Statement of Work**Rebuild of 10-Year-Old Oversized Marine Boat Trailer****U.S. Geological Survey – Pacific Coastal and Marine Science Center (USGS PCMSC)**

I. GENERAL INFORMATION**A. Introduction**

The U.S. Geological Survey (USGS) Pacific Coastal and Marine Science Center (PCMSC) requires the comprehensive rebuilding of a 10-year-old oversized marine boat trailer. The objective is to restore its structural integrity, modernize critical mechanical systems, and improve reliability and safety for ongoing scientific operations.

B. Background

The oversized marine boat trailer, in service for over a decade, has experienced accelerated component degradation due to frequent immersion in saltwater, heavy load stress, and environmental exposure. Key systems—including wheels, brakes, axles, and bearings—have increasingly required maintenance, resulting in unsustainable costs and declining reliability. Repairs have become more frequent and less effective due to the aging structure and limited availability of compatible parts. Rebuilding the trailer now is necessary to avoid safety hazards and ensure mission-critical equipment can continue to be deployed efficiently.

C. Definitions / Applicable Documents

- **Oversized Trailer:** A trailer that exceeds standard highway dimensions and may require special permits for transport.
- **Marine-Grade Components:** Parts and materials engineered specifically for durability in saltwater and humid environments.
- **DOT Compliance:** Conformance with U.S. Department of Transportation regulations for trailer safety and roadworthiness.

D. Scope

The contractor shall perform a complete rebuild of the oversized marine boat trailer to restore its full operational capability and improve resilience to marine environmental conditions. The work includes replacement of structural and mechanical components, inspection, and integration of updated safety systems. The rebuilt trailer shall comply with all applicable safety standards and be capable of supporting its designated vessel reliably and safely.

USGS will arrange delivery of the marine trailer upon award of contract. Below measurements are for estimate purposes and must be confirmed by awardee.

Spring center to spring center = 74"

Hub face to hub face = 103"

Front hanger spacing = 32.5"

Center hanger spacing = 37"

Rear hanger spacing = 32.75"

II. WORK REQUIREMENTS**A. Technical Requirements****1. Specific Work Requirements**

The contractor shall perform a full mechanical and structural rebuild of the 10-year-old oversized marine boat trailer. The scope of work includes the following:

- **Axles:**
 - Remove existing 9,000 lb. capacity axles and **replace** with three (3) new, complete, **10,000 lb capacity** spring axles and disc brakes.
 - *New axles should arrive from manufacturer without hubs installed (see Bearings and Hubs below)*

- Axles shall be brand new, marine-rated, corrosion-resistant, and compatible with the trailer's frame and load profile, including provisions for brake mounts and bearing housings.
- **Bearings and Hubs:**
 - Convert new axles with "[Air-Tight](#)" 10k pressurized and sealed hub protection kit.
 - Prior to ordering axles, call Air-Tight to confirm compatibility
 - 561-509-0453
 - info@airtighthubs.com
- **Braking System:**
 - **Replace** with new disc brake components compatible with 10,000 lb. cap axles
- **Wheels and Tires:**
 - Inspect existing **wheels and tires** for structural integrity, tread depth, dry rot, and marine suitability.
 - **Reuse existing wheels and tires** if they meet DOT standards and are in acceptable condition.
 - **Replace** any that are worn, damaged, or unsuitable for the higher axle load.
- **Suspension Components:**
 - **New springs with complete axle assembly**
- **Electrical System:**
 - Inspect existing **wiring harness, connectors, and lighting system** for corrosion, exposure, or degradation.
 - **Reuse sealed submersible components** if they pass functionality and safety tests.
 - **Replace** the system or parts as needed to ensure full DOT compliance.
- **Bunks and Hull Support Structures:**
 - Inspect existing **bunk boards, brackets, and support structures** for mechanical and structural integrity.
 - **Reuse components** that are intact, properly aligned, corrosion-free, and fully functional.
 - **Replace** any elements that compromise safe transport or structural support.
 - **Replace** plastic fender covers with rigid fenders
- **Safety Equipment:**
 - Inspect and **reuse** the winch, breakaway brake system, safety chains, and tie-down hardware **if in good condition and compliant** with current safety regulations.
 - **Replace** or upgrade any defective or worn parts as necessary.
- **Coatings and Corrosion Protection:**

- Inspect all steel structural components for surface rust and coating failure.
- Strip and reapply marine-grade protective coatings where needed.
- All fasteners should be inspected; **reuse stainless or galvanized hardware** that is structurally sound. Replace all others.

2. **Criteria for Acceptance**

Compliance will be measured by:

- Successful post-rebuild load and road test.
- Operational testing of brakes, lighting, safety features, and winch system.
- Documentation of pass/fail inspection results for any reused components.

B. Deliverables

1. **Work Products**

The contractor shall provide the following:

- One (1) rebuilt oversized marine boat trailer with three (3) complete 10,000 lb axles with *Air-Tight* hub protection systems.
- One (1) inspection and certification report.
- One (1) post-rebuild operational checklist and test log.
- One (1) detailed parts and service documentation package, including reused and replaced components.

2. **Delivery Dates and Point of Delivery**

- Work shall be completed within **90 calendar days** of contract award.
- Delivery location: **USGS Pacific Coastal and Marine Science Center, Santa Cruz, CA.**
- All documentation shall be provided in **both digital (PDF) and hard copy** formats upon delivery.

III. SUPPORTING INFORMATION

A. Place of Performance

All rebuild work will be performed at the contractor's facility. Delivery and pickup of the trailer must be coordinated with the USGS point of contact.

B. Period of Performance

The total period of performance shall be **90 calendar days**, inclusive of disassembly, rebuild, testing, and government inspection.

C. Government Furnished Property (GFP)

- One (1) oversized marine boat trailer (estimated value: \$30,000), provided at contract start.

52.252-1 Solicitation Provisions Incorporated By Reference (Feb 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at <https://www.acquisition.gov/far/>.

The following provisions are incorporated by reference, with fill-ins noted as appropriate:

52.203-18- Prohibition on Contracting with Entities that Require Certain Internal Confidentiality Agreements or Statements-Representation (Jan 2017)**52.204-7 – System for Award Management (March 2026)****52.212-1 – Instructions to Offerors – Commercial Items (Sep 2023)****52.219-1- Small Business Program Representations (March 2026)****52.222-48- Exemption from Application of the Service Contract Labor Standards for Maintenance, Calibration, or Repair of Certain Equipment–Certification (March 2026)****52.222-52- Exemption from Application of the Service Contract Labor Standards for Certain Services-Certification (March 2026)****52.240-90 - Security Prohibitions and Exclusions Representations and Certifications (Nov 2025)****52.212-2 – Evaluation-Commercial Product and Commercial Services (Nov 2021/Deviation March 2026)**

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers.

Lowest Price Technically Acceptable (LPTA)

Past Performance shall be considered

“Past performance” is the measure of how well you have performed similar work before. Recent and relevant past performance is preferred. Please submit at least three references with contact information. Additionally, we will utilize the Contractor Performance Assessment Reporting System (CPARS) to the extent data are available and reserve the right to use any other source of past performance information.

Each offeror must submit sufficient documentation for the USGS to evaluate their experience and past performance. Failure to provide the requested information may result in removal from further consideration.

(b) A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of Provision)

52.252-2 Clauses Incorporated by Reference (Feb 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es): <http://www.acquisition.gov/far/>

The following clauses are incorporated by reference, with fill-ins noted where appropriate:

52.203-19, Prohibition on Requiring Certain Internal Confidentiality Agreements or Statements (Jan 2017) (section 743 of Division E, Title VII, of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235) and its successor provisions in subsequent appropriations acts (and as extended in continuing resolutions)).

52.204-13 – System for Award Management-Maintenance (March 2026)

52.204-19- Incorporation by Reference of Representations and Certifications (Dec 2014)

52.209-10- Prohibition on Contracting with Inverted Domestic Corporations (NOV 2015)

52.212-4 – Contract Terms and Conditions – Commercial Products and Commercial Services (March 2026)

52.232-40, Providing Accelerated Payments to Small Business Subcontractors (MAR 2023) (31 U.S.C. 3903 and 10 U.S.C. 3801).

52.233-3, Protest After Award (AUG 1996) (31 U.S.C. 3553).

52.233-4, Applicable Law for Breach of Contract Claim (OCT 2004) (Public Laws 108-77 and 108-78 (19 U.S.C. 3805 note)).

52.240-91 - Security Prohibitions and Exclusions (Nov 2025)

[Contracting Officer check as appropriate.]

___ [52.203-6](#), Restrictions on Subcontractor Sales to the Government (JUN 2020), with *Alternate I* (NOV 2021) ([41 U.S.C. 4704](#) and [10 U.S.C. 4655](#)).

END OF CLAUSE

GS0231 Technical Liaison – Technical Clarification (Dec 2024)

a) The performance required herein shall be subject to the technical clarification of the Technical Liaison (TL) as identified below. As used herein, "technical clarification" is defined as communication to help the contractor fully understand the requirements.

(b) The Technical Liaison is not delegated any Contracting Officer's Representative responsibilities.

(c) The Technical Liaison may not modify the requirements in any way. All modifications must be authorized by the Contracting Officer.

(d) The contractor shall immediately notify the Contracting Officer, in writing, if they believe the Technical Liaison is directing work outside the requirements of this contract. The contractor may not be reimbursed for any work outside the requirements of this contract.

(e) The Technical Liaison assigned for this contract is: TBD on award [xxx]
Telephone: TBD on award
Email: TBD on award
U.S. Geological Survey
Address and Mail Stop: TBD

(f) Only the Contracting Officer may designate a new Technical Liaison.

**Electronic Invoicing and Payment Requirements - Invoice Processing Platform (IPP)
(February 2021)**

Payment requests must be submitted electronically through the U. S. Department of the Treasury's Invoice Processing Platform System (IPP).

"Payment request" means any request for contract financing payment or invoice payment by the Contractor. To constitute a proper invoice, the payment request must comply with the requirements identified in the applicable Prompt Payment clause included in the contract, or the clause 52.212-4 Contract Terms and Conditions - Commercial Items included in commercial

item contracts. The IPP website address is: <https://www.ipp.gov>

Under this contract, the following documents are required to be submitted as an attachment to the IPP invoice [Contracting Officer to edit and include the documentation required under this contract]: invoice

The Contractor must use the IPP website to register access and use IPP for submitting requests for payment. The Contractor Government Business Point of Contact (as listed in SAM) will receive enrollment instructions via email from the Federal Reserve Bank of St. Louis (FRBSTL) within 3 - 5 business days of the contract award date. Contractor assistance with enrollment can be obtained by contacting the IPP Production Helpdesk via email IPPCustomerSupport@fiscal.treasury.gov or phone (866) 973-3131.

If the Contractor is unable to comply with the requirement to use IPP for submitting invoices for payment, the Contractor must submit a waiver request in writing to the Contracting Officer with its proposal or quotation.

(End of Local Clause)

GS0199 Prevention of Malicious Code (June 2018)

(a) Definitions

Malicious code is a computer code developed for the purpose of causing some form of intentional damage to computer systems or networks. Malicious code may be a complete program or code imbedded in software programs that appear to provide useful functions. The term includes computer viruses and other destructive programs, such as "Trojan Horses" and network "worms."

(b) The contractor must have in place an anti-virus procedure to ensure that media supplied is uncontaminated by malicious code.

(c) The contractor is required to scan all delivered software to insure it is free of malicious code prior to its installation or operation on USGS-owned computers or contractor-owned computers connected to USGS computer systems or networks. Contractors using diagnostics software disks or connecting to a non-USGS computer while performing repairs or upgrades to a USGS computer will scan the serviced computer's drive(s) to insure they are free of malicious code upon completion of the service call, or prior to return of serviced equipment, if servicing is performed off-site.

GS1131 Unilateral De-obligation (May 2013)

The contractor shall submit all invoices under this award no later than ninety (90) calendar days after the period of performance has expired, unless a request for extension has been submitted to,

and granted by, the Contracting Officer. After 120 calendar days have passed after the expiration of the period of performance, the Contracting Officer reserves the right to issue a unilateral modification deobligating any unexpended funds, and to initiate closeout procedures.

(End of Local Clause)

GS1440 Wage Determination Applicable (July 2001)

In the performance of this contract, the contractor shall comply with the requirements of U.S. Department of Labor Wage Determination Number in accordance with the contractors location.

52.222-42 Statement of Equivalent Rates For Federal Hires (May 2014)

In compliance with the Service Contract Labor Standards statute and the regulations of the Secretary of Labor (29 CFR Part 4), this clause identifies the classes of service employees expected to be employed under the contract and states the wages and fringe benefits payable to each if they were employed by the contracting agency subject to the provisions of 5 U.S.C.5341 or 5 332

Employee Class	Monetary Wage – Fringe Benefits
Automotive Mechanic	-

This Statement is for Information Only: It is not a Wage Determination.
