Evaluation Criteria:

Evaluation – Technical Capability. Award will be made using the Lowest Price Technically Acceptable (LPTA) source selection process. The Government will first evaluate the lowest-priced offeror's technical proposal to determine whether it demonstrates a clear understanding of and compliance with all requirements outlined in the Statement of Work (SOW). An evaluation rating of technically "Acceptable" or "Unacceptable" will be assigned upon completion of the technical quote's evaluation. If an offeror receives a technical rating of "Unacceptable", it will not be considered for award. If the lowest-priced offeror is rated "Unacceptable," the Government will evaluate the next lowest-priced offeror's technical proposal, continuing in order of price until an offeror is rated "Acceptable." Only offers rated "Acceptable" will be eligible for award.

Factor 1 - Technical Capability Ratings	
Rating	Definition
Acceptable	Quote meets or exceeds the solicitation requirements
Unacceptable	Quote does not meet all solicitation requirements

Evaluation – Price. The Government will evaluate the total price on SF-1449.

The USCG will evaluate the SF-1449 to determine whether the prices are fair and reasonable and adhere to the RFQ instructions. Evaluation of pricing will be based on the Total Evaluated Price (TEP). TEP is determined by the offeror's total quantity price of all CLINs; it is calculated by combining the total price for the base period CLINs inclusive of the option year CLINS (if applicable).

Notwithstanding the Contractor's responsibility for total management during the performance of the contract, the administration of the contract will require maximum coordination between the Government and the Contractor. The individuals listed below will be the Government points of contact during the performance period.
