(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR part 25. For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American statute. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals-

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.* (A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) *Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126).* [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]

==	==

[The contracting officer is to check a box to indicate if paragraph (k)(1) or (k)(2) applies.]

(1) ☐ 22.1003-4(c)(1). The offeror ☐ does ☐ does not certify that-

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

(l) *Taxpayer Identification Number (TIN)* (26 U.S.C. 6109, 31 U.S.C. 7701). (Not applicable if the offeror is required to provide this information to the SAM to be eligible for award.)

Evaluation Factors for Award

EVALUATION CRITERIA

A. BASIS FOR AWARD

An award will be made based on the best overall (i.e., best value) quote submission that is determined to be the most beneficial to the Government, with appropriate consideration given to the following evaluation Factors:

- * Technical Factor 1: Written Technical Solutions Documentation,
- * Technical Factor 2: Technical Usability Demonstration and Price

By submission of its offer in accordance with the instructions provided in clause FAR 52.212-1, Instructions to Offerors, the Offeror accedes to the terms of this solicitation. To receive consideration for award, all base factors must be achieved for Technical Factor 1. Offerors who meet the base factors for Technical Factor I will be invited to present a demo of their solution via an in-person or virtual meeting with the government evaluators. Offerors are cautioned that any resulting award may not necessarily be made to the lowest Price offered or the most highly rated technical submission.

Note--a best value award decision does not mean that the Government will automatically make award to a higher priced, technically acceptable proposal. Instead, the Source Selection Authority will make an award decision that represents the best value to the Government in accordance with the basis in Paragraph B, even if that means awarding to a lower priced, technically acceptable proposal.

B. FACTORS TO BE EVALUATED

52.212-2 EVALUATION--COMMERCIAL ITEMS (a) The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered.

C. EVALUATION APPROACH

All proposals shall be subject to evaluation by a team of United States Government (USG) personnel. The proposal will be evaluated strictly in accordance with its content. **Quotes which merely restate the requirement, or state that the requirement will be met without providing supporting rationale are not sufficient.** Offerors who fail to meet the minimum requirements of the solicitation will be rated Unacceptable and thus, ineligible for award.

I. TECHNICAL EVALUATION APPROACH. The evaluation process will consider the following:

1) TECHNICAL FACTOR 1: WRITTEN TECHNICAL SOLUTION DOCUMENT

This documentation must include a description of the following technical details:

- * Technical infrastructure for providing cyber training range capability.
- * Documentation for the last 24 months covering number of US Government personnel trained in the range and ability to scale up to meet the increased demand requested in this solicitation.
- * Training range student interface.

The Government will evaluate the Offeror's Technical Factor I submission to determine whether it provides all the below listed required technical capabilities. The minimum capabilities an Offeror is required to provide are:

- a. **Dedicated Virtual Machines (VMs):** Each student shall have access to dedicated VMs.
- b. **Dedicated Classroom Website URL:** A unique URL for each DAU Cyber Training Range (CTR) offering.
- c. **Web-Based Interface for Curriculum Uploads:** DAU instructors/curriculum developers shall have the ability to upload target VMs (OVA formatted) for major operating systems (e.g., Windows 7 through Windows Current, Windows Servers, Ubuntu, RedHat, SUSE, CentOS, Debian, Fedora, and Kali).
- d. **Web-Based Kali VM for Students:** Students shall use a web-based Kali VM for attack training against target VMs, with access to common repositories for offensive security tools (e.g., exploit-db.com, Kali OS updates, GitHub) and general filtered internet access.
- e. **Real-Time Curriculum Editing:** A web-based interface allowing DAU instructors/curriculum developers to edit class curriculum material in real-time using an intuitive WYSIWYG editor.
- f. **Intuitive Student Curriculum Material:** Curriculum material shall be offered intuitively with the VMs on the CTR, including split-screen options and full-screen views for multiple monitors.
- g. **Static IPv4 Addresses:** IPv4 addresses for student VMs and Kali systems shall be static RFC 1918 addresses or dynamically assigned IPs with automatic curriculum updates to ensure correct IP addresses in student instructions.
- h. **Individual VMs for Class Exercises:** Each student shall have their own Kali VM and target VM for most class exercises, with no shared VMs.
- i. **Configurable Internal Networks:** The CTR shall provide configurable internal networks that allow more than two VMs to communicate over configurable network ports for classes requiring multiple target systems.
- j. **Groups of Target VMs:** Groups of target VMs required for classes with multiple targets shall be provided for each student, with no shared VMs.
- k. **Network Ports/Protocols Configuration:** A web based interface shall be provided allowing DAU curriculum developers to configure network ports/protocols among target VMs and dynamically update VMs and curriculum references.
- l. **Direct Access to VMs:** Students shall have direct access to both the Kali VM (GUI access) and the target VM (e.g., RDP access to Windows VM) for single target VM exercises, configurable by DAU curriculum developers.
- m. **Capture the Flag (CTF) Capabilities:** CTF student competition scoreboard/leaderboard capabilities shall be provided, class and event-specific.
- n. **CTF Configuration:** DAU curriculum developers shall have direct access to create CTF questions/challenges with customizable answers and hints.

- o. **Class-Specific Reporting:** Reports shall be provided to include the number of answers successfully completed and the amount of time each student was actively participating.
- p. **VM Reset Capability:** Students and instructors shall have the ability to reset VMs in case of critical errors.
- q. **Shared Clipboard Capability:** Students shall be able to copy text between their clipboard and assigned VMs.
- r. **Global, Low-Bandwidth Friendly Access:** Global, low bandwidth access friendly capability shall be provided (e.g., AWS global network).
- s. **Scalability:** The environment shall scale based on user demand.
- t. **High Availability and Stability:** The environment shall have an availability SLA exceeding 99%.
- u. **User-Friendly Interface:** The CTR shall have a user-friendly interface for individuals with little technical knowledge.
- v. **Migration Capability:** The ability to migrate existing DAU training content to the CTR shall be provided.
- w. **Access to Contractor's Training Content:** Access to existing contractor training content that aligns with DAU course objectives shall be provided.
- x. **Modification Capability:** The ability to modify existing training content developed by DAU and offered by the contractor shall be provided.
- y. **Integration with DAU LMS:** Integration of the contractor's student management system with the DAU LMS using SCORM API, including Single Sign-On (SSO) and feedback mechanisms for student completion shall be provided.

After the Government completes evaluation of each Technical Factor 1 Capabilities Document Submission, Offerors that do not meet the minimum requirements will be ineligible for further consideration. Offerors that do meet the requirements will receive a notification advising them to proceed to Technical Factor 2: Technical Usability Demonstration.

2) TECHNICAL FACTOR 2: TECHNICAL USABILITY DEMONSTRATION

Technical Factor 2 will be evaluated to determine the extent to which the solution proposed in Technical Factor 1 is workable. The solution will be evaluated on how well DAU instructors can conduct training using the offeror's cyber training range. Offerors will need to demonstrate their ability to meet each of the below training scenario requirements with their proposed solution, walking the government evaluators through how each requirement may be completed using an in-production range capability.

- a. Conduct a training scenario where the student acting as an insider threat, uses a Kali Linux machine to exploit a Windows 10 machine using an Eternal Blue exploit.
- b. Conduct a training scenario where the student acting as an outsider threat, uses a Kali Linux machine to exploit a Windows 10 machine using a phishing attack.
- c. Conduct a training scenario where the student acting as an insider threat, uses a simulated infected USB drive to exploit a Windows 10 machine using a LNK remote code execution attack.
- d. Conduct a training scenario where the student acting as an outsider threat, uses hping to conduct a DDOS attack on a simulated unmanned air system (UAS) command and control data link. The UAS would include a simulated operator control station, unmanned air vehicle with realistic flight characteristics and response to operator control inputs, and use a simulated Ardupilot flight controller.
- e. Conduct a training scenario where the student acting as an outsider threat, exploits a vulnerable web server, accesses a user account, escalates privileges, accesses a domain controller, moves laterally to another domain controller hosting a SQL database and installs ransomware.

The government will evaluate the Offerors' ability to meet each of the above requirements during the demonstration. The government will also evaluate the proposed solution from a user-centered design/human factors perspective.

Offerors that are determined by the government to be viable competitors based on technical Factor 1: Written Technical Solution Document and based on their performance in Technical Factor 2: Technical Usability Demonstration will be notified to complete Factor 3: Price.

II PRICE EVALUATION APPROACH

The Government will evaluate price by adding the total of all line-item prices, including all options. The total evaluated price will be that sum. The Government will adjust the Offeror's proposed Total Evaluated Price (TEP) if mathematical errors are identified. The Contracting Officer has determined there is a high probability of adequate price competition for this procurement. Upon examination of offers, the Contracting Officer will review this determination and if adequate price competition exists, no additional price information will be requested. However, if at any time during this evaluation the Contracting Officer determines that adequate price competition no longer exists; Offerors may be required to submit information to the extent necessary for a determination of price fair and reasonableness to be made.

The TEP is calculated by adding together the base price and all option period pricing. An Offeror's proposed prices will be determined by multiplying the quantities identified in the Price Template by the unit price for each item to confirm the extended amount for each.

The Government intends to award a contract without any additional communication with respective Offerors. The Government reserves the right to conduct discussions if deemed in its best interest. The Government also reserves the right to cancel the solicitation without making award.

Evaluation-Commercial Products and Commercial Services (Nov 2021)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

See Section M of the solicitation.

(b) *Options*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
