 - A statement confirming the contractor can meet the delivery requirements of NLT 120 days ARO.
 - The letter shall state the company name, address, and a specific point of contact (POC).

-The contractor shall ensure that all information contained within the System for Award Management (SAM) is current and that registration has not expired.

By submission of a quotation, the contractor accedes to all RFQ requirements including terms, conditions, and representations.

6. Basis of Award/Evaluation Criteria:

Award will be made in accordance with RFO Part 12. A purchase order may be awarded to an offeror who is deemed responsible in accordance with the FAR, as supplemented, whose proposal conforms to the RFQ requirements (to include all stated terms, conditions, representations, certifications, and all other information required by the RFQ) and is judged to represent the technically acceptable proposal.

Evaluation Factors. The following factors will be used to evaluate the offer:

-Factor 1: Technical

The Government will determine technical acceptability as follows:

Technically Acceptable. Proposal meets all requirements of the RFQ and attachments, and the contractor can deliver the required BNO products on or before 90-120 days after receipt of order.

CUI

Technically Unacceptable. Proposal does not meet all requirements of the RFQ and attachments, and the contractor cannot deliver the required BNO products on or before 90-120 days after receipt of order.

-Factor 2: Price

The Government will evaluate Price to determine the completeness and reasonableness.

Completeness. The offeror's price and other supporting information will be evaluated to ensure continuity and traceability of prices to the proposed technical proposal and between initial proposals and any revisions thereto. The review will determine the adequacy of the offeror's proposal in addressing and fulfilling the RFQ requirements.

Reasonableness. The proposal will be reviewed to determine the reasonableness of price and the offeror's understanding of and ability to perform the requirement. The Government will determine the prices fair and reasonable through the use of one or more of the techniques at RFO 12.204(a).

The Government reserves the right to hold interchanges if, during the evaluation, it is determined to be in the best interest of the Government. Interchanges are fluid interaction(s) between the Contracting Officer (CO) and the contractor that may address any aspect of the quotation and may or may not be documented in real time. However, the Government reserves the right to conduct interchanges using Interchange Notices (IN). Contractor responses to INs will be considered in making the award selection decision. Interchanges may be conducted with one, some, or all contractors. The Government is not required to conduct interchanges with any or all contractors responding to this RFQ.
