4. Authority:

☒ FAR 12.102(a): For purchases not exceeding the simplified acquisition threshold (SAT), only one source reasonably available, urgency, exclusive licensing agreements, brand name, or industrial mobilization.

5. Reasons for Authority Cited:

The continued use of MEDIA LAB by Vastian software subscription is essential for maintaining the high standards of patient care and operational readiness at RAHC.

Accreditation Requirements: The maintenance of departmental procedures, policies, staff competency assessments, and continuing education courses via this platform is essential to meet and maintain stringent accreditation requirements established by the College of American Pathologists (CAP) and The Joint Commission (TJC). The digital repository provides continuous, on-demand access to all necessary documents, policies, and resources required for preparing for accreditation agency inspections.

Continuity and Efficiency: Continuing with the current vendor is critical for operational stability. It allows the clinic to forego the significant costs and disruptions associated with implementing a new web-based laboratory system, which would require extensive staff familiarization training and arduous preparation efforts for upcoming inspections. It also provides an established, efficient method for off-site Pathologists to review and approve more than 200 standard operating procedures and policies annually.

Proprietary Integrated System: MEDIA LAB by Vastian provides a unique, integrated, and proprietary suite of tools specifically designed for clinical laboratory management. Its combination of document control, compliance management, and continuing education resources in a single,

proven platform is essential to the Government's requirement, thereby precluding consideration of another company's product.

MediaLab, Inc. is currently the only authorized supplier that can provide the required software subscription access. The document management software service provided by MediaLab, Inc. includes the following: the ability to collaborate on document revisions, securely track document changes, and assurance that only the most current version of each document is in use.

MediaLab, Inc. provided a sole source letter stating: "This letter is to certify that MediaLab is the only provider of an integrated laboratory quality management platform including Virtual Microscopy Case Simulators, Compliance & CE, Document Control, Inspection Proof, Compass, Personnel Documentation, IQE and all other MediaLab software solutions. This QMS system is provided exclusively by MediaLab, Inc. and is the sole source for all of our laboratory quality solutions. Our products are not sold by any other company, organization, distributor, or other entity."

6. Publicizing Contract Actions: For FAR Part 12 actions, the public display and synopsis requirements of FAR 5.101 and FAR 5. ☒ apply and will be followed, or ☐ do not apply due to an exception at 5.202.

☒ Action is NOT a brand name restriction and is under \$350K, no posting required.

7. Market Research was conducted to determine the extent of competition available. The contract specialist conducted a dynamic small business search (DSBS) at http://dsbs.sba.gov/dsbs/search/dsp_dsbs with the NAICS code "51320" and keywords "Document Control Software". MediaLab, Inc. is an SBA certified small business. There are currently no other small businesses that can provide the proprietary items that MediaLab, Inc. provides.

The contract specialist conducted the market research on 30 March 2026. After conducting the market research, the contracting officer determined the recommended source and the company used in accordance with FAR 12.102(a): for purchases not exceeding the simplified acquisition threshold (SAT), only one source reasonably available, urgency, exclusive licensing agreements, brand name, or industrial mobilization.
