extend the PoP for [REDACTED]. This CSA was awarded in a competitive environment, with two vendors responding to the Request for Quote. Additionally, a follow-on contract under [REDACTED] has already been competitively awarded. A redacted copy of the Justification & Approval (J&A) will be posted on SAM.gov. Furthermore, a Notice of Intent is not required since the total estimated cost increase remains below the Simplified Acquisition Threshold (SAT). This extension is to provide additional time for the new contracts to completely migrate to the new technology.

7. DETERMINATION OF FAIR AND REASONABLE COST: The Government awarded this CSA competitively. Pricing was deemed fair and reasonable prior to contract award. This is a no-cost modification, so no additional determinations are required.

8. MARKET RESEARCH: This circuit provides critical services and is the only option as the Government's need is for a continuation of service while the migration to the new circuit follow-on solution is completed. Based on current market research, it has been determined that only the connection provided by [REDACTED] can fully meet the Government's need to avoid interruption of services due to being the incumbent and having the required equipment and fiber optic lines already in place. Modernized replacement circuits have been awarded based on full and open competition and have already been installed.
