**JUSTIFICATION FOR OTHER THAN FULL AND
OPEN COMPETITION (OTFAOC)**

Federal Acquisition Regulation (FAR) Part 6 Justification & Approval (J&A), Supporting
Procurements under FAR Part 12 and FAR Part 15

Purchase Request Number: HC1085448152

Contract Number: To be determined

Task/Delivery Order Number: Not Applicable (N/A)

Procurement Title: Defense Network Center-Pacific (DNC PAC) Video Wall Tech Refresh

Estimated Value: [REDACTED]

Statutory and Regulatory Authority: 10 U.S.C. 3204(a)(1) and FAR 6.302-1

Justification for OTFAOC Number: N/A

1. REQUIRING AGENCY AND CONTRACTING ACTIVITY:

Requiring Agency:

Defense Information Systems Agency Pacific (DISA PAC)

477 Essex Street

Joint Base Pearl Harbor-Hickam (JBPHH), HI 96860

Contracting Activity:

Defense Information Technology Contracting Organization - Pacific (DITCO-PAC)

Bldg 77, Room 129

477 Essex Street

JBPHH, HI 96860

2. NATURE/DESCRIPTION OF ACTION(S): New firm fixed price contract utilizing procurement funds to procure two (2) video walls, two (2) video processors, and associated cabling and provide incidental installation in the DNC PAC at DISA PAC, Building 77, Room 228/229, 477 Essex Street, JBPHH, HI.

3. DESCRIPTION OF SUPPLIES/SERVICES: While the requirement includes seven (7) unique information technology (IT) products, the Government requires two (2) of the items to be limited to a specific brand-name manufacturer. The first item is the Four Output Board, HDMI 4K/60 with Stereo Audio, part number 70-1113-01, and the second item is the XTP Fiber Optic Transmitter for HDMI, Multimode, part number 60-1276-11.

4. IDENTIFICATION OF STATUTORY AUTHORITY:

Only one responsible source and no other supplies or services will satisfy agency requirements, 10 U.S.C. 3204(a)(1) (FAR 6.302-1/DFARS 206.302-1)

5. DEMONSTRATION OF CONTRACTOR'S UNIQUE QUALIFICATIONS:

(a) Description of events.

This J&A limits sources for two (2) of seven (7) required IT products to a specific brand because these items must be fully compatible and interoperable with existing equipment.

(b) Justification.

(1) Minimum Government requirements.

Six (6) Four Output Boards (HDMI 4K/60 with Stereo Audio)

Four (4) XTP Fiber Optic Transmitters for HDMI (Multimode)

(2) Proposed sole source contractor (brand name manufacturer): Extron

(3) Discussion regarding cause of the sole source situation.

The output boards need to be installed in an existing Extron matrix switch, so no other brand name will be compatible. The fiber optic transmitters need to be connected to existing ports on the Extron matrix switch, and only Extron transmitters will work. It is cost prohibitive and unnecessary to replace the existing Extron matrix switch at this time since it is fully functional and not end-of-life.

(4) Impact.

If Extron brand output boards and transmitters are not provided, the equipment will not be compatible and interoperable with the existing Extron switches thus rendering the new video wall display system useless for the Watch Floor at the DNC PAC presenting a high level of risk to the Department of Defense's ability to oversee and manage the network ensuring command and control (C2) across the Indo-Pacific theater and/or results in unnecessary spending on a new switch or new parts to restore interoperability.

6. CONTRACT OPPORTUNITIES ANNOUNCEMENT/POTENTIAL SOURCES: The offer is solicited as 100% small business set-aside with limitation of sources for two (2) of seven (7) IT products. The requirement is synopsized on SAM.gov using a Combined Synopsis/Solicitation. FAR Subpart 13.5 procedures will be used. The Government anticipates multiple offers.

7. DETERMINATION OF FAIR AND REASONABLE COST: The Contracting Officer will evaluate proposals in accordance with FAR 15.404-1(b)(2). Since the Government reasonably expects adequate price competition, reasonableness will be established based on comparison of proposed prices received in response to the solicitation.

CUI

CUI

8. MARKET RESEARCH: The Government conducted market research between June and July 2024. It was determined that multiple small businesses can fulfill the requirements for this acquisition to include providing the Extron brand IT products. It was also determined to be in the best interest of the Government to replace the two (2) video walls, two (2) video processors, and associated cabling and not the connecting switches. The video walls and majority of the IT products in this requirement do not have a brand name limitation; however, the output boards and transmitters that interface with the switches need to be Extron to ensure interoperability of the system in its entirety.

9. ANY OTHER SUPPORTING FACTS: N/A

10. LISTING OF INTERESTED SOURCES: N/A, this J&A is for brand name justification only.

11. ACTIONS THE AGENCY MAY TAKE TO REMOVE OR OVERCOME BARRIERS THAT LED TO THE EXCEPTION TO FULL AND OPEN COMPETITION: N/A

TECHNICAL/REQUIREMENTS CERTIFICATION: I certify that the supporting data under my cognizance which are included in the J&A are accurate and complete to the best of my knowledge and belief.

NAME: Terri Hanaoka

SIGNATURE:

TITLE/ORGANIZATION: Electronics Engineer/DISA PAC

CONTRACTING OFFICER CERTIFICATION: I certify that this justification is accurate and complete to the best of my knowledge and belief

NAME: Jennifer L. Seese

SIGNATURE:

TITLE/ORGANIZATION: Contracting Officer, DITCO-PAC/PS71
