4a. Name of Requirement

165 VMS - Blaze 26 Engine Repair

b. Description of Requirement

Replace gear box between engine and transmission, flush hydraulic system, change filters, replace cores and power divider.

c. Demonstrate, in Detail, Why This Specific Item or Service, is the Only One That Meets Your Requirements

Blaze 26 originally was thought to have a transmission issue and was going to be paid by SAV-HH IAP as the fire truck is crucial to their safety operations. After the truck was diagnosed properly, it was determined there were major issues that needed to be fixed to bring the truck to an operational status. As the cost ballooned from \$15K to \$96K, SAV-HH IAP pulled out of providing assistance, leaving the 165th Airlift Wing with a dismantled Fire Truck at a repair shop. As the original transmission repairs were to be completed by W.W. Williams, it is unreasonable to have the vehicle put back together incomplete of repairs and cause further delay in critical life-safety equipment.

5a. HAS THIS BEEN PREVIOUSLY PROCURED?

☐ Yes, details are below.
 ☒ No.

6a. AUTHORITY CITED

41 U.S.C. 1901 as implemented in FAR 13.106-1(b)(1) Soliciting from a single source.

b. Reason for Authority Cited

The purpose of soliciting from a single source is to prevent further delay in mission-critical life safety equipment. The 165 AW Fire Department services SAV-HH IAP as well as the installation and a downed Fire Truck is a critical shortfall in emergency operations.

7. POSTING REQUIREMENTS

None.

8. CONTRACTING REQUIREMENTS

a. Efforts to Obtain Competition

As the vehicle was being diagnosed at the repair facility with the intention of being paid by SAV-HH IAP, this requirement was no further solicited. This is due to the extensive equipment downtime that has already taken place. A synopsis will not be posted IAW FAR 5.202(a)(13)(i).

b. Actions to Increase Competition

The 165 AW has not had a contract requirement for Fire Truck services in over five (5) years. This is due to specialized training Vehicle Maintenance receives. Currently, there is no one assigned to VMX with the required training, however, individuals are slated to attend training soon.
