FAR Clauses Incorporated by Full Text

52.212-2 Evaluation-Commercial Products and Commercial Services. (Deviation)

(Feb 2026)

Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation)

(a) The evaluation procedures will be in accordance with FAR 12.203, The Government will award a contract resulting from this solicitation to the responsible quoter whose quote conforming to the solicitation is the most advantageous to the Government, price and non-price factors considered, in compliance with the specifications attached to this solicitation.

A quote that meets and exceeds the government's minimum needs may represent the best value than a quote that just meets the government's minimum needs. The Government may consider awarding to the best value quote for a higher price. The Government may also award to the lowest priced quote if all quotes are equal in non-priced factors, where there are no added non-priced advantages from one quote to the other. The Government will make comparative evaluations, weighing the advantages and disadvantages of each quote in making the award decision.

As such, quoters are encouraged to submit quotes that meet and exceed the government's minimum need to be considered for award and represent the most advantageous quoter.

Moreover, the Government reserves the right to award no contract at all, depending on the quality of quotes submitted and availability of funds. The Government reserves the right to only evaluate non-price factors of the quoters most likely to receive an award based on price.

Factor 1 - Technical

The Government will evaluate the quote to verify that the quoted items meet and/or exceed the requirements described in the PWS.

Factor 2 - Price

Quotes will be evaluated in accordance with FAR 12.203.

The quoted prices will be analyzed for Completeness and a Reasonableness.

A. Completeness: All information/data required by the solicitation has been submitted. The Government will combine both contract line items to create a total evaluated price (TEP). The Government will evaluate the TEP to determine if it is fair and reasonable. The price quote shall include a unit price for each item and a total firm fixed- price for all line items. The total firm-fixed-price shall include all applicable taxes, shipping, and handling costs to the shipping address listed at the top of this document.

B. Reasonableness: Prices are fully justified, supported and considered fair and reasonable under current market conditions.

Factor 3 - Past Performance

The Government will review internal databases (i.e. Supplier Past Performance Risk System and SAM

Responsibility and Qualification) to evaluate the quoter's past performance. The Government reserves the right to use other source of information, as deemed necessary. Evaluation may be limited to those quoters who are more likely to receive an award based on Price and Technical Factors.

(b) *Options (if applicable)*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

Contractor Responsibility.

To be eligible for award of a contract hereunder, a Quoter must be determined by the Contracting Officer to be a responsible prospective contractor in accordance with FAR 9.1. and DFARS 209.105-1.
