(End of Clause)

DFARS 252.211-7003 Item Unique Identification and Valuation (JAN 2023)

(a) Definitions. As used in this clause --

“Automatic identification device” means a device, such as a reader or interrogator, used to retrieve data encoded on machine-readable media.

“Concatenated unique item identifier” means --

(1) For items that are serialized within the enterprise identifier, the linking together of the unique identifier data elements in order of the issuing agency code, enterprise identifier, and unique serial number within the enterprise identifier; or

(2) For items that are serialized within the original part, lot, or batch number, the linking together of the unique identifier data elements in order of the issuing agency code; enterprise identifier; original part, lot, or batch number; and serial number within the original part, lot, or batch number.

“Data matrix” means a two-dimensional matrix symbology, which is made up of square or, in some cases, round modules arranged within a perimeter finder pattern and uses the Error Checking and Correction 200 (ECC200) specification found within International Standards Organization (ISO)/International Electrotechnical Commission (IEC) 16022.

“Data qualifier” means a specified character (or string of characters) that immediately precedes a data field that defines the general category or intended use of the data that follows.

“DoD recognized unique identification equivalent” means a unique identification method that is in commercial use and has been recognized by DoD. All DoD recognized unique identification equivalents are listed at <https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html>.

“DoD item unique identification” means a system of marking items delivered to DoD with unique item identifiers that have machine-readable data elements to distinguish an item from all other like and unlike items. For items that are serialized within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier and a unique serial number. For items that are serialized within the part, lot, or batch number within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier; the original

Part 12 Clauses (CONTINUED)

part, lot, or batch number; and the serial number.

“Enterprise” means the entity (e.g., a manufacturer or vendor) responsible for assigning unique item identifiers to items.

“Enterprise identifier” means a code that is uniquely assigned to an enterprise by an issuing agency.

“Government's unit acquisition cost” means --

(1) For fixed-price type line, subline, or exhibit line items, the unit price identified in the contract at the time of delivery;

(2) For cost-type or undefinitized line, subline, or exhibit line items, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery; and

(3) For items produced under a time-and-materials contract, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery.

“Issuing agency” means an organization responsible for assigning a globally unique identifier to an enterprise, as indicated in the Register of Issuing Agency Codes for ISO/IEC 15459, located at http://www.aimglobal.org/?Reg_Authority15459.

“Issuing agency code” means a code that designates the registration (or controlling) authority for the enterprise identifier.

“Item” means a single hardware article or a single unit formed by a grouping of subassemblies, components, or constituent parts.

“Lot or batch number” means an identifying number assigned by the enterprise to a designated group of items, usually referred to as either a lot or a batch, all of which were manufactured under identical conditions.

“Machine-readable” means an automatic identification technology media, such as bar codes, contact memory buttons, radio frequency identification, or optical memory cards.

“Original part number” means a combination of numbers or letters assigned by the enterprise at item creation to a class of items with the same form, fit, function, and interface.

“Parent item” means the item assembly, intermediate component, or subassembly that has an embedded item with a unique item identifier or DoD recognized unique identification equivalent.

“Serial number within the enterprise identifier” means a combination of numbers, letters, or symbols assigned by the enterprise to an item that provides for the differentiation of that item from any other like and unlike item and is never used again within the enterprise.

“Serial number within the part, lot, or batch number” means a combination of numbers or letters assigned by the enterprise to an item that provides for the differentiation of that item from any other like item within a part, lot, or batch number assignment.

“Serialization within the enterprise identifier” means each item produced is assigned a serial number that is unique among all the tangible items produced by the enterprise and is never used again. The enterprise is responsible for ensuring unique serialization within the enterprise identifier.

“Serialization within the part, lot, or batch number” means each item of a particular part, lot, or batch number is assigned a unique serial number within that part, lot, or batch number assignment. The enterprise is responsible for ensuring unique serialization within the part, lot, or batch number within the enterprise identifier.

“Type designation” means a combination of letters and numerals assigned by the Government to a major end item, assembly or subassembly, as appropriate, to provide a convenient means of differentiating between items having the same basic name and to indicate modifications and changes thereto.

“Unique item identifier” means a set of data elements marked on items that is globally unique and unambiguous. The term includes a concatenated unique item identifier or a DoD recognized unique identification equivalent.

“Unique item identifier type” means a designator to indicate which method of uniquely identifying a part has been used. The current list of accepted unique item identifier types is maintained at <https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html>.

(b) The Contractor shall deliver all items under a contract line, subline, or exhibit line item.

(c) Unique item identifier.

Part 12 Clauses (CONTINUED)

(1) The Contractor shall provide a unique item identifier for the following:

(i) Delivered items for which the Government's unit acquisition cost is \$5,000 or more, except for the following line items:

Contract Line, Subline, or Exhibit Line Item Number Item Description

(ii) Items for which the Government's unit acquisition cost is less than \$5,000 that are identified in the Schedule or the following table:

Contract Line, Subline, or Exhibit Line Item Number Item Description

(If items are identified in the Schedule, insert "See Schedule" in this table.)

(iii) Subassemblies, components, and parts embedded within delivered items, items with warranty requirements, DoD serially managed repairables and DoD serially managed nonrepairables as specified in Attachment Number ____.

(iv) Any item of special tooling or special test equipment as defined in FAR 2.101 that have been designated for preservation and storage for a Major Defense Acquisition Program as specified in Attachment Number ____.

(v) Any item not included in (i), (ii), (iii), or (iv) for which the contractor creates and marks a unique item identifier for traceability.

(2) The unique item identifier assignment and its component data element combination shall not be duplicated on any other item marked or registered in the DoD Item Unique Identification Registry by the contractor.

(3) The unique item identifier component data elements shall be marked on an item using two dimensional data matrix symbology that complies with ISO/IEC International Standard 16022, Information technology - International symbology specification - Data matrix; ECC200 data matrix specification.

(4) *Data syntax and semantics of unique item identifiers.* The Contractor shall ensure that --

(i) The data elements (except issuing agency code) of the unique item identifier are encoded within the data matrix symbol that is marked on the item using one of the following three types of data qualifiers, as determined by the Contractor:

(A) Application Identifiers (AIs) (Format Indicator 05 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology - EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(B) Data Identifiers (DIs) (Format Indicator 06 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology - EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(C) Text Element Identifiers (TEIs) (Format Indicator 12 of ISO/IEC International Standard 15434), in accordance with the Air Transport Association Common Support Data Dictionary; and

(ii) The encoded data elements of the unique item identifier conform to the transfer structure, syntax, and coding of messages and data formats specified for Format Indicators 05, 06, and 12 in ISO/IEC International Standard 15434, Information Technology - Transfer Syntax for High Capacity Automatic Data Capture Media.

(5) *Unique item identifier.*

(i) The Contractor shall --

(A) Determine whether to --

(1) Serialize within the enterprise identifier;

(2) Serialize within the part, lot, or batch number; or

(3) Use a DoD recognized unique identification equivalent (e.g. Vehicle Identification Number); and

(B) Place the data elements of the unique item identifier (enterprise identifier; serial number; DoD recognized unique identification equivalent; and for serialization within the part, lot, or batch number only: original part, lot, or batch number) on items requiring marking by paragraph (c)(1) of this clause, based on the criteria provided in MIL-STD-130, Identification Marking of U.S. Military Property, latest version;

(C) Label shipments, storage containers and packages that contain uniquely identified items in accordance with the requirements of MIL-STD-129, Military Marking for Shipment and Storage, latest version; and

(D) Verify that the marks on items and labels on shipments, storage containers, and packages are machine readable and conform to the applicable standards. The contractor shall use an automatic identification technology device for this verification that has been programmed to the requirements of Appendix A, MIL-STD-130, latest version.

(ii) The issuing agency code --

(A) Shall not be placed on the item; and

(B) Shall be derived from the data qualifier for the enterprise identifier.

(d) For each item that requires item unique identification under paragraph (c)(1)(i), (ii), or (iv) of this clause or when item unique identification is provided under paragraph (c)(1)(v), in addition to the information provided as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the Contractor shall report at the time of delivery, as part of the Material Inspection and Receiving Report, the following information:

- (1) Unique item identifier.
- (2) Unique item identifier type.
- (3) Issuing agency code (if concatenated unique item identifier is used).
- (4) Enterprise identifier (if concatenated unique item identifier is used).
- (5) Original part number (if there is serialization within the original part number).
- (6) Lot or batch number (if there is serialization within the lot or batch number).
- (7) Current part number (optional and only if not the same as the original part number).
- (8) Current part number effective date (optional and only if current part number is used).
- (9) Serial number (if concatenated unique item identifier is used).
- (10) Government's unit acquisition cost.

Part 12 Clauses (CONTINUED)

(f) The Contractor shall submit the information required by paragraphs (d) and (e) of this clause as follows:

(1) End items shall be reported using the receiving report capability in Wide Area WorkFlow (WAWF) in accordance with the clause at [252.232-7003](#). If WAWF is not required by this contract, and the contractor is not using WAWF, follow the procedures at <http://dodprocurementtoolbox.com/site/uidregistry/>.

(2) Embedded items shall be reported by one of the following methods --

(i) Use of the embedded items capability in WAWF;

(ii) Direct data submission to the IUID Registry following the procedures and formats at <http://dodprocurementtoolbox.com/site/uidregistry/>; or

(iii) Via WAWF as a deliverable attachment for exhibit line item number (*fill in*) ____, Unique Item Identifier Report for Embedded Items, Contract Data Requirements List, DD Form 1423.

(g) Subcontracts. If the Contractor acquires by subcontract any item(s) for which item unique identification is required in accordance with paragraph (c)(1) of this clause, the Contractor shall include this clause, including this paragraph (g), in the applicable subcontract(s), including subcontracts for commercial products or commercial services.

DFARS 252.232-7006 Wide Area Workflow Payment Instructions (JAN 2023)

(a) Definitions. As used in this clause --

“Department of Defense Activity Address Code (DoDAAC)” is a six position code that uniquely identifies a unit, activity, or organization.

“Document type” means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

“Local processing office (LPO)” is the office responsible for payment certification when payment certification is done external to the entitlement system.

“Payment request” and “receiving report” are defined in the clause at [252.232-7003](#), Electronic Submission of Payment Requests and Receiving Reports.

(b) Electronic invoicing. The WAWF system provides the method to electronically process vendor payment requests and receiving reports, as authorized by Defense Federal Acquisition Regulation Supplement (DFARS) [252.232-7003](#), Electronic Submission of Payment Requests and Receiving Reports.

(c) WAWF access. To access WAWF, the Contractor shall --

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.sam.gov>; and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this web site.

(d) WAWF training. The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the “Web Based Training” link on the WAWF home page at <https://wawf.eb.mil/>

(e) WAWF methods of document submission. Document submissions may be via web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) WAWF payment instructions. The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:

(1) Document type. The Contractor shall submit payment requests using the following document type(s):

(i) For cost-type line items, including labor-hour or time-and-materials, submit a cost voucher.

(ii) For fixed price line items --

- (A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer.

Invoice

(Contracting Officer: Insert applicable invoice and receiving report document type(s) for fixed price line items that require shipment of a deliverable.)

- (B) For services that do not require shipment of a deliverable, submit either the Invoice 2in1, which meets the requirements for the invoice and receiving report, or the applicable invoice and receiving report, as specified by the Contracting Officer.

Not Applicable

(Contracting Officer: Insert either “Invoice 2in1” or the applicable invoice and receiving report document type(s) for fixed price line items for services.)

- (iii) For customary progress payments based on costs incurred, submit a progress payment request.
- (iv) For performance based payments, submit a performance based payment request.
- (v) For commercial item financing, submit a commercial item financing request.
- (2) Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213-1 is included in the contract.

[Note: The Contractor may use a WAWF “combo” document type to create some combinations of invoice and receiving report in one step.]

- (3) Document routing. The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

DLAD PROCUREMENT NOTES:**C02 Manufacturing Phase-Out or Discontinuation of Production, Diminishing Sources, and Obsolete Materials or Components (DEC 2016)**

The contractor shall notify the contracting officer immediately upon determining the unavailability of obsolete materials or components. The contractor may recommend a solution to include the impact on the contract price and delivery. The contractor shall not initiate any item redesign or incur any additional costs without the express, written authorization of the contracting officer.

In the event that manufacturing phase-out or discontinuance of production of such items is contemplated, the contractor is required to notify the contracting officer and publish the discontinuance in the Government-Industry Data Exchange Program (GIDEP), where feasible; and to provide immediate advance notice of production phase-out to DLA DMSMS at dscc.dmsms@dla.mil.

C03 Contractor Retention of Supply Chain Traceability Documentation (JUN 2023)

- (1) By submitting a quotation or offer, the contractor, if it is not the manufacturer of the item, is confirming it currently has, or will obtain before delivery, and shall retain documented evidence (supply chain traceability documentation), as described in paragraph (2) of this procurement note, demonstrating the item is from the approved manufacturer and conforms to the technical requirements.
- (2) At a minimum, the supply chain traceability documentation for the item shall include: basic item description, part number and/or national stock number, manufacturing source, manufacturing source's Commercial and Government Entity (CAGE) code, and clear identification of the name and location of all supply chain intermediaries between the manufacturer to the contractor to item(s) acceptance by the Government. The documentation should also include, if available, the manufacturer's batch identification for the item(s), such as date codes, lot codes, or serial numbers.
- (3) Contractors can find examples of acceptable supply chain traceability documentation at the Counterfeit Detection and Avoidance Program (CDAP) website ([http://www.dla.mil/LandandMaritime/Business/Selling/Counterfeit-Detection-Avoidance- Program/](http://www.dla.mil/LandandMaritime/Business/Selling/Counterfeit-Detection-Avoidance-Program/)).
- (4) The contractor shall immediately make documentation available to the contracting officer upon request. The contracting officer determines the acceptability and sufficiency of documentation. The contractor shall retain supply chain traceability documentation for six years after final payment under this contract for audit and other valid government purposes. If the contractor fails to retain or provide the documentation, or the contracting officer finds the documentation to be unacceptable, the contracting officer may take corrective action, including, but not limited to, cancellation of undelivered orders or rejection of delivered supplies.

determination concerning appropriate reimbursement by the contractor for the Government's costs to correct the deficiencies. Upon determining that reimbursement is required, the contracting officer will send a notice to the contractor. Upon receipt of notice from the contracting officer, the contractor shall reimburse the Government for the costs incurred by the Government to correct the deficiencies.

- (2) If the estimated costs of correction for receipts of DLA-owned materiel are more than \$1,000, the contracting officer will advise the contractor of the discrepancy and have the materiel returned to the contractor for correction/resubmittal; or, if there are urgent requirements, have the Government remediate the discrepancy at the contractor's expense. If the Government remediates the discrepancy, the contracting officer will make a determination concerning appropriate reimbursement by the contractor for the Government's costs to correct the deficiencies. Upon determining that reimbursement is required, the contracting officer will send a notice to the contractor. Upon receipt of notice from the contracting officer, the contractor shall reimburse the Government for the costs incurred by the Government to correct the deficiencies.

(End of Procurement Note)

L06 Agency Protests (DEC 2016)

Interested parties may file an agency level protest with the contracting officer or may request an independent review by the chief of the contracting office (CCO). Independent review by the CCO is an alternative to consideration by the contracting officer and is not available as an appellate review of a contracting officer decision on a protest previously filed with the contracting officer. Absent a clear indication of the intent to file an agency level protest with the CCO for independent review, protests will be presumed to be protests to the contracting officer.

DLAD 5452.233-9001 Disputes - Agreement to Use Alternative Dispute Resolution (ADR) (JUN 2020)

CONTINUED ON NEXT PAGE

Part 12 Clauses (CONTINUED)

- (a) The parties agree to negotiate with each other to try to resolve any disputes that may arise. If unassisted negotiations are unsuccessful, the parties will use alternative dispute resolution (ADR) techniques to try to resolve the dispute. Litigation will only be considered as a last resort when ADR is unsuccessful or has been documented by the party rejecting ADR to be inappropriate for resolving the dispute.
- (b) Before either party determines ADR inappropriate, that party must discuss the use of ADR with the other party. The documentation rejecting ADR must be signed by an official authorized to bind the contractor (see FAR 52.233-1), or, for the Agency, by the contracting officer, and approved at a level above the contracting officer after consultation with the ADR Specialist and legal counsel. Contractor personnel are also encouraged to include the ADR Specialist in their discussions with the contracting officer before determining ADR to be inappropriate.

Part 12 Clauses (CONTINUED)

3. Quotes shall be prepared in the English language.
4. Quotes shall include all required documentation as listed below. The submission of a quote that does not contain all items requested below may result in elimination from consideration for award. The instructions contained herein are to serve as a guide in preparation of quotes; however, they are not intended to be all inclusive. The instructions generally describe the type and extent of information which should be provided in the quote. The quoter is expected to completely examine and analyze all aspects of **the technical, past performance, and price areas** to be addressed, and to include information in the quote which will enable the evaluators to determine the quoter's understanding of the requirements in each of the above areas.
5. Quotes must have the Controlled Unclassified Information (CUI) incorporated markings appropriate pages on each quote file.

(a) All other documents marked with appropriate CUI markings as follows:

- Header on all pages: 1st Line of Header: "CUI"
- 1st page only, bottom right corner (above footer):
 - Controlled by: **Quoter's Name**
 - CUI Category: **SSEL**
 - Distribution/Dissemination Controls: **FED ONLY**
 - POC: **To be completed by Quoter**
- Footer (at very bottom) on all pages stating "CUI"

6. Quotes must include the following items:**1. TECHNICAL CAPABILITY****1. Technical Capability**

Quotations may be submitted in contractor format and shall include:

- a. Manufacturer Name and Address
- b. Manufacturer Part Number

2. The quoter must include descriptive literature or other documentation from the manufacturer which demonstrates the quoter's product meets the requirements of the material descriptions of the required

2. PAST PERFORMANCE

The quoter shall provide information on its past performance record. If the quoter has no recent, relevant history in the Contractor Performance Assessment Reporting System (CPARS) application, Electronic Subcontract Reporting System (eSRS), or other databases, the quoter may submit up to three (3) recent (within three years), relevant (similar in scope, magnitude and complexity as outlined in the PWS) references to be evaluated. The references may be government or commercial contracts/projects and should include a point of contact, contract number, dollar value, and project information. If a quoter has no recent/relevant past performance, they shall provide the following statement in lieu of the information requested: "(Insert quoter name) has determined they possess no recent, relevant past performance in accordance with the RFQ."

3. PRICING AND ADMINISTRATIVE

- a. The Price Quote shall be submitted in accordance with the Schedule of Supplies CLIN structure contained in **Section Two: Schedule of Supplies and Services** of the solicitation. The quoter shall provide a unit price and amount for the CLIN. Prices shall be rounded to the second decimal place.
- b. **Representations and Certifications:** Quoter's are required to include a completed copy of the FAR provision 52.212-3 Offeror Representations and Certifications-Commercial Products and Commercial Services (DEVIATION) (CD 2025-O0003) (MAR 2025) with its quote or may indicate completion of the representations and certifications on the internet at <http://www.sam.gov>. Quoters are required to include a completed copy of FAR provision 52.219-1 Small Business Program Representations with their quote submission if not in SAM Representations and Certifications. Failure to include the certifications along with the quotation or to complete the certifications on the internet may result in elimination from consideration for award.
- c. Company Name, Address, Point of Contact, Telephone number, and E-mail address.
- d. Quoter's SAM Unique Entity ID and Commercial and Government Entity (CAGE) Code
- e. Solicitation Number
- f. Signed acknowledgements of amendments (applicable only if any amendments are issued against this solicitation)

(End of Provision)**SECTION 14: EVALUATION****Addenda to FAR 52.212-2 Evaluation - Commercial Products and Commercial Services (DEVIATION) (CD 2026-O00028)**

1. The Government intends to award one (1) contract to the acceptable quoter with the lowest evaluated price which is deemed responsible in accordance with the FAR, and which has submitted a quote conforming to the solicitation requirements. The requirements include all stated terms, conditions, and all other requirements of this solicitation. The Government intends to make an award based on the initial quotes received; therefore, the initial quote should contain the quoter's best terms from a price and technical standpoint. Quoters must be determined to be responsible according to the standards of FAR Subpart 9 to be eligible for award.
2. Failure to provide a complete, detailed, realistic, and reasonable quote may reflect a lack of understanding of the requirements and may result in a determination that the quoter's quote is unacceptable. The Government does not assume a duty to search for clarification data to cure problems or inconsistencies with a quoter's quote.
3. The award decision process is being conducted under FAR Part 12, wherein the Contracting Officer is permitted to engage in communications with individual contractors about their quotes without being subject to the policies and procedures of FAR Part 15, and without engaging in "discussions" or "negotiations" under FAR Part 15.
4. Although the Government intends to award a Purchase Order resulting from this solicitation, the Government reserves the right to reject any and all quotes received and not award any item or items from this solicitation.
5. Technical Capability and Past Performance will be evaluated on an acceptable or unacceptable basis.

TECHNICAL CAPABILITY

The Government will evaluate the vendors Technical Capability to determine acceptability of the quote in response to this solicitation.

To be considered technically acceptable:

- The Quoter's supplies must meet the salient physical, functional, or performance specifications specified in this solicitation.

PAST PERFORMANCE

To be considered acceptable:

1. The quoter will be evaluated on their past performance record and any other relevant information obtained from available sources which may include CPARS, eSRS, Responsibility/Qualification reports in SAM, other databases, as well as interviews with POC references, Program Managers/Customers, Contracting Officers, or

Part 12 Clauses (CONTINUED)

Contracting Officer Representatives (CORs), data submitted by the Quoter as part of the Past Performance file, and any other information available to determine the quality and relevance of the quoter's past performance.

2. The Government shall determine how well the quoter performed on the recent (within 3 years of solicitation issuance) and relevant (similar in scope, magnitude, complexity) contracts. The Government will assign an acceptable/unacceptable rating as to the quoter's ability to perform on the required effort based upon the recent and relevant past performance record considering the information available regarding quality of performance.
3. In the case of a quoter without a record or references of recent and relevant past performance, or for whom information on past performance is not available, or so sparse that no meaningful past performance rating can be reasonably assigned, the quoter may not be evaluated favorably or unfavorably on past performance (see FAR 15.305(a)(2)(iv), Past Performance Evaluation). Therefore, the quoter shall be determined to have unknown past performance. In the context of acceptability/unacceptability, "unknown" shall be considered "acceptable."
4. Should the Government discover adverse past performance information to which the quoter had not had a prior opportunity to respond, the Contracting Officer will conduct communications if deemed appropriate.

PRICE AND ADMINISTRATIVE

1. If a quote has been determined acceptable under each of the non-price factors listed above, the Government will then evaluate the quote for the lowest price. The quoted total price between quoters determined to be technically acceptable will be the determining factor in the selection of a quote for award. Price analysis shall not be conducted on quoters determined to be unacceptable for award, since the quoter will not be in line for award as the lowest priced technically acceptable quoter. All CLINs must be priced.
2. The Government will perform a price analysis to determine the reasonableness of proposed price in accordance with the FAR 15.404-1(b). The Government will utilize a comparison of proposed prices received in response to the solicitation.
3. A written notice of award or acceptance of a quoter mailed or otherwise furnished to the successful quoter within the time for acceptance specified in the quoter, shall result in a binding contract without further action by either party. Before the quoter's specified expiration time, the Government may accept a quote (or part of a quote), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
