APPROVALS (RFO 6.104-2(a) Table 6-1 & R-DFARS 206.104-72 Table 206.1)

Department of the Air Force: Justification for Other Than Full and Open Competition

I. Agency and Contracting Activity (RFO 6.104-1(a)(1)):

Agency: AFGSC

Contracting Activity: 509th Contracting Squadron, 660 Tenth Street Suite 222, Whiteman AFB MO 65305

II. Nature and/or description of the action being approved (RFO 6.104-1(a)(2)):

The action to be processed is justification for the use of other than full and open competition due to the availability of only one responsible source. In this particular acquisition, HSQ Tech, Inc. is the sole manufacturer and proprietor of their software and systems. This software and system monitors and controls the Waste Water Treatment Plant, Water Plant, Electrical Generators, Transfer Switches, Electrical Systems, and Fire Suppression System to ensure that all of the services are running within the correct parameters. In order to solicit this requirement under Full and Open Competition, the entire infrastructure in which this system utilizes would need to be reconstructed including the upgrade of 69 remote field RTU/PLC panels as well as all existing monitors, laptops, network switches, routers, radio, Oracle Dell Server, UPS's, and modems. Doing so would cost up to an estimated \$7M.

III. Description of supplies/services required to meet agency needs (RFO 6.104-1(a)(3)):

This requirement is to provide service and maintenance for the Supervisory Control and Data Acquisition (SCADA) System which is currently installed at Whiteman AFB in accordance with the Statement of Work. The SCADA system monitors and controls the Waste Water Treatment Plant, Water Plant, Electrical Generators, Transfer Switches, Electrical Systems, and Fire Suppression System. This is a service for a base year and four (4) option years.

IV. Statutory Authority Permitting Other Than Full and Open Competition (RFO 6.104-1(a)(4)):

10 U.S.C. 3204(a)(1), Only one responsible source and no other supplies or services will satisfy agency requirements.

V. Rationale for Use of Authority (RFO 6.104-1(a)(5)):

This system must be serviced by HSQ Tech, Inc. due to its proprietary nature. HSQ Tech, Inc. is the only company trained to service and install their proprietary software and associated hardware. All of the software and a majority of the internal hardware for the current SCADA system is created by HSQ Tech, Inc. and can only be maintained by this contractor. HSQ Tech, Inc. has been selected for this service for several reasons: Whiteman AFB has a full complement of HSQ Tech, Inc. systems and HSQ Tech, Inc. has proprietary rights to all software and associated hardware. Purchasing services through HSQ Tech, Inc. will guarantee system performance, reliability, and security. Purchasing this service under Full and Open Competition would cause significant hardship to the Government and the internal systems that utilize the current SCADA system.

VI. Integrated Market Analysis and Efforts to Solicit Competition (RFO 6.104-1(a)(6), (8), and (10)):

Our agency contacted HSQ Tech, Inc. to verify if any other entities are certified to work on the company's software. Gus Jimenez, Vice President and Chief Operations Officer for HSQ Tech, Inc., responded to our agency on 19 February 2026 by stating, "No there is not." See "Email-Proprietary System."

HSQ Tech, Inc. also provided a sole source letter in August 2025 stating that HSQ Tech, Inc. as the manufacturer, is the only authorized company that supports the hardware and software for both MISER SCADA System and the RTUs along with MISER SCADA Client Software and XView for Windows." See "HSQ_Whiteman AFB Sole Source_082025".

Department of the Air Force: Justification for Other Than Full and Open Competition

A sources sought was posted on System for Award Management (SAM) on 15 August 2025 for an upgrade to the SCADA system, resulting in 10 responses. All responses were for a full replacement of the SCADA system or needing to team with HSQ Tech, Inc. HSQ Tech, Inc. only allows their trained personnel to utilize the system. No other system or company can integrate, modify, change or upgrade software.

CO has concluded that no other vendor will be considered for this procurement. Until the Government changes the entire SCADA system, there is no indication that a different vendor can provide this requirement. A synopsis will be posted IAW RFO 5.101(c)(4)(vii).

VII. Determination of Fair and Reasonable Cost (RFO 6.104-1(a)(7)):

The Contracting Officer is responsible for evaluating, determining, and documenting the anticipated contract cost/price is fair and reasonable in accordance with RFO Subpart 15.4, Contract Pricing.

VIII. Any Other Facts Supporting the Justification (RFO 6.104-1(a)(9)):

Market research conducted confirmed that no other companies can provide the requested software and maintenance for the HSQ Tech, Inc. software and systems.

IX. Actions to Overcome Barriers to Competition (RFO 6.104-1(a)(11)):

HSQ Tech, Inc. is the only vendor that can satisfy the requirement at this time. When and if, HSQ Tech, Inc. decides to release proprietary rights for other vendors to maintain their systems then competition barriers will be removed.
