2. Provide sufficient detail to allow the Government to assess the relevance and quality of the past performance.

***Note1:** PPQs submitted by the Vendor or included in the quote will not be evaluated.

****Note2: Attachment 3 has been replaced as a result of this Amendment.** Vendors shall use the revised Volume II Past Performance (Attachment 3 - AMD 1) for submission. Attachment 3 submitted using the original version will result in the Vendor's being assessed as a "neutral" rating for Factor 2.

The Government reserves the right to independently obtain information regarding present and past performance. This may include data beyond what is submitted by the Vendor, such as input from contract and subcontract POC, and publicly available sources. If the Vendor is aware of any contracts listed in the Contractor Performance Assessment Reporting System (CPARS) that are directly relevant to the requirements of this solicitation, the Vendor shall include a list of the contract Procurement Instrument Identifiers (PIIDS) (i.e. contract numbers) with their **past performance submission. If the Government exercises the FAR 52.217-8 option in a period other than the fourth option year, the rate from the last completed year of performance will be applied.

*** NOTE1: Attachment 5 has been replaced as a result of this Amendment.** Vendors shall use the revised Pricing Sheet (Attachment 5 - AMD 1) for quotations. Quotes submitted using the original Pricing Sheet will result in the Vendor's quote being assessed as a deficiency and an "Unacceptable" rating for Factor 3.

5. Volume IV - Factor 4: Representations and Certifications.

The Vendor must complete Attachment 6 "Reps & Certs," including Enclosures 1 through 5. For Enclosure 3: Letter of Commitment, the Prime Vendor must obtain completed Letter of Commitments from each subcontractor/partner that they will team with in meeting the solicitation requirements.

Evaluation Factors for Award

52.212-2 ADDENDUM - EVALUATION--COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES FEB 2026 (Deviation)

Addendum to Paragraph (a). Paragraph (a) is changed to read as follows:

Evaluation Factors.

The Government intends to award a single Firm-Fixed Price (FFP), Indefinite Delivery/Indefinite Quantity (IDIQ) contract to the Vendor whose quote represents the best value to the Government. This acquisition will be conducted in accordance with Simplified procedures as described in FAR 12.201-1. In accordance with the Revolutionary FAR Overhaul, the Government will use Comparative Analysis to select the awardee. The Government will perform a side-by-side comparison of all responsive quotes. In addition, prior to award, the awardee must be determined responsible in accordance with the standards set forth in FAR Part 9.

The Government reserves the right to not consider for award any quote that fails to comply with the administrative requirements outlined in Addendum 52.212-1, Instruction to Offerors. By submitting a quote, the Vendor agrees to all solicitation requirements, including terms and conditions, representations and certifications, and technical requirements. Failure to meet a requirement may result in the quote being deemed unacceptable and excluded from further consideration for award.

The Government intends to award without negotiations. Therefore, Vendor's are advised to submit initial quotes that reflect the Vendor's best approach/terms for all evaluation factors, including staffing capability, past performance, and price. Notwithstanding this intent, the Government reserves the right to conduct negotiations if deemed necessary by the Contracting Officer. As stated in the Addendum to FAR 52.212-1, Instruction to Offerors, failure to comply with quote instruction or any other administrative requirements may result in the quote being determined unacceptable.

To make the best value award decision, the Government will evaluate quotes based on the following three (3) Factors using Comparative Analysis outline in FAR 12.203(c)(2):

1. Factor 1- Staffing Capability
2. Factor 2-Past Performance
3. Factor 3-Price

The Government will compare quotations across Evaluation Factors and selection the quote that provides the best overall value considering price and non-price factors. Factor 4, Reps and Certs, will not be part of the comparative analysis for Factor 1,2, or 3, but will be evaluated on acceptable/unacceptable basis.

The complete evaluation criteria are outlined below:

Evaluation Factors:

Factor 1: Staffing Capability

The Government will evaluate the Vendor's Attachment 2_Staffing Capability quote to determine whether the Vendor's quote meets or exceeds the requirements outlined in the Evaluation Factors. The specific factor in which the Vendor will be evaluated are: Factor 1- Staffing Capability. The Vendor's Attachment 2: Factor 1 - Staffing Capability quote shall provide sufficient information for the Government to assess the Vendor's capability to successfully perform the requirements in accordance with the Evaluation Factor.

The Government shall evaluate the vendor's ability to maintain uninterrupted student transportation services through effective personnel management, based on the Vendor's responses to Attachment 2, Factor 1. The Government shall evaluate the Vendor's strategy for maintaining continuity of services, minimizing disruptions and ensuring ongoing compliance with PWS requirements throughout the life of the contract. Specifically, the Government will evaluate the following:

- Personnel Availability
 - o Vendor's capability to provide qualified personnel by 01 August 2026 and each subsequent contract year.
 - o Vendor's approach to ensuring full coverage of all routes in Attachment 7(a) and alignment with anticipated student ridership populations as outlined in Attachment 5 Pricing.
- Staffing Sufficiency
 - o Adequacy of proposed staffing levels and labor categories (e.g. Contract Manager, Alternate Contract Manager, Safety Aides and Attendant Supervisor, Safety Aides, Safety Attendants) to meet operational requirements outlined in the PWS.
- Operational Readiness
 - o Daily availability of Safety Aides/Attendants.
 - o Contingency plans for unexpected absences or resignations.
 - o Teaming arrangements, if applicable, including roles and responsibilities of each partner. Vendor is to provide a completed Enclosure 3: Letter of Commitment for each subcontracting/teaming partner that is proposed in meeting the solicitation requirements. Failure to submit a completed Enclosure 3, as applicable, will result in the Vendor's quote being assessed a deficiency and an "Unacceptable" rating for Factor 1.

Note 1: The Government will use Attachment 7(a) and the Staffing information in Attachment 5 - Price Template in evaluating whether the Vendor's staffing levels are adequate in ensuring continued, uninterrupted services. While meeting the minimum requirement is necessary for acceptability, the Government may assess a

weakness where the quote demonstrates only a minimal approach and lacks sufficient detail, flexibility, or contingency planning; thereby increasing the risk of unsuccessful performance. In addition, quotes that demonstrate a proactive and well-integrated personnel management strategy may be evaluated more favorably.

Note 2: The Vendor is required to provide responses to the 9 mandatory questions marked in yellow/"response required") cells. For cells requiring a quantity, a blank cell will not be assumed to offer zero quantity - it is assumed to be a non-compliant response. Failure to provide a response to the 9 mandatory questions will result in the Vendor's quote being assessed as "Unacceptable" for Factor 1.

Note 3: Failure to submit a completed **Attachment 2: Volume I - Factor 1- Staffing Capability** in **Excel Format** will result in the Vendor's quote being assessed as a deficiency and an "Unacceptable" rating for Factor 1.

The 29 questions marked in purple as "optional" allow the Vendor to provide responses at their discretion. If answered, these questions may offer an opportunity for the Vendor to exceed the government's minimum requirements.

Factor 1 will be rated in accordance with the following Adjective Rating Method:

Staffing Capability/Risk Rating Method	
Adjectival Rating	Description
Outstanding	Quote demonstrates an exceptional approach and understanding of the requirements and contains multiple strengths and risk of unsuccessful performance is low.
Good	Quote indicates a thorough approach and understanding of the requirements and contains at least one strength, and risk of unsuccessful performance is low to moderate.
Acceptable	Quote meets requirements and indicates an adequate approach and understanding of the requirements, and risk of unsuccessful performance is no worse than moderate.
Marginal	Quote has not demonstrated an adequate approach and understanding of the requirements, and/or risk of unsuccessful performance is high.
Unacceptable	Quote does not meet requirements of the solicitation and, thus, contains one or more deficiencies and is unawardable, and/or risk of performance is unacceptably high.

A rating of "**Unacceptable**" for **Factor 1** will result in the quote being deemed **Technically Unacceptable and not eligible for contract award**.

Definition of Strength/ Weakness/ Deficiency	

Adjectival Rating	Description
Strength	An aspect of the Vendor's quote with merit or that will exceed specified performance or capability requirements to the advantage of the Government during contract performance.
Weakness	In the quote, is a flaw that increases the risk of unsuccessful performance
Deficiency	A material failure of a quote to meet a government requirement or a combination of weaknesses in a quote that increases the risk of unsuccessful contract performance to an unacceptable level.

Factor 2: Past Performance.

Past Performance will be evaluated as an indicator of the Government's confidence in the Vendor's ability to successfully perform the contract requirements. The evaluation will consider each Vendor's recent and relevant record of performance in delivering services similar in scope, magnitude and complexity to those outlined in this solicitation. The Government will evaluate the quality and relevance of prior and current contract performance, the Vendors ability to meet performance standards, schedules and customer expectations from responses received from the Past Performance Questionnaire (PPQ), **Attachment 4 - PPQ**, and the Past Performance Proposal, **Attachment 3 - Volume II - Past Performance**. The Government may also consider other sources of past performance information, as appropriate, to determine the overall quality and reliability of the Vendor's performance history.

In evaluating past performance, the Government reserves the right to give greater consideration to individual contracts that are deemed most relevant to the scope, complexity and magnitude described in this solicitation. Additionally, the Government also reserves the right to give greater consideration to the past performance of an individual Vendor rather than the combined past performance of a Vendor and its teaming partner(s) or subcontractors.

Vendors without a record of recent and/or relevant past performance or for whom information on past performance is not available or is so sparse that a past performance rating cannot be reasonably assigned will not be evaluated favorably or unfavorably on past performance and as a result, will receive a "Neutral" rating for the Past Performance factor.

A "Neutral" rating will also be assigned if:

- 1) The Prime Vendor does not submit at least one past performance reference in which they provided services as a Prime Contractor or Subcontractor or Teaming Partner on a previous project that meets the recency and relevancy requirements: or
- 2) The Prime Vendor fails to describe the specific roles and responsibilities of each proposed subcontractor or teaming partner as outlined in their current teaming arrangement for their quote on this solicitation. The Government reserves the right to determine that a "Substantial Confidence" or "Satisfactory Confidence" past performance rating is worth more than a "Neutral Confidence" past performance rating in a best value tradeoff.

If the Government chooses to conduct negotiations, Vendors will be provided with an opportunity to address any adverse past performance information not previously addressed. Adverse past performance is defined as past performance information which supports a less than satisfactory rating on any evaluation aspect or any unfavorable comments received from sources without a formal rating system.

The Government reserves the right to reject any quote if it determines that the Vendor has deleted, misrepresented, or withheld information that could negatively affect its past performance record.

The Government will consider the information obtained from the Supplier Performance Risk System (SPRS) to assess the Vendor's risk of unsuccessful performance and past performance in the aggregate in addition to an individual contract basis when assigning a confidence rating. In addition to past performance information submitted by the contractor, past performance information may be obtained from Contract Performance Assessment Reporting System (CPARS), Federal Award Performance and Integrity Information System (FAPIS), Electronic Subcontract Reporting System (eSRS), or other databases; the Defense Contract Management Agency (DCMA); and interviews with Program Manager, Contracting Officers, or other sources known to the government.

In assessing the Vendor's probability of meeting the solicitation requirements, the Vendor's evaluation and Overall Rating of Recency, Relevancy and Quality of the Vendor's Past Performance will be based on the following ratings methods:

Recency Assessment. An assessment of the past performance information will be made to determine if it is recent according to the following:

Past Performance Recency Ratings	
Adjectival Rating	Description
Recent	The effort must be ongoing or must have been completed within the last three (3) years preceding the issuance date of the initial solicitation.
Not Recent	The effort was completed more than three (3) years before the issuance date of the initial solicitation.

Relevancy Assessment. The Government will determine how relevant the effort accomplished by the Vendor is to the effort to be acquired through the solicitation. The Government is not bound by the Vendor's assessment of relevancy. To be relevant, the Vendor must demonstrate that their performance involved similar scope, magnitude of effort, and complexities this solicitation requires.

Relevancy will be rated in accordance with the following Rating method:

Past Performance Relevancy	
Adjectival Rating	Description
Very Relevant	Present/past performance effort involved essentially the same scope and magnitude of effort and complexities this solicitation requires.
Relevant	Present/past performance effort involved similar scope and magnitude of effort and complexities this solicitation requires.
Not Relevant	Present/past performance effort involved little or none of the scope and magnitude of effort and complexities this solicitation requires.

Quality Assessment. The Government will review the Vendor's Past Performance information to determine the quality of the Vendor's performance and general trends in performance, which will also be a factor in the performance confidence assessment. The Government will evaluate the quality of the Vendor's past performance based on the relevance, recency and demonstrated outcomes of previously completed contracts or subcontracts. The assessment will consider evidence of successful performance in meeting requirements similar in size, scope and magnitude to the solicitation requirements based on PPQs, CPARS, and other sources available to the Government.

A performance confidence assessment rating will be assigned to each Vendor after reviewing recent and relevant past performance information. A performance confidence rating will be based on the following rating method:

Perfor mance Confid ence A ssessm ent	

Adjectival Rating	Description
Substantial Confidence	Based on the vendor's recent/relevant performance record, the Government has a high expectation that the vendor will successfully perform the required effort.
Satisfactory Confidence	Based on the vendor's recent/relevant performance record, the Government has a reasonable expectation that the vendor will successfully perform the required effort.
Neutral Confidence	No recent/relevant performance record is available, or the vendor's performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned. The vendor may not be evaluated favorably or unfavorably on the factor of past performance.
No Confidence	Based on the vendor's recent/relevant performance record, the Government has no expectation that the vendor will be able to successfully perform the required effort.

Factor 3: Price.

This factor will not be assigned an adjectival rating. However, the Vendor's quote, as submitted in Attachment 5, will be evaluated to determine whether the proposed pricing is fair and reasonable in accordance with techniques and procedures outlined in Revolutionary FAR Overhaul 12.204 and DFARS 212.204.

In addition, the Government reserves the right, but is not obligated, to conduct a Price Realism analysis to determine whether a low-priced offer reflects a lack of technical understanding, or an inherent performance risk due to unrealistically low pricing. If the Price Realism analysis indicates that the proposed price is unrealistically low and poses unacceptable risk to successful performance, the quote may be rejected.

The Government will evaluate the Vendor's proposed price to determine whether it is fair, reasonable and present an acceptable level of price risk. The evaluation will include an assessment of:

- Consistency of the proposed price with historical prices paid for the same or similar service; and
- Whether the proposed price creates risk to the Government based on variability, deviation from established pricing patterns, or other indicators of price instability.

The Government will not rely solely on the price risk assessment when determining price reasonableness. Additional price analysis may be performed as necessary.

The Government will assign a Price Risk Rating based on the degree to which the proposed price reflects stability and predictability when compared to historical data:

Rating	Description
Low Risk	Price is consistent with historical and market norms; minimal risk the Government will pay more than reasonable value.
Moderate Risk	Price shows some deviation from historical pricing but can be supported with analysis or justification.
High Risk	Prices significantly deviate from historical prices or market norms, creating a substantial risk to the Government. May reduce the likelihood of award, especially when not supported by sufficient justification.

Evaluation of Options. For award purposes, the Government will evaluate the total proposed price, including the base period, all option periods and the potential extension under FAR 52.217-8, Option to Extend Services (up to six months). The Vendor must submit pricing for the base period and all option periods, including the "FAR 52.217-8 Option to Extend Services" table in Attachment 5. The Vendor shall provide a Unit Price for each CLIN Description. If the Government exercises the FAR 52.217-8 option in a period other than the fourth option year, the rate from the last completed year of performance will be applied. The Government may consider a quote unacceptable if option pricing is determined to be significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

Note 1: Failure to submit a completed **Attachment 5: Volume III -Factor 3- Price** in **Excel Format** will result in the Vendor's quote being assessed as a deficiency and an "Unacceptable" rating for Factor 3.

Factor 4: Representations and Certifications.

Factor 4 will not be included in the best value tradeoff decision. Instead, Factor 4 will be evaluated on an "Acceptable" or "Unacceptable" basis only.

Failure to submit a completed Attachment 6 and Enclosures 1-5 will result in the Vendor's quote being assessed an "Unacceptable" rating under Factor 4. If the Prime Vendor intends to utilize subcontracting or teaming partners to meet the solicitation requirements, the Prime Vendor must submit a completed Enclosure 3: Letter of Commitment from each subcontracting or teaming partner. The Government will use Enclosure 3: Letter of Commitment submitted under Factor 4 in the evaluation of the Vendor's quote for Factor 1 and Factor 2. In the event of discrepancies between the information provided in Enclosure 3 and the information contained in the Vendor's Factor 1 and/or Factor 2 quotes, the Government will assess a weakness or deficiency, as appropriate, under the applicable Factor and associated subfactor(s).

The Government will also consider information available in the Supplier Performance Risk System (SPRS) when determining Vendor responsibility.

The Government shall rate the Vendor's Factor 4 as "Acceptable" or "Unacceptable" using the definitions provided below:

Criteria	Definition
Acceptable	Vendor's quote clearly meets all solicitation requirements.
Unacceptable	Vendor's quote fails to meet one or more solicitation requirements.

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Vendor whose quote conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

1. Factor 1 - Staffing Capability
2. Factor 2 - Past Performance

(c) *Notice of award*. A written notice of award or acceptance of a quote furnished to the successful Vendor within the time for acceptance specified in the quote, shall result in a binding contract without further action by either party.
