Description: This is a combined synopsis/solicitation for commercial products or commercial services prepared in accordance with the format in the Federal Acquisition Regulations (FAR) part 12 – Acquisition of Commercial Products and Commercial Services. This announcement constitutes the only solicitation; quotes are being requested, and a separate written solicitation will not be issued.

This solicitation is being issued as a Request for Quote (RFQ) under solicitation SPRMM1-26-R-RA55.

This solicitation is being solicited as other than full and open competition for this Multimeter NSN 6625 013363372. The Product Service Code (PSC) for this acquisition is 6625 and the North American Industry Classification System (NAICS) code is 334514 (Totalizing Fluid Meter and Counting Device Manufacturing) with a size standard of 850 employees. This acquisition is not set-aside for small business concerns. This solicitation incorporates provisions and clauses by reference. The full text of provisions and clauses may be accessed electronically at www.acquisition.gov.

This notice incorporates the provisions and clauses in effect under:

REGULATION	IDENTIFICATION	ISSUE DATE	UPDATE
Federal Acquisition Circular (FAC)	2025-06	01 October 2025	Federal Register
Defense Federal Acquisition Regulation Supplement (DFARS) Publication Notice (DPN)	20251110	10 November 2025	Publication Notices
Defense Logistics Acquisition Directive (DLAD) Current to Revision 5 through Procurement Letter (PROCLTR)	2026-03	01 December 2025	DLAD

The complete text of any of the clauses and provisions are available electronically from the following sites:

FAR - <https://www.acquisition.gov/far-overhaul>

DFARS - https://www.acq.osd.mil/dpap/dars/dfars_far_overhaul_class_deviations.html

DLAD - <https://www.dla.mil/HQ/Acquisition/Policy-and-Directives/>

The purpose of this combined synopsis/ solicitation is to establish an indefinite-delivery type contract for the supplies listed in Section B, that will provide stock coverage for customers both overseas and in the United States, including Alaska and Hawaii, and our possessions. This announcement constitutes the only solicitation; quotations are being requested and a written solicitation will not be issued. This is a Request for Quotation (RFQ) and the solicitation number is SPRMM1-26-R-RA55.

This Request for Quote (RFQ) is being issued to establish a Firm-Fixed Priced (FFP), Indefinite-Quantity Contract, with a 3-year base period and 2 one-year option periods. The total contract period will be five years. The terms “year” or “contract year,” as used in this solicitation, mean a period of 365 days beginning on the contract start date and every 365 days thereafter, except for a leap year, in which the contract year shall be 366 days.

The method used to place orders under this contract will be: Delivery Orders placed by DLA Weapons Support at Mechanicsburg (DLA-Mech). DLA-Mech will issue delivery orders with the awardee for the supplies cited in Section B. This contract is not obligating any funds. Funding will be provided on each delivery order placed under the contract.

The proposals received in response to this solicitation will be evaluated under Lowest Price Technically Acceptable “LPTA” procedures as described in Section M of this solicitation.

Please note that contractors shall complete all contractor required fill-ins and submit the pricing spreadsheet along with all pages of the solicitation to sean.mcdonnell@dla.mil, regardless of the number of CLINs that are proposed on. These sections are pertinent to understanding the requirements of the solicitation.

Some clauses/provisions may not appear in the correct section (D-M) due to system constraints.

NOTE TO POTENTIAL OFFERORS: Due to repetitive demands, the Government may place multiple awards. Offers should be aware that the only guarantee upon award is for the contract minimum split equally among awardees.

Pursuant to FAR 16.504 (c)(1)(ii)(C), a single award will be made for the planned IDIQ because: Only one contractor is capable of providing performance at the level of quality required because the supplies and services are unique or highly specialized. Fluke Electronics Corp. is the Sole Source, Original Equipment Manufacturer (OEM) of the items and multiple awards would not be in the best interest of the Government.

CONTRACT MINIMUM VALUE – Qty 1 each
CONTRACT MAXIMUM VALUE - \$3,600,000.00

E03 PRODUCTION LOT TESTING - CONTRACTOR (MAY 2020)

(1) The purpose of production lot testing (PLT) is to validate quality conformance of products. The contractor shall complete PLT on the production lot(s) after first article approval, if the contract requires first article testing. The contractor shall price the PLT CLIN to cover the cost of the final test report and any approved samples that are consumed, destroyed, or otherwise rendered unusable during testing. The unit of issue for the PLT CLIN, EACH, is equal to one Production Lot Test (1EA=1PLT).

(2) For purposes of facilitating PLT, the engineering support activity and/or testing facility has authority to communicate and discuss clarifications directly with contractors. If the Government and/or the

contractor identify changes to contract requirements, the contractor shall contact the post award contracting officer or contract administrator (see the "Issued By" blocks on the contract award or order) for written approval. The contractor shall not act on any revisions or other changes until the contracting officer issues a written modification approving the proposed revision(s)/change(s).

(3) The contractor shall provide and maintain an inspection system acceptable to the Government in accordance with FAR Clause 52.246-2 or 52.246-3, and maintain and make available all records evidencing those details if requested by the Government. At least fourteen (14) calendar days (or as otherwise specified in the contract) prior to conducting the production lot test, the contractor shall provide written notice of the time and location of the test to the contracting officer and the cognizant DCMA functional specialist when full Government may witness sample selection and the test. (4) Unless otherwise stated, the contractor shall select (contracting officer shall insert number of samples identified in material master) samples at random from the production lot(s) produced. If the quantity stated in the previous sentence equals "ZZ," the contractor shall use the appropriate sample size identified in the technical data package or applicable sample plan provided by the Government. If the contractor cannot determine the sample quantity, the contractor shall obtain written confirmation of the sample size from the contracting officer. (5) The contractor shall perform all tests on the PLT samples needed to verify/validate the items meet the contract technical/quality requirements.

(6) If a PLT sample fails, the entire production lot from which the contractor took the sample fails. The contractor shall notify the contracting officer and propose corrective action, if appropriate.

(7) The contractor shall prepare and disseminate the PLT report and applicable traceability documentation as follows: (a) Prepare the test report in accordance with data item description DI-NDTI-80809B, and mark the test report, "Production Lot Test Report, Contract Number (contractor insert) and Lot/Item Number (contractor insert)." (b) Present the PLT report to the contracting officer for review. (c) Include the following documentation with all shipments of PLT Reports: (i) DD Form 1222 and system of record receiving report (i.e., WAWF or DD Form 250); (ii) Copy of the contract/order;

(iii) Copy of all applicable test reports, showing actual results and tolerances specified in the technical data package; (iv) Material and process certifications; (v) Process operations and inspection method sheets; (vi) Copies of drawings used to manufacture the PLT sample, with proper marking to restrict public disclosure (if desired) and from Government use other than for evaluation to the extent consistent with the Government's data rights under the contract; and (vii) Documents required under a contract deliverables requirements list, if applicable. (d) Submit all required documentation to the Government activity specified in the contract in time to allow for at least (contracting officer shall insert number of days as shown in material master) calendar days for review of the PLT report, and for the contracting officer to provide written notification approval/disapproval to the contractor. (i) For awards issued by DLA Troop Support Construction and Equipment (SPE8E), email all required documentation to Construction and Equipment PLT Monitor at trpsptcandeppltmonitor@dla.mil. If documentation files exceed email limitations, submit to the following address: DLA Troop Support, Attention: Production Lot Testing Monitor, Building 3, 700 Robbins Avenue, Philadelphia, Pennsylvania 19111.

(e) For PLT, the Government will conduct inspection at source and acceptance at destination. The FOB point is destination. (f) Delivery. (i) Ship test report to (contracting officer insert address of the Government activity to receive the report). (ii) Delivery Schedule Information:

(A) _____ Total Delivery Days for FAT (If Applicable)

(B) _____ Days: Completion of Production Units (to include PLT samples), PLT, and Submission of PLT Report

(C) _____ Days: Government PLT Report Evaluation and Notification to Contractor

(D) _____ Days: Delivery of final production quantity to Government

(E) _____ Total Delivery Days (Sum of paragraph (ii)(A) through (D) above)

E04 PRODUCTION LOT TESTING - GOVERNMENT (MAY 2020)

(1) The purpose of production lot testing (PLT) is to validate quality conformance of products. The Government

conducts PLT on the production lot(s) after first article approval, when a first article is required. The contractor shall price the PLT CLIN to cover the cost of any approved samples that are consumed, destroyed, or otherwise rendered unusable during testing. The unit of issue for the PLT CLIN, EACH, is equal to one Production Lot Test (1EA=1PLT). (2) For purposes of facilitating PLT, the engineering support activity and/or testing facility has authority to communicate and conduct clarifications directly with contractors. If this results in necessary changes to contract requirements, the contractor shall contact the post award contracting officer or contract administrator (see the "Issued By" blocks on the contract award or order) for written approval. The contractor shall not act on any revisions or other changes until the contracting officer issues a written modification approving the proposed revision(s)/change(s). (3) The contractor shall provide and maintain an inspection system acceptable to the Government in accordance with FAR Clause 52.246-2 or 52.246-3, and maintain and make available all records evidencing those details if requested by the Government. At least fourteen (14) calendar days (or as otherwise specified in the contract) prior to the date when the contractor will present the production lot for selection of PLT samples, the contractor shall provide written notice to the contracting officer (and the cognizant DCMA functional specialist when full administration or quality support administration is delegated to DCMA). (4) Unless otherwise stated, the contractor shall select (contracting officer shall insert the number of samples identified in the material master) samples, at random from the production lot(s) produced. If the quantity stated in the previous sentence equals "ZZ," the contractor shall use the appropriate sample size identified in the technical data package or applicable sample plan provided by the Government. If the contractor cannot determine the sample quantity, the contractor shall obtain written confirmation of the sample size from the contracting officer. (5) If a PLT sample fails, the entire production lot from which the contractor took the sample fails. The contractor shall propose corrective action, if appropriate. (6) The Government will return PLT samples to the contractor, with a copy of the test report, at contractor expense. (7) The contractor shall prepare and disseminate the samples as follows: (a) Ship the selected PLT samples by traceable means. (Mark the shipment "Production Lot Samples - Do Not Post To Stock," Contract Number (contractor insert) and Lot/Item Number (contractor insert)". Place a copy of the system record receiving report (i.e., WAWF or DD Form 250) on the exterior of the shipping container in accordance with DFARS Appendix F. Mark the exterior of the shipping container in accordance with MIL-STD-129 (latest revision), paragraph 5.11. (b) Include the following interior documentation: (i) DD Form 1222 and system of record receiving report (i.e., WAWF or DD Form 250); (ii) Copy of contract/order; (iii) Copy of test reports, showing actual results and tolerances specified in the technical data package; (iv) Material and process certifications; (v) Process operations and inspection method sheets; (vi) Copies of drawings used to manufacture the PLT sample (proper marking to assert proprietary or other rights to restrict public disclosure is the contractor's responsibility); (vii) Documents required under contract deliverables requirements list; and (viii) A prepaid shipping label or document with the information required to return the PLT samples to the contractor at no cost to the Government. (5) At the time of shipment, the contractor shall sign and provide copies of the DD Form 1222, system of record receiving report (i.e., WAWF or DD Form 250), transportation tracking information, and information for return of the PLT samples to the contracting officer. The Government testing time will be (contracting officer insert number of days for test, as shown in the material master calendar days for the test results to be provided to the contractor. (6) For PLT, the Government will conduct inspection at source and acceptance at destination. The FOB point is destination. (7) Delivery. (a) Ship samples to (contracting officer insert address of the Government activity to receive the samples). (b) Delivery Schedule Information: (i) ___ Total Delivery Days for FAT (If Applicable) (ii) ___ Days: Completion of Production Units (to include PLT samples), and Submission of samples for Government Testing (iii) ___ Days: Government PLT Report Evaluation and Notification to Contractor

- (iv) ___ Days: Delivery of final production quantity to Government
(v) ___ Total Delivery Days (Sum of paragraph (i) through (iv))

DFARS 252.232-7006 Wide Area WorkFlow Payment Instructions (JAN 2023)

(a) *Definitions*. As used in this clause—

Department of Defense Activity Address Code (DoDAAC) is a six position code that uniquely identifies a unit, activity, or organization.

Document type means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

Local processing office (LPO) is the office responsible for payment certification when payment certification is done external to the entitlement system.

Payment request and *receiving report* are defined in the clause at 252.232–7003, Electronic Submission of Payment Requests and Receiving Reports.

(b) *Electronic invoicing*. The WAWF system provides the method to electronically process vendor payment requests and receiving reports, as authorized by Defense Federal Acquisition Regulation System (DFARS) 252.232–7003, Electronic Submission of Payment Requests and Receiving Reports.

(c) *WAWF access*. To access WAWF, the Contractor shall—

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.sam.gov> and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this Web site.

(d) *WAWF training*. The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the “Web Based Training” link on the WAWF home page at <https://wawf.eb.mil/>.

(e) *WAWF methods of document submission*. Document submissions may be via Web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) *WAWF payment instructions*. The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:

(1) *Document type*. The Contractor shall submit payment requests using the following document type(s):

- (i) For cost-type line items, including labor-hour or time-and-materials, submit a cost voucher.
- (ii) For fixed price line items—
- (A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer. **INVOICE AND RECEIVING REPORT (COMBO)**
(Contracting Officer: Insert applicable invoice and receiving report document type(s) for fixed price line items that require shipment of a deliverable.) **INVOICE AND RECEIVING REPORT (COMBO)**
- (B) For services that do not require shipment of a deliverable, submit either the Invoice 2in1, which meets the requirements for the invoice and receiving report, or the applicable invoice and receiving report, as specified by the Contracting Officer.
(Contracting Officer: Insert either “Invoice 2in1” or the applicable invoice and receiving report document type(s) for fixed price line items for services.)
- (iii) For customary progress payments based on costs incurred, submit a progress payment request.
- (iv) For performance-based payments, submit a performance based payment request.
- (v) For commercial financing, submit a commercial financing request.
- (2) Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213–1 is included in the contract.
- [Note: The Contractor may use a WAWF “combo” document type to create some combinations of invoice and receiving report in one step.]
- (3) *Document routing.* The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

<i>Field Name in WAWF</i>	<i>Data to be entered in WAWF</i>

DLAD Procurement Note L06 Agency Protests (DEC 2016)

Interested parties may file an agency level protest with the contracting officer or may request an independent review by the chief of the contracting office (CCO). Independent review by the CCO is an alternative to consideration by the contracting officer and is not available as an appellate review of a contracting officer decision on a protest previously filed with the contracting officer. Absent a clear indication of the intent to file an agency level protest with the CCO for independent review, protests will be presumed to be protests to the contracting officer.

DLAD 5452.233-9001 Disputes – Agreement to Use Alternative Dispute Resolution (ADR) (JUN 2020)

(a) The parties agree to negotiate with each other to try to resolve any disputes that may arise. If unassisted negotiations are unsuccessful, the parties will use alternative dispute resolution (ADR) techniques to try to resolve the dispute. Litigation will only be considered as a last resort when ADR is unsuccessful or has been documented by the party rejecting ADR to be inappropriate for resolving the dispute.

(b) Before either party determines ADR inappropriate, that party must discuss the use of ADR with the other party. The documentation rejecting ADR must be signed by an official authorized to bind the contractor (see FAR 52.233-1), or, for the Agency, by the contracting officer, and approved at a level above the contracting officer after consultation with the ADR Specialist and legal counsel. Contractor personnel are also encouraged to include the ADR Specialist in their discussions with the contracting officer before determining ADR to be inappropriate.

(c) If you wish to opt out of this clause, check here []. Alternate wording may be negotiated with the contracting officer.

- (9) Offerors must complete Representations and Certifications within System for Award Management prior to submission or provide a completed copy with quote submission.

(End of Provision)

FAR 52.212-2 Evaluation – Commercial Products and Commercial Services (FEB 2026) Addenda To FAR 52.212-2:

- (a) The Government intends to award one (1) Purchase Order resulting from this solicitation to the responsive, responsible Offeror whose offer, conforming to this solicitation, will be the most advantageous to the Government, price and other factors considered using the Lowest Technically Acceptable Price process, with the lowest overall price for ALL CLINs. To be considered for award, a quote must be provided for all CLINS. Award will be made on all or none basis. Technical tradeoffs will not be made, and no additional credit will be given for exceeding acceptability.
The Government will evaluate the proposed estimated total price between offers that are determined to be technically acceptable. The Government intends to make an award based on the initial quote received; therefore, the initial quote should contain the Offeror's best terms from a price and technical standpoint. Offerors must be determined to be responsible according to the standards of FAR Part 9 to be eligible for award.
- (b) A written notice of award or acceptance of a quote, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the quote. Before the quotes specified expiration time, the Government may accept a quote unless a written notice of withdrawal is received before award.
- (c) Quotes shall be evaluated for acceptability or unacceptability only and shall not be rated. Any Offeror who has submitted a technically acceptable quote and who has been found to have an acceptable past performance WILL THEN have the quote evaluated for lowest price.
- (d) The award decision process is being conducted under FAR Part 12, wherein the Contracting Officer is permitted to engage in communications with individual contractors about their quotes without being subject to the policies and procedures of FAR Part 15, and without engaging in "discussions" or "negotiations" under FAR Part 15.
- (e) The Government reserves the right to make a final determination whether a quote is acceptable or unacceptable solely based on the information submitted and proceed without requesting additional information.
- (f) A major item and/or gross omission which precludes meeting solicitation objectives that cannot be corrected prior to or during communications without major revision or complete resubmission of the quote will cause a quote to be found technically unacceptable.
- (g) The following non-price factors shall be used to determine acceptability of a quote:
 - a. N/A

Price

The proposed lowest total price (the sum of the total amount for all CLINS) between offers that are determined to be technically acceptable will be the determining factor in the selection of a quote for award. Government will perform a price analysis to determine the reasonableness of proposed price in accordance with FAR 15.404-1(b). The Government will utilize a comparison of proposed prices received in response to the solicitation.

a. Award will be based on the overall lowest priced quote that meets or exceeds the acceptability standards for the non-cost factors.

b. Options: The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(End of Provision)

1.1 This contract/purchase order contains the requirements for manufacture and the contract quality requirements for the MULTIMETER .

2. APPLICABLE DOCUMENTS

2.1 Applicable Documents - The document(s) listed below form a part of this contract/purchase order including modifications or exclusions.

2.1.1 "Document References" listed below must be obtained by the Contractor. Ordering information is included as an attachment to this contract/purchase order.

3. REQUIREMENTS

3.1 Cage Code/Reference Number Items - The MULTIMETER furnished under this contract/purchase order shall be the design represented by Cage Code(s) reference number(s). Cage _____ ref. no.
 <4U744 _____ 77-4BN 89536 73-3>

3.2 Marking - This item shall be physically identified in accordance with <MIL-STD-129, REV R, 27 SEP 2019> .

3.3 Changes in Design, Material Servicing, or Part Number - Except for a Code 1 change, which shall be processed as provided in the code statement shown below, no substitution of items shall be made until the NAVICP-MECH Contracting Officer has notified and approval has been given by issuance of a written change order. When any change in design, material, servicing or part number is made to replace or substitute any item to be furnished on this contract/purchase order, the Contractor shall furnish, for the substituting/replacement item, a drawing and an explanation of the reason for the change, explaining the reason therefor. If finished detail drawings are not available, shop drawings in the form used by the manufacturer will be acceptable for Government evaluation. When notifying the Procurement Contracting Officer of the reasons for making substitutions, the type of change shall be indicated by code number in accordance with one of the following statements:

Code 1: PART NUMBER CHANGE ONLY - If the Manufacturer's Part Number indicated thereon has changed, but the parts are identical in all respects, supply the item and advise NAVICP-MECH immediately of the new part number.

Code 2: Assembly (or set or kit) not furnished - Used following detail parts.

Code 3: Part not furnished separately - Use assembly.

Code 4: Part redesigned - Old and new parts are completely interchangeable.

Code 5: Part redesigned - New part replaces old. Old part cannot replace new.

Code 6: Part redesigned - Parts not interchangeable.

3.4 Mercury Free - The material supplied under this contract/purchase order is intended for use on submarines/surface ships and therefore shall contain no metallic mercury and shall be free from mercury contamination. Mercury contamination of the material will be cause for rejection.

If the inclusion of metallic mercury is required as a functional part of the material furnished under this contract, the Contractor shall obtain written approval from the Procurement Contracting Officer before proceeding with manufacture. The contractor's request shall explain in detail the requirements for mercury, identify specifically the parts to contain mercury, and explain the method of protection against mercury escape. Such a request will be forwarded directly to the Procurement Contracting Officer with a copy to the applicable Government Inspector. Upon approval by the Contracting Officer, the vendor will provide a "Warning Plate" stating that metallic mercury is a functional part of the item and will include name and location of that part.

The use of mercury, mercury compounds, or mercury-bearing instruments and/or equipment in a manner which might cause contamination in the manufacture, assembly, or test of material on this contract is prohibited. The most probable causes of contamination are direct-connected manometers, mercury vacuum pumps, mercury seals, or the handling of mercury in the immediate vicinity. Mercury switches, mercury in glass thermometers, standard cells and other items containing mercury may be used if they are located so as not to constitute a contamination hazard.

If external contamination by metallic mercury occurs or is suspected, the following test may be used to determine whether contamination by metallic mercury exists or whether corrective cleaning measures have been effective. Enclose the equipment in a polyethylene bag or close-fitting airtight container for eight hours at room temperature (70 degrees F minimum). Sample the trapped air and if mercury vapor concentration is 0.01 mg/cu meter or more, the material is mercury contaminated insofar as the requirements of this contract are concerned.

These requirements shall be included in any subcontract or purchase order hereunder and the Contractor shall insure SubContractor compliance with these requirements.

Technical questions pertaining to these requirements shall be referred to the Procurement Contracting Officer

via the cognizant Administrative Contracting Officer. For background, the following information is provided:

Mercury is corrosive to gold, silver, nickel, stainless steels, aluminum and copper alloys. Stainless steels, nickel, and copper alloys are widely used in reactor plants and other submarine/surface ship systems. Accidental trapping of mercury in a component could cause serious damage to vital parts. Mercury is also toxic if inhaled, ingested, or absorbed through the skin. It is evident that grave consequences could result from small amounts of mercury vapor present in an unreplenished submarine/surface ship atmosphere.

4. QUALITY ASSURANCE

4.1 Responsibility for Inspection - Unless otherwise specified in the contract/purchase order, the Contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract/purchase order, the Contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 <Suppliers currently using and maintaining Inspection System Requirements to MIL-I-45208 are granted permission to utilize MIL-I-45208 if desired.>

4.2 Responsibility for Compliance - All items must meet all requirements of this contract/purchase order. The inspection set forth in this specification shall become a part of the Contractor's overall inspection system or quality program. The absence of any inspection requirements shall not relieve the Contractor of the responsibility of assuring that all products or supplies submitted to the Government for acceptance comply with all requirements of the contract/purchase order. Sampling in quality conformance does not authorize submission of known defective material, either indicated or actual, nor does it commit the Government to acceptance of defective material.

4.3 Records - Records of all inspection work by the Contractor shall be kept complete and available to the Government during the performance of contract/purchase order and for a period of 365 calendar days after final delivery of supplies.

4.4 Quality System Requirements - The supplier shall provide and maintain a quality system acceptable to the Government. The quality system requirements shall be in accordance with ISO 9001.

5. PACKAGING

5.1 Preservation, Packaging, Packing and Marking - Preservation, Packaging, Packing and Marking shall be in accordance with the Contract/Purchase Order Schedule and as specified below.

MIL-STD 2073 PACKAGING APPLIES AS FOUND ELSEWHERE IN THE SCHEDULE

6. NOTES

6.1 Ordering Information for Document References - The Department of Defense Single Stock Point (DODSSP), Website <http://www.dsp.dla.mil/>, provides product information for the Department Of Defense Index Of Specifications and Standards (DODISS) (i.e. Military/Federal Specifications and Standards), Data Item Descriptions (DIDs), and other DODSSP Products. Most Specifications can be obtained directly from <http://quicksearch.dla.mil/>

A. Availability of Cancelled Documents - The DODSSP offers cancelled documents that are required by private industry in fulfillment of contractual obligations in paper format. Documents can be requested by phoning the Subscription Services Desk.

B. Commercial Specifications, Standards, and Descriptions - These specifications, standards and descriptions are not available from Government sources. They may be obtained from the publishers of the applicable societies.

C. Ordnance Standards (OS), Weapons Specifications (WS), and NAVORD OSTD 600 Pages - These type publications may be obtained by submitting a request to:

Commander, Indian Head Division, Naval Surface Warfare Center
Code 8410P, 101 Strauss Avenue
Indian Head, MD 20640-5035

D. On post-award actions, requests for "Official Use Only" and "NOFORN" (Not Releasable To Foreign Nationals) documents must identify the Government Contract Number, and must be submitted via the cognizant Defense Contract Management Command (DCMC) for certification of need for the document. On pre-award actions such requests must be submitted to the PCO for certification of need for the document.

E. NOFORN Military Specifications and Standards (including Amendments, Change Notices and Supplements, but NOT interim Changes) to be ordered from:

Item 3. Enter subtitle of data item for further definition of data item (optional entry).

Item 4. Enter Data Item Description (DID) number, military specification number, or military standard number listed in DoD 5010.12-L (AMSDL), or one-time DID number, that defines data content and format requirements.

Item 5. Enter reference to tasking in contract that generates requirement for the data item (e.g., Statement of Work paragraph number).

Item 6. Enter technical office responsible for ensuring adequacy of the data item.

Item 7. Specify requirement for inspection/acceptance of the data item by the Government.

Item 8. Specify requirement for approval of a draft before preparation of the final data item.

Item 9. For technical data, specify requirement for contractor to mark the appropriate distribution statement on the data (ref. DoD 5230.24).

Item 10. Specify number of times data items are to be delivered.

Item 11. Specify as-of date of data item, when applicable.

Item 12. Specify when first submittal is required.

Item 13. Specify when subsequent submittals are required, when applicable.

Item 14. Enter addresses and number of draft/final copies to be delivered to each addressee. Explain reproducible copies in Item 16.

Item 15. Enter total number of draft/final copies to be delivered.

Item 16. Use for additional/clarifying information for Items 1 through 15. Examples are: Tailoring of documents cited in Item 4; Clarification of submittal dates in Items 12 and 13; Explanation of reproducible copies in Item 14; Desired medium for delivery of the data item.

FOR THE CONTRACTOR

Item 17. Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.

b. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

Item 18. For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirements to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.

FOR THE CONTRACTOR

Item 17. Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.

b. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

Item 18. For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. FOR THE CONTRACTOR

Item 17. Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.

b. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

Item 18. For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirements to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.
