR)	Any/all TD and CS – including commercial TD and CS	As negotiated by the parties. However, must not be less than LR in noncommercial TD and must not be less than RR in noncommercial CS (consult with legal counsel as other limits apply)	
Small Business Innovation Research (SBIR) Rights	Noncommercial TD and CS generated under a SBIR contract	The equivalent of UR in OMIT and FFF data; the equivalent of LR in all other delivered TD; the equivalent of RR in CS	
Commercial Technical Data (TD) License Rights	TD related to commercial products (developed at private expense)	The equivalent of UR in OMIT and FFF data; the equivalent of LR in all other delivered TD	
Commercial Computer Software (CS) Licenses	Any commercial CS or CS documentation	As specified in the commercial license customarily offered to the public
