

STATEMENT OF WORK

SECTION C – DESCRIPTION/SPECIFICATION/WORK STATEMENT

C.1 BACKGROUND

The Naval Surface Warfare Center, Dahlgren Division (NSWCDD) Electromagnetic and Sensor Systems Department (B) provides products and services for efforts related to Sensor Systems in support of the US Navy, US Marine Corp and the Missile Defense Agency. B Department provides Systems expertise across the entire acquisition lifecycle from concept exploration through sustainment of Navy and Marine Corps Systems. Contractor support is required for Operations support services such as configuration management, systems administration, program and financial analysis, information technology, technical writing, facilities operations, property management, procurement, and test support.

C.2 SCOPE

B Department has a requirement for technical and support services in the general Work Areas of: Information Technology, Program Financial Management, Technical Writing/Editing, Operations Support, Configuration Management, Program Analysis, Facilities Operations, Property Management, Procurement Support and electronics Technician Support. These services shall be provided in support of existing, near-term, and out-year projects, programs, technology developments, technology insertions, prototyping and technology demonstrations, fielding and sustainment, and related acquisition efforts. The Contractor shall provide technical support services at NSWCDD, test facilities, Contractor facilities, and in the field.

C.2.1 APPLICABLE DOCUMENTS

The following documents are applicable to this SOW. The most current versions of these documents are accessible through the internet or will be provided to the Contractor upon request.

Other Department of Defense Specifications/Standards/Other Applicable Documents may become applicable throughout the life of the Task Order and may be added to the Task Order via modification.

The Contractor shall ensure compliance with the most current versions of these documents throughout the life of the Task Order:

Number	Document Name
SAE AS5553	SAE Aerospace Standard 5553
NISPOM – 32 Code of Federal Regulation Part 117	National Industrial Security Program Operating Manual (NISPOM)
NSWCDDINST 5510.4B	NSWCDD Command Security Manual
SEAD-3	Security Executive Agent Directive 3 – Reporting Requirements for Personnel with Access to Classified Information or Who Hold a Sensitive Position
SEAD-3 Implementation Memo	Implementation of Security Executive Agent Directive 3, Reporting Requirements for Personnel with Access to Classified Information or Who Hold a Sensitive Position
DODI 5200.48	Controlled Unclassified Information
SECNAVINST 5210.8F	Department of Navy Records Management Program

Number	Document Name
NSWCDDINST 5100.1F	Occupational Safety and Health Program
NAVADMIN 216/15	Cyber Hygiene Authorization to use Personal Wearable Fitness Devices
NAVSEA S0420-AA-RAD-010 – REV 2A	Radiological Affairs Support Program (RASP) Manual
DODI 8510.01	Risk Management Framework for DOD Systems
CJCSI 6211.02D	Defense Information Systems Network (DISN) Responsibilities
DODM 1000.13	Department of Defense Identification (ID) Cards
NAVSEAINST 4200.19 (series)	Planning, Use and Control of Services Contracting
COMUSFLTFORCOM/COMPACFLT 6320.3B	Medical Screening for U.S. Government Civilian Employees, Contractor Employees, Guests and Visitors Prior to Embarking Fleet Units
DoDD 5000.01	The Defense Acquisition System Cyberspace Workforce Management
DoDM 8140.03	CYBERSPACE WORKFORCE QUALIFICATION AND MANAGEMENT PROGRAM
DoDI 5000.02	Operation of the Defense Acquisition System Cybersecurity
DoDI 8500.02	Cybersecurity
MIL-STD-3046	Configuration Management
MIL-STD-31000C	Technical Data Packages

C.3 REQUIREMENTS

The following paragraphs describe each of the support elements required in detail. During the performance of this Task Order, the Contractor shall respond to urgent requirements within 60 minutes of notification of the urgent requirement.

C.3.1 PROGRAM BUDGET PLAN DEVELOPMENT AND MONITORING

C.3.1.1 The Contractor shall perform program and financial analysis required to accomplish the technical objectives of Sensor System projects.

C.3.1.2 The Contractor shall assist in the maintenance of budgetary, financial, and scheduling status of the various Tasks and Task areas within Sensor System projects.

C.3.1.3 The Contractor shall provide financial and programmatic assistance for the development of budget planning estimates for Task Planning Sheets, cost estimates for Rough Order of Magnitude (ROMs), and impact statements due to reduced allocations.

C.3.1.4 The Contractor shall track expenditures and expenditure rates, identify variances, and provide cost projections.

C.3.1.5 The Contractor shall develop financial summaries, reports, and graphs for project reviews, presentations, and data calls to project Sponsors, project Leads, and the Department (CDRL A009, A00A, A00B).

C.3.1.6 The Contractor shall use the applicable DoD and NSWCDD Systems and Databases to report on, analyze, budget, forecast, track, and solve problems for the Government's financial accounts. (A00A)

C.3.1.7 The Contractor shall provide financial analysis support to the organizations' divisions, branches, program managers, group leaders, and Business Office in accordance with applicable Department processing timelines. The Contractor shall provide financial management and cost analysis of projects within the organization. The Contractor shall process incoming and outgoing funding for NSWCDD in accordance with applicable Department processing timelines. The Contractor shall recommend the allocation of financial resources. The Contractor shall provide funds status inputs to the Government. (A00A)

C.3.1.8 The Contractor shall generate, update, and maintain program, project, and budget estimates, tracking budget execution by appropriation and funding type, addressing budget issues, and providing data for budget data calls in accordance with applicable Department processing timelines. (A00A)

C.3.1.9 The Contractor shall use the Integrated Budget, Planning & Execution (IBPES) application to report on, analyze, budget, forecast, track, and solve problems for the Government's financial accounts. (A00A)

C.3.2 LABORATORY CONTROL

C.3.2.1 The Contractor shall perform all aspects of laboratory control and maintenance of designated Sensor System laboratories.

C.3.2.2 The Contractor shall follow all maintenance standards and procedures for all lab equipment.

C.3.2.3 The Contractor shall analyze repair practices and develop procedural instructions for use by others on methods and steps to repair equipment (CDRL A009, A00C).

C.3.2.4 The Contractor shall design and analyze circuits, determining design feasibility, evaluate equipment performance under varying environmental conditions, and collect performance data to achieve performance and cost objectives.

C.3.2.5 The Contractor shall enforce Government access and use policies and procedures for designated laboratories.

C.3.2.6 The Contractor shall run reports on up-to-date inventory of the equipment and instrumentation housed in the laboratory via an online database and assist individuals in locating equipment and parts upon request.

C.3.2.7 The Contractor shall perform periodic inventories no less than annually of classified materials.

C.3.2.8 The Contractor shall attend Laboratory meetings. The Contractor shall provide agendas, minutes, action items and their responses, and status of assigned items (CDRL A003, A009, A00A).

C.3.2.9 The Contractor shall assist with establishing and maintaining standard operating procedures for laboratory operations and instruct users of the laboratory on these procedures (CDRL A00C).

C.3.2.10 The Contractor shall maintain standards and procedures for use by others.

C.3.3 INFORMATION TECHNOLOGY (IT)

C.3.3.1 The Contractor shall develop, maintain, and enhance network systems supporting the Electromagnetic and Sensor Systems Department. Examples include workstations, servers, and printers.

C.3.3.2 The Contractor shall perform requirements analysis for existing/proposed network systems supporting the Electromagnetic and Sensor Systems Department to determine feasibility.

C.3.3.3 The Contractor shall prepare security access rules and system constraints for systems supporting the Electromagnetic and Sensor Systems Department.

C.3.3.4 The Contractor shall assist the Government to compile application specifications and recommendations for selected activities such as data management, configuration management, program management, and security (CDRL A009).

C.3.3.5 The Contractor shall install software applications.

C.3.3.6 The Contractor shall support Assessment & Authorization (A&A) activities by performing vulnerability scans and Security Technical Implementation Guidance (STIG) assessments and submitting those results and associated reports to the appropriate online repositories.

C.3.3.7 The Contractor shall comply with hardware and software system standards and procedures.

C.3.3.8 The Contractor shall develop, document, and test computer programs and system configurations to optimize the analysis of network data (CDRL A009, A00D, A00E).

C.3.3.9 The Contractor shall create build disk(s) that can be delivered to the fleet in order to update system software (CDRL A009).

C.3.3.10 The Contractor shall ensure the appropriate operational security posture is maintained for all information systems.

C.3.3.11 The Contractor shall participate in Electromagnetic and Sensor Systems Department's Configuration Control Board (CCB) processes.

C.3.3.12 The Contractor shall actively maintain a cloud-based storage array. Maintenance shall include configuring permissions, working with corporate on new storage needs for programs, and identifying future needs.

C.3.3.13 The Contractor shall operate and maintain cloud-based services to include Virtual Machines in Microsoft Azure, Amazon Web Services, or hybrid environments.

C.3.3.14 The Contractor shall respond to Incident and Request tickets from the command's OneStop portal and resolve issues within the associated Service Level Agreement (SLA) period for each.

C.3.4 TECHNICAL EDITING

C.3.4.1 The Contractor shall provide technical editing and associated word and graphics processing using Microsoft (MS) Office tools and MS Access database, MS Publisher, MS Project and Dynamic Object-Oriented Requirements System (DOORS) in the preparation of technical presentations, technical reports, technical notes, miscellaneous publications, and other document types (CDRL A009, A00A, A00C).

C.3.4.2 The Contractor shall compile project status reports from individual team inputs (CDRL A00B).

C.3.4.3 The Contractor shall collaborate with project engineers to generate specifications, abstracts, technical reports, whitepapers, and technical briefing materials in NSWCDD, Sponsor, Conference, or DoD required formats (CDRL A009, A00A).

C.3.4.4 The Contractor shall provide formal documentation of project meeting minutes and project decisions (CDRL A003).

C.3.4.5 The Contractor shall develop promotional materials and flyers for projects and the Division (CDRL A00A).

C.3.4.6 The Contractor shall provide conference planning to include attending meetings, preparing agendas, providing minutes, and tracking the status of action items (CDRL A003).

C.3.5 OPERATION SUPPORT

C.3.5.1 The Contractor shall coordinate shipboard installations of radar equipment.

C.3.5.2 The Contractor shall support activities requiring adherence to the Navy Modernization Process to include meeting major milestones required for successful Regional Maintenance and Modernization Coordination Office (RMMCO) check-in and check outs to support the installation, modification and removal of equipment that is installed aboard Navy Vessels and land Based Test Sites.

C.3.5.3 The Contractor shall coordinate with various RMMCO Offices located throughout the Navy including but not limited to Bahrain, Guam, Mid-Atlantic, Mid Pacific, Northeast, Northwest, Sasebo, Southeast, Southwest, and Yokosuka.

C.3.5.4 The Contractor shall maintain and update program calendars and schedules. Examples include planned test events, reviews, technical meetings, and computer program deliveries.

C.3.5.5 The Contractor shall coordinate the movement of materials to including preparation of documents to facilitate the shipment and receipt of materials and media to support system installs and removals at NSWCDD laboratories and test sites, at external test sites, and at field activities and operational units.

C.3.5.6 The Contractor shall assist in the preparation of documentation required to support the purchase of materials and equipment.

C.3.5.7 The Contractor shall maintain a space-by-space map of each test site, laboratory, and software factory laboratory clearly indicating the infrastructure and working capacity for each assigned to B Department.

C.3.5.8 The Contractor shall plan and coordinate laboratory and test site renovations to include furniture build-outs and project transitions.

C.3.5.9 The Contractor shall coordinate the installation or move of phone lines.

C.3.5.10 The Contractor shall schedule IT services, riggers, security, and furniture designer/installers for site renovations.

C.3.5.11 The Contractor shall track the progress of each renovation.

C.3.5.12 The Contractor shall coordinate and submit requests for necessary laboratory and test site maintenance for all spaces assigned to B Department (CDRL A009).

C.3.5.13 The Contractor shall assist in the monitoring and reporting on the condition of B40 test site and laboratory spaces and the safety thereof (CDRL A009).

C.3.5.14 The Contractor shall assist in the preparation of site specific safety plans for B40 test facilities including the Radar Integration Test Site and Building 994 (CDRL A009).

C.3.5.15 The Contractor shall comply with International Traffic in Arms Regulations (ITAR) and Export Administration Regulations (EAR).

C.3.6 TEST SUPPORT

C.3.6.1 The Contractor shall develop sensor system test procedures (CDRL A00D).

C.3.6.2 The Contractor shall develop and coordinate the overall test schedule with the test site and in alignment with program objectives.

C.3.6.3 The Contractor shall maintain a database of all problems identified according to the programs incident report recording guidelines.

C.3.6.4 The Contractor shall maintain a database of all Reliability, Availability, and Maintainability (RAM) information according to the programs recording guidelines.

C.3.6.5 The Contractor shall observe and support all test events at NSWCCD and remote test sites to include shipboard and land-based testing.

C.3.6.6 The Contractor shall draft test reports (CDRL A009).

C.3.7 PROGRAM ANALYSIS SUPPORT

C.3.7.1 The Contractor shall provide project management support to assigned technical efforts, recommend program plans, work areas, work breakdown structures, staffing plans, financial documentation, quality assurance plans and procedures, configuration management plans, point papers, status reports, situation reports, operations and user manuals, technical drawings/diagrams, training materials, meeting minutes, and written and electronic documentation that state planned, current and future operations. (A00A, A00C)

C.3.7.2 The Contractor shall coordinate Government inputs, generate and deliver program weekly reports, monthly reports, program review presentations, and program status updates and highlights. The Contractor shall generate, update and maintain project action items relative to Integrated Product Teams (IPTs) and Working Groups (WGs). The Contractor shall document meeting minutes assigned by the designated IPT and WG. (A00A, A00C)

C.3.7.3 The Contractor shall generate weekly status reports, update monthly reporting presentations in Project List & Technical Excellence Metrics (PTEM) Tool, and respond to administrative data calls. (CDRL A00A, A00B).

C.3.7.4 The Contractor shall attend meetings and generate attendee's lists, meeting minutes, and action items. The Contractor shall serve as the single point of collection for team information, questions, and action items

generated during meetings. The Contractor shall track meeting action items and maintain records reflecting both open and closed action items. The Contractor shall edit documentation during meetings. The Contractor shall contact open action item Point of Contacts (POCs) for status updates and document any updates prior to recurring meetings. (A00A, A00C, A003)

C.3.7.5 The Contractor shall coordinate meetings and schedule Classified Video TeleConferences (CVTC).

C.3.7.6 The Contractor shall produce and deliver agendas, minutes, action items, and/or reports in support of meetings and requests. The Contractor shall develop and deliver metric reporting on change board activity (CDRL A003, A00C, A009).

C.3.8 CONFIGURATION MANAGEMENT (CM)

C.3.8.1 The Contractor shall support the development of a CM program for each program. The Contractor shall coordinate with interfacing program CM and Systems of Systems (SoSs) organizations to manage SoSs issues associated with each of the CM key functions. The Contractor shall participate in Enterprise CM Integrated Product Team (IPT) to assist in developing and documenting processes to improve CM.

C.3.8.2 The Contractor shall implement continuous improvement initiatives to ensure effective execution of the CM program through assessments of Tasks, processes, procedures and utilization of tools. The Contractor shall participate in Government rapid improvement events and assist in identifying areas of improvement and documenting revised processes.

C.3.8.3 The Contractor shall generate and/or update for Government review, CM Plans and processes, updates to specifications and user documentation (e.g., Version Description Documents, Revision Description Documents), Charters, user's guides and Standard Operating Procedures (SOPs) that describe how CM is accomplished and demonstrate consistency between product definition, product configuration, and CM records. The Contractor shall review Program Management plans and technical documentation and provide CM assessments. The Contractor shall develop/modify CM Plans in support of the program plan and integrated master schedule (CDRL A009, A00C, A00E).

C.3.8.4 The Contractor shall provide support in establishing configuration identification nomenclature for hardware and software, including firmware, and interfaces. The Contractor shall track configuration items to the level necessary to fully support systems engineering, logistics, interface management, and planning functions. The Contractor shall compile system breakdown information and establish configurations for each baseline prior to initialization. The Contractor shall conduct analyses of all configuration items to verify and validate associated nomenclature and part numbers.

C.3.8.5 The Contractor shall establish and maintain an Integrated Master Schedule (IMS) for software and hardware baselines throughout the entire life cycle. The baseline will be initiated when the first notional configuration is identified and maintained for the life cycle of the configuration item. The baseline shall provide historical records of the evolution, as well as the current configuration; identify the change documents associated with each baseline; maintain data related to the applicability, approval status and impact of each change. Baseline definitions will be provided to managers as input to technical decisions and at key program milestones (CDRL A009, A00A).

C.3.8.6 The Contractor shall draft, review, and edit change proposals, work instructions, and Standard Operating Procedures (SOP) for Government review and finalization (CRDL A00C).

C.3.8.7 The Contractor shall perform a review of each change and analyze proposed changes for classification of change and impacts to identification/re-identification of affected hardware and software. This assessment

shall include accuracy of nomenclature, determination of impact to next higher assembly, an evaluation for interchangeability, identification of relationships, Configuration Item/Configuration Data Item (CI/CDI) impact, and provide an overall assessment of compliance with CM criteria.

C.3.8.8 The Contractor shall execute CM processes to support Configuration Control Boards (CCBs), and Local Configuration Control Board (LCCB) at the local, system, system of systems and enterprise level, including identification of change authority and integration of the change process with external processes. The Contractor shall document these processes as a Standard Operating Procedure for review and acceptance (CDRL A00C).

C.3.8.9 The Contractor shall provide CM support for System and Software Review Board (SRB), Change Review Board (CRB), Local Configuration Control Board (LCCB), Software Change Control Board (SCCB), Joint Problem Review Board (JPRB), Interface Control Working Group (ICWG) meetings, Technical Review Team (TRT)/Navy Review Team (NRT), Ship Test Configuration Review Board (STCRB), Combat System Working Group (CSWG) Board, other working groups, review boards, and change boards by distributing change packages, developing and distributing agendas, minutes and action items, and preparing final packages for Chairman's signature (CDRL A009, A003).

C.3.8.10 The Contractor shall utilize the CM database of the program. Examples include but are not limited to VIEWNet, CMPRO, Navy Data Environment (NDE), Project Forge, MS Project, SharePoint, Rational Team Concert, JIRA, Classified ACCESS and Classified VIEWNet.

C.3.8.11 The Contractor shall produce and deliver agendas, minutes, action items, and/or reports in support of meetings and requests. The Contractor shall develop and deliver metric reporting on change board activity (CDRL A003, A00C, A009).

C.3.8.12 The Contractor shall utilize Dynamic Object-Oriented Requirements System (DOORS) to research and export data into Microsoft Office Suite software to include Word and Excel.

C.3.9 FACILITIES OPERATIONS AND PROPERTY MANAGEMENT SUPPORT

C.3.9.1 The Contractor shall assist the Government Facilities Manager with facilities and infrastructure duties to include planning, Infrastructure Board planning and reporting, Facilities Tactical Group inspections and follow-through, Capital Improvement Program planning, and Basic Facilities Requirements (BFRs), and perform the duties of a Secondary Building Custodian.

C.3.9.2 The Contractor shall ensure proper operation of designated facility support equipment; maintain inventories for equipment, parts, supplies, containers, hardware items; and track hardware problems and change control activities and perform minor/emergency repairs as needed.

C.3.9.3 The Contractor shall monitor and report on non-explosive related safety compliance and deficiencies in the areas of Occupational Safety and Health (OSH) and Environmental Management in Research, Development, Testing & Evaluation (RDT&E) Labs and Range.

C.3.9.4 The Contractor shall process telecommunications requests for land lines, cell phones and air cards. The contractor shall process work requests and service tickets and track them to completion/resolution.

C.3.9.5 The Contractor shall schedule and prepare designated facilities for special events, demonstrations, inspections, and in-process reviews (IPRs).

C.3.9.6 The Contractor shall update applicable Government database(s) and produce reports to track the status of; Defense Reutilization and Marketing Office (DRMO), Operating Materials & Supplies (OM&S), Hazard Materials (HAZMAT), and other categories of Government property to include defined General Equipment (GE).

C.3.9.7 The Contractor shall deliver hardware and materials using Government-owned vehicles for delivery and transport purposes. All drivers must present proof of a valid state driver's license prior to operating a Government vehicle. A valid state driver's license shall be accepted as proper authority for operation of vehicles up to and including 10,000 pounds gross vehicle weight and carrying less than 15 passengers. Proof of liability insurance is required.

C.3.9.8 The Contractor shall provide Government certified forklift operators and Government certified crane operators per NSWCCDINST 11262.1B. The Government will provide the Contractor with the forklift and crane when required.

C.3.9.9 The contractor shall support government custodians in ensuring audit readiness and compliance in designated identified spaces. This includes, but is not limited to, the identification and removal of unserviceable or obsolete equipment for Defense Reutilization and Marketing Office (DRMO), the contractor shall assist in induction of Operating Materials and Supplies (OM&S) and associated paperwork to the Warfare Center Warehouse Operation, the contractor shall assist in the identification and notification of assets located which meet the general equipment (GE) criteria, but are found to be without an asset tag.

C.3.9.10 The contractor shall properly prepare for disposal and document all forms of media, to include, but not limited to CDs, Disk Drives, Zip Drives, Hard Drives, RAM sticks, and various forms of memory or circuit cards. The contractor shall ensure proper storage of this equipment until such time as it is destroyed.

C.3.9.11 The contractor shall maintain seating charts for B Department.

C.3.9.12 The contractor shall serve as the safety point of contract for B Department labs and be responsible for setup to meet requirements and provide monthly checks to ensure safety compliance.

C.3.10 REQUIREMENTS AND PROCUREMENT INPUT SUPPORT

C.3.10.1 The Contractor shall prepare procurement packages in accordance with NSWCCD Acquisition Best Practices, working with the Technical Requirements Holder and interfacing with the Technical Liaison Office in preparing procurement packages. The Contractor shall develop all documentation for Government review and submission.

C.3.10.2 The Contractor shall assist with market research by obtaining quotes and researching previous procurement history if needed.

C.3.10.3 The Contractor shall input data into the Government tracking system, initiate technical screenings, and obtain required approvals such as ITPR, Safety, etc.

C.3.10.4 The Contractor shall track requirement deliveries and provide logistical support for all materials delivered. The Contractor shall ensure the physical pickup and delivery for all material requirements. The Contractor shall receive and organize information of deliveries from these actions in accordance with applicable Department processing timelines. The Contractor shall populate and maintain acquisition database repositories to enable execution and tracking of actions throughout their respective life cycles.

C.4 Task Order Management

The Contractor shall provide sufficient supervision to ensure all personnel work instructions and schedules originate with the Contractor rather than with the Government technical office. This supervision shall ensure that the Contractor's personnel are not assigned work instructions and schedules outside this SOW. Any perceived conflicts with the SOW shall be directed to the Contracting Officer and Contracting Officer's Representative (COR).

C.4.1 Progress Report

The Contractor shall submit a Contracting Officer's Management Report. The Contractor shall maintain and provide a list of all personnel assigned to the Task Order. The Contractor shall provide copies of invoices received from Sub-contractors and consultants as well as evidence of its review to ensure that all invoiced costs represent services that have been performed and deliverable items. In accordance with G-232-H005 and FAR 52.216-7, Allowable Cost and Payment, the Contractor shall provide the COR supporting documentation, including receipts, for all travel and material purchases with each invoice submission. (CDRL A001)

C.4.2 In Progress Reviews (IPRs)

The Contractor shall host both formal and informal In Progress Reviews (IPRs) of work being performed. IPRs may be conducted at the overall Task Order level or for specific projects/work areas. Reviews will be scheduled by the Government. An initial formal IPR is planned within 90 days of the Task Order award date and will follow the agenda agreed to by the COR. Subsequent formal IPRs shall be held approximately every six (6) months thereafter unless waived by the Government. The IPRs shall be conducted at a location mutually agreed upon by the Contractor and the Government. At the time the review is scheduled, the Government will communicate the specific purpose of the review and advise the Contractor as to the desired content of the presentation. (CDRL A002)

C.4.3 Task Prioritization Meetings

C.4.3.1 The Contractor shall participate in periodic Task Prioritization Meetings with the COR and Subject Matter Experts (SMEs). The purpose of these meetings is to convey the Government's technical program schedules and priorities and to identify corresponding task priorities for this **Task Order**. The Contractor shall document meeting minutes of the meetings. (CDRL A003)

C.4.3.2 The Contractor shall hold informal monthly meetings with B Department to discuss ongoing and financial status for each program. (CDRL A004)

C.4.4 Telework

In accordance with H-216-H002 Level of Effort -- Alternate I (NAVSEA) teleworking at an alternative worksite is permitted. Telework is also dependent upon the type of work being performed. Telework is also dependent upon the type of work being performed. With concurrence from the Government SME and COR, teleworking at an approved alternative worksite is permitted for personnel who are performing tasks related to work classified below SECRET. Personnel performing work classified as SECRET or above are not eligible to telework. Work locations for telework must be conducive to performing the contracted work with reliable internet connectivity, adequate workspace free from distractions, and availability of necessary equipment (if not government-furnished).

Unless the Contracting Officer determines that alternative worksite arrangements are detrimental to contract performance, the Contractor may perform up to 30% of the hours at an alternative worksite, provided the Contractor has a company-approved alternative worksite plan. The primary worksite is the traditional “main office” worksite. An alternative worksite means an employee’s residence or a telecommuting center. A telecommuting center is a geographically convenient office setting as an alternative to an employee’s main office. The Government reserves the right to review the Contractor’s alternative worksite plan.

In the event performance becomes unacceptable, the Contractor will be prohibited from counting the hours performed at the alternative worksite in fulfilling the total level of effort obligations of the contract. Regardless of work location, all contract terms and conditions, including security requirements and labor laws, remain in effect. The Government shall not incur any additional cost nor provide additional equipment for contract performance as a result of the Contractor’s election to implement an alternative worksite plan.

C.5 SKILLS AND TRAINING

C.5.1 The Contractor shall provide capable personnel with qualifications, experience levels, security clearances, and necessary licenses, certifications, and training required by Federal, State, and Local laws and regulations. Information assurance functions require certifications specified in DOD Manual (DoDM) 8140.03 Cyberspace Workforce Qualification and Management Program.

C.5.2 Per the requirements set forth in DODM 8140.03 as a condition of meeting requirements, personnel performing Information Assurance (IA) functions outlined in the manual will be tracked for compliance, designated in writing from the Local Command Authority as Cyberspace Workforce (CWF), shall already be in possession of an approved commercial certification for their environment at time of performance start, and shall satisfy both preparatory and sustaining DOD IA training and certification requirements as outlined in DODM 8140.03. Additionally, personnel with Privileged Access must sign acknowledging duties on a "Privileged Access Agreement", be able to maintain the appropriate investigation type, sign a System Authorization Access Request-Navy (SAAR-N) with “privileged” indicated, complete applicable Operating System/Computer Environment (OS/CE) training to Navy’s standards, and maintain a valid commercial certification that meets outlined designations. Failure to maintain all requirements at the appropriate level may result in the removal of elevated access and removal from tasks being performed. Non-privileged Information Assurance Workforce (IAWF) members may be removed from tasks being performed. In both situations, access will be returned once the failure(s) are corrected.

C.5.3 Training necessary to ensure that personnel performing under this Task Order maintain the knowledge and skills to successfully perform the required functions is the responsibility of the Contractor. Training necessary to maintain professional certification is the responsibility of the Contractor. The Contractor shall provide training opportunities to maintain Contractor capabilities and/skills to coincide with changing technology environments. All costs for DODM 8140.03 certification shall be borne by the Contractor for new employees on this Task Order.

C.5.4 Training on non-commercial and department-specific tools and procedures will be provided by the Government.

C.5.5 Notwithstanding the above, it is understood that the Government may require services requiring knowledge and skills of a newly emergent technology. The Contracting Officer may, on a case-by-case basis, authorize the expenditure of Government funds for the training of Contractor personnel. Advance approval is required. The Contractor is encouraged to suggest a cost-sharing arrangement that addresses registration, tuition, travel, and labor costs.

C.5.6 The Contractor shall complete all mandatory training as prescribed by the Government. These training requirements are accessed through Government web-based training (WBT), classroom training, or combination of both.

C.5.7 Mandatory Training Completion Log - The Contractor shall submit a CWF report (CDRL A005). The CWF report shall address required CWF training including annual continuous learning training requirements. The Contractor shall also submit Mandatory Training Completion Log (CDRL A006). The Mandatory Training Completion Log shall address all mandatory training completed as directed by the COR.

C.6 OTHER DIRECT COSTS

During the performance of this Task Order the Contractor will have to travel and procure material and consumables to perform the tasking of the SOW.

C.6.1 Travel

The Contractor shall be required to travel in performance of this Task Order. The numbers of trips and types of personnel traveling shall be limited to the minimum required to accomplish work requirements and shall be requested of and authorized in advance by the COR by email. All requests shall show the appropriate Task Order number, the number of people traveling, the number of days for the trip, the reason for the travel, an estimated cost (with G&A separate), and any high cost or unusual costs expected. The Contractor is not authorized to perform any travel that is not in conjunction with this effort. All travel shall be conducted in accordance with Federal Acquisition Regulation (FAR) 31.205-46 Travel Costs. Locations will be determined by the Government and are subject to change.

Representative travel locations may include: Washington, DC; Moorestown, NJ; Norfolk, VA; Wallops Island, VA; San Diego, CA; Corona, CA; Pearl Harbor, HI; Everett, WA; Dam Neck, VA; Mayport, FL; Port Hueneme, CA; Fredericksburg, VA.

The Contractor shall submit trip reports following any travel under this effort. (CDRL A007)

In accordance with G-232-H005 and FAR 52.216-7, the Contractor shall provide the COR supporting documentation, including receipts for travel with each invoice submission.

C.6.2 Direct Charge of Materials

(a) During the performance of this Task Order it may be necessary for the Contractor to procure materials to respond to the mission requirements listed in the SOW. This Task Order is issued under a services contract and the procurement of materials of any kind that are not directly related to and necessary for performance may be determined to be unallowable costs pursuant to Class Deviation 2026-O0032 RFO Part 31. Any material provided by the Contractor is subject to the requirements of the FAR, DFARS, and the applicable Department of Navy regulations and instructions. Charges related to materials costs may include general and administrative (G&A) expenses but shall not include fee or profit.

(b) The materials listed in paragraph (e) below shall be the only ones approved for purchase under this Task Order. The numbers of, and types of, material purchases shall be limited to the minimum required to accomplish work requirements and shall be coordinated with the COR. Splitting purchase requirements to defeat purchasing thresholds shall not be approved. If the Contractor (or Sub-contractor) possesses a Defense Contract Management Agency (DCMA) approved purchasing system, individual item purchases greater than \$3,000 but less than \$10,000 shall be approved by the COR; individual item purchases equal to or over \$10,000 shall not be executed until the COR reviews the requested purchase and approval is obtained from the

Contracting Officer. If the Contractor does not possess an approved purchasing system, individual item purchases less than \$3,000 shall be approved by the COR. For purchase of materials equal to or over \$3,000 shall not be executed until the COR reviews the requested purchase and approval is obtained from the Contracting Officer. No purchases of any amount shall be executed by a Sub-contractor if they do not have a Defense Contract Audit Agency (DCAA) approved accounting system.

(c) Information Technology (IT) Resources shall not be purchased unless DOD and Navy purchasing procedures (including Information Technology Procurement Request (ITPR) approval) have been satisfied and approvals obtained. IT Resources include personal computers (PCs), laptops, printers, software, servers, hubs, routers, phones, fax machines, and any related maintenance, telecommunications, training, or other support services. All IT Resource Other Direct Cost (ODC) purchases require COR approval regardless of the dollar value associated with the purchase.

(d) The costs of general-purpose business expenses required for the conduct of normal business operations will not be considered allowable direct costs in the performance of the Task Order - unless supported by DCMA as a procedure of the Contractor's accounting procedures. General purpose business expenses include the costs for items such as telephones (including cell phones) and telephone charges, copy machines, word processing equipment, personal computers, and other office equipment and supplies.

(e) The materials and equipment contained in the following list are authorized for purchase once the Contractor has complied with approval requirements stated in paragraph (b) above and paragraph (f) below:

- Command and control modules
- Arbitrary waveform and frequency generator amplifiers
- Discrete and integrated circuits cards
- Electrical input signal and frequency analyzer
- Digital and analog oscillography
- Equipment for integration, validation and verification testing
- Solid-state and wired interface connectors and cables
- Discrete device component
- Aerial radio frequency systems
- Hardened cabinets, shelving, brackets and fasteners
- Waveguide conduits and associated components
- Mechanical and electrical tools and sets
- Regulated and unregulated electrical energy transmission systems
- Faraday cage insulated cables and connectors
- Scaled thermographic sensing devices
- Laboratory equipment for environmental monitoring and safety
- Material alloy constructs and assemblages
- Radio frequency components and horns

Materials not fitting the descriptions listed in this section may not be purchased unless mutually agreed to by both the Government and Contractor and subsequently added to the contract by **Task Order** modification.

(f) Procedure for obtaining COR and/or Contracting Officer approval, the Contractor shall submit a request for purchase of materials to the COR through email. The COR will review the request, if it is in accordance with paragraph (b) above and requires Contracting Officer approval, the COR will submit the request via the Contract Specialist to the Contracting Officer for review and approval. Minimum requirements for a written request for purchase are as follows:

- (1) Description of the material to be purchased;
- (2) Quantity;

- (3) Unit and total cost;
- (4) Delivery/freight charges;
- (5) Any associated service charges such as assembly, configuration, packing, etc.;
- (6) An explanation of the need for the material;
- (7) Copy of the competitive quotes received from potential suppliers;
- (8) The basis for the selection of the selected supplier;
- (9) Explanation of the determination of price reasonableness regarding the selected supplier costs;
- (10) If the procurement is sole sourced to a particular supplier or manufacturer, include the rationale for limiting the procurement to that supplier or manufacturer;
- (11) ITPR request date, and if granted, approval date and tracking number (if applicable);

Once the COR and/or Contracting Officer have reviewed the request, the Government will notify the Contractor of the outcome. Issues or details may be discussed with the Contract Specialist acting on behalf of the Contracting Officer until a final Government determination is made as to whether to approve, modify, or reject the purchase.

(g) The Contractor is required to possess and maintain an adequate property management system. The system must track all materials/ODCs associated with this Task Order. Upon completion of the Task Order Period of Performance, all material associated with this Task Order that were purchased by the Contractor and not depleted or previously delivered to the Government during the performance of this Task Order shall become the property of the Federal Government. The Contractor shall transfer all materials, not depleted or previously delivered to the Government, to the COR by way of a Material Inspection and Receiving Report (DD Form 250) in accordance with DFARS PGI 245.402-71.

C.6.3 Counterfeit Parts and Materiel

(a) The following minimum processes shall be implemented and flowed down by the Contractor to all Sub-contractors in order to minimize the risk of use of counterfeit parts.

(b) The Contractor shall establish processes to minimize the risk of procuring and using counterfeit parts and materiel. The Contractor shall document these processes and provide those documented processes to Government representatives upon request. The Contractor shall ensure that all requirements are flowed down to Sub-contractors and suppliers at all tiers.

(c) At a minimum, these processes shall ensure that:

- Materiel that is either in production or currently available shall be purchased from an original manufacturer, aftermarket manufacturer, or other authorized supplier.
- Materiel that is neither in production nor currently available may be purchased from suppliers, including unauthorized suppliers, that meet appropriate counterfeit avoidance criteria documented in industry anti-counterfeit standards. The Contractor shall notify the KO and COR when critical or high-risk materiel is procured from an unauthorized source. The Contractor shall provide this notification before materiel is installed so mitigation actions can be taken.
- The Contractor shall maximize the use of authentic, originally designed and/or qualified parts.
- The Contractor shall assess potential suppliers to minimize the risk of receiving counterfeit parts or materiel.
- The Contractor shall have purchasing procedures which confirm whether a selected supplier is authorized (as defined in SAE AS5553) for each purchase.
- The Contractor shall define minimum inspection and test requirements for parts being procured and shall ensure that in-house, third-party, and/or supplier inspection and test procedures and facilities comply with the requirements of this section. These minimum inspection and test requirements shall specify appropriate test methods to detect potential counterfeit parts and material.

- The Contractor shall require a certificate of conformance (as defined in SAE AS5553) and supply chain traceability for all electronic part purchases.
- The Contractor shall use government or industry services such as Government-Industry Data Exchange Program (GIDEP) and other commercially available services to identify part or supplier quality or authenticity problems.
- The Contractor shall maintain critical or high-risk materiel traceability that enables tracking through the supply chain to the original manufacturer if purchased from an authorized source or to the unauthorized source at a minimum if purchased from an unauthorized source.

(d) The Contractor shall immediately notify the COR of the occurrence of a suspect or confirmed counterfeit part or materiel. Contractor shall notify the COR of all actions taken to identify, contain, and impound all product from the lot, within 7 working days of confirmation of the counterfeit status. The Contractor shall initiate and submit an ALERT to GIDEP within 60 days of knowledge of the counterfeit part or materiel.

(e) Suspect counterfeit parts and materiel shall be impounded with all other items from the same lot. The Contractor shall identify and locate all potential users or hardware items with the suspect part or materiel and contain the product which has this suspect part or materiel, pending confirmation of the part or materiel's authenticity. The Original Equipment Manufacturer (OEM) may be involved at this point to verify authenticity. Confirmed counterfeit materiel shall be contained and provided to investigative agencies for ongoing investigation or prosecution. The counterfeit product shall not be scrapped or otherwise disposed of without approval from investigative authorities or the Contracting Officer. Confirmed counterfeit product shall be disposed of in a way which would not allow its resale or reuse.

(f) Counterfeit parts are defined in SAE AS5553. Counterfeit parts may be electronic or mechanical in nature. Counterfeit electronic parts may typically be used parts which have been refurbished and represented as new. Commonly counterfeited electronic parts include parts such as microcontrollers or specially screened devices, or common parts, which have several pin-compatible versions from multiple manufacturers, such as memory devices and operational amplifiers. Counterfeit mechanical parts are typically improperly made, marked, or treated products. Examples are improper anodization or heat treatments (or falsified data), mismarked parts sold as higher grade steel, or used/fake parts such as valves or circuit breakers.

C.6.4 CONTRACTOR ACQUIRED PROPERTY

- (a) Contractor Acquired Property (CAP) may be procured by the Contractor as tasking demands.
- (b) The Contractor shall provide the following to the COR prior to delivery: CLIN, Item Description, Type Designation, NSN, PIN, Quantity, Unit of Measure, Serial Number (UII), Original Unit Acquisition Cost, and the date placed in service by the Contractor.
- (c) All Contractor Acquired Property shall be delivered to Building 125, Central Receiving with a DD Form 1149. The DD Form 1149 shall include the following:
 - Dollar Value
 - Purchase Request Number
 - Item Description
 - Serial Number
 - Model Number
 - Quantity
 - Task Order Number
 - Technical Point of Contact
 - Assigned Unique Serialized Identification Number
 - All Delivered items for which the Government's unit acquisition cost is \$5,000.00 or more shall have an IUID tag and the corresponding information uploaded into iRAPT (Invoicing, Receipt, Acceptance and Property Transfer)

C.7 GOVERNMENT FURNISHED SPACE/GOVERNMENT FURNISHED PROPERTY/GOVERNMENT FURNISHED INFORMATION

C.7.1 Government Furnished Space

(a) Government furnished office space will be provided for the following labor categories and number of personnel. This office space will be the primary work location for these positions.

Government Furnished Office Space					
Labor Category	BY	OY1	OY2	OY3	OY4
Senior System Administrator	1.0	1.0	1.0	1.0	1.0
Facilities Operations Specialist	3.0	3.0	3.0	3.0	3.0
Operations Support Specialist	1.0	1.0	1.0	1.0	1.0
Configuration Management Specialist	4.0	4.0	4.0	4.0	4.0
Property Technician	1.0	1.0	1.0	1.0	1.0
Procurement Specialist	2.0	2.0	2.0	2.0	2.0
Systems Administrator	3.0	3.0	3.0	3.0	3.0
Technical Writer II	1.0	1.0	1.0	1.0	1.0
Totals	16.0	16.0	16.0	16.0	16.0

(b) Access to government lab space will be provided. Lab space does not constitute office space. Government furnished lab space will be provided for the following labor categories and number of personnel. No separate office space will be provided.

Government Lab Space					
Labor Category	BY	OY1	OY2	OY3	OY4
Operations Support Specialist	3.0	3.0	4.0	4.0	4.0
Operations Support Specialist (Wallops)	1.0	1.0	1.0	1.0	1.0
Configuration Management Specialist	6.0	8.0	6.0	6.0	6.0
Systems Administrator	3.0	3.0	3.0	3.0	3.0
Electronics Technician	1.0	1.0	1.0	1.0	1.0
Totals	14.0	16.0	15.0	15.0	15.0

(c) Hot seats will be provided at NSWCD as needed to support meetings and collaboration with the Government.

(d) Government Furnished Property (GFP) (hardware, software, firmware) will be provided to support access to NMCI/other Government computer resources as required during performance of this Task Order.

C.7.1.2 OTHER LOCATIONS OF PERFORMANCE

The Government will require support at Wallops Flight Facility in Wallops, VA.

C.7.1.3 NON-STANDARD EVENTS SUPPORT

- (a) The normal hours of work at NSWCCD are from 0700 to 1730, Monday through Friday with a flextime concept of 40 hours per week. The Contractor shall maintain a core work schedule of 0900-1500, Monday through Friday except for Federal Holidays.
- (b) The Government may require extended hours of support beyond the core-working schedule of 0900 to 1500 to include 1500 to 2200 during the Base Period or any Option Period. Extended hours of support will be in-scope to provide after-normal-working hours support for the defined task areas of the SOW. Extended hours of support are OPTIONAL and is not a guarantee.
- (c) The Contractor shall provide on-site support, callback support, or both outside of core hours in response to non-standard events (e.g., testing, critical incidents, events that require immediate attention), adjusting work hours to not exceed forty (40) hours per week, unless otherwise agreed to by the Government.

C.7.1.4 SURGE SUPPORT

- (a) The Government may require surge support during the ordering period or any option period. Surge modifications must be in scope to provide increased support during or beyond normal business hours for the defined task areas of the SOW. Surge support is OPTIONAL and is not a guarantee. If the Government determines that an increased quantity of support is required for any of the task areas defined in the SOW, the Government reserves the right to exercise the Surge Option unilaterally.
- (b) The Contractor shall provide personnel to support mission essential situations. On occasion, support services may be required to support mission essential situations (i.e., accident and rescue operations, civil disturbances, natural disasters, military contingency operations, exercises, continuing resolutions, etc.). Mission essential situations may necessitate the Contractor provide increased or reduced support for beyond normal duty hours in one or all work areas and tasks listed within the scope of this SOW.
- (c) The Contractor shall provide surge support for continuity exercises and missions when required by the Government.

C.7.2 Government Furnished Property (GFP)

- (a) GFP may be issued under this Task Order. The Government will make available the Government Property identified in the attachment J.X, Government Furnished Property on a rent-free basis in performance of the Task Order. The Contractor is responsible for all costs related to making the property available for use, such as payment of all transportation, installation, or rehabilitation costs.
- (b) The Contractor shall maintain and report the inventory of GFP (CDRL A008) issued under this Task Order. This requirement is in addition to anything required by regulation, statute, or the assigned Government Property Administrator.

C.7.3 Government Furnished Information (GFI)

(a) The Government may provide access to information and documentation required for Task Order performance and GFI may be identified in an attachment in Section J as required (Attachment J.X, Government Furnished Information).

(b) All information and documentation shall be retained at the Government work site.

C.8 SECURITY

C.8.1 Personnel and Facility Clearance Requirements

(a) Facility Clearance Level (FCL) Requirement: The Prime Contractor supporting this Task Order is required to have an FCL of SECRET and safeguarding clearance level of SECRET at the primary facility supporting this Task Order.

(b) Personnel Clearance Level (PCL) Requirement: All personnel directly supporting this Task Order, except Management and Support personnel, are required to have, as a minimum, a current SECRET security clearance in the Defense Industrial Security System (DISS). Interim clearances are acceptable.

C.8.2 The Contractor will have access to information and compartments with a SECRET classification. All deliverables associated with this Task Order are unclassified unless otherwise specified. Access to classified spaces and material and generation of classified material shall be in accordance with the attached DD Form 254 (Attachment J.X).

C.8.3 The Department of Defense Contract Security Classification Specification (DD Form 254) provides the security classification requirements for this effort. The Contractor shall obtain facility and personnel security clearances as required by the National Industrial Security Program prior to starting to work on tasks requiring clearances. Access to classified spaces and material and generation of classified material shall be in accordance with the National Industrial Security Program Operating Manual (NISPOM) 32 Code of Federal Regulation (CFR) Part 117 and the NSWCDD Command Security Manual.

C.8.4 Some work accomplished under this Task Order will be classified up to the level of SECRET. The Contractor shall maintain the capability to store information up to and including SECRET. All data generated under this Task Order shall be classified in accordance with the guidance in the NISPOM 32 CFR Part 117 and the NSWCDD Command Security Manual.

C.8.5 The Contractor must comply with guidelines specified on the DD Form 254. All deliverables associated with this Task Order will be non-SCI.

C.8.6 The Contractor requires access to Non-SCI intelligence is needed in order to utilize intelligence documents related to foreign government weapons systems. The Contractor will be required to take NATO training to obtain a SIPRnet (or cRDTE) account/s and to utilize the DTIC system to obtain documents on intelligence. Access to classified NATO information is also required by the Contractor. All personnel who have access to classified NATO information will be a U.S. citizen, have a need-to-know and a final government security clearance. Access to Foreign Government Information is required to obtain United Kingdom documents on specific weapon systems. In performing under this Task Order, the Contractor shall have access to U.S. classified information outside the U.S., Puerto Rico, U.S. Possessions, and Trust Territories (Japan, Germany, and Spain). Controlled Unclassified Information (CUI), formerly For Official Use Only (FOUO) and Personally Identifiable Information (PII), generated and/or provided under this Task Order shall be safeguarded and marked as specified in DoDI 5200.48, Controlled Unclassified Information (CUI) and 5400.7-R Chapters 3 and 4. All above accesses are needed to support and provide the system engineering, software development, and maintenance of Navy tactical initiatives and spiral and baseline developments to support NSWCDD.

C.8.7 Facility Clearance: The Contractor shall possess and maintain a *SECRET* facility clearance as verified within the National Industrial Security System (NISS).

C.8.8 Physical Security: No safeguarding of classified material is authorized at the Contractor facility. Safeguarding will only be required at the actual performance site listed in Block 13 on the DD Form 254. Actual performance site's security regulations and guidelines will apply.

C.8.9 Contractors working in Open Storage Secret (OSS) spaces with Open/Close privileges shall be aware of their responsibility and be trained in procedures for end-of-day security checks to include Closing OSS spaces.

C.8.10 Electronic Spillage

C.8.10.1 Electronic Spillages (ES) are unacceptable and pose a risk to national security. An electronic spillage is defined as classified data placed on an information system (IS), media or hardcopy document possessing insufficient security controls to protect the data at the required classification level, thus posing a risk to national security (e.g., sensitive compartmented information (SCI) onto collateral, Secret onto Unclassified, etc.). The Contractor's performance as it relates to ES will be evaluated by the Government. ES reflects on the overall security posture of NSWCDD and a lack of attention to detail with regard to the handling of classified information of IS security discipline and will be reflected in the Contractor's performance rating. In the event that a Contractor is determined to be responsible for an ES, all direct and indirect costs incurred by the Government for ES remediation could be charged to the Contractor.

C.8.10.2 NSWCDD Security will continue to be responsible for the corrective action plan in accordance with the security guidance reflected on the DOD Contract Security Classification Specification – DD Form 254. NSWCDD Security will identify the Contractor facility and contract number associated with all electronic spillages that involve the Contractor. NSWCDD Security will notify the Contracts Division with the Contractor facility name and contract number, incident specifics and associated costs for clean-up. The Contracting Officer will be responsible to work with the Contractor Facility to capture the costs incurred during the spillage clean up. The Contractor is also responsible for taking Information Security Awareness training annually, via their Facility Security Officer (FSO), as part of the mandatory training requirements. If a spillage occurs additional training will be required to prevent recurrence.

C.8.11 Portable Electronic Devices (PEDs)

C.8.11.1 Non-Government and/or personally owned portable electronic devices (PEDs) are prohibited in all NSWCDD buildings with the exception of personally owned cell phones which are authorized for use in General Office Spaces (GOS). All personnel need to be aware of the PEDs policy and being permitted in a building by asking authorized personnel or reviewing the entrance area signs and instructions. The Contractor/personnel visiting shall ensure the onsite personnel remain compliant with this PED policy. NSWCDD instruction defines PEDs as the following: any electronic device designed to be easily transported, with the capability to store, record, receive or transmit text, images, video, or audio data in any format via any transmission medium. PED's include, but are not limited to, pagers, laptops, radios, compact discs and cassette players/recorders. In addition, this includes removable storage media such as flash memory, memory sticks, multimedia cards and secure digital cards, micro-drive modules, ZIP drives, ZIP disks, CD-RWs, DVD-RWs, MP3 players, iPads, digital picture frames, electronic book readers, kindle, nook, cameras, external hard disk drives, and floppy diskettes.

C.8.11.2 Personal Wearable Fitness Devices (PWFDs) marketed primarily as fitness or sleep devices are allowed in all Navy spaces, if they are compliant with NAVADIN 216/15, where collateral non-Sensitive Compartmented Information (SCI), classified information is processed, stored, or discussed up to and including

SECRET. The user must ensure the PWFD is compliant with all requirements in NAVADMIN 216/15, Cyber Hygiene Authorization to use Personal Wearable Fitness Devices (e.g., FitBit, Jawbone UP, etc.) in Navy Spaces, dated 14 September 2015 and register PWFD in the NSWCDD Fitness Device Tracker.

C.8.11.3 Personnel requiring the use of Medical Portable Electronic Devices (MPEDS) must submit Form NSWCDD 5239/4 for SCIF authorization to the SCIF authorizations to the Special Security Officer (SSO). For Special Access Program Facility (SAPF) authorizations, follow the guidance provided by the Government Special Access Program Security Officer (GSSO). Authorizations for use in SAPFs that are co-utilized within NSWCDD SCIFS require coordination between both the GSSO and SSO. For authorizations to use MPED in Collateral Classified spaces, submit form to the Special Programs Branch, Code 1053.

C.8.11.4 PED's belonging to an external organization shall not be connected to NSWCDD networks or infrastructure without prior approval from the NSWCDD Information Assurance and Compliance Branch. This approval will be granted using the Temporary Approval Request for Information System (TARIS) form and action tracker process.

C.8.11.5 Personally owned hardware or software shall not be connected or introduced to any NSWCDD hardware, network or information system infrastructure.

C.8.11.6 Navy-issued peripheral:

C.8.11.6.1 Government procured headsets with or without microphones must be wired, use either a 3.5 millimeter (mm) audio jack or universal serial bus (USB) port, cannot contain active-noise cancelling functionality and may be used on systems of classification up to and including collateral Top Secret. The headsets are considered unclassified when unplugged, and must be unplugged when not in use within classified spaces.

C.8.11.6.2 Government procured Bluetooth earbuds and headsets that do not require a USB dongle or any other physical connection to enable wireless connectivity are allowed for use on Government issued tablets, phones, and personal devices in telework environments or unclassified general office space where no classified discussion are occurring.

C.8.11.6.3 Web cameras may only be used on systems at the classification level of the space. For example, in a collateral SECRET open storage area an external web camera may be connected to the SECRET workstation only. No camera pass is required for these devices.

C.8.11.6.4 Government provided printers and/or scanners are authorized in a telework environment. Users must ensure that any paper or media containing CUI or unclassified information not authorized for public release is safeguarded by locking in a drawer, cabinet or room. CUI and unclassified information not approved for public release must be returned to the worksite for destruction.

C.8.11.6.5 Government issued peripherals may be used on personal devices.

C.8.11.6.6 While connected to any Navy network, whether on site or while in a telework environment, the use of headsets with microphones and web cameras are restricted to official Government duties.

C.8.12 Operations Security (OPSEC)

Contractor personnel shall follow OPSEC concepts and principles in the conduct of this requirement to protect critical information, personnel, facilities, equipment, and operations from compromise. All Contractors (including Sub-contractors) shall supplement their current security practices by requiring any personnel

involved in executing this Task Order to complete Government-sponsored and administered Operations Security (OPSEC) training. In addition, all Contractors shall be aware of the Critical Information and Indicators List (CIIL) for the organization they are supporting as well as the OPSEC manual for NSWCDD. These OPSEC requirements will be in effect throughout the life of the procurement from award through the conclusion of services at the end of the period of performance (PoP) or other procurement termination. The Contractor must immediately notify the Government upon the discovery of any nonconformance with the OPSEC Manual.

C.8.13 Privacy Program Training

Privacy training is mandatory for all NSWCDD personnel (military, civilian, and Contractor) and must be completed annually. Total Workforce Management Services (TWMS) is the official database for workforce training and is the tool for taking and recording Privacy Act training. The Contractor is responsible for ensuring individual annual privacy training requirements are met.

C.9 ON-SITE ENVIRONMENTAL REQUIREMENTS

C.9.1 The Contractor shall strictly adhere to all Federal, State and local laws and regulations, Executive Orders, and Department of Defense and Navy policies.

C.9.2 The Contractor shall ensure that each Contractor employee who has been or will be issued a Common Access Card (CAC), performs work in direct support of NSWCDD programs under the NSWCDD Commanding Officer, and sits on-site at NSWCDD, completes the NAVSEA Environmental Awareness Training (TWMS-695388) within 30 days of commencing Task Order performance and at least every three (3) years thereafter or as directed by their NSWCDD training coordinator or their COR.

C.9.3 The Contractor shall ensure that each Contractor employee not required to complete the training described above (i.e., those who do not have and will not be issued a CAC, do not perform work in direct support of NSWCDD programs under the NSWCDD Commanding Officer, and do not sit on-site at NSWCDD) reads the NSWCDD Environmental Policy Statement within 30 days of commencing Task Order performance. This document will be available from the COR, however, the policy is also provided on the publicly-available NSWCDD website, <https://www.navsea.navy.mil/Home/Warfare-Centers/NSWC-Dahlgren/Resources/>.

C.9.4 Within 30 days of commencing Task Order performance, the Contractor shall certify by email to their COR that the requirements captured above have been met. The email shall include each employee name and work site and shall indicate which requirement each employee has satisfied.

C.9.5 Contractor copies of the records generated by the actions described above will be maintained and disposed of by the Contractor in accordance with Secretary of Navy Instruction (SECNAVINST) 5210.8F Department of the Navy Records Management Program.

C.9.6 The Contractor shall perform work under this Task Order consistent with the relevant policy and objectives identified in the NSWCDD environmental management system (EMS). The Contractor shall perform work in a manner that conforms to all appropriate EMS Plans of Actions and Milestones identified by the NSWCDD EMS Plan. In the event an environmental nonconformance or noncompliance associated with the contracted services is identified, the Contractor shall respond and take immediate corrective and/or preventative actions to ensure the actions do not continue. In addition, the Contractor shall ensure that their employees are aware of their roles and responsibilities identified by the NSWCDD EMS and how these requirements affect their work performed under this Task Order.

C.10 ON-SITE SAFETY REQUIREMENTS

C.10.1 The Contractor shall strictly adhere to Federal Occupational Safety and Health Agency (OSHA) Regulations, Environmental Protection Agency (EPA) Regulations, NSWCDDINST 5100.01 Occupational Safety and Health Program (current revision), and all applicable state and local requirements.

C.10.2 The Contractor shall ensure that each Contractor employee reads the document entitled, "Occupational Safety and Health (OSH) Policy Statement" within 30 days of commencing performance at NSWCDD. This document is available at: https://flankspeed.sharepoint-mil.us/sites/NAVSEA_NSWCDD_SE/SitePages/OSH-Bulletin-Board.aspx.

C.10.3 The Contractor shall provide each Contractor employee with the training required to do his/her job safely and in compliance with applicable regulations. The Contractor shall document and provide, upon request, qualifications, certifications, and licenses as required. Contractors conducting lead or asbestos abatement activities shall also provide a written abatement plan to the Safety & Environmental Branches for review and approval.

C.10.4 The Contractor shall provide each Contractor employee with the personal protective equipment required to do their job safely and in compliance with all applicable regulations.

C.10.5 Contractors working with ionizing radiation (radioactive material or machine sources) must comply with the latest revision of NAVSEA S0420-AA-RAD-010 (provided upon request). Prior to bringing radioactive materials or machine sources on base, the Contractor must notify the Command Radiation Safety Officer in the Safety Branch.

C.10.6 Contractors shall not procure hazardous material (HAZMAT) on behalf of NSWCDD without following the approved HAZMAT procurement process and obtaining approval from the Safety & Environmental Branches. For emergency HAZMAT purchases only, the Contractor shall alert the Safety & Environmental Branches and request a waiver to procure outside the HAZMAT procurement process. For emergency purchases, the Contractor shall submit an Authorized Use List Addition form and the Safety Data Sheet to the Safety & Environmental Branches for approval. Once the HAZMAT arrives onsite, the Contractor shall alert the Environmental Branch so that it can be barcoded and added to the inventory.

C.10.7 HAZMAT owned by the Contractor and brought into NSWCDD work spaces for temporary use shall be reviewed and approved by the Safety & Environmental Branches prior to use. The Contractor shall submit the Safety Data Sheet that must be routed through the Government supervisor responsible for the specific work area. This HAZMAT must clearly be marked that it is Contractor owned and shall not be stored in NSWCDD spaces.

C.10.8 Contractors shall not procure lithium batteries on behalf of NSWCDD without first receiving an approved Initial Procurement Report or certification letter and obtaining approval from the Safety & Environmental Branches.

C.10.9 Applicable Contractors shall submit Total Case Incident Rate (TCIR) and Days Away, Restricted and Transfer (DART) rates for the past three (3) years upon request by the Safety Branch. A Contractor meets the definition of applicable if its employees worked 1,000 hours or more in any calendar quarter onsite and where oversight is not directly provided in day-to-day activities by the command.

C.10.10 The Contractor shall report all work-related injuries/illnesses that occurred while working at NSWCDD, or an off-site location (including shipboard), to the Safety Branch.

C.11 INFORMATION SYSTEMS (IS) AND COMPUTER USAGE

In accordance with U.S. Navy policy, any personnel, including the Contractor, who utilizes DOD owned systems, shall assume responsibility for adherence to restrictions regarding internet and email usage. Navy policy prohibits racist, sexist, threatening, pornographic, personal business, subversive or politically partisan communications. All personnel, including the Contractor, are accountable and must act accordingly. DOD computer systems are monitored to ensure that the use is authorized, to facilitate protection against unauthorized access, and to verify security procedures, survivability and operational security. During monitoring, information may be examined, recorded, copied, and used for authorized purposes. All information, including personal information, placed on or sent over a DOD system may be monitored. Use of a DOD system constitutes consent to monitoring. Unauthorized use may result in criminal prosecution. Evidence of unauthorized use collected during monitoring may be used as a basis for recommended administrative, criminal or adverse action.

C.12 USE OF INFORMATION SYSTEM (IS) RESOURCES

Except in special circumstances explicitly detailed elsewhere in this document, the Contractor shall provide all IS resources needed in the performance of this Task Order. This includes, but is not limited to computers, software, networks, certificates, and network addresses.

C.12.1 CONTRACTOR USE OF NSWCD IS RESOURCES

- (a) In the event that the Contractor is required to have access to NSWCD IS resources, the login name used for access shall conform to the NMCI login naming convention. If the Contractor requires access to applications/systems that utilize client certificates for authentication, the Contractor is responsible for obtaining requisite certificates from a DOD or External Certificate Authority
- (b) If this Task Order requires that the Contractor be granted access and use of NSWCD IS resources (at any site), the IS shall be accredited for Contractor use in accordance with procedures specified by the Information Assurance Office.

C.12.2 CONNECTIONS BETWEEN NSWCD AND CONTRACTOR FACILITIES

If there is a requirement (specifically delineated elsewhere in this Task Order) for interconnection (e.g., link level or Virtual Private Network (VPN)) between any facilities and/or ISs owned or operated by the Contractor and ISs owned or operated by NSWCD, such interconnection shall take place only after approval from the Information Assurance Office. All such connections as well as the ISs connected thereto will be accredited in accordance with DOD policy (DODI 8510.01 Risk Management Framework for DoD Systems) by the cognizant Designated Approving Authority (DAA) and comply with the requirements of Chairman Joint Chiefs of Staff Instruction (CJCSI) 6211.02D Defense Information Systems Network (DISN) Responsibilities regarding Memorandums of Agreement. All such connections will be made outside the appropriate NSWCD firewall.

C.13 PRIVACY INFORMATION

Work under this Task Order may require that personnel have access to Privacy Information. Contractor personnel shall adhere to the Privacy Act, Title 5 of the U.S. Code Section 552a, FAR 52.224-2 Privacy Act, and applicable agency rules and regulations.

C.14 NON-DISCLOSURE AGREEMENTS (NDAs)

(a) Access to and preparation of sensitive information subject to Privacy Act and Business Sensitive safeguarding and destruction may be required in the execution of tasking associated with this **Task Order**. NDAs may be utilized to allow for access to company sensitive/proprietary or Privacy Act data. For tasks requiring NDAs, the Contractor shall obtain appropriate agreements for all their employees that are associated with the task requiring such an agreement.

(b) Contractor personnel may be required, from time to time, to sign NDAs as applicable to specific SOW tasking. The COR will notify the Contractor of the number and type of personnel that will need to sign the NDAs. The signed NDAs shall be executed prior to accessing data or providing support for information that must be safeguarded. Copies of all executed NDAs shall be provided to the COR for endorsement and retention.

C.15 NON-PERSONAL SERVICES/INHERENTLY GOVERNMENT FUNCTIONS

(a) The Government will neither supervise Contractor employees nor control the method by which the Contractor performs the required tasks. The Government will not direct the hiring, dismissal or reassignment of Contractor personnel. Under no circumstances shall the Government assign tasks to, or prepare work schedules for, individual Contractor employees. It shall be the responsibility of the Contractor to manage its employees and to guard against any actions that are of the nature of personal services or give the perception that personal services are being provided. If the Contractor feels that any actions constitute, or are perceived to constitute personal services, it shall be the Contractor's responsibility to notify the Contracting Officer immediately in accordance with FAR 52.243-7 Notification of Changes.

(b) Inherently-Governmental functions are not within the scope of this **Task Order**. Decisions relative to programs supported by the Contractor shall be the sole responsibility of the Government. The Contractor may be required to attend technical meetings for the Government; however, they are not, under any circumstances, authorized to represent the Government or give the appearance that they are doing so.

C.16 CONTROL AND ADMINISTRATION OF CONTRACTOR PERSONNEL

(a) The Contractor shall comply with the requirements of NAVSEA and NSWCDD instructions regarding performance in Government facilities. All Contractor personnel engaged in work while on Government property shall be subject to all applicable DOD and Navy Standards of Conduct.

(b) The Contractor shall be required to obtain identification badges from the Government for all Contractor personnel requiring regular access to Government property. When on-site in Government office spaces, laboratories, test facilities, or ship assets, Contractor employees shall be clearly identified as a Contractor (e.g., utilizing badge identifications and sign identifications in office spaces). The identification badge shall be visible at all times while employees are on Government property. The Contractor shall furnish all requested information required to facilitate issuance of identification badges and shall conform to applicable regulations in the Department of Defense Manual (DODM) 1000.13 DoD Identification (ID) Cards ID Card Life-Cycle concerning the use and possession of the badges.

(c) The Contractor shall ensure that all identification badges issued to Contractor employees are returned to the appropriate Security Office within 48 hours following completion of the Task Order, relocation or termination of an employee, and upon request by the Contracting Officer.

(d) All Contractor personnel shall identify their company affiliation when answering or making telephone calls and sending email and when attending meetings where Government personnel or representatives from other Contractors are present. In addition, Contractor personnel cannot lead/manage/supervise Government

personnel. Contractor program/project managers shall be clearly identified and known as such by Government employees.

(e) All persons engaged in work while on Government property shall be subject to search of their persons (no bodily search) and vehicles at any time by the Government and shall report any known or suspected security violations to the appropriate Security Department. Assignment, transfer, and reassignment of Contractor personnel shall be at the discretion of the Contractor. However, when the Government directs, the Contractor shall remove from Task Order performance any person who endangers life, property, or national security through improper conduct.

C.17 TERMINATION OF EMPLOYEES WITH U.S. GOVERNMENT BADGES

(a) The Contractor shall ensure that all employees who have a DOD Common Access Card (CAC), turn in the CAC immediately upon employee separation and/or termination of their employment under this Task Order. The above requirement shall be made a part of the standard employee facility clearance procedures for all separated personnel. The Contractor shall advise Command Physical Security of all changes in their personnel requiring DOD base access.

(b) For involuntarily separated personnel and those separated under adverse circumstances, the Contractor shall notify Command Physical Security in advance of the date, time, and location where the Command representative retrieve the DOD CAC prior to the employee departing the Contractor's facility. In the event the employee is separated in his or her absence, the Contractor shall immediately notify Command Physical Security of the separation and make arrangements between the former employee and Command Physical Security for the return of the CAC. If circumstances arise which necessitate urgent revocation of a CAC after normal business hours, the Mission Partner Identity, Credential and Access Management (MP ICAM) Mission Partner Affiliation Sponsor (MPAS) shall be immediately contacted. MPAS contact information will be provided by the COR after Task Order award.

C.18 LABOR CATEGORIES/QUALIFICATIONS

See Attachment J.X, Labor Category Qualifications.

C.19 POST AWARD CONTRACTOR PERSONNEL APPROVAL

(a) See NAVSEA C-237-H002 Substitution of Key Personnel, regarding substitution of key personnel. Requests for post award approval of additional and/or replacement key personnel shall be submitted via email. Email submissions shall be made simultaneously to the Contract Specialist, COR, and the Alternate COR. Electronic notification via email from the Contract Specialist will serve as written approval or disapproval on behalf of the Contracting Officer. This approval is required before an individual may begin charging to the Task Order.

(b) Resumes shall be submitted in the format required in C.20. However, minor deviations in formatting may be overlooked, providing sufficient information is submitted for an independent comparison of the individual's qualifications with Labor Category requirements.

(c) Any replacement for Key Personnel that are submitted following award shall have qualifications equal to or higher than the qualifications of the person being replaced. Following award, the qualifications are considered to be minimums for any growth beyond those initially proposed.

(d) Prior to charging non-Key Personnel labor to this order, the Contractor shall provide written documentation stating the individual's name, Labor Category, and certification that the individual meets or exceeds the

minimum qualifications of the Labor Category. This written documentation/certification shall be made by email to the Contract Specialist and the COR. In the instance the Contractor is adding non-Key Personnel to a labor category without specified minimum qualifications (See Attachment J.X), the certification shall instead state the individual is qualified to perform the tasking under the Task Order. This written documentation/certification shall be made by email to the Contact Specialist and the COR.

C.20 POST AWARD RESUME FORMAT AND CONTENT REQUIREMENTS

In order to facilitate evaluation of resumes submitted in accordance with C.19 and C-237-H002, all résumés shall be provided in the following format and are not to exceed three (3) pages each. The page limit does not apply to the certification and signature.

(a) HEADER

- Complete Name
- Current Employer
- Task Order Labor Category
- Contractor Labor Category
- Percentage of time to be allocated to this effort upon award of this Task Order
- Current security clearance level per DISS (identify if interim or final)
- Current work location
- Planned work location upon award of this Task Order

Note if the individual is key on another contract with a Period of Performance that will overlap this requirement. Note plans to satisfy both contracts if the candidate is approved.

(b) EDUCATION/PROFESSIONAL DEVELOPMENT

Show any degrees, honors, publications, professional licenses, specialized certifications, and other evidence of professional accomplishments that are directly relevant and will impact the Offeror's qualifications to perform under the Task Order. For education and training, the following format is preferred:

- Academic: degree(s); date(s); institution; major/minor
- Academic: course title, date(s), approximate length (as cited in labor categories)
- Non-Academic: course title, date(s), approximate length
- Professional licenses and specialized certifications. (Note the date obtained for each, as well as the date when each license/certification requires renewal.)

(c) CHRONOLOGICAL WORK HISTORY/EXPERIENCE

(i) Employer: dates (month/year); title(s) held

(ii) Work experience shall be presented separately for each employer, clearly marked with proper category of experience (i.e., relevant experience; nonrelevant experience.). If relevant and nonrelevant experience were obtained while at the same employer, separate time periods shall be noted for each assignment. Responsibilities shall be discussed in sufficient detail for each assignment so as to permit comparison with experience levels in Attachment J.X, Labor Category Qualifications. Specific examples of work assignments, accomplishments, and products shall be provided.

(iii) Phrases such as “assisted with,” “participated in,” or “supported” are unacceptable except as introductory to a detailed description of the actual work performed. If no such description is provided, the sentence or bulleted information will not be considered in the résumé evaluation process.

(iv) Résumé information is encouraged to be presented in bullet format.

(v) Lack of specific definition in job responsibilities, services performed, or products produced may be viewed as a lack of understanding of the Labor Category requirements.

(vi) All relevant military experience claimed shall be described such that each relevant tour is treated as a separate employer. Time frames/titles /responsibilities shall be provided in accordance with the level of detail prescribed above. Military experience not documented in this manner will not be considered.

(vii) Gaps in experience shall be explained.

(viii) Certification of correctness of information signed and dated by both the person named and the Contractor. The employee certification shall include the following statement:

CERTIFICATION: “I certify that the experience and professional development described herein are complete and accurate in all respects. I consent to the disclosure of my résumé for NSWCCD Task Order TBD by [insert company name] and intend to make myself available to work under the Task Order.”

Employee Signature and Date

Contractor Signature and Date

(ix) Résumés without this certification, together with either a handwritten or digital signature, will be unacceptable and will not be considered.

(x) If the employee is not a current employee of the Contractor (or a Sub-contractor), a copy of the accepted offer letter shall be provided. The letter shall identify the projected start date.

C.21 LABOR TRIPWIRE JUSTIFICATIONS

The Contractor shall monitor monthly average actual spend rates compared to monthly average fully burdened proposed rates on a per CLIN basis. The Contractor shall advise the COR and the Contract Specialist, by email, of any variation of actual-to-proposed rate averages greater than 15 percent. The Contractor's notification shall include the following information:

- (a) an actual vs. proposed average dollar per hour comparison;
- (b) the percentage variation between the actual and proposed average;
- (c) explanation of what is causing the variation;
- (d) whether or not the Contractor expects this condition is temporary or permanent;
- (e) the Contractor's plan for addressing and correcting the variation; and
- (f) additional information as requested by the Government to assist in reporting per the NAVSEAINST 4200.19(series) Planning, Use, and Control of Services Contracting.

C.22 DATA RIGHTS

- (a) This is a Task Order for the provision of services by the Contractor. In accordance with law and policy and with the provisions of this Task Order, Contractor personnel shall perform as required by this Task Order, and such work shall include working in cooperation and collaboration with Government Personnel.
- (b) Performance of this Task Order work shall require, among other things, the Contractor to access and use Government-owned data such as software, documentation, technical data, process and report templates, and the like. Any and all software, documentation, technical data, and the like generated from such access and use shall also be and remain Government-owned data and shall be included in an appropriate technical report or other deliverable. The Contractor's use of and access to Government-owned data shall neither constitute nor create any Contractor rights in or license to such data; the only Contractor permissions to use and access the data shall be those necessarily required by the Contractor to perform the work herein.
- (c) On occasion and incidental to the provision of support services by the Contractor, the Contractor may be tasked to independently create discrete new data products (e.g., technical analysis, drawings) that do not derive from existing data. Such products shall be specifically identified by the Government in writing and shall be delivered pursuant to the appropriate Contract Data Requirements List (CDRL) document. Rights in such products shall be governed by the appropriate Task Order clauses.

C.23 DIGITAL DELIVERY OF DATA

- (a) Delivery by the Contractor to the Government of certain technical data and other information is now frequently required to be made in digital form rather than in hardcopy form. The method of delivery of such data and/or other information (i.e., in electronic, digital, paper hardcopy, or other form) shall not be deemed to affect in any way either the identity of the information (i.e., as "technical data" or "computer software") or the Government's and the Contractor's respective rights therein.
- (b) Whenever technical data and/or computer software deliverables required by this contract are to be delivered in digital form, any authorized, required, or permitted markings relating to the Government's rights in and to such technical data and/or computer software must also be digitally included as part of the deliverable and on or in the same medium used to deliver the technical data and/or software. Such markings must be clearly associated with the corresponding technical data and/or computer software to which the markings relate and must be included in such a way that the marking(s) appear in human-readable form when the technical data and/or software is accessed and/or used. Such markings must also be applied in conspicuous human-readable form on a visible portion of any physical medium used to effect delivery of the technical data and/or computer software. Nothing in this paragraph shall replace or relieve the Contractor's obligations with respect to requirements for marking technical data and/or computer software that are imposed by other applicable clauses such as, where applicable and without limitation, DFARS 252.227-7989 Rights in Technical Data, Computer Software, and Computer Software Documentation – Other Than Commercial Products and Commercial Services (DEVIATION 2026-O0036).
- (c) Digital delivery means (such as but not limited to Internet tools, websites, shared networks, and the like) sometimes require, as a condition for access to and/or use of the means, an agreement by a user to certain terms, agreements, or other restrictions such as but not limited to "Terms of Use," licenses, or other restrictions intended to be applicable to the information being delivered via the digital delivery means. The Contractor expressly acknowledges that, with respect to deliverables made according to this contract, no such terms, agreements, or other restrictions shall be applicable to or enforceable with respect to such deliverables unless such terms, agreements, or other restrictions expressly have been accepted in writing by the Contracting Officer; otherwise, the Government's rights in and to such deliverables shall be governed exclusively by the terms of this Task Order.

C.24 OPERATION OF GOVERNMENT VEHICLES

(a) The Contractor shall be required to drive Government vehicles both onsite at NSWCDD and offsite in the performance of duties associated with the tasking of this Task Order. Government provided vehicles shall be used solely for the purposes as described in the SOW. All drivers must present proof of a valid state driver's license prior to operating a Government vehicle. A valid state driver's license shall be accepted as proper authority for operation of vehicles up to and including 10,000 pounds gross vehicle weight and carrying less than 15 passengers. For vehicles over 10,000 pounds and carrying more than 15 passengers a valid state driver's license and proof of required Navy training for vehicle are required. The state driver's license must be valid for the class and weight of the vehicle which the Contractor will be operating.

(b) An authorized drivers list shall be added to the Monthly Status Report and maintained by the Contractor. The Contractor shall submit within the preceding 30 days a Department of Motor Vehicles (DMV) driving record to the COR for review and approval, prior to adding an individual to the Authorized Driver List. No Driving Under the Influence (DUI) or Driving While Intoxicated (DWI) convictions in the past 11 years will be considered.

C.25 SHIPBOARD PROTOCOL

(a) This tasking may involve platform engineering and fleet support onboard ship. As such, the Contractor is reminded of its responsibility to assure that shipboard protocol is stringently followed. Specifically, visit clearances must be arranged through the Government sponsor and must be forwarded to the individual command being visited as well as to all supporting commands, such as the base, squadron, tender, etc. that the visitor must pass through to get to the ship; the Contractor is responsible for obtaining and maintaining specialized training (i.e. nuclear awareness, safety, quality control, etc.) and certification (i.e. Submarine Safety Program (SUBSAFE) certificates etc.); personnel performing on board US Navy Ships must have at a minimum, a current SECRET Security Clearance; if not led by a Government representative the Contractor is responsible for briefing the ship/command upon arrival; and the Contractor is responsible for debriefing the ship/command upon departure to include operational status of the equipment.

(b) The Contractor shall ensure its personnel adhere to these requirements when performing shipboard tasking. Compliance shall be reported in the trip report (CDRL A007).

(c) All assigned personnel must possess, at a minimum, a current SECRET Security Clearance.

(d) All personnel, while shipboard, shall conform to the rules and regulations of the ship. It is the responsibility of the Contractor to determine the proper rules, regulations, actions, policy and procedures.

(e) Alarms - actual or drill - shall be reported and procedures appropriately adhered.

(f) Safety - hardhats, tag-outs, safety shoes, goggles, safety harnesses, etc., as appropriate - shall be utilized.

(g) Some shipboard tasking may require ascending and descending vertical ladders to and from the highest points of the ship both pier side and underway.

(h) Each Contractor employee must be able stand; walk; climb stairs; balance; stoop; kneel; crouch or crawl around and lift a maximum of 50 lbs. (single person) in the test environment.

(i) HAZMAT must be used safely according to local Standard Operating Procedures (SOPs).

(j) The designated team lead shall, upon arrival, brief the Commanding Officer or his/her designated representative as to the purpose of the visit and expected duration.

(k) The designated team lead shall, upon final departure, debrief the Commanding Officer or his/her designated representative as to the success of the tasking and the operational condition of affected equipment.

(l) The Contractor shall comply with the Commander, U.S Fleet Forces Command (COMUSFLTFORCOM)/Commander, U.S. Pacific Fleet (COMPACFLT) INSTRUCTION 6320.3B regarding the medical and dental screening of all personnel that may embark aboard any U.S. Navy vessel.

(m) The Contractor shall ensure that repair and maintenance employees working aboard vessels, dry docks and piers shall have a valid 10 hour OSHA Maritime Shipyard Employment Course #7615 completion card within 60 days of employment.
