INTRODUCTION

Responses to this Request for Information (RFI) may be used to formulate final requirements and/or to identify qualified vendors capable of meeting those requirements. The description below outlines preliminary requirements envision for Evidence Collection Equipment and Services. The preliminary requirement includes equipment, supplies, licenses and services. The information gathered from responses may be used to formulate acquisition strategies for competitive solicitations.

BACKGROUND

The Federal Bureau of Investigation (FBI) is conducting market research and seeking information regarding available vendors that can provide the services, and necessary equipment and supplies in the attached list. While this RFI is not a request for proposal or quote, the FBI intends to utilize data received from this RFI to assist in formulating final requirements for an upcoming request for an upcoming request for quote (RFQ).

The FBI requests that vendors review the preliminary requirement herein. The preliminary requirements do not necessarily represents the final specifications; rather, these highlight areas of interest and feedback from industry partners may help to shape final requirements.

PROPOSED SALIENT CHARACTERISTICS/REQUIREMENTS

The FBI is seeking vendors that can provide all equipment, supplies, and services in the attached list meeting the following characteristics/requirements:

- Hand deliver equipment once they have been calibrated
- Work in or have a facility that has its Equipment Manufacturing Certification
- Have employees that are manufacturer trained and certified to handle equipment repairs and calibrations
- Due to the technical and sometimes delicate nature of the equipment to be acquired, the FBI is requesting vendors that are within one hundred (100) miles of the Laboratory Division Headquarters (HQ)/Quantico, VA. This is to prevent the possible

damage of equipment in transportation to and from the vendor and to ensure the vendor can quickly respond in person to technical issues.

- Supply new software licenses as well as supply yearly maintenance to licenses

PRELIMINARY CONCEPT FOR EVIDENCE COLLECTION EQUIPMENT and SERVICES

If a solicitation is released, the FBI intends to utilize the evaluation method of Lowest Price Technically Acceptable (LPTA).
