

Industry Day

*Environmental and Social
(E&S) Support Services IDIQ*

Agenda

- Introduction
- Strategic Mandate
- SOW Requirements (Pre-Award, Post-Award, and Other Tasks)
- Case Study Examples
- Organizational Conflict of Interest
- Contract Structure and Administration
- Evaluation Highlights
- Timeline and Next Steps
- Questions

DFC Office of Development Policy (ODP) – Environmental & Social Support Services

This Industry Day is for informational purposes only. Oral statements made during this session do not amend the solicitation and are not binding. The solicitation, attachments, and any written amendments or question-and-answer responses issued by OA will govern. All questions should be submitted through the official process identified in the solicitation.

The Strategic Mandate (The "Why")

Implementing the 2024 Environmental and Social Policy and Procedures (ESPP).

Alignment with IFC Performance Standards (2012) and World Bank EHS Guidelines.

Need for flexible, on-demand specialized expertise to complement internal ODP staff.

Depending on the Task Order, support may require application of DFC's ESPP, IFC Performance Standards and Guidance Notes, World Bank Environmental, Health, and Safety Guidelines, World Bank sector-specific standards, Good International Industry Practice, host-country legal requirements, international obligations applicable to the project, ILO Fundamental Conventions, and DFC Finance Agreement requirements where applicable.

Scope of Services (SOW Overview)

Category 1: Comprehensive E&S support — screening, due diligence, and monitoring.

Category 2: Client support — review of E&S documents prepared by clients or third parties and technical feedback to support alignment with applicable standards.

Category 3: Thematic subject matter expertise — e.g., biodiversity, resettlement, Indigenous Peoples, labor and supply chain, stakeholder engagement, hazard studies, GBVH, and related technical issues.

Category 4: Sector subject matter expertise — e.g., mining/critical minerals, oil and gas, telecommunications, nuclear, infrastructure, pharmaceuticals/healthcare, chemical manufacturing, and agriculture.

Category 5: Training and SOP development — guidance materials, templates, SOPs, and internal training sessions on E&S topics and procedures.

Case Study Examples – What We Expect

Example A: Biodiversity baseline assessments for a hydro-electric project in Latin America.

Example B: Assessing Gender-Based Violence (GBV) risks in large-scale infrastructure construction.

Example C: Quantitative Risk Assessments (QRAs) for chemical manufacturing facilities.

Representative deliverables may include:

- screening memos
- due diligence reports
- specialist studies
- clearance documents
- Financial Intermediaries reviews
- structured monitoring plans
- risk event response documentation
- site monitoring reports
- training materials

Deliverables will be assessed for thoroughness, timeliness, quality and clarity of finished products, and effective communication with DFC counterparts.

Critical Requirement: Organizational Conflict of Interest (OCI)

Strict "Firewall" requirements:

Conflict of interest restrictions apply. The SOW states that the contractor may not simultaneously perform work for DFC under this IDIQ while also working for the client on the same project. The contractor will also be required to sign confidentiality and non-disclosure agreements and protect non-public information.

Contract Structure & Administration

Vehicle: Single Award IDIQ.

Ceiling: \$2,000,000 annual maximum.

Task Order Types: Firm-Fixed-Price (FFP) for defined tasks; Labor Hour (LH) for complex, less defined field assessments.

Performance Period: Five year ordering period; Option years available for task orders.

Government oversight will be exercised by the CO and COR in accordance with the contract. This is a non-personal services contract; contractor personnel will perform under contractor management and may not perform inherently governmental functions.

Evaluation Highlights

- Award Decision: Awards will be made to the Offerors whose proposals are evaluated, by an integrated assessment of price/cost and non-price evaluation factors, to provide the best value to the Government.
- Factors: Price, Past Performance and Technical
- Price:
 - Fair and Reasonableness
 - Unbalanced
- Past Performance:
 - Scope, relevance, and recency (last 5 years)
 - Government reserves the right to obtain information using information sources not provided by offeror

Evaluation Highlights Continued

- Technical:

- 1. Technical Approach and Understanding**

- Understanding of DFC Environmental and Social Policy and Procedures (ESPP) and IFC Performance Standards
 - Methodology for screening, due diligence, monitoring, and gap analysis
 - Task order management and surge capacity to support multiple projects

- 2. Relevant Corporate Experience**

- Experience supporting DFIs and/or MDBs
 - Sector experience relevant to DFC portfolio (energy, critical minerals, infrastructure, FI, agriculture, telecoms, maritime, pharmaceutical)
 - Broad geographical experience across the countries DFC operates in

- 3. Key Personnel and Subject Matter Expertise**

- Senior E&S specialists with DFI due diligence and monitoring experience
 - Availability of thematic subject matter experts (biodiversity, resettlement, labor, Indigenous Peoples)
 - Staffing depth and flexibility for multiple task orders

- 4. Quality Assurance and Management**

Evaluation should assess internal quality control systems, peer review procedures, and ability to ensure consistent high-quality technical outputs.

- 5. Task Scenario for Proposal Evaluation**

The purpose of the Example Task is to assess the applicant's practical ability to analyze environmental and social risks and apply the IFC Performance Standards in a DFI investment context.

Timeline and Next Steps

Questions Due: May 5, 2026, 2 PM EDT

Proposals Due: May 21, 2026, 2 PM EDT

Anticipated Award: July 2026

All submittals and communications shall be submitted in writing to:

Melissa.Hergenrader@dfc.gov
Aaron.Mckellum@dfc.gov

Thank you for your interest in supporting DFC's mission.
