

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT		BPA NO.	1. CONTRACT ID CODE	PAGE	OF	PAGES
2. AMENDMENT/MODIFICATION NUMBER 0004		3. EFFECTIVE DATE	4. REQUISITION/PURCHASE REQ. NUMBER		5. PROJECT NUMBER (if applicable) 549-23-601	
6. ISSUED BY CODE Network Contract Office 17 Department of Veterans Affairs 11495 Turner Road El Paso TX 79936-4221		36C257	7. ADMINISTERED BY (If other than Item 6) CODE El Paso Contracting Office Department of Veterans Affairs 11495 Turner Road El Paso TX 79936-1372		36C257	
8. NAME AND ADDRESS OF CONTRACTOR (Number, street, county, State and ZIP Code) To all Offerors/Bidders			(X)	9A. AMENDMENT OF SOLICITATION NUMBER 36C25726B0001		
			☒	9B. DATED (SEE ITEM 11)		
			☐	10A. MODIFICATION OF CONTRACT/ORDER NUMBER		
				10B. DATED (SEE ITEM 13)		
CODE		FACILITY CODE				

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☒ is extended, ☐ is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:

(a) By completing Items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or electronic communication which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by letter or electronic communication, provided each letter or electronic communication makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified. ** HOUR & DATE for Receipt of Offers is EXTENDED to: 06-01-2026 10:00 CDT

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS, IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
☐	
☐	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
☐	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☐ is not, ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

Amendment 0004 is issued to extend the proposal due date, provide clarifications to the RFIs, and announce an additional pre-bid site visit.

The additional site visit is scheduled for Wednesday, May 13, 2026, at 10:00 AM CST. Participants will meet at the front desk/waiting area of Building 9 at the Dallas VA Medical Center, located at 4500 S. Lancaster Rd., Dallas, TX 75216.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Rhonda Richardson Contracting Officer	
15B. CONTRACTOR/OFFEROR (Signature of person authorized to sign)	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA (Signature of Contracting Officer)	16C. DATE SIGNED

Project: 549-23-601 Upgrade Chillers & Cooling Towers at Energy Center - Clarifications

1. RFI response question 12- it call for existing valves to remain and be reused, however it later call for pneumatic to be replaced.

Response: Replace any and all pneumatic actuators with DDC. Contractor shall be responsible for assessing the condition of all existing valves being reused. If the pneumatic actuator and valves cannot be converted to DOC, valve and actuator shall be replaced.

2. RFI response question 14- the answer does not match the question given and does not address the situation. There are not additional isolation valve before the pump and there is no way to change the control valve without performing a pipe freeze. Additionally, the bypass piping if after the control valve so it cannot function in per the drawings.

Response: Yes - means and methods are the contractor's responsibility. All shutdowns shall be coordinated with the VA. Provide any additional valves needed for pump/chiller replacement to ensure equipment functions according to the existing sequence of operation.

3. There seems to be some confusion on if the existing vfd's can be reused or replaced.

Response: We see no issue with the reuse of the existing VFD's that serve the existing pumps unless the new pumps have a higher HP rating. For example, if the VF D's are rated for 20 HP but a 25 HP pump is to be installed the VFD will need to be replaced. There is no option to reuse starters associated with the Chillers to be replaced.

4. Can you please provide clarification on the following? There is a discrepancy in the verbiage related to the notes below. I assume we are sticking with the current (remote mounted) configuration

Response: See response to question 6.

5. Note 14 states: 5kv solid state starter soft starter. Chiller 7 has a remote mounted, variable speed drive. Are we to match that style or follow the plans using the soft starter?

Response: Mechanical Specifications and mechanical schedules dictate the requirements for the new chillers. Spec Section 23 64 00, par 2.1.Y calls for a variable speed drive for the chillers integral to Chiller package. Chiller schedule on M-501 calls for the new chillers to be rated for 4160V service.

6. Page m-501 - chiller schedule (ccu) note 2 states: "provide factory mounted starter and disconnect switch" - the current setup has for chiller 3-6 has remote mounted solid state reduced voltage starter.

Response: This std note is applicable for 480V chiller packages, not 4160V. Note 2 is not applicable to this project.

7. Page e-201- electrical keynote: note 14 (truncated) - combination electronic 5kv solid state starter (soft starter) with disconnect for new chillers provided with chiller package.

Response: See response to RFI 5 above.

8. We received notice that eaton (the manufacturer for the fuse buckets for the existing switch gear) is not releasing pricing as they claim what is specified is no longer available. See statement from eaton below:

At the end of 2025, eaton discontinued all classic ampgard full starters and load break switch offerings. We can provide these in our nextgen ampgard. Eaton does not offer retrofit into existing cells either.

The new switches would be in entirely new structures and to close couple them to existing lineup requires splitting and separating the existing lineup to fit new structures.

Response: This project requires the replacement of (3) 350A existing molded case circuit breakers inside MCC-CH1 with (3) 225A circuit molded case breakers. There are no starters or load break switches as part of this work. This work does not require the replacement of the buckets that hold these breakers. Provide new breakers to match existing style and AIC rating. Field retrofit to MCC2 to perform this work.
