The Government will award a single award, Firm Fixed Price (FFP), contract from this solicitation. Award will be made on the basis of meeting the acceptability standards for non-price factors; fair and reasonable price determination; demonstrated responsibility in accordance with the Federal Acquisition Regulation; and quote which conforms to the solicitation requirements. The solicitation requirements include all stated terms, conditions, representation and certification, and other information required by this solicitation. The Government reserves the right to award without discussions. Therefore, the initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if determined necessary by the Contracting Officer. The initial offer should contain the Offeror's best terms from a price and technical standpoint. Only the lowest price will be evaluated for technical acceptability. If the lowest is deemed technically unacceptable, then the next lowest priced offer will be evaluated until technical acceptability is met. No other bids will be evaluated.

Factor I - Technical Capability. The Government will evaluate the Offeror's response to meeting all of the objectives in the Performance Work Statement (PWS). The Government will evaluate the completeness of the Offeror's concept and approach to address how the work will be performed in order to meet all the PWS requirements. The Government will utilize the below technical rating system for the evaluation of all proposals against Factor I (Technical Capability). Table 1 below outlines the ratings and their descriptions:

Adjectival Rating	
Acceptable	Proposal meets the requirements of the solicitation.
Unacceptable	Proposal does not meet the requirements of the solicitation.

Factor II - Price. The Government shall evaluate the offeror's completed pricing schedule for each CLIN as required, and any supporting documentation applicable. The Offeror shall provide sufficient price information to allow the Contracting Officer to determine the price fair and reasonableness of the proposed prices. No ambiguities of inclusion, exclusion, or content shall be extended and lack of content or clarity with regard to pricing shall be considered as representing an unacceptable quote.
