

United States Department of the Interior

FISH AND WILDLIFE SERVICE

****Please read the entire Request for Quotation (RFQ) and all attachments prior to submitting quote****

This is a **Firm-Fixed Price Contract**. All responsible business sources may submit a quote, which shall be considered by the agency. The basis of award is **best value**, determined by consideration of price and other factors described on the following page will result in the selection of the quote most beneficial to the government. Award will be made to a responsible source pursuant to FAR subpart 9.1.

This is a solicitation for commercial supplies/services prepared in accordance with the format in Subpart 12.6, as supplemented with additional information included in this notice. This announcement constitutes the only solicitation, and the number is **140FS126Q0050**. The solicitation document and incorporated provisions and clauses are those in effect through Federal Acquisition Circular. The NAICS code is 541330 – Engineering Services and a PSC of R425 – Engineering and Technical Services. This requirement is in accordance with FAR Part 12, Acquisition of Commercial Items, and award will be pursuant to FAR Part 13.

Complete the SF-1449 (and any Amendments thereto), Filled out Bid Schedule, your Unique Entity ID assigned by SAM.gov (<https://sam.gov/content/home>), valid email address. In order to have a quote considered, prospective offerors must have an Active SAM (System for Award Management) Registration (<https://sam.gov/content/home>) with no listed exception

Submit all offers via email to Tanner Frank: Tanner_Frank@IOS.DOI.gov

Telephone calls not accepted.

Site Visit: Current System Plans and Building Drawings can be provided during a site visit. A site visit may be scheduled upon request. Must RSVP to Sharon Vaughn at Sharon_vaughn@fws.gov
Sacramento NWR Visitor Center 752 County Road 99W, Willows, CA 95988.

Request for Information: RFI's will be accepted until 1 PM Central Time on 3/20/2026 via email. Submit RFI to Tanner_Frank@IOS.DOI.gov

NOTICE TO PROSPECTIVE CONTRACTORS: If Sub-contractors will perform on this project, the Prime contractor **must** upon request provide subcontractor information, i.e., company name, supervisor name and contact information and valid email address and telephone number. Failure to do so could result in the quote being considered non-responsible and ineligible for award.

Quotes Due: 1:00 PM Central Time on 3/26/2026

Additional Evaluation Factors

Factor 1: Technical Approach

The technical approach shall contain sufficient detail to determine whether the offeror provides a sound, compliant approach that meets the requirements of the Statement of Work and demonstrates a thorough knowledge and understanding of those requirements. The offeror shall demonstrate the ability to provide well-formatted, edited, succinct, and cohesive deliverables. The submission shall clearly identify all risks, assumptions, exclusions, and dependencies inherent in the proposal.

Factor 2: Project Schedule

The offeror shall provide information on the team's project scheduling capabilities. The proposal shall describe how the team will implement and manage the project schedule. The offeror shall discuss internal procedures for handling delays in order to minimize schedule creep. The proposal shall also identify how labor and other resource constraints will be managed to reduce costs and provide an achievable and flexible schedule.

Factor 3: Relevant Experience

The offeror shall provide a description of similar projects completed within the past five years. This may include work performed for the U.S. Fish and Wildlife Service, NOAA, or other federal agencies. Descriptions should demonstrate the offeror's ability to successfully complete projects of comparable scope and complexity.

Factor 4: Past Performance

The offeror shall provide information regarding the team's past performance on projects involving the same or similar services.

SOLICITATION/CONTRACT/ORDER FOR COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES

SCOPE OF WORK

Sacramento NWR Offices/Visitor Center

Retro-Commissioning Services

September 16, 2025

1. This is a request for proposals for a contract to provide **RETRO-COMMISSIONING SERVICES**, at the Offices and Visitor Center at Sacramento National Wildlife Refuge, Willows, CA. It is the intent to contract for an inspection and evaluation of the performance of the HVAC system, the operation of the lighting systems and the associated Building Management System (BMS). The scope includes calibration of the building systems, identification of cost-effective measures to improve the overall energy performance and documentation of operational challenges and opportunities of the HVAC and electrical systems. The overall goal of this contract is to improve the energy efficiency and reducing operational cost of this building on an annual basis.
2. INTRODUCTION: The Sacramento NWR Office and Visitor Center Building was extensively renovated in 2023 with an HVAC system based on a split system air-cooled condensing unit (30 tons) with VAV terminal boxes. The system is controlled by a Johnson Controls Building Management System (BMS). Interior lighting is predominantly LED fixtures on photocells, occupancy sensors and/or manual switches.
3. OBJECTIVES: the primary objectives for conducting these activities are:
 - 3.1. Identify and remedy the causes of the apparent high energy consumption of the building (approximately triple the design energy use).
 - 3.2. Document baseline operating conditions through trending of performance measurements.
 - 3.3. Optimize control systems through calibration of critical sensors, review metered data and trend logs, and perform functional equipment testing.
 - 3.4. Identify operational and maintenance enhancements that result in improvements in energy efficiency, occupant comfort, or indoor air quality.
 - 3.5. Identify staff O&M training needs.
 - 3.6. Enhance documentation of the operational and maintenance (O&M) requirements for the equipment and systems included.
4. SPECIAL QUALIFICATIONS: HVAC technicians provided by the Contractor shall:
 - 4.1. Be specifically trained on the HVAC system and have the technical ability to identify problems and expertly troubleshoot the system.
 - 4.2. Be certified in Preventative Maintenance for Building Systems by an IACET accredited facility and shall have a minimum of 5 years' experience maintaining building control systems and variable frequency drive fan coil units.
 - 4.3. Have attained Journeyman certification.
 - 4.4. Be able to identify and separate actual versus nuisance alarm logs, identify trends in alarms, determine root cause of alarm, and eliminate nuisance alarms.

- 4.5. Be able to provide comprehensive training on building automation system use and optimization to the Government's POC (Point-of-Contact, i.e. Facilities Mechanic and Building Manager).

5. SPECIFIC TASKS AND DELIVERABLES:

5.1. TASK 1: Current Conditions Assessment

- 5.1.1. Facilitate kick-off meeting on site.
- 5.1.2. Review existing systems and related documentation including system drawings, specifications, O&M manuals, utility data and energy bills.
- 5.1.3. Document baseline operating conditions and current facility operational requirements.
- 5.1.4. Define current operational requirements from original design documents and interviews with station staff.
- 5.1.5. Include a 'night walk' or weekend observation of the building in unoccupied mode.

5.1.6. DELIVERABLES:

- 5.1.6.1. Meeting notes
- 5.1.6.2. Draft Current Conditions Assessment Report for FWS review and comment
- 5.1.6.3. Final Current Conditions Assessment Report

5.2. TASK 2: Develop Retro-Commissioning Plan

- 5.2.1. Develop a retro-commissioning (Rx) plan for testing and reporting on the pertinent systems, including documentation strategies. Include the following:
 - 5.2.1.1. Equipment, systems and/or specific measures to be included
 - 5.2.1.2. Detailed plan for equipment calibrations, including calibration forms, test equipment and list of sensor/actuators for calibration
 - 5.2.1.3. Maintenance checks to be performed.
 - 5.2.1.4. Detailed plan for diagnostic monitoring/trending including data archival
 - 5.2.1.5. Functional test to be performed
 - 5.2.1.6. Methods to be used in analyzing the monitored/trended data.
 - 5.2.1.7. Strategies to be used in calculating energy impacts and implementation cost estimates for opportunities identified
 - 5.2.1.8. Implementation schedule
 - 5.2.1.9. Define the content outline for the Final Rx Report
 - 5.2.1.10. DELIVERABLES:
 - 5.2.1.10.1. Draft Rx Plan for FWS review and comment
 - 5.2.1.10.2. Final Rx Plan

5.3. TASK 3: Perform Calibration and Maintenance Checks

- 5.3.1. Implement diagnostic monitoring/trending. Document test equipment readings before and after the adjustment or calibration.
- 5.3.2. Perform functional tests.
- 5.3.3. A minimum of two points of calibration to check both slope and intercept is required for sensors seeing a wide range of conditions such as outside air temperature sensors.
- 5.3.4. Optimize control systems through calibration of critical sensors, review metered data and trend logs, and perform functional equipment testing.

- 5.3.5. Identify operational and maintenance enhancements that result in improvements in energy efficiency, occupant comfort, or indoor air quality.
- 5.3.6. Document and analyze improvement opportunities. For the most promising measures, energy impacts will be calculated and implementation cost estimates developed.
- 5.3.7. Include one on-site meeting with agency representatives in this task.
- 5.3.8. DELIVERABLES:
 - 5.3.8.1. Meeting notes
 - 5.3.8.2. Daily reports of on-site activities
 - 5.3.8.3. Test reports
 - 5.3.8.4. List of improvement opportunities
- 5.4. TASK 4: Retro-Commissioning Final Report and Recommendations
 - 5.4.1. The report shall include the following:
 - 5.4.1.1. Executive Summary
 - 5.4.1.2. Project Background and scope of commissioning project
 - 5.4.1.3. Overview of activities conducted
 - 5.4.1.4. Details of all potential improvements identified and other findings
 - 5.4.1.5. Estimated implementation costs and energy impacts for each improvement
 - 5.4.1.6. Current system operation sequences for all equipment and systems included
 - 5.4.1.7. Appendix: Rx-Plan, data logs, analysis and annotated results, completed calibration worksheets, documentation of government witnessing, as applicable
 - 5.4.2. Include one on-site meeting with agency representatives in this task.
 - 5.4.3. DELIVERABLES:
 - 5.4.3.1. Meeting notes
 - 5.4.3.2. Draft Rx report for FWS review and comment
 - 5.4.3.3. Proposed Updates to the Owner's and Maintenance Manual (draft and final)
 - 5.4.3.4. Final Rx report
- 6. CONTRACTOR FURNISHED ITEMS:
 - 6.1. General: The Contractor shall furnish all supplies, equipment, facilities and services required to perform work under this contract. Contractor shall provide written notes of contract-related meetings.
 - 6.2. On-Site Team Meetings: The Contractor agrees to attend at least **three** on-site team meetings convened by the Contracting Officer or Contracting Officer's Representative to review or discuss the project objectives, inspection findings, issues and recommendations.
- 7. GOVERNMENT FURNISHED ITEMS AND SERVICES:
 - 7.1. Services: The Government will provide updates concerning the general operating status of the HVAC system including information about losses of service, error messages, and peculiar sounds, smells, or other indications of problems.
 - 7.2. Facilities: The Government will provide restroom facilities for the Contractors.

- 7.3. Utilities: The Government will provide access to potable water and 120-volt electrical outlets for the Contractor to use as needed. The Contractor may use the water to service the HVAC units, clean tools, equipment, or other activities associated with the contract objectives. The Contractor may use the electrical outlets to operator or charge tools and accessories. The Contractor shall instruct employees in utilities conservation practices. The contractor shall be responsible for operating under conditions that preclude the waste of utilities, which include turning off the water faucets or valves after using the required amount to accomplish cleaning equipment.
- 7.4. Electric Bills: the Government will provide electric bills from January 2024 to the most recent month.
- 7.5. Station Staff: one or more maintenance staff from the refuge will be requested to attend and observe the investigative, testing and calibration tasks.
8. GENERAL CONTRACT INFORMATION:
 - 8.1. Quality Control: The contractor shall develop and maintain an effective quality control program to ensure services are performed in accordance with this PWS. The contractor shall develop and implement procedures to identify, prevent, and ensure non-recurrence of defective services. The contractor's quality control program shall ensure compliance of the work with the requirements of the contract.
 - 8.2. Hours of Operation: The Contractor shall schedule routine maintenance visits during normal operating hours between the hours of 8:00 am- 4:00 pm Monday thru Friday except Federal Holidays or when the facility is closed due to local or national emergencies, administrative closings, or similar Government directed facility closings.
 - 8.3. Place of Performance: The work to be performed under this contract will be performed at Sacramento NWR Visitor Center/Headquarters located at 752 Co Rd 99W in Willows, CA 95988.
 - 8.4. Period of Performance: 90 days from Notice-To-Proceed
 - 8.5. Type of Contract: The government will award a Firm-Fixed Price Contract with work order hourly rates established in the award.
 - 8.6. Deliverables shall be provided in pdf format unless otherwise noted. Pdf files shall not exceed 5 MB in size each and shall be clearly bookmarked. Include annotated photos to support details.
 - 8.7. Security Requirements: The contractor shall be responsible for safeguarding all government equipment, information and property provided for contractor use. At the close of each work period, government facilities, equipment, and materials shall be secured. A Government representative shall be present whenever the Contractor is in the building. The POC will provide entry to locked areas that the Contractor needs to access to conduct maintenance.
 - 8.8. Contractor Travel: Travel to and from the refuge will be the responsibility of the contractor and estimated costs should be included in bid.
 - 8.9. Organizational Conflict of Interest: Contractor and subcontractor personnel performing work under this contract may receive, have access to or participate in the development of proprietary or source selection information (e.g., cost or pricing information, budget information or analyses, specifications or work statements, etc.) or perform evaluation services which may create a current or subsequent Organizational Conflict of Interests (OCI) as defined in FAR Subpart 9.5. The Contractor shall notify the CO immediately whenever it becomes aware that such access or participation may result in any actual

or potential OCI and shall promptly submit a plan to the CO to avoid or mitigate any such OCI. The Contractor's mitigation plan will be determined to be acceptable solely at the discretion of the CO and in the event the CO unilaterally determines that any such OCI cannot be satisfactorily avoided or mitigated, the CO may affect other remedies as he or she deems necessary, including prohibiting the Contractor from participation in subsequent contracted requirements which may be affected by the OCI.

9. APPLICABLE PUBLICATIONS (CURRENT EDITIONS)

- 9.1. The Contractor must abide by all applicable regulations, publications, manuals, and local policies and procedures.
- 9.2. ASHRAE 62 Standards for Ventilation and Indoor Air Quality
- 9.3. California's Commercial Building Guidelines for Energy Efficiency: Title 24

10. POINTS OF CONTACT:

On-Site: Sharon Vaughn, Project Leader, Sacramento NWR
530-720-6839
Sharon_vaughn@fws.gov

caroline_kreiser@fws.gov

TECHNICAL EXHIBIT: TECHNICAL DETAILS & REQUIREMENTS

1. Detailed Project Steps: The following sections describes anticipated detail for the execution of the tasks. Contractor may note suggested deviations from these steps in their proposal.
 - 1.1. Review Existing Systems & Documentation
 - 1.2. Attend meetings throughout the process including a retro-commissioning kick-off meeting in preparation for the site investigation.
 - 1.3. Interview agency support staff and review the existing building documentation to determine the original specifications, design intent, and their relevance to current owner / user requirements. The following lists the documentation that needs to be gathered and reviewed:
 - 1.3.1. Sub-metered utility data and energy bill (electric and gas) information for at least 12 months along with rate schedules
 - 1.3.2. Drawings and specifications relevant to the systems scheduled for commissioning, especially control drawings and sequences of operation
 - 1.3.3. Existing control points list for each building
 - 1.3.4. Operating strategies programmed into the building management system (BMS)
 - 1.3.5. Equipment list with nameplate information for equipment controlled by the BMS
 - 1.3.6. Existing O&M and system manuals for equipment
 - 1.3.7. Test and balance reports; sensor calibration documentation
2. Develop Retro-Commissioning Plan
 - 2.1. Develop a retro-commissioning plan for testing and reporting on the pertinent systems, including documentation strategies. The retro-commissioning plan shall include the following:
 - 2.1.1. Equipment, systems, or specific measures to be included, or selection criteria for inclusion
 - 2.1.2. Plan for reviewing existing systems and related documentation
 - 2.1.3. Define current operational requirements from original design documents and interviews with agency staff
 - 2.1.4. Detailed plan for equipment calibrations, including calibration forms
 - 2.1.5. Maintenance checks to be performed
 - 2.1.6. Detailed plan for diagnostic monitoring / trending, including data archival
 - 2.1.7. Functional tests to be performed
 - 2.1.8. Methods to be used in analyzing the monitored / trended data
 - 2.1.9. Plan to assess and document the current operating strategies and sequences of operation for all systems and equipment included
 - 2.1.10. Strategies to be used in calculating energy impacts and implementation cost estimates for opportunities identified
 - 2.1.11. Implementation schedule
 - 2.1.12. Define the content of the final retro-commissioning report

3. Perform Calibration and Maintenance Checks

- 3.1. A list of sensors and actuators for calibration will be developed following a points list review. Using the trending capability of the control system for troubleshooting, testing, and data gathering is a cost-effective approach but only if the commissioning provider and building staff are confident that the sensors are reading properly. The appropriate amount of calibration work will depend on the level of confidence in the existing equipment and the history of problems with the controls equipment at an individual site. The calibration plan may include a comprehensive list of sensors and actuators, or critical components for select systems can be chosen. Examples of critical control sensors include those sensing static pressure, outside air temperature, return air temperatures, mixed air temperature, discharge temperature, variable frequency drive speed, flow meters, damper actuators, valve actuators, humidity sensors, and space temperature sensors.
- 3.2. Appropriate calibration procedures and required documentation should be included in the retro-commissioning plan, including the following items:
 - 3.2.1. Test equipment used for calibration should have traceable calibration documentation provided in the final report.
 - 3.2.2. Document test equipment readings versus the BMS sensor readings prior to adjustment.
 - 3.2.3. Document the adjustments made to match the BMS sensor readings to the test equipment readings.
 - 3.2.4. A minimum of two points of calibration to check both slope and intercept are required for sensors seeing a wide range of conditions such as the outside air temperature sensors. Adjusting the offset may be sufficient for sensors seeing a narrow range of conditions.
 - 3.2.5. Document test equipment readings versus the BMS sensor readings following adjustment (calibration) and note date and time of the adjustments made.

4. Implement Monitoring and Testing

- 4.1. The commissioning provider provides a detailed request for required trend logs from the BMS to the agency staff or to the controls vendor, who executes the trends and provides the data to the commissioning provider in the specified electronic format.
- 4.2. If data loggers are required, the commissioning provider will provide and program the data loggers, which will be installed with the assistance of the facility staff. Facility staff may actually install current transformers and watt transducers on wiring inside electrical cabinets. Facility staff may also be responsible for removing the sensors and data loggers, packaging them and sending them back to the provider for analysis after the end of the monitoring period.

5. Functional Testing

- 5.1. The commissioning provider oversees and conducts functional tests on selected equipment as specified in the commissioning plan, with the assistance of facility staff

and controls vendor as required. Functional tests will be comprised of changing parameters, set points or conditions, and observing and documenting the actual system or equipment response through various modes and conditions (both simulated and real). Tests should be developed on a case-by-case basis to ensure functionality across normal operating conditions.

- 5.2. For equipment that is being monitored with sufficient points, manual testing may be accomplished by changing the parameters, etc., during the monitored period. The monitored data is then examined and used to document and verify correct or incorrect operation. Visual verification of equipment functionality may be required if feedback from the control system is not available.
6. Analyze Monitoring and Testing Data
 - 6.1. Once the data is gathered from monitoring and testing, the commissioning provider analyzes the findings by comparing actual equipment operation to appropriate operation and to the existing control sequences. Issues and potential improvements are identified and documented. Energy calculations are performed for those operational measures that appear to have the most impact on comfort, energy, or indoor air quality. Implementation costs for the measures will be estimated, and results will be presented in the final commissioning report.
7. Assess and Document Current Operating Strategies
 - 7.1. Commissioning provider will work with the agency staff to develop a comprehensive building operations plan for the equipment and systems included in this scope of work, based on the original building specifications and current operational needs of the site.
8. Document and Analyze O&M Improvements
 - 8.1. The commissioning provider will document improvement opportunities identified. For the most promising measures, energy impacts will be calculated and implementation cost estimates developed.
9. Develop Final Retro-Commissioning Report
 - 9.1. The final retro-commissioning report shall be issued once commissioning scoping activities are completed. This will be a separate deliverable from the TO proposal, documenting the actions specified herein.
 - 9.2. A final retro-commissioning report shall include the following information:
 - 9.2.1. Executive summary
 - 9.2.2. Project background and scope of the commissioning project
 - 9.2.3. Overview of activities conducted
 - 9.2.4. Details of all potential improvements identified and other findings, including:
 - 9.2.4.1. Documentation of equipment conditions
 - 9.2.4.2. Any needed facility staff training
 - 9.2.4.3. Missing critical documentation
 - 9.3. The estimated implementation costs and the energy impacts for each improvement
 - 9.4. Current system operation sequences for all equipment and systems included

TECHNICAL EXHIBIT: ROLES AND RESPONSIBILITIES

The following is an overview of the responsibilities for the anticipated team members, including agency lead representative, agency technical support staff, the commissioning provider, and the controls contractor.

1. **Agency Lead Representative/ COR:** provides overall supervision of this project; is the party referred to as the “owner”; develops contractual agreements; ensures the participation of agency staff; funds the participation of the controls contractor as needed; attends meetings as necessary
2. **Agency Technical Support Staff - Building Operator / Engineer:** attends meetings as necessary; reviews and accepts commissioning plan developed by commissioning provider; ensures the participation of building personnel and controls contractors as needed; assists in gathering the building documentation as needed; provides input into the investigation process through interviews; provides government witnessing of activities; assists with implementation of sensor calibration; performs or assists with setting up data trends in the BMS; performs or assists with the installation and removal of diagnostic equipment such as data loggers as needed; assists with performing functional tests; ensures maintenance items affecting the project are remedied, such as replacing failed sensors.
3. **Controls Contractor:** attends project kick-off meeting to coordinate work; assists with gathering data and setting up trends as needed; assists with performing functional tests; assists the commissioning provider in identifying and understanding the control sequences and programming of the BMS.
4. **Commissioning Provider (CxA):** is the technical lead for this project; conducts the kick-off meeting; develops the retro-commissioning plan; reviews required documentation such as energy bills, sequences of operation, drawings, specifications, etc.; conducts the operations site investigation including interviews, observations, and analysis; oversees planning and execution of all diagnostic monitoring; oversees planning and execution of any manual functional testing; conducts the engineering analysis and energy calculations; develops the final retro-commissioning report
5. **Identification of Contractor Employees:** All contract personnel attending meetings and working in other situations where their contractor status is not obvious to third parties are required to identify themselves as such to avoid creating an impression in the minds of members of the public that they are Government officials. They must also ensure that all documents or reports produced by contractors are suitably marked as contractor products or that contractor participation is appropriately disclosed.

APPENDIX DEFINITIONS & ACRONYMS

DEFINITIONS:

CONTRACTOR. A supplier or vendor awarded a contract to provide specific supplies or service to the government. The term used in this contract refers to the prime.

CONTRACTING OFFICER (CO). A person with authority to enter into, administer, and or terminate contracts, and make related determinations and findings on behalf of the government. Note: The only individual who can legally bind the government.

CONTRACTING OFFICER'S REPRESENTATIVE (COR). An employee of the U.S. Government appointed by the CO to administer the contract. Such appointment shall be in writing and shall state the scope of authority and limitations. This individual has authority to provide technical direction to the Contractor as long as that direction is within the scope of the contract, does not constitute a change, and has no funding implications. This individual does NOT have authority to change the terms and conditions of the contract.

DEFECTIVE SERVICE. A service output that does not meet the standard of performance associated with the Performance Work Statement.

DELIVERABLE. Anything that can be physically delivered but may include non-manufactured things such as meeting minutes or reports.

KEY PERSONNEL. Contractor personnel that are evaluated in a source selection process and that may be required to be used in the performance of a contract by the Key Personnel listed in the PWS. When key personnel are used as an evaluation factor in best value procurement, an offer can be rejected if it does not have a firm commitment from the persons that are listed in the proposal.

PHYSICAL SECURITY. Actions that prevent the loss or damage of Government property.

QUALITY ASSURANCE. The government procedures to verify that services being performed by the Contractor are performed according to acceptable standards.

QUALITY ASSURANCE Surveillance Plan (QASP). An organized written document specifying the surveillance methodology to be used for surveillance of contractor performance.

QUALITY CONTROL. All necessary measures taken by the Contractor to assure that the quality of an end product or service shall meet contract requirements.

SUBCONTRACTOR. One that enters into a contract with a prime contractor. The Government does not have privity of contract with the subcontractor.

WORKDAY. The number of hours per day the Contractor provides services in accordance with the contract.

WORK WEEK. Monday through Friday, unless specified otherwise.

DIAR 1452.237-70 INFORMATION COLLECTION - DEPARTMENT OF THE INTERIOR (JUL
1996)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

Federal Acquisition Regulation:

Department of the Interior Acquisition Regulation:

(End of clause)

DOI-AAAP-0028 ELECTRONIC INVOICING AND PAYMENT REQUIREMENTS-INVOICE
PROCESSING PLATFORM (IPP) (FEB 2021)

DOI-AAAP-0050 CONTRACTOR PERFORMANCE ASSESSMENT REPORTING SYSTEM (DEC
2015)

DOI-AAAP-0028 ELECTRONIC INVOICING AND PAYMENT REQUIREMENTS-INVOICE
PROCESSING PLATFORM (IPP) (FEB 2021)

Payment requests must be submitted electronically through the U. S. Department of the Treasury's Invoice Processing Platform System (IPP).

'Payment request' means any request for contract financing payment or invoice payment by the Contractor. To constitute a proper invoice, the payment request must comply with the requirements identified in the applicable Prompt Payment clause included in the contract,

or the clause 52.212-4 Contract Terms and Conditions - Commercial Items included in commercial item contracts. The IPP website address is:

Under this contract, the following documents are required to be submitted as an attachment to the IPP invoice:

PDF Vendor-created invoice

The Contractor must use the IPP website to register access and use IPP for submitting requests for payment. The Contractor Government Business Point of Contact (as listed in SAM) will receive enrollment instructions via email from the Federal Reserve Bank of St. Louis (FRBSTL) within 3 - 5 business days of the contract award date. Contractor assistance with enrollment can be obtained by contacting the IPP Production Helpdesk via email or phone (866) 973-3131.

If the Contractor is unable to comply with the requirement to use IPP for submitting invoices for payment,

the Contractor must submit a waiver request in writing to the Contracting Officer with its proposal or quotation.

(End of Local Clause)

DOI-AAAP-0050 CONTRACTOR PERFORMANCE ASSESSMENT REPORTING SYSTEM (DEC 2015)

FAR 42.1502 directs all Federal agencies to collect past performance information on contracts. The Department of the Interior (DOI) has implemented the Contractor Performance Assessment Reporting System (CPARS) to comply with this regulation. One or more past performance evaluations will be conducted in order to record your contract performance as required by FAR 42.15.

The past performance evaluation process is a totally paperless process using CPARS. CPARS is a web-based system that allows for electronic processing of the performance evaluation report. Once the report is processed, it is available in the Past Performance Information Retrieval System (PPIRS) for Government use in evaluating past performance as part of a source selection action.

We request that you furnish the Contracting Officer (CO) with the name, position title, phone number, and email address for each person designated to have access to your firm's past performance evaluation(s) for the contract no later than 30 days after award. Each person granted access will have the ability to provide comments in the Contractor portion of the report and state whether or not the Contractor agrees with the evaluation, before

returning the report to the Assessing Official (AO). Information in the report must be protected as source selection sensitive information not releasable to the public.

When your Contractor Representative(s) are registered in CPARS, they will receive an automatically generated email with detailed login instructions. Further details, systems requirements, and training information for CPARS is available at

Within 60 days after the end of a performance period, the AO will complete an interim or final past performance evaluation, and the report will be accessible at

Contractor Representatives may then provide comments in response to the evaluation, or return the evaluation without comment.

Your comments should focus on objective facts in the AO's narrative and should provide your views on the causes and ramifications of the assessed performance.

All information provided should be reviewed for accuracy prior to submission.

If you elect not to provide comments, please acknowledge receipt of the evaluation by indicating "No comment" in the space provided, and then selecting "Accept the Ratings and Close the Evaluation".

Your response is due within 60 calendar days after receipt of the CPAR. On day 15, the evaluation will become available in PPIRS-RC marked as "Pending" with or without comments and whether or not it has been closed.

If you do not sign and submit the CPAR within 60 days, it will automatically be returned to the Government and will be annotated: "The report was delivered/received by the contractor on (date). The contractor neither signed nor offered comment in response to this assessment."

The following guidelines apply concerning your use of the past performance evaluation:

Protect the evaluation as source selection information. After review, transmit the evaluation by completing and submitting the form through CPARS. If for some reason you are unable to view and/or submit the form through CPARS, contact the CO for instructions.

Strictly control access to the evaluation within your organization. Ensure the evaluation is never released to persons or entities outside of your control.

Prohibit the use of or reference to evaluation data for advertising, promotional material, pre-award surveys, responsibility determinations, production readiness reviews, or other similar purposes.

If you wish to discuss a past performance evaluation, you should request a meeting in writing to the CO no later than seven days following your receipt of the evaluation. The meeting will be held in person or via telephone or other means during your 60-day review period.

A copy of the completed past performance evaluation will be available in CPARS for your viewing and for Government use supporting source selection actions after it has been finalized.

52.204-7 SYSTEM FOR AWARD MANAGEMENT (OCT 2018) (IBR)

52.204-13 SYSTEM FOR AWARD MANAGEMENT MAINTENANCE (OCT 2018)

52.204-30 Federal Acquisition Supply Chain Security Act Orders—Prohibition (Dec 2023)

52.223-17 AFFIRMATIVE PROCUREMENT OF EPA-DESIGNATED ITEMS IN SERVICE AND CONSTRUCTION CONTRACTS (AUG 2018)

52.252-6 AUTHORIZED DEVIATIONS IN CLAUSES (NOV 2020)

The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the clause.

The use in this solicitation or contract of any Department of the Interior Acquisition Regulation (48 CFR Chapter 14) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of clause)

52.212-5 Contract Terms and Conditions Required To Implement Statutes or Executive Orders—Commercial Products and Commercial Services (Jan 2025) (DEVIATION FEB 2025)

(a) The Contractor shall comply with the following Federal Acquisition Regulation (FAR) clauses, which are incorporated in this contract by reference, to implement provisions of law or Executive orders applicable to acquisitions of commercial products and commercial services:

(1) , Prohibition on Requiring Certain Internal Confidentiality Agreements or Statements (Jan 2017) (section 743 of Division E, Title VII, of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235) and its successor provisions in subsequent appropriations acts (and as extended in continuing resolutions)).

(2) , Prohibition on Contracting for Hardware, Software, and Services Developed or Provided by Kaspersky Lab Covered Entities (Dec 2023) (Section 1634 of Pub. L. 115-91).

(3) , Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment. (Nov 2021) (Section 889(a)(1)(A) of Pub. L. 115-232).

(4) , Prohibition on Contracting with Inverted Domestic Corporations (Nov 2015).

(5) , Providing Accelerated Payments to Small Business Subcontractors (Mar 2023) (and).

(6) , Protest After Award (Aug 1996) (31 U.S.C. 3553).

(7) , Applicable Law for Breach of Contract Claim (Oct 2004) (Public Laws 108-77 and 108-78 (19 U.S.C. 3805 note)).

(b) The Contractor shall comply with the FAR clauses in this paragraph (b) that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial products and commercial services:

[Contracting Officer check as appropriate.]

__ (1) , Restrictions on Subcontractor Sales to the Government (Jun 2020), with Alternate I (Nov 2021) (41 U.S.C. 4704 and).

__ (2) , Contractor Code of Business Ethics and Conduct (Nov 2021) (41 U.S.C. 3509)).

__ (3) , Whistleblower Protections under the American Recovery and Reinvestment Act of 2009 (Jun 2010) (Section 1553 of Pub. L. 111-5). (Applies to contracts funded by the American Recovery and Reinvestment Act of 2009.)

__ (4) , Contractor Employee Whistleblower Rights (Nov 2023) (); this clause does not apply to contracts of DoD, NASA, the Coast Guard, or applicable elements of the intelligence community—see FAR (a).

X (5) , Reporting Executive Compensation and First-Tier Subcontract Awards (Jun 2020) (Pub. L. 109-282) ().

__ (6) [Reserved].

__ (7) , Service Contract Reporting Requirements (Oct 2016) (Pub. L. 111-117, section 743 of Div. C).

__ (61) , Payment by Third Party (May 2014) (31 U.S.C. 3332).

__ (63) , Prohibition on Unmanned Aircraft Systems Manufactured or Assembled by American Security Drone Act-Covered Foreign Entities (Nov 2024) (Sections 1821-1826, Pub. L. 118-31, note prec.).

__ (64) , Payments to Small Business Subcontractors (Jan 2017) (15 U.S.C. 637(d)(13)).

__ (ii) Alternate I (Apr 2003) of .

__ (iii) Alternate II (Nov 2021) of .

(c) The Contractor shall comply with the FAR clauses in this paragraph (c), applicable to commercial services, that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial products and commercial services:

[Contracting Officer check as appropriate.]

X (2) , Statement of Equivalent Rates for Federal Hires (May 2014) (29 U.S.C. 206 and 41 U.S.C. chapter 67).

X (7) , Minimum Wages for Contractor Workers Under Executive Order 14026 (Jan 2022).

X (8) , Paid Sick Leave Under Executive Order 13706 (Jan 2022) (E.O. 13706).

__ (10) , Reporting Requirement for U.S.-Flag Air Carriers Regarding Training to Prevent Human Trafficking (Jan 2025) ().

(d) Comptroller General Examination of Record. The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, as defined in FAR , on the date of award of this contract, and does not contain the clause at , Audit and Records-Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR subpart , Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require

the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e)

(1) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c), and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in this paragraph (e)(1), in a subcontract for commercial products or commercial services. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause-

(i) , Contractor Code of Business Ethics and Conduct (Nov 2021) (41 U.S.C. 3509).

(ii) , Contractor Employee Whistleblower Rights (Nov 2023) ().

(iii) , Prohibition on Requiring Certain Internal Confidentiality Agreements or Statements (Jan 2017) (section 743 of Division E, Title VII, of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235) and its successor provisions in subsequent appropriations acts (and as extended in continuing resolutions)).

(iv) , Prohibition on Contracting for Hardware, Software, and Services Developed or Provided by Kaspersky Lab Covered Entities (Dec 2023) (Section 1634 of Pub. L. 115-91).

(v) , Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment. (Nov 2021) (Section 889(a)(1)(A) of Pub. L. 115-232).

(vi) , Prohibition on a ByteDance Covered Application (Jun 2023) (Section 102 of Division R of Pub. L. 117-328).

(vii)

(A) 52.204-30, Federal Acquisition Supply Chain Security Act Orders—Prohibition. (Dec 2023) (, title II).

(B) Alternate I (Dec 2023) of 52.204-30.

(viii) , Utilization of Small Business Concerns (Jan 2025) (and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds the applicable threshold specified in FAR (a) on the date of subcontract award, the subcontractor must include in lower tier subcontracts that offer subcontracting opportunities.

(xii) , Equal Opportunity for Workers with Disabilities (Jun 2020) (29 U.S.C. 793).

(xiv) , Notification of Employee Rights Under the National Labor Relations Act (Dec 2010) (E.O. 13496). Flow down required in accordance with paragraph (f) of FAR clause .

(xvi) (A) , Combating Trafficking in Persons (Nov 2021) (22 U.S.C. chapter 78 and E.O. 13627).

(B) Alternate I (Mar 2015) of (22 U.S.C. chapter 78 and E.O. 13627).

(xix) , Employment Eligibility Verification (Jan 2025) ().

(xx) , Minimum Wages for Contractor Workers Under Executive Order 14026 (Jan 2022).

(xxi) , Paid Sick Leave Under Executive Order 13706 (Jan 2022) (E.O. 13706).

(B) Alternate I (Jan 2017) of .

(xxv) , Providing Accelerated Payments to Small Business Subcontractors (Mar 2023) (and). Flow down required in accordance with paragraph (c) of .

(xxvi) , Prohibition on Unmanned Aircraft Systems Manufactured or Assembled by American Security Drone Act-Covered Foreign Entities (Nov 2024) (Sections 1821-1826, Pub. L. 118-31, note prec.).

(2) While not required, the Contractor may include in its subcontracts for commercial products and commercial services a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

52.223-2, Reporting of Biobased Products Under Service and Construction Contracts (MAY 2024) (DEVIATION FEB 2025)

(a) Definitions. As used in this clause—

Biobased product means a product determined by the U.S. Department of Agriculture (USDA) to be a commercial product or industrial product (other than food or feed) that is composed, in whole or in significant part, of biological products, including renewable domestic agricultural materials and forestry materials, or that is an intermediate ingredient or feedstock. The term includes, with respect to forestry materials, forest products that meet biobased content requirements, notwithstanding the market share the product holds, the age of the product, or whether the market for the product is new or emerging. (7 U.S.C. 8101) (7 CFR 4270.2).

USDA-designated product category means a generic grouping of products that are or can be made with biobased materials—

(1) That are listed by USDA in a procurement guideline available at <https://www.biopreferred.gov/resources/categories.html>; and

(2) For which USDA has provided purchasing recommendations (available at <https://www.biopreferred.gov>) or 7 CFR part 4270.

(b) The Contractor shall report to <https://www.sam.gov>, with a copy to the Contracting Officer, on the product types and dollar value of any biobased products in USDA-designated product categories purchased by the Contractor during the previous Government fiscal year, between October 1 and September 30; and

(c) Submit this report no later than—

(1) October 31 of each year during contract performance; and

(2) At the end of contract performance.

(End of clause)

(a) Definitions. As used in this clause-

Recycling means the series of activities, including collection, separation, and processing, by which products or other materials are recovered from the solid waste stream for use in the form of raw materials in the manufacture of products other than fuel for producing heat or power by combustion.

Waste prevention means any change in the design, manufacturing, purchase, or use of materials or products (including packaging) to reduce their amount or toxicity before they are discarded. Waste prevention also refers to the reuse of products or materials.

Waste reduction means preventing or decreasing the amount of waste being generated through waste prevention, recycling, or purchasing recycled and environmentally preferable products.

(b) The Contractor shall establish a program to promote cost-effective waste reduction in all operations and facilities covered by this contract. The Contractor's programs shall comply with applicable Federal, State, and local requirements, specifically including Section 6002 of the Resource Conservation and Recovery Act (, etseq.) and implementing regulations (40 CFR Part 247).

(End of clause)

52.223-23, Sustainable Products and Services (MAY 2024) (DEVIATION FEB 2025)

(a) Definitions. As used in this clause—

Biobased product means a product determined by the U.S. Department of Agriculture (USDA) to be a commercial product or industrial product (other than food or feed) that is composed, in whole or in significant part, of biological products, including renewable domestic agricultural materials and forestry materials, or that is an intermediate ingredient

or feedstock. The term includes, with respect to forestry materials, forest products that meet biobased content requirements, notwithstanding the market share the product holds, the age of the product, or whether the market for the product is new or emerging. () (7 CFR part 4270.2).

Recovered material means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process. ().

Sustainable products and services means:

(1) Products containing recovered material designated by the U.S. Environmental Protection Agency (EPA) under the Comprehensive Procurement Guidelines () () ().

(2) Energy- and water-efficient products that are ENERGY STAR® certified or Federal Energy Management Program (FEMP)-designated products () () (and).

(3) Biobased products meeting the content requirement of the USDA under the BioPreferred® program () () ().

(4) Acceptable chemicals, products, and manufacturing processes listed under EPA's Significant New Alternatives Policy (SNAP) program, which ensures a safe and smooth transition away from substances that contribute to the depletion of stratospheric ozone () ().

(b) Requirements.

(1) The sustainable products and services, including the purchasing program and type of product or service, that are applicable to this contract, and any products or services that are not subject to this clause, will be set forth in the statement of work or elsewhere in the contract.

(2) The Contractor shall ensure that the sustainable products and services required by this contract are—

(i) Delivered to the Government;

(ii) Furnished for use by the Government;

(iii) Incorporated into the construction of a public building or public work; and

(iv) Furnished for use in performing services under this contract, where the cost of the products is a direct cost to this contract (versus costs which are normally applied to the Contractor's general and administrative expenses or indirect costs). This includes services performed by contractors performing management and operation of Government-owned facilities to the same extent that, at the time of award, an agency would be required to comply if an agency operated or supported the facility.

(c) Resource. The Green Procurement Compilation (GPC) available at [\[redacted\]](#) provides a comprehensive list of sustainable products and services and sustainable acquisition guidance. The Contractor should review the GPC when determining which statutory purchasing programs apply to a specific product or service.

End of clause

"REGISTER OF WAGE DETERMINATIONS UNDER THE SERVICE CONTRACT ACT By direction of the Secretary of Labor		U.S. DEPARTMENT OF LABOR EMPLOYMENT STANDARDS ADMINISTRATION WAGE AND HOUR DIVISION WASHINGTON D.C. 20210
Daniel W. Simms Director		Wage Determination No.: 2015-5675 Revision No.: 27 Date Of Last Revision: 12/03/2025
Division of Wage Determinations		

State: California

Area: California Counties of Colusa, Glenn, Tehama

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors, applies to all contracts subject to the Service Contract Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is the victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Note: Executive Order 13658 generally applies to contracts subject to the Service Contract Act that were awarded on or between January 1, 2015 and January 29, 2022, and that have not been renewed or extended on or after January 30, 2022. If a contract is subject to Executive Order 13658, the contractor must pay all covered workers at least \$13.30 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2025. The applicable Executive Order minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under Executive Order 13658 is available at www.dol.gov/whd/govcontracts.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$5.55 per hour, up to 40 hours per week, or \$222.00 per week or \$962.00 per month

HEALTH & WELFARE EO 13706: \$5.09 per hour, up to 40 hours per week, or \$203.60 per week, or \$882.27 per month*

*This rate is to be used only when compensating employees for performance on an SCA-

covered contract also covered by EO 13706, Establishing Paid Sick Leave for Federal Contractors. A contractor may not receive credit toward its SCA obligations for any paid sick leave provided pursuant to EO 13706.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor, 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of eleven paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: This wage determination does not apply to any individual employed in a bona fide executive, administrative, or professional capacity, as defined in 29 C.F.R. Part 541. (See 41 C.F.R. 6701(3)). Because most Computer Systems Analysts and Computer Programmers who are paid at least \$27.63 per hour (or at least \$684 per week if paid on a salary or fee basis) likely qualify as exempt computer professionals under 29 U.S.C. 213(a)(1) and 29 U.S.C. 213(a)(17), this wage determination may not include wage rates for all occupations within those job families. In such instances, a conformance will be necessary if there are nonexempt employees in these job families working on the contract.

Job titles vary widely and change quickly in the computer industry, and are not determinative of whether an employee is an exempt computer professional. To be exempt, computer employees who satisfy the compensation requirements must also have a primary duty that consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

Any computer employee who meets the applicable compensation requirements and the above duties test qualifies as an exempt computer professional under both section 13(a)(1) and section 13(a)(17) of the Fair Labor Standards Act. (Field Assistance Bulletin No. 2006-3 (Dec. 14, 2006)). Accordingly, this wage determination will not apply to any exempt computer employee regardless of which of these two exemptions is utilized.

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**** HAZARDOUS PAY DIFFERENTIAL ****

An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder.

All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving re-grading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**** SERVICE CONTRACT ACT DIRECTORY OF OCCUPATIONS ****

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2015, unless otherwise indicated.

**** REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE, Standard Form 1444 (SF-1444) ****

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable

relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be paid to all employees performing in the classification from the first day of work on which contract work is performed by them in the classification. Failure to pay such unlisted employees the compensation agreed upon by the interested parties and/or fully determined by the Wage and Hour Division retroactive to the date such class of employees commenced contract work shall be a violation of the Act and this contract. (See 29 CFR 4.6(b)(2)(v)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the U.S. Department of Labor, Wage and Hour Division, for review (See 29 CFR 4.6(b)(2)(ii)).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour Division's decision to the contractor.
- 6) Each affected employee shall be furnished by the contractor with a written copy of such determination or it shall be posted as a part of the wage determination (See 29 CFR 4.6(b)(2)(iii)).

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the ""Service Contract Act Directory of Occupations"" should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination (See 29 CFR 4.152(c)(1))."
