
Department of the Air Force: Justification for Other Than Full and Open Competition

Dollar Value of this Acquisition: ☒ ≤ \$10M ☐ > \$10M and ≤ \$100M ☐ > \$100M and ≤ \$500M ☐ > \$500M

CERTIFICATIONS: CO certification serves as J&A approval ≤ \$10M, [See J&A Template Guidance](#) [REDACTED] for completing the J&A sections and J&A Approval Guidance

Date	Contracting Officer (RFO 6.104-1(12))	Signature
09 April 2026	 I certify that this justification is accurate and complete to the best of my knowledge and belief.	
Date	Technical and Requirements Personnel (RFO 6.104(b))	Signature
24 March 2026	 I certify that the supporting data herein, which is my responsibility, is accurate and complete.	

COORDINATION

APPROVALS (RFO 6.104-2(a) Table 6-1 & R-DFARS 206.104-72 Table 206.1)

Department of the Air Force: Justification for Other Than Full and Open Competition

I. Agency and Contracting Activity (RFO 6.104-1(a)(1)):

II. Nature and/or description of the action being approved (RFO 6.104-1(a)(2)):

This requirement is for purchase for a software upgrade and maintenance for Tactical Data Link Studios (TDLS) and for maintenance of WinIDM from Aeronix Inc., for [REDACTED]

Aeronix's proprietary software, TDLS and WinIDM, is the only solution that can meet this need for the systems at [REDACTED] without extensive modifications and product with form, fit and function required to integrate with the existing legacy system.

III. Description of supplies/services required to meet agency needs (RFO 6.104-1(a)(3)):

- 1.) P/N AE404226-001, Tactical Data Links Studio (TDLS), Qty 1
- 2.) P/N AE404226-MAIN, Tactical Data Links Studio (TDLS) Maintenance, Qty 1
- 3.) P/N AE400378-MAIN, WinIDM Maintenance, Qty 1

IV. Statutory Authority Permitting Other Than Full and Open Competition (RFO 6.104-1(a)(4)):

10 U.S.C. 3204(a)(1), Only one responsible source and no other supplies or services will satisfy agency requirements.

V. Rationale for Use of Authority (RFO 6.104-1(a)(5)):

Aeronix's Tactical Data Links Studio (TDLS) and WinIDM software can support the legacy systems platforms at [REDACTED] and procuring Aeronix's upgraded software, TDLS is critical for continued support and annual maintenance. The software will be upgraded from Aeronix, Inc's Protocol Analyzer, IDM Workbench, and Network Sim. Aeronix's proprietary software, TDLS and WinIDM, is the only solution that can meet this need for the existing legacy systems at [REDACTED]

It meets all requirements, including the ability to [REDACTED] without needing extensive modifications. TDLS is compatible with the [REDACTED] existing lab infrastructure and test environments. They have exclusive control over the source code. Aeronix is the only vendor capable of providing authoritative technical support, bug fixes, and software updates for TDLS. Their direct control over the development roadmap ensures the software remains current with evolving standards and mission needs as they do not have any authorized resellers.

VI. Integrated Market Analysis and Efforts to Solicit Competition (RFO 6.104-1(a)(6), (8), and (10)):

To identify potential sources for the required Tactical Data Links Studio software and maintenance or a market survey was conducted using Internet searches and government databases such as GSA, Ability One and Government Mandatory sources. Our findings show that Aeronix, Inc is the sole developer of the proprietary software TDLS, and does not have authorized resellers. The survey also confirmed that there are no alternative commercial products that can meet the requirement to [REDACTED] for the existing [REDACTED]

[REDACTED]

Department of the Air Force: Justification for Other Than Full and Open Competition

legacy systems at [REDACTED]

A pre-solicitation notice will be posted on SAM for no more than 15 days IAW RFO 5.101(a) to ensure that no alternative vendors are capable of meeting this requirement.

VII. Determination of Fair and Reasonable Cost (RFO 6.104-1(a)(7)):

The Contracting Officer is responsible for evaluating, determining, and documenting the anticipated contract cost/price is fair and reasonable in accordance with RFO Subpart 15.4, Contract Pricing.

VIII. Any Other Facts Supporting the Justification (RFO 6.104-1(a)(9)):

The Air Force has previously purchased the old software from Aeronix, Inc. under the following:

FA930220P0007 - Aeronix, Inc. Cage Code: 1EWB, Commercial FFP

IX. Actions to Overcome Barriers to Competition (RFO 6.104-1(a)(11)):

Both the Mission Partner and Contracting will strive to perform market research and for alternative sources for the software to integrate into the legacy systems. However with Aeronix, Inc not having authorized resellers this requirement may continue to be a sole source acquisition.
