(a) This clause does not apply to the unrestricted portion of a partial set-aside.

(b) *Definition. Similarly situated entity*, as used in this clause, means a first-tier subcontractor, including an independent contractor, that—

(1) Has the same small business program status as that which qualified the prime contractor for the award (e.g., for a small business set-aside contract, any small business concern, without regard to its socioeconomic status); and

(2) Is considered small for the size standard under the North American Industry Classification System (NAICS) code the prime contractor assigned to the subcontract.

(c) *Applicability*. This clause applies only to—

(1) Contracts that have been set aside for any of the small business concerns identified in 19.000(a)(3);

(2) Part or parts of a multiple-award contract that have been set aside for any of the small business concerns identified in 19.000(a)(3);

(5) Orders, regardless of dollar value, that are set aside in accordance with sections 19.105, 19.106, 19.107, and 19.108 under multiple-award contracts, as described in 8.4 and 16.5; and

(6) Contracts using the HUBZone price evaluation preference to award to a HUBZone small business concern unless the concern waived the evaluation preference.

(d) *Independent contractors*. An independent contractor shall be considered a subcontractor.

(e) By submission of an offer and execution of a contract, the Contractor agrees that in performance of a contract assigned a North American Industry Classification System (NAICS) code for—

(1) Services (except construction), it will not pay more than 50 percent of the amount paid by the Government for contract performance to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both services and supplies, the 50 percent limitation shall apply only to the service portion of the contract;

(2) Supplies (other than procurement from a nonmanufacturer of such supplies), it will not pay more than 50 percent of the amount paid by the Government for contract performance,

excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both supplies and services, the 50 percent limitation shall apply only to the supply portion of the contract;

(3) General construction, it will not pay more than 85 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 85 percent subcontract amount that cannot be exceeded; or

(4) Construction by special trade contractors, it will not pay more than 75 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 75 percent subcontract amount that cannot be exceeded.

(f) The Contractor shall comply with the limitations on subcontracting as follows:

(1) For contracts, in accordance with paragraphs (c)(1), (2), (3) and (6) of this clause—

☒ [X] By the end of the base term of the contract and then by the end of each subsequent option period; or

☐ [] By the end of the performance period for each order issued under the contract.

(2) For orders, in accordance with paragraphs (c)(4) and (5) of this clause, by the end of the performance period for the order.

(g) A joint venture agrees that, in the performance of the contract, the applicable percentage specified in paragraph (e) of this clause will be performed by the aggregate of the joint venture participants.

(1) In a joint venture comprised of a small business protégé and its mentor approved by the Small Business Administration, the small business protégé shall perform at least 40 percent of the work performed by the joint venture. Work performed by the small business protégé in the joint venture must be more than administrative functions.

(2) In an 8(a) joint venture, the 8(a) participant(s) shall perform at least 40 percent of the work performed by the joint venture. Work performed by the 8(a) participants in the joint venture must be more than administrative functions.

If occupational diseases are not compensable under those statutes, they shall be covered under the employer's liability section of the insurance policy, except when contract operations are so commingled with a Contractor's commercial operations that it would not be practical to require this coverage. Employer's liability coverage of at least \$100,000 is required, except in States with exclusive or monopolistic funds that do not permit workers' compensation to be written by private carriers.

(b) General Liability: \$500,000.00 per occurrences.

The inquiry will look at any information in the entity's possession but does not need to include an internal or third-party audit.

(3) The Contractor shall submit a report to the contracting office identified in paragraph (h)(2) of this clause if the Contractor identifies, including through any notification by a subcontractor at any tier, that a covered article or product or service produced or provided by a source was provided to the Government or used during contract performance and is subject to a FASCSA order(s). E.8 52.212-2 EVALUATION—COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (NOV 2021)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

Technical, Past Performance and Price

Evaluation of quotes will be conducted using Simplified Acquisition Procedures in accordance with RFO FAR 12.203, Evaluation.

Basis for Award:

The Government will award a single award Firm-Fixed Price contract to the responsible Offeror that represents the best benefit to the Government at a price that can be determined fair and reasonable based on price and other factors. Offeror quotes shall be evaluated under RFO FAR 12.203 utilizing technical, past performance and price. Government will evaluate utilizing comparative evaluation. Comparative evaluation is the side by side pairwise comparison of quotes based on factors resulting in a Contracting Officer decision for the quote most favorable to the Government. The Government reserves the right to consider a quotation other than the lowest price that provides additional benefit(s). Quotations may exceed minimum requirements of the solicitation. The Government reserves the right to select a quotation that provides benefit to the Government that exceeds the minimum requirements of the solicitation but is not required

to do so. Offers must meet the minimum requirements of the solicitation to be determined technically compliant.

Please read each section below carefully for information on evaluation. Offers missing the requested information listed in the Addendum to FAR 52.212-1, Instructions to Offerors, may be considered technically non-compliant. If the quote is found to be technically non-compliant, it may be removed from the evaluation process and no further evaluation will be completed.

Factor 1 -Technical Capability

Technical Capability:

The Government will evaluate the technical capability of each offer in accordance with the requirements of the solicitation/Statement of Work (SOW) to determine whether the quote demonstrates that the quoter can satisfactorily meet the Government's requirements as outlined in the solicitation. After comparing quotes to the standard of the SOW, quotes will be compared to each other for relative merit in their approach and overall quality.

If the Technical Capability Volume of the offered quote is found to be not technically capable, no further evaluation will be completed for that offeror.

Factor 2 – Past Performance

Past Performance

Past Performance evaluation results will be formulated using reviews of CPARS and historical performance. Relative risks associated with the offeror's likelihood of success in performing the solicitation's requirements as indicated by that offeror's record of past performance, will be evaluated.

Assessment of the offeror's past performance will be one means of evaluating the credibility of the offeror's quote, and relative capability to meet performance requirements.

Information utilized will be obtained from the references listed in the quote, other customers known to the Government, others who may have useful and relevant information, and any other source the Government determines to be relevant. The information obtained will be used for both past performance and contractor responsibility determination.

In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available, the offeror will not be evaluated favorably or unfavorably on past performance. This type of offeror will be considered neutral.

Once evaluated, past performance of all vendors will be compared to one another.

Factor 3 – Price

Price:

Price evaluation will be based on the extended price of all line items added together to determine a total price. After total price is evaluated for reasonableness and compared to other offerors prices, the overall comparison of the technical volume and past performance will be

considered. If the price of the higher rated quote is higher, the Government will determine if the additional value of the higher rated quotes is worth the level of premium imposed by the higher price.

The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. The Government is not obligated to determine a competitive range; conduct discussions with all contractors; solicit final revised quotes; or use other techniques associated with FAR Part 15. The contracting techniques associated with FAR Part 15 are not mandatory.

By submission of its offer, the Offeror accedes to all solicitation requirements, including terms and conditions, representations and certifications, and technical requirements, in addition to those identified as evaluation factors or sub-factors.
