52.212-2 Evaluation-Commercial Products and Commercial Services.

(Nov 2021)

As prescribed in 12.301(c), the Contracting Officer may insert a provision substantially as follows:

Evaluation-Commercial Products and Commercial Services (Nov 2021)

(a) The Government intends to award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

1. Technical with Past Performance:

The Government intends to award to the offeror, who has the lowest priced, technically acceptable proposal unless the Contracting Officer is aware of past performance information related to the lowest priced proposal offeror, which indicates that the proposal may not represent the best value to the Government. In that case, the Government reserves the right to consider the past performance of other offerors with technically acceptable proposals, and conduct a price, past performance tradeoff analysis, and award to an offeror that its proposal price is higher than the lowest priced proposal.

A technically acceptable proposal is one that provides pricing on every item specified in the solicitation and meets all requirements. If not priced accordingly, the Contracting Officer may find a proposal unacceptable. If so, the Contracting Officer or Ordering Officer will not consider proposals rated technically unacceptable further for award.

If further past performance evaluation is necessary, the Contracting Officer will evaluate past performance using systems and/or information available to the Government and rating of acceptable or unacceptable will be assigned.

The Government will review internal databases (i.e. Supplier Performance Risk System and SAM Responsibility and Qualifications) to evaluate the quoter's past performance. The Government reserves the right to use other sources of information, as deemed necessary.

One of two possible ratings will be assigned, Acceptable or Unacceptable. Acceptable means the Government has confidence that the Quoter will be able to successfully perform the effort described in the solicitation based on their record of successful performance. Unacceptable means the Government is not confident in the Quoter's ability to successfully perform the effort described in the solicitation based on a record of unsuccessful performance.

2. Price

An offeror's quoted pricing will be determined by adding the total for each CLIN in the provided Exhibit A. The Government will evaluate offers for award purposes summing the total price for the entire order.

The Government will evaluate pricing to determine the following:

- a. Completeness: All price information/data required in the Solicitation has been submitted.
- b. Reasonableness: Price is reasonable to the Government. Reasonableness will be determined by using the price analysis techniques outlined in FAR Part 12.
