

JUSTIFICATION FOR SOLE SOURCE (\$15K-\$350K)

Ref: FAR 13.106-1(b)

The service or material listed on JML 6050-1930 thru 1937 are sole source and competition must be restricted to one source, or to only one brand name for reasons indicated below. There are no substitutes available for this material.

Restricted to the following source or brand name. Provide original manufacturer's name. (If a sole source manufacturer distributes via dealers, ALSO provide dealer information.)

Manufacturer: Fluke Corporation

Manufacturer POC & Phone Nr.: [REDACTED] 1-408-659-4031

Mfr. Address: 7272 Collection Center Drive Chicago, IL 60693

Manufacturers Dealer/Rep: Ms. Coleen White

Dealer/Rep Address/Phone Number: Same as above

✓ Description of the item or service required, the estimated cost, and required delivery date.

AS STATED BELOW AND ENCLOSED IN QUOTE. ESTIMATED COST = \$ [REDACTED] SHIP IN 2 WEEKS.

JML Number: 6050-1930 P/N: 6010801, Data Processor, [REDACTED]

JML Number: 6050-1931 P/N: 6010829, Transit Case, \$ [REDACTED]

JML Number: 6050-1932 P/N: 6021969, Accelerometer, [REDACTED]

JML Number: 6050-1933 P/N: 6022154, Controller, [REDACTED]

JML Number: 6050-1934 P/N: 6044627, Trio Version [REDACTED]

Total

JML Number: 6050-1935 P/N: 6019970, Magnet Mounting, [REDACTED]

JML Number: 6050-1936 P/N: 6026238, Service Support, [REDACTED]

JML Number: 6050-1937 P/N: 6026272, Service Support, [REDACTED]

✓ Specific characteristics of the material or service that limit the availability to a sole source or particular brand name (unique features, function of the item, etc.). Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

This equipment is purpose-built for the harsh naval environment, holding essential certifications for durability (MIL-STD-810G), environmental sealing (IP65), and use in hazardous locations (HAZLOC). As this and similar systems have been the standard across other commands since the 1990s, procuring this specific model is mandatory to maintain compatibility with decades of irreplaceable data. This compatibility is the only way to compare new test results against historical data to accurately assess machinery health.

✓ The requested material or service represents the minimum requirements of the Government.

CHECK & FILL IN ALL APPLICABLE BLANKS BELOW

✓ The material/service must be compatible in all aspects (form, fit and function) with existing systems presently installed. Describe the equipment you have now and how the new item/service must coordinate, connect, or interface with the existing system.

Currently, our vibration analysis is performed by other commands using the Fluke Azima DLI Trio equipment. Acquiring this same system is mandatory to utilize their extensive historical data, which is essential for the continued and accurate monitoring of our ships rotating machinery. Purchasing any other equipment would prevent the critical comparison between new and past results, rendering the collected data useless and forcing the establishment of a new, unreliable baseline on aging rotating machinery.

\_\_\_ A patent, copyright, or proprietary data limits competition. The proprietary data is:

✓ These are "direct replacements" parts/components for existing brand name equipment.  
✓ Other information to support a sole-source buy:

We are taking over vibration analysis and must acquire the same Fluke Azima DLI equipment used by the commands who previously managed this task. This is the only way to ensure compatibility with their historical database, as any other system would yield unusable data. Failure to do so would force us to discard decades of trend analysis and establish new baselines on old rotating machinery.

I CERTIFY THAT STATEMENTS CHECKED, AND INFORMATION PROVIDED ABOVE, ARE COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE AND DO NOT CONTAIN CLASSIFIED INFORMATION. I UNDERSTAND THAT

THE PROCESSING OF THIS SOLE-SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
