Award will be made to the Offerer whose Acceptable Technical Proposal **will be most advantageous to the Government, price and other factors considered**. Offers will be rated by technical acceptability and award will be made to the lowest priced offer.

(1) The evaluation team will evaluate each offer on its merits and assign one of the following ratings to each offer.

Technical Acceptable/Unacceptable Ratings

Rating	Description
Acceptable	Offer does not clearly meet the requirements of the Solicitation and the Requirements Description.
Unacceptable	Offer clearly meets the requirements of the Solicitation and the Requirements Description.

Price. The Government shall conduct a price evaluation of all offers. The Government will evaluate an offer by adding the total price for all CLINs. The Government may use various price analysis techniques and procedures to ensure a fair, reasonable and realistic price. Evaluation of prices will determine if they are compatible with the scope of the effort, are not unbalanced and are neither excessive nor insufficient for the effort to be accomplished. It is expected that the competitive nature of this acquisition will drive price reasonableness and fairness; however, the Government reserves the right, if it deems appropriate, to make these determinations by means of one or more price analysis techniques.

a. Contract(s) may be awarded to the offeror who is deemed responsible in accordance with the FAR Part 9.1, whose offer conforms to the solicitation's requirements (to include all stated terms, conditions, representations, certifications, and all other information required by this RFQ) and is judged, based on the evaluation to represent the best value offer.

The Government intends to evaluate proposals and award 1 (one) contract without discussions with offerors. Therefore, the offeror's initial proposal should contain the offeror's best terms. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

While the Government will strive for maximum objectivity, the selection process, by its nature, is subjective; and therefore, professional judgment is implicit throughout the entire process.

b. A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)
