Limited Sources Justification and Approval (J&A)

I. Contracting Activity.

45 CONS/PKD
 1201 Edward H. White II Street
 Patrick Space Force Base FL 32925
 Iris Dagani, Contracting Officer (DSN 854-██████████)

II. Nature and/or description of the action being processed.

Brand Name Justification to purchase Okta, Inc. software licenses, maintenance, and manufacturer technical support. Support will cover the 12 month period from 5/1/26 - 4/30/27. Coverage is required to provide access to the latest software updates and manufacturer support.

These additional 2,000 licenses will support user access to Nebula for multiple applications ready for testing by end users and eventual entry into the production environment.

This will be acquired via Department of Defense (DoD) Enterprise Software Initiative (ESI) in accordance with DFARS 208.7402 and DAFMAN 17-1203 for the purchase of commercial software licenses using Fiscal Year (FY) 2026, 3620 funds.

The requirement for additional Okta software licenses is being driven by the Stargate program's migration to Nebula and the for continued development of the scheduling application in the cloud environment. The Stargate program is funding the necessary licenses using their 3620 RDT&E funds.

III. Description of supplies/services required to meet agency needs.

Okta Software Licenses and support.

Part No.	Description	Qty	Price
G020	IT Products - Adaptive MFA, Annual	2,000	\$ ██████████
G021	IT Products - API Access Management, Annual	2,000	\$ ██████████
G052	IT Products - Single Sign-on, Annual	2,000	\$ ██████████
G055	IT Products - Universal Directory, Annual	2,000	\$ ██████████
G402	IT Products - Lifecycle Management, Annual	2,000	\$ ██████████
G009	Sandbox - Preview Sandbox. 15% of total annual license cost	1	\$ ██████████
G1039	Cell Add-on - Okta Military Cloud. 40% of total annual license cost	1	\$ ██████████
G1048	Okta - Premier Success Plan - Silver. 15% of total annual license cost	1	\$ ██████████
		Total	\$ ██████████

IV. Identification of the justification/rationale for limiting sources and demonstration of the contractor's unique qualifications to provide the required supply/service.

In accordance with RFO 8.401(a) and GSAR 5387104-3(b), Items peculiar to one manufacturer. A brand name item, whether available on one or more schedule contracts, is an item peculiar to one manufacturer.

Okta provides a secure identity and access management framework to allow for flexibility and tailoring for who, what, when, where, and how Government data is accessed. The Launch mission has a variety of users with different access capabilities and requirements. Okta allows launch missions to ensure secure access to CAC users and non-CAC users with the ability to add more features for access along with Adaptive Multi-Factor authentication for increased security of data and Need-to-Know enforcement.

Okta has proven through support, documentation, and demonstration during development phases for the Nebula Commercial Cloud Launch Services and other programs with similar requirements. The level of personnel required to

Limited Sources Justification and Approval (J&A)

manage the identity provider in the Nebula Cloud environment would need to be increased, causing additional cost and time, if another tool is chosen to perform these required tasks.

Okta is FedRAMP high and DISA approved for Impact Level 4 (IL4) while providing integration capabilities with other software tools and applications at IL4.

V. Determination by the ordering activity Contracting Officer that the order represents the best value consistent with FAR 8.404(d).

In accordance with R-DFARS 208.470(d), "the ordering activity contracting officer is responsible for making a determination of fair and reasonable pricing for individual orders, blanket purchase agreements (BPA), and orders under BPAs, using the proposal analysis techniques at 15.404-1."

As the DoD ESI BPA issued to Carahsoft under N66001-22-A-0082 is based on their GSA Schedule 70 IT contract 47QSWA18D008F, it identifies a minimum additional discount to the pre-negotiated GSA rates. Additionally, there are 5 authorized resellers/dealers available to submit offers under the terms of this ESI BPA and all offerors will be given fair opportunity to bid.

VI. Description of the market research conducted and the results, or explain why market research was not conducted.

In accordance with R-DFARS 208.7402 (a) Departments and agencies shall fulfill requirements for commercial software and commercial software services, such as software maintenance, in accordance with the DoD Enterprise Software Initiative (ESI) (see <https://www.esi.mil/>).

While ESI does not dictate what products or services to be acquired, market research and surveys of other Government users led to the decision to utilize Okta software.

VII. Other facts supporting the justification.

None

VIII. Actions the agency may take to remove or overcome any barriers that led to the restricted consideration before any subsequent acquisition for the supplies or services.

Reviews of the current marketplace are ongoing. As other software and/or solutions are developed, they will be considered by the agency prior to any future purchases of this software.

IX. Certification by the Contracting Officer.

As evidenced by my signature above, I have determined this document to be both accurate and complete to the best of my knowledge and belief.

X. Certification by the technical/requirements personnel.

As evidenced by my signature above, I certify that any supporting data contained herein, which is my responsibility, is both accurate and complete.
