

52.212-1 INSTRUCTIONS TO OFFERORS--COMMERCIAL ITEMS (FEB 2026) (TAILORED)**1.0 Solicitation Information**

This solicitation seeks full and open competitive offers. The North American Industry Classification System (NAICS) code is delineated on the SF-1449 cover sheet (including NAICS and size standards).

The Government intends to award multiple award contracts to each and all qualifying offerors in response to the Program Executive Office – Defense Healthcare Management System (PEO DHMS) Deployment Solutions solicitation in accordance with 10 U.S.C. 3206(c) implemented by RFO 15.104(b)(1)(ii). Therefore, Price will not be an evaluation factor for this solicitation.

2.0 General Instructions

Points of Contact (POC): Below are the only points of contact for this solicitation. All questions or concerns shall be submitted to the Contracting Officer and Contract Specialist, using the submission instructions below. All proposal submissions shall be submitted using the instructions in Section 2.2 below. Service of protest to the Agency shall be submitted to the e-mail addresses below.

Table 1: Points of Contact

Name	Title	Email
Ms. Joyce Elaine Pace-Reed	Procuring Contracting Officer	joyce.e.pace-reed.civ@health.mil
Ms. Samantha Deluca	Contract Specialist	hailey.s.deluca.civ@health.mil

2.1. Instructions to Offerors**2.1.1 General Instructions**

- a. This section provides general guidance for preparing proposals as well as specific instructions on the format and content of the proposal. The offeror's proposal must include all data and information requested and must be submitted in accordance with these instructions. **Non-conformance with these instructions and/or submittal of an incomplete package** may result in an offer being considered unacceptable and the proposal may not be evaluated.
- b. Alternate proposals will not be accepted. If an Offeror (1) fails or refuses to assent to any of the terms and conditions of this request for proposal (RFP), (2) proposes additional terms or conditions, (3) conditions its proposal with assumptions or (4) fails to submit any of the information required by this solicitation, then the Government may consider the offer to be unacceptable and therefore ineligible for contract award.
- c. The proposal shall be clear, concise, and shall include sufficient detail for effective evaluation and for substantiating the validity of stated claims. Offerors shall assume the Government has no prior knowledge of its facilities and experience and will base its evaluation on the information presented in the offeror's proposal.
- d. Elaborate brochures or documentation, binding, detailed artwork, or other embellishments are unnecessary and are not desired. Do not include resumes.
- e. Proposals must not include classified information.
- f. All the requirements in the RFP are mandatory. Offerors' proposal submission represents that the firm will perform all the requirements specified in the solicitation.
- g. The Government may consider any failure to comply with these instructions to be indicative of what could be expected from an offeror during contract performance and may consider it a weakness of the proposal in the appropriate factors. Statements such as "will comply," "noted and understood," "in accordance with best/industry practices/standards," etc., without supporting narrative are not acceptable. **Cursory responses or responses that merely reiterate or paraphrase the solicitation language, or other information provided by the Government, will not be considered to satisfy the requirements of the solicitation.**

Note: Throughout the RFP documents, unless otherwise specified, reference to days will mean calendar days, not business days. In accordance with RFO 4.309(a)(1) the Government will retain its copy of all unsuccessful proposals.

2.1.2 System for Award Management (SAM).

Offerors will not be eligible to receive a contract award unless they are registered in SAM at the time of proposal submission and maintain an active record in SAM.

2.1.2.1 Contractor Teaming Arrangements & Joint Ventures

If an offeror is proposing under RFO Companion (FC) 9.000, where there is a joint venture or partnership, the combined entity shall be registered in SAM, and the SF-1449 must reflect the combined entity as the Prime.

Offerors shall provide Teaming Agreements in accordance with Volume IV, Section 5.

2.2 Proposal Submission Instructions for Bidscale

Proposals must be submitted electronically via a secure online submission portal by [insert due date and time]. Bidscale aids the Government in evaluating acquisitions and reduces submission rounds through a structured submission process for proposal materials. The submission portal is a tool used solely to receive and evaluate proposals for this solicitation. Only Government signed documents, including evaluation reports and contracts are considered as the official record for contractual purposes.

1. Digital Submission Portal Access:

Offerors wishing to submit a proposal must first request a user account to access the digital submission portal. To request an account, please send an email to customersuccess@bidscale.com. The email must include the following information:

- a. Subject Line: Submission Portal Account Creation
- b. First Name
- c. Last Name
- d. Email Address
- e. Company Name
- f. Solicitation Name: PEO DHMS Deployment Solutions

Please allow at least 72 hours for account creation before the submission deadline. Once the account is created, offerors will receive a confirmation email with login instructions. Only one account will be created for each offeror.

2. Upon successful account creation, proposals can be submitted through the link sent to the requesting user:

- a. Supported web browsers include Chrome, Edge, and Firefox.
- b. The proposals must follow the format and guidelines outlined in 52.212-1 of the solicitation document.
- c. All required documents and attachments must be included. Submissions not fully uploaded or submitted will not be considered.
- d. You are able to resubmit your proposal documents up until the above deadline.

3. Confirm receipt of a confirmation email for your submission

Upon submission, you will receive a confirmation email from Bidscale acknowledging receipt of your proposal. Bidscale is only authorized in a limited capacity to issue access to the submission portal and provide basic technical support with its utilization. If a confirmation email was not received or technical issues occur with the submission portal, contact Bidscale for assistance at customersuccess@bidscale.com and copy the Contracting Officer and Contract Specialist at dha.ncr.co.mbx.cd-dhms-contracting@health.mil.

4. Evaluation:

The Government reserves the right to utilize artificial intelligence (AI) tools to collect, summarize, and compile proposal and/or evaluation information during the evaluation process. AI tools will be used solely as an administrative aid. All evaluation judgments and source selection decisions will be made by Government personnel.

5. Disclaimer:

Proprietary information submitted in response to this solicitation will be protected from unauthorized disclosure as required by Subsection 27 of the Office of Procurement Policy Act as amended (41 U.S.C.423) (hereinafter referred to as "the Act") as implemented in the FAR. These companies are bound contractually by Organizational Conflict of

Interest and disclosure clauses with respect to proprietary information. Contractor personnel will take all necessary action to preclude unauthorized use or disclosure of an offeror's proprietary data.

The exclusive responsibility for source selection will reside with the Government.

The procuring Contracting Officer is the sole POC to offerors any proposal related questions. Bidscale is not authorized to address any issues/questions related to contractor proposal submissions. Offerors are encouraged to review all instructions carefully and ensure full compliance with all requests for proposal requirements to avoid any disqualification.

2.3 Communications and Solicitation Question Instructions
Communications between the Government and offerors will be controlled by the Contracting Officer and Contract Specialist. Offerors must submit all written proposal information via Bidscale Portal.

Solicitation questions must be submitted to the Contract Specialist attention via email dha.ncr.co.mbx.cd-dhms-contracting@health.mil. Solicitation questions must be submitted no later than [insert date and time]. Questions provided using different means will not be considered. The Government will provide a response to the questions via SAM.gov. Responses may or may not require an amendment. Offerors are responsible to monitor SAM.gov for the most recent information for this solicitation.

2.3.1 Discussions

The Government will provide awards to all technically acceptable proposals. The Government intends to award without discussions or establishment of a competitive range; however, the Government reserves the right to hold discussions. If, during the evaluation period, it is determined to be in the best interest of the Government to hold discussions, offeror responses to Evaluation Notices (ENs) and the Final Proposal Revision (FPR) will be considered in making the source selection decision.

As the Government does not intend to hold discussions, offerors are advised to submit initial proposals that are well defined and clearly acceptable without additional information or substitute pages. Further, initial proposals should contain the offeror's best terms rather than relying on the potential for future negotiations.

2.3.2 Clarifications

Offerors may be given the opportunity to clarify certain aspects of the proposal or resolve minor or clerical errors. Such clarifications shall not be considered discussions. Offerors will not be given an opportunity to respond to any identified weaknesses or deficiencies or revise their proposals.

2.4 Amendments to Solicitation

If this RFP is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this request by the day and time specified in the amendment(s).

2.5 Period of Acceptance of Offers

The offeror agrees to hold its proposal firm for 180 calendar days from the date specified for receipt of offers.

2.6 Discrepancies

If an offeror believes that the requirements in these instructions contain an error, omission, or are otherwise unsound, the offeror shall immediately notify the Contracting Officer in writing via e-mail with supporting rationale as well as the remedies the offeror is asking the Contracting Officer to consider as related to the omission or error.

3.0 Proposal Content

The purpose of these instructions is to prescribe the format of proposals and describe the approach for the development and presentation of proposal information. Proposals shall be submitted in accordance with these instructions or will be considered non-compliant.

3.1 Page Limitations

All proposals must comply with the page limitations identified in the applicable tables below. Page limitations shall be treated as maximums. If exceeded, the excess pages will not be read or considered in the evaluation of the proposal. Title pages, cover pages, tables of contents, tab indexing, glossaries, and lists of tables and figures are not included in page limitations. Legible tables, charts, graphs and figures may be used to depict organizations, systems and layout, implementation schedules, plans, etc., when described under specific factors below.

3.2 Page Size and Format for Written Proposal Submission

A page is defined as one 8.5" x 11" electronic page with 1" margins and no smaller than a 10-point font size. The font shall be Times New Roman. NOTE: The font size limitation applies to all narrative elements, graphics, art, figures, imported charts, charts, and any other graphical representation that includes text (font type can be varied depending on the medium). Pages shall be numbered sequentially by volume. Pages shall include line numbering to support review.

3.3 Title Page (not included in the page count)

Each volume must include a title page. The title pages must show:

- Solicitation Number, and
- Name, address, telephone numbers and e-mail address of the offeror

3.4 Cross-Referencing

The proposal volumes shall be written on a stand-alone basis so that its contents may be evaluated without cross-referencing to another volume. Information required for proposal evaluation which is not found in its designated volume will be assumed to have been omitted from the proposal.

3.5 Indexing

Each volume shall contain a detailed Table of Contents to delineate the subparagraphs within that volume. Tab indexing shall be used to identify sections and will not count against page limitations IAW paragraph 3.1.

3.6 Glossary of Abbreviations and Acronyms

Each volume shall contain a glossary of all abbreviations and acronyms used, with an explanation for each. As stated above in paragraph 3.1, glossaries do not count against the page limitations for their respective volumes.

3.7 Compliant

Documents submitted in response to this solicitation must be fully compliant to and consistent with the terms and conditions of the solicitation or may result in being rejected as noncompliant and not being evaluated.

4.0 Proposal Instructions

Table 2 provides a list of each volume, documents, file type, maximum page limits, and file formats.

Table 2: Proposal Volumes

*NOTE: Volumes shall consist of the information specified for each evaluation factor listed below. All documents shall be searchable and capable of using highlights and comment boxes. **No pricing information shall be included in Volumes I, II, III, and IV.***

FACTOR 1: CHALLENGE SCENARIO

Offerors shall provide a (1) proposed Deployment Approach (A003) (Volume 1: Factor 1 – Challenge Scenario 1a) as well as a (2) proposed Deployment Approach (A003) (Volume 1: Factor 1 – Challenge Scenario 1b) based on both of the following scenarios.

The Program Executive Office Defense Healthcare Management Systems (PEO DHMS) is modernizing its global healthcare capabilities, which includes the multi-faceted deployment of DHMS products (Federal Electronic Health Record (EHR) and Operational Medicine (OpMed)). The objective is to create a secure, seamless, and interoperable health information ecosystem that supports warfighters from the point of injury in austere, forward-deployed locations to definitive care.

Offerors shall propose an innovative and scalable deployment plan addressing two interconnected lines of effort as outlined below. The proposed approach shall address hardware and/or component installation and configuration across various networks, continuous patient data access, and comprehensive user training tailored to the operational environment and a diverse user audience. Additionally, the plan shall incorporate proactive risk mitigation strategies to address deployment complexities and ensure mission success.

1a) Federal EHR product modernization and deployment: This effort focuses on the full implementation of the Federal EHR at established, high-capacity treatment facilities.

Scope:

- One large accredited Outside Continental U.S. (OCONUS) medical center (250 beds), including two community hospitals (125 beds) and five associated out-patient clinics spread across multiple time zones with approximately 5,000 total users that includes foreign national employees and 50,000 beneficiaries.
- Services: Full-spectrum healthcare services are in scope, including inpatient, outpatient, acute, ambulatory, specialty, and dental care. This also includes all associated Revenue Cycle services such as billing, patient accounting, and referral management.
- Technical Environment: The solution must be integrated with a complex array of hardware, including medical devices and IT systems that require real-time, secure data exchange.

1b) OpMed products' modernization and deployment: This effort delivers mobile and interoperable OpMed solutions to medical forces in deployed and tactical environments in both the Continental U.S. (CONUS) and OCONUS. This includes theater hospitals, hospital ships, forward resuscitative sites, and submarines. These scalable deployments can occur concurrently across multiple sites, countries, or theaters, in remote or austere environments with each location receiving one or more products tailored to mission requirements. The deployment includes the OpMed product suite: Battlefield Assisted Trauma Distributed Observation Kit-Joint (BATDOK-J), Operational Medicine Care Delivery Platform (OpMed CDP), Theater Blood-Mobile (TBLD-M), and Medical Hub (MedHub).

Scope:

- Deploy globally to over five sites/units simultaneously across forward-deployed locations managed by multiple Services in EUCOM and INDOPACOM (Role 1-3) with uncertain schedule and complex infrastructure. This includes deployments from Naval vessels and field hospitals to forward resuscitative and enroute care teams

- Services & Interoperability: Full-spectrum healthcare services are in scope, including ambulatory care, emergency trauma, surgical stabilization, enroute care, behavioral health, forward resuscitative, ancillary services (pharmacy, lab, imaging), and blood inventory and management. A critical requirement is ensuring seamless data transmission through all roles of care and aggregating medical data for Command and Control Situational Awareness (C2SA) reporting.
- Technical Environment: The plan will address integration with complex Service-specific hardware and diverse Service networks, ensuring system security even in disconnected, intermittent, and low-bandwidth (DIL) environments. The plan should address options for low-to-no touch deployments, where the products will be remotely deployed and/or trained to the field.

FACTOR 2: SMALL BUSINESS PARTICIPATION

Offerors shall submit an approach (Volume II) that the Government will evaluate for compliance with the small business utilization goals provided below. Offerors may claim small business credit for subcontractors to the third tier.

- (1) The following reflects **minimum Subcontracting Goals** for this procurement and shall be used in the development of the Offeror's submission for Factor 2:
 - i. Total Small Business - 30%
 - ii. Small Business – 12%
 - iii. HUBZone Small Business - 3%
 - iv. Service-Disabled Veteran-Owned Small Business - 5%
 - v. Small Disadvantaged Business - 5%
 - vi. Women-Owned Small Business - 5%

The above minimum goals are provided as a baseline for small business participation. The Offeror, regardless of business size, shall propose small business participation for this specific requirement.

- (2) Offerors shall provide a table identifying all proposed subcontractors, up to the third tier, individually by name with addresses, business type (Other Than Small Business, Small Business, Small Disadvantaged Business, Women-Owned Small Business, Veteran-Owned Small Business, Service-Disabled Veteran-Owned Small Business, and HUBZone Small Business) as determined by the SBA size standard for the specific work being subcontracted; the principal service/supply being provided by the subcontractor; NAICS Code; and the complexity of the service/product provided (defined as the depth of capabilities and essential, non-commoditized services provided). The table shall describe the extent of small business participation for this procurement with percentage and dollar amounts for specific small business categories.
- (3) Offerors shall include evidence, such as binding letters of commitment subject only to contract award, of the Offeror's ability to meet the small business participation goals.
- (4) Offerors shall include an approach to achieve these participation goals throughout the life of the contract.
- (5) Offerors shall provide evidence of meeting small business goals on prior contracts. If, historically, the Offeror has not met/exceeded small business goals, an explanation shall be provided on what actions were taken or will be taken to meet the goals on Deployment Solutions.

FACTOR 3: SUPPLY CHAIN RISK

In accordance with DFARS RFO Class Deviation 212.203, offerors shall submit a Supply Chain Risk Management Plan (Volume III). The plan must describe processes for identifying, assessing, and mitigating supply chain risks associated with hardware, software, and firmware, and confirm compliance with applicable DFARS 252.204-7017 and 252.204-7018 and FAR 52.204-8 Deviation, 52.204-26 52.240-90, and 52.240-91 requirements.

VOLUME IV: CONTRACT DOCUMENTS

(1) Cover Letter

The Offeror's proposal shall include a cover letter on the Offeror's letterhead stationery and signed by an executive of the company who possesses authority to bind the Offeror contractually. The cover letter shall acknowledge receipt of all amendments (if any are issued) to the RFP. The submittal letter shall identify all enclosures being transmitted as part of the response to the RFP. The letter shall reference the RFP number and acknowledge that the Offeror is submitting an offer in response to the RFP. It shall state: (1) Commercial and Government Entity (CAGE)

number, (2) Unique Entity Identifier (UEI), (3) Taxpayer Identification Number (TIN), and (4) a statement that the proposal is valid 180 days past the estimated award date.

(2) Organizational Conflict of Interest (OCI) Declaration and Disclosure

Offerors shall complete and submit Attachment 16, OCI Declaration and Disclosure, Notice of Organizational Conflict of Interest. In addition, the Offeror shall provide a complete list of all team members (including all subcontractors at all tiers) so the Government may perform an independent OCI assessment. In accordance with RFO 9.504, the Contracting Officer may withhold award from any Offeror when a conflict of interest is determined to exist that cannot be avoided or mitigated.

(3) Support Contractor Proposal Access Consent

Contractor support personnel from the below listed companies under existing PEO DHMS contracts will be used for administrative purposes only. This assistance will not include analyzing or evaluating proposals.

Table 3: Contractor Support Personnel - Administrative

Company	POC	Contact Information
Unison Global (aka Bidscale)	Ben Ro	Ben.Ro@unisonglobal.com
Unison Global (aka Bidscale)	Kelsey Fryling	Kelsey.Fryling@unisonglobal.com

Proprietary information submitted in response to this solicitation will be protected from unauthorized disclosure as required by Subsection 27 of the Office of Procurement Policy Act as amended (41 U.S.C. 423) (hereinafter referred to as "the Act") as implemented in the FAR. Contractor Support Personnel are bound contractually by Organizational Conflict of Interest and disclosure clauses with respect to proprietary information. Contractor personnel will take all necessary action to preclude unauthorized use or disclosure of an Offeror's proprietary data.

Responses to this solicitation MUST clearly state permission is granted allowing the contractor support identified above access to the contractor's proposal. Subcontractors that provide proposal information separate from the Prime contractor's proposal submittal shall clearly state permission is granted allowing the contractor support identified above access to the subcontractor's proposal. The Offeror and its subcontractors may choose to execute a proposal access agreement with these support contractors. Failure to clearly state permission is granted for access to the contractor's proposal may result in the offer being deemed unacceptable and therefore ineligible for contract award.

The exclusive responsibility for source selection will reside with the Government.

(4) Small Business Subcontracting Plan

Offerors (unless otherwise exempt due to being a small business concern or a company performing outside of any State, territory, or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico) shall, in accordance with RFO 19.109 and FAR 52.219-9, submit a Small Business Subcontracting Plan, as part of Volume III. The Small Business Subcontracting Plan will be approved and incorporated into any resultant contract in accordance with RFO 19.109 and FAR 52.219-9.

If the Offeror is a participant in the Department of Defense/War (DoD/W) Comprehensive Subcontracting Test Program specified in DFARS RFO Class Deviation 219.206-70, then the Offeror shall provide a copy of the approved comprehensive plan and describe how small business participation on this contract will contribute to its overall comprehensive subcontract goals.

Failure to deliver the documents specified above that allow for determination under RFO 9.104 will result in rejection of the proposal.

Offerors shall submit a copy of any DCMA Subcontracting Compliance Rating letters, if applicable.

(5) Teaming Agreements

Offerors shall include all executed Deployment Solutions teaming agreements. If an Offeror is proposing under RFO 9.104-3(c)(2), where there is a joint venture or partnership, the Government would expect that the combined entity be registered in SAM, and the contract document would reflect the combined entity as the Prime.

(End of Provision)

52.212-2 EVALUATION--COMMERCIAL ITEMS (FEB 2026) (TAILORED)

1.0 Basis for Contract Award

The Government intends to make an Indefinite Delivery, Indefinite Quantity (IDIQ) multiple award contract to each and all qualifying offerors as defined in RFO 2.201 whose offer conforms to the solicitation requirements and is determined to be a responsible offeror in accordance with RFO Part 9 – Contractor Qualifications. The Government will evaluate each proposal in accordance with the evaluation criteria. A proposal will be considered “Technically Acceptable” if it receives a rating of “Acceptable” in all evaluation factors below. A proposal that receives a rating of “Unacceptable” in any factor will be deemed technically unacceptable and ineligible for award, except as provided under Factor 1 (Challenge Scenario) with respect to the Challenge Scenarios 1a and 1b. For purposes of Factor 1 (Challenge Scenario), an offeror will be rated Acceptable if it receives an Acceptable rating in either Challenge Scenario 1a, Challenge Scenario 1b or both. Offerors that receive an Unacceptable rating in either 1a or 1b, yet receive an Acceptable rating in either 1a or 1b will remain eligible for award.

All awardees under this solicitation will be eligible to compete for any task order issued within the scope of this resulting IDIQ contract. The Government does not intend to establish pools, channels, or scope-based limitations on task order competition based on the Challenge Scenario evaluation results.

This source selection will be conducted in accordance with RFO Part 12, Acquisition of Commercial Items and RFO Part 15, Contracting by Negotiation, as supplemented by the Defense Federal Acquisition Regulation Supplement (DFARS). These regulations are available electronically at <https://www.acquisition.gov/far-overhaul/far-part-deviation-guide>.

Note that the Government will not award a contract to an offeror whose team has an unmitigated organizational conflict of interest. Evaluation of an offeror’s proposal will be based on the information presented in the proposal. Proposals which are unsubstantiated in terms of technical or schedule commitments, may be deemed to be reflective of an inherent lack of technical competence, or indicative of a failure to comprehend the complexity and risks of the proposed work and may be grounds for rejection of the proposal or may be considered a performance risk, impacting the rating under the applicable Factor.

The Government will not award contract(s) to offerors that do not provide acceptable documents as required in Volume III. Issues involving compliance or standards of responsibility may be resolved in clarifications with the process outlined at 52.212-1 paragraph 2.3.2 and will not trigger the requirement for discussions with all offerors. If the Government is unable to determine the offeror compliant in accordance with the solicitation, and responsible in accordance with RFO Part 9 – Contractor Qualifications, as applicable, the offer will be rejected.

2.0 Evaluation Factors

The following evaluation factors will be used to evaluate each proposal. Award will be made to each and all qualifying offerors whose proposals are determined to be Technically Acceptable and whose firms are determined to be responsible.

Factor 1: Challenge Scenario

Factor 2: Small Business Participation

Factor 3: Supply Chain Risk

Offerors rated with Unacceptable in any Factor will not be eligible for award. For clarity, if an offeror addresses Challenge Scenario 1a and 1b and receives an Acceptable in one scenario, however, receives an

Unacceptable in the second scenario, the offeror is still technically acceptable in Factor 1 and will remain eligible for award.

FACTOR 1: CHALLENGE SCENARIO

Table 4: Factor 1 Challenge Scenario Acceptable/Unacceptable Ratings

Rating	Definition
Acceptable	The proposal addresses all required minimum elements of the challenge scenario and presents a feasible and coherent approach. The Government has a reasonable expectation of successful performance. Any identified risks are manageable and do not indicate unsuccessful performance is likely. Offerors must receive at least an Acceptable rating in either 1a or 1b to be considered Acceptable for this factor.
Unacceptable	The proposal fails to address one or more of the required minimum elements of the challenge scenario, contains material deficiencies, or presents performance risks that indicate unsuccessful performance is likely. Offerors who receive an Unacceptable rating in both 1a and 1b are considered Unacceptable for this factor.

The Government will conduct two separate evaluations of the offeror's proposed Deployment Approach (A003): one for Volume 1: Factor 1 – Challenge Scenario 1a and one for Volume 1: Factor 1 – Challenge Scenario 1b. To be rated **Acceptable**, the offeror's proposal must meet the following minimum requirements for each applicable sub-factor:

Sub-Factor 1: Program Management and Governance

The proposal must describe a program management and governance approach that:

1. Includes a framework for managing, monitoring, and controlling all activities described in the challenge scenario.
2. Addresses procedures for governance, risk management (identification, analysis, and mitigation), integrated scheduling, quality control, and stakeholder communication.
3. Addresses the unique management challenges of supporting concurrent deployments in fixed-facility (OCONUS medical center) (1a) or operational/expeditionary environments (1b).

Sub-Factor 2: Deployment and Integration

The proposal must describe a deployment and integration approach that:

1. Includes a methodology for site preparation and configuration (including data collection, migration, and integration).
2. Includes a methodology for ensuring ongoing compliance with accrediting agencies (as it applies to 1a).
3. Addresses integration with hardware, medical devices, and networks (as it applies to 1a).
4. Addresses integration with hardware, medical devices, and diverse Service-specific networks (as it applies to 1b).
5. Addresses how system security and data exchange will be maintained in disconnected, intermittent, and low-bandwidth (DIL) environments (as it applies to 1b).
6. Presents at least one option for a low-to-no touch remote deployment for OpMed products (as it applies to 1b).

Sub-Factor 3: Continuity and Logistics

The proposal must demonstrate a continuity and logistics approach that:

1. Addresses how the continuity of healthcare delivery documentation will be maintained during deployment to minimize disruption to patient care.
2. Addresses personnel travel requirements, including adherence to Status of Forces Agreements (SOFA) where applicable.
3. Includes a methodology for network integration of all required hardware (as it applies to 1a).
4. Includes a methodology for supply chain management (as it applies to 1a). Includes a methodology for managing the procurement, delivery, and tracking of hardware (as it applies to 1a).

Sub-Factor 4: Training

The proposal must demonstrate a training approach that:

1. Is scalable for a diverse user base across multiple time zones and locations.
2. Leverages existing curriculum.
3. Provides role-based training.
4. Includes methods for assessing user training performance and overall training effectiveness.
5. Protects Personally Identifiable Information (PII) and Protected Health Information (PHI).
6. Presents at least one option for 1a and three options for 1b for low-to-no touch remote training delivery.

Sub-Factor 5: User Adoption and Change Management

The proposal must demonstrate a user adoption and change management approach that:

1. Fosters and measures successful user adoption of the new product(s).
2. Details a methodology for proactive stakeholder engagement, strategic communications to drive user buy-in, and manage resistance to change.

The evaluation of Challenge Scenarios 1a and 1b is conducted solely to determine Factor 1 Acceptability at the IDIQ level and does not restrict task order competition eligibility.

FACTOR 2: SMALL BUSINESS PARTICIPATION**Table 7: Factor 2 Acceptable/Unacceptable Ratings**

Rating	Definition
Acceptable	Proposal meets the minimum requirements of the solicitation.
Unacceptable	Proposal does not meet the minimum requirements of the solicitation.

The Government will evaluate the offeror's small business participation goals provided in the Addendum to 52.212-1.

The Government will evaluate the offeror's proposed small business participation approach to ensure that it meets the goals identified in FAR 52.212-1 Addendum.

The Government will evaluate whether the offeror's approach thoroughly explains how it will meet all small business goals throughout the life of the contract.

The Government will evaluate whether the proposed approach clearly evidences the offeror's ability to meet the offeror's proposed goals. The Government will evaluate the offeror's explanation of historical achievements of meeting proposed small business goals. If, historically, the offeror has not met small business goals, the Government will assess the Offeror's explanation of what actions it took to rectify the situation and what actions it will take to meet its proposed goals on DHMS Deployment Solutions MAC. If the above criteria are not met, the Government will consider the offer to be unacceptable and therefore ineligible for contract award.

FACTOR 3: SUPPLY CHAIN RISK**Table 8: Factor 3 Acceptable/Unacceptable Ratings**

Rating	Definition
Acceptable	Proposal meets the minimum requirements of the solicitation.
Unacceptable	Proposal does not meet the minimum requirements of the solicitation.

The Government will evaluate the offeror's approach to mitigating supply chain risk for information technology supporting a covered system. To be rated Acceptable the offeror's proposal must meet the following minimum requirements provide a feasible and coherent approach to identify, assess, and mitigate supply chain risks associated

490 with hardware, software, and firmware, and confirm compliance with DFARS 252.204-7017 and 252.204-7018 and
491 FAR 52.204-8 Deviation, 52.204-26 52.240-90, and 52.240-91 requirements.
