A.5 SECURITY

A.5.1. SECURITY TECHNICAL IMPLEMENTATION GUIDE (STIG) / SECURITY REQUIREMENTS GUIDES (SRG) COMPLIANCE

IT products (including applications) will be configured in accordance with applicable STIGs under a cognizant ISSM and security control assessor (SCA). STIGs are product-specific and document applicable DoD policies and security requirements, as well as best practices and configuration guidelines. STIGs are associated with security controls through Control Correlation Identifiers (CCIs), which are decompositions of NIST SP 800-53 security controls into single, actionable, measurable items. SRGs are developed by DISA to provide general security compliance guidelines and serve as source guidance documents for STIGs. When a STIG is not available for a product, an SRG may be used. STIGs, SRGs and CCIs are available on the IA Support Environment Website (<http://iase.disa.mil>). STIG and SRG compliance results for products will be documented as security control assessment results within a product-level security assessment report (SAR) and reviewed by the responsible ISSM (under the direction of the AO) prior to acceptance or connection into an authorized computing environment (e.g., an IS or PIT system with an authorization). This review ensures products will not introduce vulnerabilities into the hosting IS or PIT system. DoD Component-level guidance maximizes testing and review results to minimize duplication of effort across the DoD.

A.5.2 SECURITY CONFIGURATION

The Contractor shall ensure that the Software is able to run in compliance with DoD security controls and Defense Information System Agency (DISA) Security Technical Implementation Guide (STIG). The Contractor shall ensure the Software is configured to avoid any CAT1-3 STIG violations. The Contractor may request in writing to the DFAS contracting officer a waiver to any STIG violation. Waivers for CAT 1 violations will not be granted.

A.5.3 NON-DISCLOSURE AGREEMENT

The Contractor shall agree to sign a non-disclosure agreement (NDA) if the need should arise to share log file or other information to investigate any issues with software package.

A.6 CONTRACTING OFFICER REPRESENTATIVE (COR):

The COR is the primary point of contact for the contractor. The COR shall interface with DFAS Information and Technology (IT) Point of Contact (POC) as well as the appropriate DFAS Site Force Protection Office POC to maintain internal monthly system updating to DoD compliance. To identify Site Force Protection Officers at each DFAS location consult the Agency Force Protection ePortal Page.

The COR is responsible for monitoring all technical aspects of the award and assisting in contract administration. COR duties include:

- Ensure the contractor meets the technical requirements of the award.
- Perform inspections necessary in connection with contract performance.
- Maintain written and oral communications with the contractor concerning technical aspects of the award.
- Monitor contractor's performance and notify both the CO and contractor of any deficiencies.

A letter of designation issued to the COR, a copy of which is sent to the contractor, states the responsibilities and limitations of the COR, especially with regard to changes in cost or price, or changes in delivery dates. The COR is not authorized to change any of the terms and conditions of the resulting order.

A.6.1 INSPECTION AND ACCEPTANCE

The COR is responsible for inspection and acceptance of all items and services.

A.6.2 ACCEPTANCE CRITERIA

Certification by the government of satisfactory goods or services provided is contingent upon the contractor performing in accordance with the terms and conditions of the referenced agreement, this order, and all amendments.

A.6.3 INVOICE REVIEW

The COR may reject or require correction of any deficiencies found in the invoice or receiving report. In the event of a rejected invoice or receiving report, the contractor must be notified in writing by the delivery COR of the specific reasons for rejection.

Immediate owner means an entity, other than the offeror, that has direct control of the offeror. Indicators of control include, but are not limited to, one or more of the following: ownership or interlocking management, identity of interests among family members, shared facilities and equipment, and the common use of employees. The offeror certifies that it has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture such end product. 52.222-48 Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment-Certification. (Deviation 2026-O0038) (Feb 2026)

EXEMPTION FROM APPLICATION OF THE SERVICE CONTRACT LABOR STANDARDS TO CONTRACTS FOR MAINTENANCE, CALIBRATION, OR REPAIR OF CERTAIN EQUIPMENT-CERTIFICATION (FEB 2026) (DEVIATION 2026-O0038)

(a) The offeror must check the following certification:

Certification

The offeror ☐ does ☐ does not certify that-

(1) The items of equipment to be serviced under this contract are used regularly for other than Government purposes, and are sold or traded by the offeror (or subcontractor in the case of an exempt subcontractor) in substantial quantities to the general public in the course of normal business operations;

(2) The services will be furnished at prices which are, or are based on, established catalog or market prices for the maintenance, calibration, or repair of equipment.

(i) An "established catalog price" is a price included in a catalog, price list, schedule, or other form that is regularly maintained by the manufacturer or the offeror, is either published or otherwise available for inspection by customers, and states prices at which sales currently, or were last, made to a significant number of buyers constituting the general public.

(ii) An "established market price" is a current price, established in the usual course of trade between buyers and sellers free to bargain, which can be substantiated from sources independent of the manufacturer or offeror; and

(3) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract are the same as that used for these employees and equivalent employees servicing the same equipment of commercial customers.

(b) Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services. If the offeror certifies to the conditions in paragraph (a) of this provision, and the Contracting Officer determines in accordance with FAR 22.1002-1(e)(3) that the Service Contract Labor Standards statute-

(1) Will not apply to this offeror, then the Service Contract Labor Standards clause in this solicitation will not be included in any resultant contract to this offeror; or

(2) Will apply to this offeror, then the clause at 52.222-51, Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment-Requirements, in this solicitation will not be included in any resultant contract awarded to this offeror, and the offeror may be provided an opportunity to submit a new offer on that basis.

(c) If the offeror does not certify to the conditions in paragraph (a) of this provision-

(1) The clause in this solicitation at 52.222-51, Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment-Requirements, will not be included in any resultant contract awarded to this offeror; and

(2) The offeror must notify the Contracting Officer as soon as possible, if the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation.

(d) The Contracting Officer may not make an award to the offeror, if the offeror fails to execute the certification in paragraph (a) of this provision or to contact the Contracting Officer as required in paragraph (c) of this provision.

(End of provision)

(a) The offeror must check the following certification:

Certification

The offeror ☐ does ☐ does not certify that-

(1) The services under the contract are offered and sold regularly to non-Governmental customers, and are provided by the offeror (or subcontractor in the case of an exempt subcontract) to the general public in substantial quantities in the course of normal business operations;

(2) The contract services are furnished at prices that are, or are based on, established catalog or market prices. An "established catalog price" is a price included in a catalog, price list, schedule, or other form that is regularly maintained by the manufacturer or the offeror, is either published or otherwise available for inspection by customers, and states prices at which sales currently, or were last, made to a significant number of buyers constituting the general public. An "established market price" is a current price, established in the usual course of ordinary and usual trade between buyers and sellers free to bargain, which can be substantiated from sources independent of the manufacturer or offeror;

(3) Each service employee who will perform the services under the contract will spend only a small portion of his or her time (a monthly average of less than 20 percent of the available hours on an annualized basis, or less than 20 percent of available hours during the contract period if the contract period is less than a month) servicing the Government contract; and

(4) The offeror uses the same compensation (wage and fringe benefits) plan for all service employees performing work under the contract as the offeror uses for these employees and for equivalent employees servicing commercial customers.

(b) Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services. If the offeror certifies to the conditions in paragraph (a) of this provision, and the Contracting Officer determines in accordance with FAR 22.1002-1(f)(3) that the Service Contract Labor Standards statute-

(1) Will not apply to this offeror, then the Service Contract Labor Standards clause in this solicitation will not be included in any resultant contract to this offeror; or

(2) Will apply to this offeror, then the clause at FAR 52.222-53, Exemption from Application of the Service Contract Labor Standards to Contracts for Certain Services-Requirements, in this solicitation will not be included in any resultant contract awarded to this offer, and the offeror may be provided an opportunity to submit a new offer on that basis.

(c) If the offeror does not certify to the conditions in paragraph (a) of this provision-

(1) The clause of this solicitation at 52.222-53, Exemption from Application of the Service Contract Labor Standards to Contracts for Certain Services-Requirements, will not be included in any resultant contract to this offeror; and

(2) The offeror must notify the Contracting Officer as soon as possible if the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation.

(d) The Contracting Officer may not make an award to the offeror, if the offeror fails to execute the certification in paragraph (a) of this provision or to contact the Contracting Officer as required in paragraph (c) of this provision.

Unacceptable Quote does not successfully demonstrate the ability to meet the requirements of the DON.

2. Price: Quoters shall submit a firm fixed price quote using the solicitation.

Please note, the Government's price evaluation will encompass all pricing submitted for all ranges of the **Process Instances and Task Users**.

Following the price ranking, only the lowest priced offeror(s) will be evaluated for technical capability. If acceptable, the evaluation will stop at that point and award will be made to the lowest priced technically acceptable offeror. If unacceptable, the Government will continue to review proposals in order of price until evaluating one that is technically acceptable and eligible for award. The Government reserves the right to conduct additional technical evaluations as deemed necessary.
