

**JUSTIFICATION AND APPROVAL FOR OTHER THAN FULL AND OPEN COMPETITION
for SIMPLIFIED ACQUISITIONS OVER \$15,000 (\$2,000/\$2500 for Construction/Services AND
UP TO \$350,000
(See FAR 13.106-1)**

Date: 04/15/2026

PR Number: 0044042292

1. Nature and/or description of the item/service being procured and its intended use (include the anticipated cost):

This justification covers additional out-of-scope repairs to a Lake Mead National Recreation Area (LAKE) fire boat that was undergoing restoration for fire-related damage sustained while fighting a fire. During the contractor's inspection and disassembly at Lake Assault Boats' service facility in Portsmouth, VA, significant hidden deficiencies were discovered that were not visible during the development of the original statement of work.

Repairs include:

- Extensive electrical system failure caused by melted insulation, undersized conductors, missing overload protection, compromised conduit runs, and systemwide shorting. Full removal and ABYC-compliant rewiring is required.
- Engine space not sufficient for proper usage. Extensive electrical system failure caused by melted insulation, undersized conductors, missing overload protection, compromised conduit runs, and systemwide shorting. Full removal and ABYC-compliant rewiring is required.
- Replacement of the onboard Westerbeke 5.0 MCB generator due to water ingestion.
- Installation of a Fireboy-Xintex fixed fire suppression system for the mechanical space for safety of crew and equipment.
- Replacement of damaged/obsolete electronics including radar, MFDs, sonar, navigation sensors, and FLIR thermal camera.
- Hull oxidation restoration, replacement of damaged striping/graphics.
- Replacement of UV-damaged steering and fuel lines.

The contractor proposed \$183,009.50 for the additional recommended work.

2. Sole Source Justification rationale (Check one and explain below):

☐ **Only one responsible source.**

☐ **Urgent and compelling circumstances exist.** Include critical delivery or performance dates, and when you became aware of the requirement. Provide a specific statement of the impact on Government operations, financial or otherwise, if the required delivery or performance dates are not met.

☒ **Other** Explain: Lake Assault Boats is the contractor currently performing the original repair work and is in possession of the boat in a fully disassembled state at their facility. The newly discovered deficiencies are directly related to the systems already opened, tested, or removed by Lake Assault Boats during the original repair effort.

Awarding this work to another vendor is not feasible because:

- Transporting the disassembled vessel would result in significant cost, delay, and risk of damage.
- A new vendor would be required to repeat diagnostics, teardown, and analysis already completed.

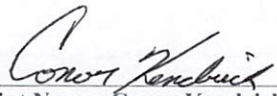

Last updated 6/2/2016

**JUSTIFICATION AND APPROVAL FOR OTHER THAN FULL AND OPEN COMPETITION
for SIMPLIFIED ACQUISITIONS OVER \$15,000 (\$2,000/\$2500 for Construction/Services AND
UP TO \$350,000
(See FAR 13.106-1)**

- Mixed-vendor work on electrical, mechanical, hull, and safety systems would create integration and warranty risks.
- Vessel downtime would increase, negatively impacting NPS emergency response capabilities at Lake Mead.

Given the safety-critical nature of the findings, the need for continuity of technical work, and the impracticality of a competitive process, Lake Assault Boats is the only responsible source capable of completing the repairs.

- 3. Market Research.** Please explain the results or why one was not performed. State whether any other offers were received or anyone expressed interest:
Market research was not performed because the contractor already has the vessel disassembled and has unique access and technical insight into the damage. Competing the requirement would require reassembly, transport, and duplication of labor by another vendor. No other vendors have expressed interest or can reasonably access the vessel in its current condition.
Proceeding with Lake Assault Boats as the sole responsible source is determined to be in the Government's best interest.
- 4. If this is a determination for sole source, the contracting officer certifies:**
- a. Only one source is available, or urgent and compelling circumstances exist.
 - b. The anticipated price will be determined fair and reasonable using the price analysis techniques described in FAR Part 13.106-3(a).
