(a)

(1) The Offeror certifies, to the best of its knowledge and belief, that-

(i) The Offeror and/or any of its Principals-

(A) Are [] are not [] presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have [] have not [], within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation);

(C) Are [] are not [] presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision; and

(D) Have [], have not [], within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a) (2) for which the liability remains unsatisfied. Federal taxes are considered delinquent if both of the following criteria apply:

(1) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if a pending administrative or judicial challenge remains. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(2) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) The Offeror has [] has not [], within a 3-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) "Principal," for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the Government will consider the certification in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) This provision does not require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a). The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If the Government later determines that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)

(g) A taxpayer may, for a fee, seek advice from the IRS as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions>.

Evaluation Factors for Award

Addendum to 52.212-2

Basis for Award: Best Value Trade-Off

Offers will be evaluated starting with the five(5) lowest priced offers conforming to the solicitation requirements. If one of those offers is determined not technically acceptable, the next highest offer will be included in the evaluation. The Government intends to award a contract to the responsible offeror whose submission is determined to represent the best value to the Government. The award decision will be based on a comparative evaluation between non-price factors (Technical and Past Performance) and Price. The non-price factors, when combined, are significantly more important than Price. The Government reserves the right to award to a higher-priced offeror if it is determined that the technical superiority of that offer outweighs the price differential and/or the offeror's past performance evaluation indicates a higher likelihood of success with this project.

Evaluation Factors for Award

Proposals will be evaluated on the following three factors:

1. Factor 1: Technical
2. Factor 2: Past Performance
3. Factor 3: Price

Factor 1: Technical

The technical factor evaluates the offeror's proposed approach to meeting the Government's requirements as outlined in the Statement of Objective (SOO). The proposal must include a detailed Statement of Work(SOW) that addresses, at a minimum, the items listed in Section 6.0 of the SOO. The evaluation will assess the degree to which the proposed solution demonstrates a thorough understanding of the requirements and presents a feasible, high-quality approach to delivering the required network performance, capacity, security, and ongoing management.

Factor 2: Past Performance

This factor evaluates the offeror's probability of successfully meeting the solicitation requirements based on their recent and relevant contract history. The Government will assess the quality, timeliness, and management of past projects.

- Recency: To be considered, past performance information must be for services performed within the last five (5) years from the issuance date of this solicitation.
- Relevance: The Government will consider the similarity of past projects to the current requirement in terms of size (number of users/locations), scope (turnkey Wi-Fi service, network management, customer support), and complexity (adherence to security and performance standards).
- Sources: Information will be sourced from the Contractor Performance Assessment Reporting System (CPARS), information provided by the offeror, and other sources available to the Government.
- An offeror without a record of recent/relevant past performance, or for whom information is not available, will be evaluated neither favorably nor unfavorably.

Factor 3: Price

The Government will evaluate the offeror's proposed price for reasonableness and completeness. The evaluation will be based on the total evaluated price for the base period and all option periods. The total price must encompass all aspects of the requirement, including equipment, installation, maintenance, internet service costs, and any other associated expenses. IAW RFO 12.203, prompt payment discounts will not be considered in the price evaluation.

Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation 2026-O0038)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

=====

Technical

Past Performance

Price

(b) *Options (if applicable)*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
