Amendment 0002

Amendment 0002 is issued for the following reasons:

1. To revise the synopsis
2. To provide responses to pre-proposal inquiries.

Inquiries & Responses:

14) **Question:** Submission requirements (pg. 9) “Given the PIEE requirement, and the potential for delayed CAGE code assignment for newly formed JVs: May Offerors registered in SAM but awaiting CAGE code assignment request an alternative submission method, such as DoD SAFE, if PIEE access is not available by the SF-330 deadline?”

Response: Please see Synopsis Revision 03.

15) **Question:** Submission requirements (pg. 9) “Page 9 states that “SF-330 files are to be submitted via the PIEE Solicitation Module. Offerors forming new joint ventures to respond to this synopsis via PIEE will require CAGE code assignment by DLA. Due to recent federal reductions in DLA workforce, may Offerors who have registered in SAM, but not received their CAGE code in sufficient time to submit via PIEE, request a DoD SAFE link to submit their SF-330?”

Response: See response to Question 2.
