

Purchase Description Questionnaire

**RANGER Crew XP 1000
NorthStar Edition Premium
Sunset Red
04/24/2026**

ALL QUESTIONS MUST BE ANSWERED

A. **DESCRIPTION:** The Contractor shall provide to the **802nd MXSS/MDSPM Metrology Calibration Flight of the 402d Maintenance Group (MXSG) at Robins Air Force Base all materials, parts, travel, tools, training, and labor necessary for the purchase of RANGER Crew XP 1000 NorthStar Edition Premium Sunset Red.**

Included items:

(List items that must be included such as add-ons/accessories or write NONE if not applicable).

Description	Qty.	Serial #	Part #
• RANGER Crew XP 1000 NorthStar Edition Premium Sunset Red	2		R26RSU99AS
• Ranger Turn Signals with Horn	2		2883870

1. Is this an equipment item? If yes, have your Equipment Custodian contact the Equipment Manager in LRS at 78lrs.lgrm.eao@us.af.mil **prior** to procuring **any** equipment items.

Yes

2. Does the item(s) have a National Stock Number (NSN) and/or could be sourced through local base supply? If yes, contact base supply at 78lrs.cust.suppt@us.af.mil.

The item has an NSL.

We currently possess an aging fleet of Club Car golf carts. The procurement of two (2) Polaris Ranger 4-Passenger vehicles with factory-installed Climate Control (AC/Heat) is required to meet specific mission-critical environmental standards for the transport of sensitive test equipment. Choosing the **Polaris Ranger (Brand Name) avoids the additional costs associated with equipment failure or the need for frequent recalibrations due to environmental exposure.**

Funding for this critical fleet replenishment has been specifically allocated for the current Fiscal Year (FY26). Immediate execution of this procurement is required; failure to obligate these funds prior to the end of the FY will result in the expiration and loss of this funding. This loss would directly impact our baseline budget and delay essential mission support capabilities into the next FY. Market research indicates that the Polaris Ranger is the only solution that satisfies the technical requirements for enclosed climate stability and durability while remaining the most cost-effective option. Exposure to extreme temperatures and humidity during transport can compromise the reliability of test equipment, leading to inaccurate results and increased recalibration costs. The factory-integrated, climate-controlled cabin provides a stabilized environment that shields equipment from dust, moisture, and thermal shock. The Polaris Ranger chassis is built for the rigors of base-wide utility work, ensuring a longer service life and reduced maintenance compared to lighter-duty commercial golf carts. Market research has determined that the Polaris solution provides the Best Value to the government. While the Club Car alternative was analyzed at a cost of [REDACTED] for two units, it failed to meet the specific technical threshold for integrated climate control and industrial-grade durability. The installation currently possesses the technical expertise, specialized tooling, and parts inventory to maintain Polaris platforms, keeping the maintenance organic. Funding is specifically allocated for obligation in the current FY.

[REDACTED]

3. Does your requirement require any scheduled preventative/corrective maintenance? Specify?
No

4. Does your requirement require an Asset Acquisition Approval (AAA) or IT Exemption Letter? (If your requirement is something that has the potential to be connected to the network, then it requires an AAA.)
No

- Software = ALWAYS YES
- Hardware = Can it be connected to the network? (i.e. Does it have a USB port?)
- Will the Contractor require access to the Robins AFB network?

5. Does your requirement create or modify real property? Cutting, drilling, digging, major install, involving utilities or equipment involving utilities (power tie-in/water/etc.)
No

- If yes, attach a NexGen (formerly Tririga) to your package

- Who will provide the hookups/HVAC/COMM/IT/electricity/fire suppression system, etc. (Government or Contractor)
6. What is the warranty? (example - standard 12-month parts and labor warranty)
1 Year from Ship Date
7. Do you need specific deliverables through CDRLs? (Status Report, Calibration Certificate, COTS Manual, etc.)
No
8. Do you need a vendor site visit? **No**
- Is the site visit needed before or after contract award?

B. GOVERNMENT FURNISHED PROPERTY (GFP):

NOTE: If an asset will be leaving RAFB property.

1. Will the Government provide Government Furnished Property (GFP)? (If yes, the mandatory GFP Worksheet will need to be completed) **No**

C. GENERAL INFORMATION:

1. Does your requirement require Delivery? **Yes**
2. What are your delivery specifications?
- Do you have a loading dock? **Yes**
 - Stairs that the Contractor will need to use to carry items up? **N/A**
 - Will an elevator be required to deliver to a certain floor of the building? (Provide detailed delivery instructions.) **N/A**
 - Are we paying for the shipment through other means like GPC? **No**
 - Does the item need to be packed specifically (like in dry ice)? **No**
3. Does your requirement require Installation, if yes explain? **No**
4. Does your requirement require Training? **No**
- How many Government personnel will need training.
 - How many days (2-day, 3-day, 1-week, full days, half days, etc.).
5. What are YOUR scheduling requirements? (Contractor's hours of performance—i.e., 0800-1600) **N/A**
- Will the Contractor be escorted?
 - If yes, what are the core hours that a Government Representative will be able to escort?
6. Realistic need date: (When do you need this item –2 weeks or 30 days after contract is

awarded? Period of Performance?) **60 days after contract award.**

7. Will the Contractor require access to the Robins AFB network? **No**
8. Does your requirement require the Contractor to have a facility security clearance? If so, what level? **No**
9. Does your requirement require a DD 254, *Contract Security Classification Specification*? (Required when a contract involves classified info.) **No**

10. Government POCs:

PRIMARY POC:

Attn.: Jenna Singleton
802 MXSS/MXDXA
325 Richard Ray Blvd.
165., Room# 24
Robins AFB, GA 31098
Commercial phone number: 478-327-6105
Email address: Jenna.singleton@us.af.mil

ALTERNATE POC:

Brad Steverson
802 MXSS/MXDXA
325 Richard Ray Blvd
Building 165, Room 24
Robins AFB, GA 31098
Commercial phone number: 478-926-1465
Email address: thomas.steverson@us.af.mil

11. Delivery Address:

DoDAAC: **F3QCCM**
Jenna Singleton
802 MXSS/MXDXA
325 Richard Ray Blvd
Building 165, Room 24
Robins AFB, GA 31098

12. Place of Performance:

- Bldg. # (What Bldg. is the contractor's going to be working/installing/etc.? (If they are not coming on base or if item is just being delivered say NONE.) N/A
13. Does your requirement have Controlled Unclassified Information (CUI), Yes or No?
Note: Do not list your classified information on this document, work with the MAPO PM once your requirement has been assigned. No
 14. Can this be purchased through a weapon system contracting office (i.e. C-5, C-17, C-130, F-15, etc.)? If yes, work with the appropriate office for your requirement. **No**
 15. For Equipment, has 78 LRS/LGRVM ever approved this as a non-vehicle equipment item (Mitch Moody or Jennifer Nesbitt)? **Yes**

D. APPENDICES:

(Attached any military specifications, maps, drawings, etc. and list them here?)

(If you are referencing a Technical Order (T.O.), upload a copy in the FDB)
