

Statement of Work

ELI Group Power Forum

The Executive Leadership Impact group is a proven, highly successful training platform utilized by NASA Kennedy Space Center (KSC) personnel over the past 10 years. The Power Forum program offers unique leadership perspectives from numerous, diverse, high-tech industries- local/state/federal government, private industry, non-profit, academic, utilities- to help leadership navigate the ever-changing business environment across diverse customer segments. The Program includes required one-on-one coaching and internal/external management feedback, as well as continuing development opportunities/sessions to enable no-cost, ongoing development and resources in dealing with evolving leadership demands. The course consists of four 2-day modules that start in August of 2026 and completes in April of 2027, designed for high engagement and memory retention, required long-term learning and networking. All of these attributes are necessary for the continuing development of high-potential LSP future leaders.
