(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from offerors, potential offerors, and others for this acquisition. (a) *Definitions.* As used in this clause—

Program participation means membership or participation in, or access or admission to: training, mentoring, or leadership development programs; educational opportunities; clubs; associations; or similar opportunities that are sponsored or established by the contractor or subcontractor.

Racially discriminatory diversity, equity, and inclusion (DEI) activities means disparate treatment based on race or ethnicity in the recruitment, employment (e.g., hiring, promotions), contracting (e.g., vendor agreements), program participation, or allocation or deployment of an entity's resources.

(b) In connection with the performance of work under this contract, the Contractor agrees as follows:

(1) The Contractor will not engage in any racially discriminatory DEI activities;

(2) The Contractor will furnish all information and reports, including providing access to books, records, and accounts, as required by the Contracting Officer, for purposes of ascertaining compliance with this clause;

(3) In the event of the Contractor's or a subcontractor's noncompliance with this clause, this contract may be canceled, terminated, or suspended in whole or in part, and the Contractor or subcontractor may be declared ineligible for further Government contracts;

(4) The Contractor will report any subcontractor's known or reasonably knowable conduct that may violate this clause to the Contracting Officer and take any appropriate remedial actions directed by the Contracting Officer; and

(5) The Contractor will inform the Contracting Officer if a subcontractor sues the Contractor and the suit puts at issue, in any way, the validity of this clause.

(6) The Contractor recognizes that compliance with the requirements of this clause are material to the Government's payment decisions for purposes of 31 U.S.C. 3729(b)(4).

(c) The Contractor must include the substance of this clause, including this paragraph (c), in subcontracts at any tier, including those for commercial products and commercial services, except those where the place of delivery or performance is outside the United States.

(End of clause)

252.217-7001 SURGE OPTION (DEC 2018)
(IAW DFARS 217.208-70(b))

(a) *General.* The Government has the option to—

(1) Increase the quantity of supplies or services called for under this contract by no more than TBD percent or TBD [insert quantity and description of services or supplies to be increased]; and/or

(2) Accelerate the rate of delivery called for under this contract, at a price or cost established before contract award or to be established by negotiation as provided in this clause.

(b) *Schedule.*

(1) When the Capabilities Analysis Plan (CAP) is included in the contract, the option delivery schedule shall be the production rate provided with the Plan. If the Plan was negotiated before contract award, then the negotiated schedule shall be used.

(2) If there is no CAP in the contract, the Contractor shall, within 30 days from the date of award, furnish the Contracting Officer a delivery schedule showing the maximum sustainable rate of delivery for items in

this contract. This delivery schedule shall provide acceleration by month up to the maximum sustainable rate of delivery achievable within the Contractor's existing facilities, equipment, and subcontracting structure.

(3) The Contractor shall not revise the option delivery schedule without approval from the Contracting Officer.

(c) Exercise of option.

(1) The Contracting Officer may exercise this option at any time before acceptance by the Government of the final scheduled delivery.

(2) The Contracting Officer will provide a preliminary oral or written notice to the Contractor stating the quantities to be added or accelerated under the terms of this clause, followed by a contract modification incorporating the transmitted information and instructions. The notice and modification will establish a not-to-exceed price equal to the highest contract unit price or cost of the added or accelerated items as of the date of the notice.

(3) The Contractor will not be required to deliver at a rate greater than the maximum sustainable delivery rate under paragraph (b)(2) of this clause, nor will the exercise of this option extend delivery more than 24 months beyond the scheduled final delivery.

(d) Price negotiation.

(1) Unless the option cost or price was previously agreed upon, the Contractor shall, within 30 days from the date of option exercise, submit to the Contracting Officer a cost or price proposal (including a cost breakdown) for the added or accelerated items.

(2) Failure to agree on a cost or price in negotiations resulting from the exercise of this option shall constitute a dispute concerning a question of fact within the meaning of the Disputes clause of this contract. (IAW FAR 29.402-3(a))

(a) *Definitions.* As used in this provision—

Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. Any exemption claimed and self-certified on the IRS Form W–14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by

the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that—

(1) It ☐ is ☐ is not a foreign person; and

Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions>.

(b) Any offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of 48 CFR Chapter 99 must, as a condition of contracting, submit a Disclosure Statement as required by 48 CFR 9903.202. When required, the Disclosure Statement must be submitted as a part of the offeror's proposal under this solicitation unless the offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal. If an applicable Disclosure Statement has already been submitted, the offeror may satisfy the requirement for submission by providing the information requested in paragraph (c) of Part I of this provision.

CAUTION: In the absence of specific regulations or agreement, a practice disclosed in a Disclosure Statement shall not, by virtue of such disclosure, be deemed to be a proper, approved, or agreed-to practice for pricing proposals or accumulating and reporting contract performance cost data.

(c) Check the appropriate box below:

☐ (1) *Certificate of Concurrent Submission of Disclosure Statement.* The offeror hereby certifies that, as a part of the offer, copies of the Disclosure Statement have been submitted as follows:

CAUTION: Offerors currently required to disclose because they were awarded a CAS-covered prime contract or subcontract of \$50 million or more in the current cost accounting period may not claim this exemption (4). Further, the exemption applies only in connection with proposals submitted before expiration of the 90-day period following the cost accounting period in which the monetary exemption was exceeded.

III. ADDITIONAL COST ACCOUNTING STANDARDS APPLICABLE TO EXISTING CONTRACTS

The offeror shall indicate below whether award of the contemplated contract would, in accordance with subparagraph (a)(3) of the Cost Accounting Standards clause, require a change in established cost accounting practices affecting

NOTICE ON THE USE OF THE SUPPLIER PERFORMANCE RISK SYSTEM

(MAR 2023)

(IAW DFARS 204.7604)

(a) *Definitions.* As used in this provision—

Item risk means the probability that a product, based on intended use, will introduce performance risk resulting in safety issues, mission degradation, or monetary loss.

Price risk means a measure of whether a proposed price for a product or service is consistent with historical prices paid for that item or service.

Supplier risk means the probability that an award may subject the procurement to the risk of unsuccessful performance or to supply chain risk (see Defense Federal Acquisition Regulation Supplement 239.7301).

(b) The Supplier Performance Risk System (SPRS), available at <https://piee.eb.mil/>, will be used in the evaluation of the Quoter or Offeror’s performance. SPRS retrieves item, price, quality, delivery, and contractor information on contracts from Government reporting systems in order to develop risk assessments.

(c) The Contracting Officer will consider SPRS risk assessments during the evaluation of quotations or offers received in response to this solicitation as follows:

(1) Item risk will be considered to determine whether the procurement represents a high performance risk to the Government.

(2) Price risk will be considered in determining if a proposed price is consistent with historical prices paid for a product or a service or otherwise creates a risk to the Government.

(3) Supplier risk, including but not limited to quality and delivery, will be considered to assess the risk of unsuccessful performance and supply chain risk.

(d) SPRS risk assessments are generated daily. Quoters or Offerors are able to access their risk assessments by following the access instructions in the SPRS user’s guide available at <https://www.sprs.csd.disa.mil/reference.htm>. Quoters and Offerors are granted access to SPRS for their own risk assessment classifications only. SPRS reporting procedures and risk assessment methodology are detailed in the SPRS user’s guide. The method to challenge a rating generated by SPRS is also provided in the user’s guide. SPRS evaluation criteria are available at https://www.sprs.csd.disa.mil/pdf/SPRS_DataEvaluationCriteria.pdf.

(e) The Contracting Officer may consider any other available and relevant information when evaluating a quotation or an offer.

This Plan shall include a delivery schedule showing the maximum sustainable rate of delivery for items in this contract. This delivery schedule shall provide acceleration by month up to the maximum sustainable rate of delivery achievable within the Contractor's existing facilities, equipment, and subcontracting structure. This Plan will address the surge capacity possible at no increase to the contract prices as well as the surge capacity possible at an additional cost. Based on this Plan, a mutually agreed to increase the quantity of supplies or services called for under this contract by no more than x % percent; and the accelerate the rate of delivery may be established for this contract, at a price or cost established after contract award or to be established by negotiation. GIDEP Applicable: No

Project Number: MGMT-2026-010

Use/Relationship: The Production Surge Plan delineates a contractor's capability to rapidly accelerate and sustain production utilizing existing facilities and equipment in a peace time acquisition environment without a declaration of war or mobilization and subsequent use of emergency war powers.

The Production Surge Plan provides data on the maximum sustainable production rate; long lead-time, critical or pacing items/components; other contracts with production surge provisions; probable surge impact; additional skilled labor requirements; strategic or critical materials, precious metals, and substitute materials; and suggested tooling to include equipment to improve surge protection capability. This data provides for surge (accelerated production) planning of select items.

- a. This Data Item Description (DID) contains the format, and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.
- b. This DID is applicable in contracts for which a production surge capability for select critical items is required.
- c. This DID reinstates DI-MGMT-80969.

Requirements:

1. Reference document. None.
2. Format. The report shall be in the contractor's format.
3. Content. The Production Surge Plan shall consist of the following:
 - 3.1. Rate. The maximum rate of sustainable production, to include a production buildup schedule by the month until the maximum sustainable production rate is achieved. When applicable, a subcontractor's or vendor's capability to accelerate production/delivery of components and materials must be taken into consideration and a

statement shall be included in the plan verifying that this vertical planning has been done.

- 3.2. List of Items. Two lists, one of subcontracted and one of non-subcontracted items/components, by nomenclature, part number, leadtime, and production buildup of long-leadtime, critical or pacing items/components which could adversely impact the production rates. (See paragraph 3.1 above). Subcontractors and vendors shall be identified by name and address for each item. This requirement shall flow down to whichever contractor tier (level) is necessary to adequately identify the long-leadtime, critical, and pacing items/components.
- 3.3. List of contracts. A list of Government contracts being performed at the contractor's facility that have a production surge provision or could reasonably be presumed to be surged. The list shall identify the contract number, the item(s), and the Defense Materials System and Defense Priorities Systems priorities assigned to each contract.
- 3.4. Impact. Describe what impact surging this contract would have on the performance of any other Government contract that might be currently surged with this contract, or what impact surging of the other Government contract(s) would have on the ability to surge this contract. Describe what impact surging this contract would have on the contractor's commercial business.
- 3.5. Labor. Identify all additional skilled labor requirements, i.e., machinist, tool makers, quality assurance, etc., necessary to support the maximum sustainable production rate.
- 3.6. List of materials. A list identifying any combination of strategic materials, critical materials, and precious metals, by type, quantity and cost, required to produce the item on contract or the subcontracted/non-subcontracted long-leadtime, critical or pacing items/components. This list should include rolling inventory to attain and maintain surge production within six months. Additionally, a list identifying any substitute materials that could be utilized in place of any combination of strategic materials, critical materials, and precious metals.
- 3.7. List of production equipment. A list of tooling, equipment and costs, down to the lowest tier subcontractor, that if acquired, would increase surge production rate capability or reduce leadtime by at least 10 percent, or as specified in the contract within current facilities limitations. The estimated increase in the surge production rate or decrease in leadtime shall be included. Data obtained under this paragraph will not be used in the preparation of the basic plan but may be used by the Government for developing additional surge capability if deemed essential.
