

SP-PROCURE

MARYLAND ARMY NATIONAL GUARD

Catering Meals for the 70th Regional Training Institute (RTI)
STATEMENT OF WORK (SOW)

Controlled by: National Guard Maryland- Property &
Fiscal Office-Procurement (NGMD-PFO-P)
Category: General Procurement & Acquisition
(SP-Procure)

1.0 Introduction and Purpose

This Statement of Work (SOW) defines the requirements for a Contractor to provide fully catered meals and deliveries to 70th Regional Training Institute (RTI). The purpose of this contract is to ensure the consistent provision of high-quality, safe, and nutritious meals to all designated personnel. The Contractor shall furnish all necessary meals, materials, equipment, and transportation to perform the supply described herein, in strict compliance with all applicable Maryland state and food regulations in this SOW.

Purpose: The meals will support service members participating in Officer Candidate School (OCS) and the Basic Military Police Course (BMPC) Annual Training. OCS is designed to teach leadership skills for future Army National Guard Officers, while the BMPC Annual Training serves to enhance the soldiers' skills and strengthen the workforce.

2.0 Scope of Work

The Contractor shall prepare and deliver meals for breakfast, lunch, and dinner to designated location described in paragraph 3.2 Exhibit 1. This includes sourcing all ingredients from approved suppliers, preparing meals in a licensed commercial facility, packaging them for safe transport, delivering them on schedule, and providing all necessary serving utensils.

3.0 Delivery Style

Delivery Style: The Contractor shall provide all meals in aluminum covered containers. Each complete meal shall include an entree, a starch, a vegetable, bread, a dessert, a salad, and beverages designated to the meal plan or the day.

3.1 Location: Building E4225, Otto Road, Gunpowder, MD 21010

3.2 Delivery Schedule

Times: Breakfast: 0800 – 0900 EST

Lunch: 1200 – 1:00 PM EST

Dinner: 5:00PM – 6:00 PM EST

Special Instruction for Delivery Schedule for OCS Phase 1, Exhibit 1:

1. The Vendor shall deliver all meals in strict accordance with the specifications outlined in paragraph 3.1.
2. For the "FIELD" requirement (Column #2, dates 19–21 June): The Vendor must securely pack and deliver exactly 306 breakfast meals. These meals shall be segregated and delivered in separate containers specifically designated for direct distribution to Warfighters during field training operations.
3. For the "FIELD" requirement (Column #2, dates 18–21 June): The Vendor must securely pack and deliver exactly 408 dinner meals. These meals shall be segregated and delivered in separate containers specifically designated for direct distribution to Warfighters during field training operations.

Note: All meals from Exhibits will be delivered to the address indicated on the SOW, paragraph **3.1**

4.0 Transportation

Vehicles: Food shall be transported in clean, covered vehicles.

Personnel and Vehicle Requirements: All delivery personnel must present a valid, unexpired government-issued photo ID. This includes a REAL ID-compliant driver's license, a U.S. passport or passport card, or a permanent resident card.

Temperature Control: Food must be delivered in insulated containers capable of maintaining the required safe temperatures (145°F for hot, 41°F for cold) throughout transport until the point of service.

During the transportation of meals, the Contractor should have the following consideration:

- a. Containers of cool food should be placed in the coolest part of the vehicle. Vehicles should be clean.
- b. The food carrying area should be thoroughly cleaned or lined up to prevent any contamination. The journey should be properly planned and be kept short as possible.

5.0 Contractor Tasks and Responsibilities

Contractors must maintain sanitation and hygiene standards in food preparation, transport, and handling of each meal that will be delivered. The Contractor and its employees shall comply with all installation access and security procedures. Contractor and caterer staff should always be professional.

Cooking: Contractor shall prepare food listed on the menu plan according to commercially acceptable standards. Foods must be cooked to the minimum internal temperatures stated by Maryland COMAR 10.15.03.10. See Illustration below for guidance.

Product	Minimum Internal Temperature & Rest Time
Beef, Pork, Veal & Lamb Steaks, chops, roasts	145 °F (62.8 °C) and allow to rest for at least 3 minutes
Ground Meats	160 °F (71.1 °C)
Ground Poultry	165 °F
Ham , fresh or smoked (uncooked)	145 °F (62.8 °C) and allow to rest for at least 3 minutes
Fully Cooked Ham (to reheat)	Reheat cooked hams packaged in USDA-inspected plants to 140 °F (60 °C) and all others to 165 °F (73.9 °C).
Product	Minimum Internal Temperature
All Poultry (breasts, whole bird, legs, thighs, wings, ground poultry, giblets, and stuffing)	165 °F (73.9 °C)
Eggs	160 °F (71.1 °C)
Fish & Shellfish	145 °F (62.8 °C)
Leftovers	165 °F (73.9 °C)
Casseroles	165 °F (73.9 °C)

Beverage: Standard beverage choices are a variety of carbonated beverages (caffeine and/or caffeine-free), juice blends, noncarbonated flavored drinks, coffee, hot or iced tea, milk, will be provided in accordance with meal plan listed. See Appendix A for more details.

Condiments & Utensils: The Contractor shall provide all necessary single-service eating utensils (forks, knives, spoons, napkins), and appropriate condiments (i.e., mayonnaise, mustard, ketchup, steak sauce, hot sauce, pickles, salad dressing, syrup, salt and pepper,) to complement the meals delivered.

Special Dietary Needs: When required the contractor must have the capability to provide for special dietary requirements (e.g., vegetarian, and/or gluten-free) upon written request from Customer POC.
Facility and Licensing

Commercial Kitchen: All food must be prepared in a commercial kitchen licensed as a "Food Service Facility" by the appropriate Maryland county health department.

Preparation of food in a private residence or an unlicensed facility is strictly prohibited.

Licenses: The Contractor must maintain a valid Food Service Facility license and any other applicable business licenses for the duration of the contract. For verification purposes the Maryland Army National Guard could ask for the caterer business license.

Training & Certification: The contractor shall conform to SERV Safe training and certification, professional standards and adhere to The Army Food Program food service standards and ServSafe sanitation standards (National Restaurant Association).

All other employees involved in the execution of this requirement shall have a minimum of one hour training by a SERV Safe certified instructor to review aspects of food sanitation to ensure compliance with safety, food handling, cleaning etc.

Employee Health and Hygiene: The Contractor shall enforce a strict employee health policy, ensuring that no employee with symptoms of communicable illness handles food.

All food handlers must maintain a high degree of personal cleanliness, wear clean outer garments, and use effective hair restraints.

Food Allergy Awareness: The Contractor and the government must be trained and aware of the Maryland Department of Health's "Food Allergy Awareness" for safety in case of major food allergens.

5.1 Food Safety and Handling

Approved Sources: All food, beverages, and condiments must be obtained from an approved commercial source that is regulated by the appropriate food safety authority.

5.2 Potentially Hazardous Foods (Time/Temperature Control for Safety Foods): The Contractor handles all potentially hazardous foods (e.g., meat, poultry, dairy, cooked vegetables, condiments, and utensils) in strict accordance with COMAR 10.15.03.

5.3 Cross-Contamination: Procedures must be in place to prevent the cross-contamination of raw and ready-to-eat foods during storage, preparation, and transport.

5.4 Labeling: All packaged foods must be labeled in accordance with Maryland law, including the business name, ingredients, net weight, and allergen information.

5.5 Record Keeping: The Contractor shall maintain records demonstrating compliance with food safety regulations, including temperature logs and staff training certifications, and make them available upon request if deemed necessary.

5.6 Security. The caterer ensures delivery personnel have proper picture identification for entry onto government installations or facilities. The caterer shall coordinate with the unit point of contact (POC) to avoid delays related to installation/facility entry access.

6.0 Government Responsibilities:

- Access: Government will provide safe and reasonable access to the delivery location(s) at the scheduled times.
- The Government will provide dining tables and chairs for all personnel.
- Serving Area: Government is responsible for setting up, tear down and meal services.
- Government will inspect food quality, temperature, and meal portion to ensure compliance with temperature and sanitation standards.

7.0 Key Personnel and Communication

7.1 Customer Point of Contact (POC): The on-site POC for coordination and daily management is CPT Nicholas Testo. The Contractor manager shall coordinate directly with the Customer POC.

7.2 Government Point of Contact (POC): All questions or concern about this requirement shall be communicated to contract specialist/contracting officer Mr. Victor Mejia at ng.md.mdarng.mbx.mdcomaccts@army.mil

8.0 Statement of work References

The Contractor shall, at its own expense, comply with all current federal, state, and local laws and regulations.

Applicable Laws and Regulations governing this SOW include but are not limited to:

COMAR 10.15.03.06. Food Protection During Storage, Service, and Transport. This is a foundational rule. It mandates that, except during brief periods of preparation, potentially hazardous foods must be kept at 41°F or less for cold holding, or at 145°F or greater for hot holding. It also specifies that refrigeration units must have a thermometer accurate to within $\pm 2^\circ\text{F}$.

COMAR 10.15.03.10 Food Preparation – Cooking. This section provides a detailed chart of the minimum internal temperatures that different types of food must reach during cooking. For example, poultry must be cooked to 165°F for 15 seconds, while shell eggs for immediate service must reach 145°F for 15 seconds. See link below: <https://regs.maryland.gov/us/md/exec/comar/10.15.03.10>

COMAR Maryland 12.14.04.03-Standards—Inmate Food Services. See link below: <https://regs.maryland.gov/us/md/exec/comar/12.14.04.02#D>

9.0 Definitions

Key terms used in this SOW shall have the meanings indicated in COMAR 10.15.03.02 - Definitions.

Caterer: A food service facility that prepares or provides and serves food or drink for service at the provider's premises or elsewhere in connection with a specific event or function.

Potentially Hazardous Food: A food that requires temperature control because it is in a form capable of supporting the rapid growth of infectious or toxigenic microorganisms (e.g., meat, fish, dairy, cooked rice, cut melons).

Food-Contact Surface: A surface of equipment, or utensils which food normally comes in contact.

9.1 Performance Requirement Summary

Performance Objectives	Standard	Acceptable Quality Level (AQL)	Surveillance Method
Meal Quality	Meals are fresh, well prepared, and adhere to approved menu	98% Compliance	Daily Inspection by POC assigned
Food Safety	Food is transported, and delivered at proper temperatures	100% Compliance	Daily Inspection by POC assigned
Timeliness	Food is delivered and ready to be served on scheduled time	98% Compliance	Daily Inspection by POC assigned
Cleanliness	-Food has been transported in a clean vehicle. - All food handlers maintain a high degree of personal cleanliness	98% Compliance	Daily Inspection by POC assigned
Meal Temperature	(Hot) -145°F or greater (Cold) -41°F or greater	100% Compliance	Daily Inspection by POC assigned
