- g) *Late submissions, modifications, revisions, and withdrawal of offers.*
- a. Offerors are responsible for submitting offers and any modifications or revisions to the Government office designated in the solicitation by the time specified in the solicitation.
 - b. Any offer, modification, or revision received after the time specified for receipt of offers is “late” and will not be considered unless it is received before award is made and the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition. However, a late modification of an otherwise acceptable offer that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.
 - c. If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.
 - d. Offerors may withdraw their offers by written notice to the Government received at any time before award.
- h) *Contract award.* The Government intends to evaluate offers and award a contract without discussions with Offerors. Therefore, the Offeror’s initial offer should contain the Offeror’s best terms. However, the Government reserves the right to conduct discussions, if necessary. The Government may reject any or all offers if such action is in the public interest, accept other than the lowest offer, and waive informalities and minor irregularities in offers received.
- i) *Debriefings.* If a post-award debriefing is given to requesting Offerors, the Government will disclose the following information, if applicable:

Section 4: Evaluation – Commercial Products and Commercial Services

- j) The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:
- a. *Technical*. The technical rating reflects the degree to which the offer meets or does not meet the requirements listed in Attachment 1.

Technical Acceptable/Unacceptable Rating Method	
Adjectival Rating	Description
Acceptable	Offer meets the requirements of the solicitation.
Unacceptable	Offer does not meet the requirements of the solicitation.

- b. *Past Performance*. Past performance will be rated on an “Acceptable” or “Unacceptable” basis at the overall factor level using the ratings shown below.

Past Performance Acceptable/Unacceptable Rating Method	
Adjectival Rating	Description
Acceptable	Based on the offeror’s performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort, or the offeror’s performance record is unknown.
Unacceptable	Based on the offeror’s performance record, the Government does not have a reasonable expectation that the offeror will be able to successfully perform the required effort.

- i. Past performance information may be obtained from any sources available to the Government, to include, but not limited to, the Contractor Performance Assessment Reporting System (CPARS), Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), and the Supplier Performance Risk System (SPRS).
- ii. In the case of an offeror without a record of past performance, or for whom information on past performance is so sparse that no meaningful past performance rating can be reasonably assigned,

DEPARTMENT OF THE AIR FORCE
27TH SPECIAL OPERATIONS CONTRACTING SQUADRON (AFSOC)
CANNON AIR FORCE BASE NEW MEXICO

the offeror may not be evaluated favorably or unfavorably on past performance. Therefore, the offeror shall be determined to have "Unknown" past performance. In the context of acceptable/unacceptable, "Unknown" shall be considered "Acceptable".

c. *Price.* Pricing will be evaluated in a two-step process.

1. **Total Evaluated Price (TEP) Calculation (Weighted Pricing)**

In accordance with RFO FAR 15.104(b)(1) and 15.202(d), the Government will evaluate proposed prices to ensure they are fair and reasonable. For award purposes, the Government will calculate a Total Evaluated Price (TEP). The TEP will be determined using a weighted formula applied to the offeror's proposed prices for Contract Line Item Numbers (CLINs) 0001, 0002, and 0003.

The evaluation weights are assigned as follows:

CLIN	Description	Evaluation Weight
0001	Basic Rider Course eP1x11	25%
0002	Basic RiderCourse2 (BRC2) – Skills Practice	50%
0003	Advance RiderCourse (ARC) – Skills Practice	25%

Calculation Method:

The proposed extended price for each CLIN will be multiplied by its respective weight to determine the weighted CLIN price. The sum of these weighted CLIN prices will constitute the overall TEP used to evaluate and compare offers.

2. **Balanced Pricing Evaluation**

Following the calculation of the TEP, the Government will evaluate the offeror's proposed prices to ensure they are materially balanced in accordance with the updated RFO FAR 15.404-6 (Unbalanced Pricing)

k) *Options.* The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

DEPARTMENT OF THE AIR FORCE
27TH SPECIAL OPERATIONS CONTRACTING SQUADRON (AFSOC)
CANNON AIR FORCE BASE NEW MEXICO

- l) *Determination of Responsibility.* In accordance with FAR subpart 9.1 – Responsible Prospective Contractors, an offeror must be determined to be responsible by the Contracting Officer in order to be eligible for award.

- m) *Notice of award.* A written notice of award or acceptance of an offer furnished by the successful Offeror within the time acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
