### PART I - THE SCHEDULE

#### SECTION H

#### SPECIAL CONTRACT REQUIREMENTS

#### DLA PROCUREMENT NOTES

**C01 Prescription: 11.391(a) Solicitations and contracts shall include procurement note C01 when procuring part numbered items.**

#### **C01 Superseded Part Numbered Items (SEP 2016)**

If an item part number is superseded during the term of this contract, the contractor shall advise the contracting officer immediately upon determination. The notice shall include complete information on the superseding item form, fit, function, configuration, application, or physical nature. The contracting officer will determine whether the item is acceptable to the Government, advise the contractor within seven days, and modify the contract accordingly.

\*\*\*\*\*

#### **C02 Prescription: 11.9001(a) All solicitations and contracts shall include procurement note C02.**

C02 Manufacturing Phase-Out or Discontinuation of Production, Diminishing Sources, and Obsolete Materials or Components (DEC 2016)

The contractor shall notify the contracting officer immediately upon determining the unavailability of obsolete materials or components. The contractor may recommend a solution to include the impact on the contract price and delivery. The contractor shall not initiate any item redesign or incur any additional costs without the express, written authorization of the contracting officer.

In the event that manufacturing phase-out or discontinuance of production of such items is contemplated, the contractor is required to notify the contracting officer and publish the discontinuance in the Government-Industry Data Exchange Program (GIDEP), where feasible; and to provide immediate advance notice of production phase-out to DLA DMSMS at dsc.dmsms@dla.mil.

\*\*\*\*\*

### **C03 Contractor Retention of Supply Chain Traceability Documentation (SEP 2016)**

By submitting a quotation or offer, the contractor agrees that, when the contractor is not the manufacturer of the item, it is confirming that it currently has or will obtain before delivery and shall retain documented evidence (supply chain traceability documentation) that the item is from the approved manufacturer and conforms to the technical requirements. The retention period is five years after final payment under this contract.

At a minimum, the supply chain traceability documentation for the item shall include: basic item description, part number and/or national stock number, manufacturing source, manufacturing source's Commercial and Government Entity (CAGE) code, and clear identification of the name and location of all supply chain intermediaries between the manufacturer to the contractor to item(s) acceptance by the Government. The documentation should also include, where available, the manufacturer's batch identification for the item(s), such as date codes, lot codes, or serial numbers.

Examples of acceptable supply chain traceability documentation can be found at:

<http://www.dla.mil/LandandMaritime/Business/Selling/Counterfeit-Detection-Avoidance-Program/>

The contractor shall immediately make available documentation upon request of the contracting officer.

The contracting officer determines the acceptability and sufficiency of documentation. If the contractor fails to retain or provide the documentation or the contracting officer finds the documentation to be unacceptable, corrective action may be taken including, but not limited to, cancellation of undelivered orders or rejection of delivered supplies.

## **PART II - CONTRACT CLAUSES**

### **SECTION I**

### **CONTRACT CLAUSES**

#### **5352.201-9101**

#### **OMBUDSMAN (JUN 2023)** **(IAW DAFFARS 5301.9103)**

(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from offerors, potential offerors, and others for this acquisition. When requested, the ombudsman will maintain strict confidentiality as to the source of the concern. The existence of the ombudsman does not affect the authority of the program manager, contracting officer, or source selection official. Further, the ombudsman does not participate in the evaluation of proposals, the source selection process, or the adjudication of protests or formal contract disputes. The ombudsman may refer the interested party to another official who can resolve the concern.

(b) Before consulting with an ombudsman, interested parties must first address their concerns, issues, disagreements, and/or recommendations to the contracting officer for resolution. Consulting an ombudsman does not alter or postpone the timelines for any other processes (e.g., agency level bid protests, GAO bid protests, requests for debriefings, employee-employer actions, contests of OMB Circular A-76 competition performance decisions).

(c) The Competition Advocate (CA) at each contracting activity/office (as defined in DLAD 2.101) shall act as the ombudsman and attempt to resolve contractor complaints. DLA AVIATION – AOCA's CA/ombudsman can be reached at (405) 855-3552, facsimile (405) 734-8129. Complaints which cannot be so resolved shall be forwarded to the HQ through J-72 for resolution by the DLA competition advocate. Each activity is responsible for developing procedures for executing the duties and responsibilities of its local ombudsman.

(d) The ombudsman has no authority to render a decision that binds the agency.

(e) Do not contact the ombudsman to request copies of the solicitation, verify offer due date, or clarify technical requirements. Such inquiries shall be directed to the contracting officer.  
(The above Clause/Provision has been modified.)

(IAW Deviation 2021-O0008 Rev 1.)

(a) This clause does not apply to the unrestricted portion of a partial set-aside.

(b) Definition. Similarly situated entity, as used in this clause, means a first-tier subcontractor, including an independent contractor, that—

- (1) Has the same small business program status as that which qualified the prime contractor for the award (e.g., for a small business set-aside contract, any small business concern, without regard to its socioeconomic status); and
- (2) Is considered small for the size standard under the North American Industry Classification System (NAICS) code the prime contractor assigned to the subcontract.

(c) Applicability. This clause applies only to—

- (1) Contracts that have been set aside for any of the small business concerns identified in 19.000(a)(3);
- (2) Part or parts of a multiple-award contract that have been set aside for any of the small business concerns identified in 19.000(a)(3);
- (3) Contracts that have been awarded on a sole-source basis in accordance with subparts 19.8, 19.13, 19.14, and 19.15;
- (4) Orders expected to exceed the simplified acquisition threshold and that are—
  - (i) Set aside for small business concerns under multiple-award contracts, as described in 8.405-5 and 16.505(b)(2)(i)(F); or
  - (ii) Issued directly to small business concerns under multiple-award contracts as described in 19.504(c)(1)(ii);
- (5) Orders, regardless of dollar value, that are—
  - (i) Set aside in accordance with subparts 19.8, 19.13, 19.14, or 19.15 under multiple-award contracts, as described in 8.405-5 and 16.505(b)(2)(i)(F); or
  - (ii) Issued directly to concerns that qualify for the programs described in subparts 19.8, 19.13, 19.14, or 19.15 under multiple-award contracts, as described in 19.504(c)(1)(ii); and
- (6) Contracts using the HUBZone price evaluation preference to award to a HUBZone small business concern unless the concern waived the evaluation preference.

(d) Independent contractors. An independent contractor shall be considered a subcontractor.

(e) Limitations on subcontracting. By submission of an offer and execution of a contract, the Contractor agrees that in performance of a contract assigned a North American Industry Classification System (NAICS) code for—

(1) Services (except construction), it will not pay more than 50 percent of the amount paid by the Government for contract performance, excluding certain other direct costs and certain work performed outside the United States (see paragraph (e)(1)(i)), to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both services and supplies, the 50 percent limitation shall apply only to the service portion of the contract. The following services may be excluded from the 50 percent limitation:

(i) Other direct costs, to the extent they are not the principal purpose of the acquisition and small business concerns do not provide the service. Examples include airline travel, work performed by a transportation or disposal entity under a contract assigned the environmental remediation NAICS code 562910), cloud computing services, or mass media purchases.

(ii) Work performed outside the United States on awards made pursuant to the Foreign Assistance Act of 1961, or work performed outside the United States required to be performed by a local contractor.

(2) Supplies (other than procurement from a nonmanufacturer of such supplies), it will not pay more than 50 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both supplies and services, the 50 percent limitation shall apply only to the supply portion of the contract;

(3) General construction, it will not pay more than 85 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 85 percent subcontract amount that cannot be exceeded; or

(4) Construction by special trade contractors, it will not pay more than 75 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 75 percent subcontract amount that cannot be exceeded.

(f) The Contractor shall comply with the limitations on subcontracting as follows:

(1) For contracts, in accordance with paragraphs (c)(1), (2), (3) and (6) of this clause—

**[Contracting Officer check as appropriate.]**

☐ By the end of the base term of the contract and then by the end of each subsequent option period; or

☐ By the end of the performance period for each order issued under the contract.

(2) For orders, in accordance with paragraphs (c)(4) and (5) of this clause, by the end of the performance period for the order.

(g) A joint venture agrees that, in the performance of the contract, the applicable percentage specified in paragraph (e) of this clause will be performed by the aggregate of the joint venture participants.

(1) In a joint venture comprised of a small business protégé and its mentor approved by the Small Business Administration, the small business protégé shall perform at least 40 percent of the work performed by the joint venture. Work performed by the small business protégé in the joint venture must be more than administrative functions.

(2) In an 8(a) joint venture, the 8(a) participant(s) shall perform at least 40 percent of the work performed by the joint venture. Work performed by the 8(a) participants in the joint venture must be more than administrative functions.

(a) *Invoice payments—*

(5) *Computing penalty amount.* The Government will compute the interest penalty in accordance with the Office of Management and Budget prompt payment regulations at 5 CFR part 1315.

(i) For the sole purpose of computing an interest penalty that might be due the Contractor, Government acceptance is deemed to occur constructively on the 7th day (unless otherwise specified in this contract) after the Contractor delivers the supplies or performs the services in accordance with the terms and conditions of the contract, unless there is a disagreement over quantity, quality, or Contractor compliance with a contract provision. If actual acceptance occurs within the constructive acceptance period, the Government will base the determination of an interest penalty on the actual date of acceptance. The constructive acceptance requirement does not, however, compel Government officials to accept supplies or services, perform contract administration functions, or make payment prior to fulfilling their responsibilities.

(a) *Definitions.* As used in this clause—

- (1) “Contract financing payment” and “invoice payment” have the meanings given in section 32.001 of the Federal Acquisition Regulation.
- (2) “Electronic form” means any automated system that transmits information electronically from the initiating system to all affected systems. Facsimile, e-mail, and scanned documents are not acceptable electronic forms for submission of payment requests. However, scanned documents are acceptable when they are part of a submission of a payment request made using Wide Area WorkFlow (WAWF) or another electronic form authorized by the Contracting Officer.
- (3) “Payment request” means any request for contract financing payment or invoice payment submitted by the Contractor under this contract.

(b) Except as provided in paragraph (c) of this clause, the Contractor shall submit payment requests and receiving reports using WAWF, in one of the following electronic formats that WAWF accepts: Electronic Data Interchange, Secure File Transfer Protocol, or World Wide Web input. Information regarding WAWF is available on the Internet at <https://wawf.eb.mil/>.

(c) The Contractor may submit a payment request and receiving report using other than WAWF only when—

- (1) The Contracting Officer authorizes use of another electronic form. With such an authorization, the Contractor and the Contracting Officer shall agree to a plan, which shall include a timeline, specifying when the Contractor will transfer to WAWF;
- (2) DoD is unable to receive a payment request or provide acceptance in electronic form;
- (3) The Contracting Officer administering the contract for payment has determined, in writing, that electronic submission would be unduly burdensome to the Contractor. In such cases, the Contractor shall include a copy of the Contracting Officer’s determination with each request for payment; or
- (4) DoD makes a payment for commercial transportation services provided under a Government rate tender or a contract for transportation services using a DoD-approved electronic third party payment system or other exempted vendor payment/invoicing system (e.g., PowerTrack, Transportation Financial Management System, and Cargo and Billing System).

(d) The Contractor shall submit any non-electronic payment requests using the method or methods specified in Section G of the contract.

(e) In addition to the requirements of this clause, the Contractor shall meet the requirements of the appropriate payment clauses in this contract when submitting payment requests.

**PART IV - REPRESENTATIONS AND INSTRUCTIONS**  
**SECTION M**  
**EVALUATION FACTORS FOR AWARD**

**EVALUATION CRITERIA FOR AWARD (OCT 1997)**  
(IAW FAR 13.106-2(b), FAR 14.201-5(c), FAR 15.204-5(c))

For the purposes of award, offers will be evaluated based on the following factors, listed in descending order of importance:

| Evaluation Factors | Order of Importance |
|--------------------|---------------------|
| Price or Cost      | 01                  |
| Technical          | 02                  |

All evaluation factors other than cost or price, when combined, are Approximately Equal to Cost or Price.

**NOTICE FOR OPTIONS:** Price will be evaluated by adding the extended prices for basic award and option quantities, if applicable.

**52.247-47 EVALUATION-F.O.B. ORIGIN (JUN 2003)**  
(IAW FAR 47.305-3(f)(2))

|           |                        |

**EVALUATION FACTORS FOR AWARD USING**  
**LOWEST PRICE TECHNICALLY ACCEPTABLE PROCEDURES**

**a. Basis for Contract Award**

This acquisition will utilize Lowest Price Technically Acceptable (LPTA) source selection procedures in accordance with Federal Acquisition Regulation (FAR) Part 15.101-2, as supplemented. Technical tradeoffs will not be made and no additional credit will be given for exceeding acceptability. Award will be made to the acceptable offeror with the lowest evaluated cost or price, which is deemed responsible in accordance with the Federal Acquisition Regulation and whose proposal confirms to the solicitation requirements. The solicitation requirements include all stated terms, conditions, representations, certifications, and all other information required by Section L of this solicitation. The Government intends to award without discussions/reserves the right to award without discussions. Therefore, each initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if determined necessary by the Contracting Officer.

**b. Number of Contracts to be Awarded**

The Government intends to select one contractor for the program. However, the Government reserves the right to award no contract at all, depending on the quality of the proposals and prices submitted and the availability of funds.

**c. Rejection of Unrealistic Offers**

The Government may reject any proposal that is evaluated to be unrealistic in terms of program commitments, including contract terms and conditions, or unrealistically high or low in cost/price when compared to Government estimates, such that the proposal is deemed to reflect an inherent lack of competence or failure to comprehend the complexity and risks of the program.

**d. Correction Potential of Proposals**

The Government will consider, throughout the evaluation, the "correction potential" of any deficiency or proposal inadequacy. The judgment of such "correction potential" is within the sole discretion of the Government. If an aspect of an offeror's proposal not meeting the Government's requirements is not considered correctable, the offeror may be eliminated from the competitive range.

**PRE-AWARD SURVEY**

The Government may conduct a pre-award survey (PAS) as part of this source selection. Results of the PAS (if conducted) will be evaluated to determine each offeror's capability to meet the requirements of the solicitation.

**PLANT VISITS**

In the event discussions are necessary, plant visits may be conducted during the evaluation phase to develop knowledge for judging the potential for correction of the deficiencies.

**SOLICITATION REQUIREMENTS, TERMS AND CONDITIONS**

Offerors are required to meet all solicitation requirements; such as terms and conditions, representations and certifications, and technical requirements, in addition to those identified as factors, subfactors to be eligible for award. Any aspect of the proposal judged to be unacceptable would render the entire proposal unacceptable. Failure to comply with the terms and conditions of the solicitation may result in the offeror being removed from consideration for award. Any exceptions to the solicitation's terms and conditions must be fully explained and justified.

**EVALUATION CRITERIA FOR AWARD**

(IAW FAR 13.106-2(b), 14.201-5(c), and 15.204-5(c))

For the purposes of award, offers will be evaluated for acceptability of evaluation factors described below:

**FACTOR 1: Cost/Price**

**FACTOR 2: Technical**

**a. Order of Importance**

Factor 1 (Cost/Price) and Factor 2 (Technical) are of equal importance.

**b. Evaluation Methodology**

Price will be evaluated first and the proposals will be listed from lowest to highest price. After price is evaluated the technical acceptability evaluation will begin; starting with the lowest evaluated priced offeror. The first proposal evaluated as technically acceptable will be considered the best value proposal and all other technical evaluations will cease. Only those offerors determined to be technically acceptable will be considered for award. The technical factor rating depicts acceptable, and unacceptable.

**c. Cost/Price Factor (IAW 5315.305(a)(1))**

(1) For CLINs including range quantities, the offeror's cost/price proposal will be evaluated for award purposes by multiplying the proposed unit price by the total quantity. The quantity utilized for evaluation will be based on the total quantity required at time of award by the Government Requirements group.

(2) Unrealistically low proposed costs or prices, initially or subsequently, may be grounds for eliminating a proposal from competition either on the bases that the offeror does not understand the requirement or the offeror has made an unrealistic proposal.

(3) Offerors are cautioned against submitting an offer that contains unbalanced pricing. Unbalanced pricing may increase performance risk and could result in payment of unreasonably high prices. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly over or understated as indicated by the application of cost or price analysis techniques. The Government shall analyze offers to determine whether they are unbalanced with respect to separately priced line items or subline items. Offers that are determined to be unbalanced may be rejected if the contracting officer determines that the lack of balance poses an unacceptable risk to the government.

(4) Cost/price proposals submitted by vendors shall be evaluated by multiplying the proposed unit price by the quantity desired by the Government to determine the contractor's total price.

Proposals will be evaluated as follows:

The contractor's proposal for CLIN 0001AC (FA Test Report), CLIN 0001AB (FA Contractor Test), will be added together for purposes of evaluation. The Evaluation Cost factor for First Article (\$500.00) will be added to this total. This cumulative price of these three factors will be used in evaluation of proposals submitted.

(5) If incidental or miscellaneous expenses not related to specific CLIN structure accompany vendor proposals, these charges shall be added to the total CLIN cost/price to reach the final total cost/price proposed to the Government. In addition 'Price Analysis' shall be conducted in accordance with FAR 15.404-1, to determine 'Reasonableness' on all offers submitted by vendors.

\*Unrealistically low costs/prices proposed either initially or subsequently may be grounds for elimination of an offer from the competition and shall be based upon the vendor not understanding requirements or because an unrealistic proposal was submitted.

**d. Technical Factor**

(1) Technical proposals are not required. Technical acceptability will be determined based on the offerors compliance with the requirement as stated in Section B Schedule and/or any referenced specifications, engineering notes and all other attachments herein.

(2) The delivery schedule will be evaluated based on the dates established in Section B of the solicitation. It should be noted that the Government's required delivery is based on the Requirements' need date, and may not be attainable. Therefore, if a proposed delivery does not meet the Government's required delivery, the proposed delivery may be considered responsive.

(3) Qualification Requirements must be met IAW Clause 52.209-1, "QUALIFICATION REQUIREMENTS (FEB 1995)" prior to award. Contract award will not be delayed to allow an offeror completion of qualification requirements/process. A proposal will be determined acceptable or unacceptable.

Technical acceptability will be ascertained based on one of the ratings described below. Proposals will be evaluated for compliance with solicitation; receipt of a responsive proposal to deliver the supplies in accordance with the solicitation, and/or any referenced specifications in the Engineering Data List, Engineering Notes and all other attachments herein.

Acceptable – The proposal meets specified minimum requirements necessary for acceptable contract performance.

Unacceptable – The proposal fails to meet specified minimum requirements necessary for contract performance. Proposals with an unacceptable rating are not awardable.

**e. Discussions**

It is the Government's intent to award without discussions, therefore, it is imperative that offeror's submit their best terms initially. However, if during the evaluation period, it is determined to be in the best interest of the Government to hold discussions, offeror responses to Evaluation Notices (ENs), and the Final Proposal Revisions (FPRs) will be considered in making the source selection decision.

If the starting material or raw stock is processed in a manner that will not affect its chemical composition or mechanical properties (e.g. machining), the original mill certification is acceptable. Recertification of the mechanical properties or chemical composition is required if a metal working process, heat treatment or alloying used during fabrication alters the original condition of the material. The mechanical properties or chemical composition of the material must be re-determined and be representative of the altered condition. The altered mechanical properties or chemical composition must be within specification and be part of the certification data submitted to the government. The altered material shall be uniquely re-identified (marked), and traceable to certification data.

6. Foreign Certification. In addition to the paragraph 4 data format requirements, country of origin shall be identified. Foreign languages on the certifications must be translated into English. The units of measure must be the same as those required by the contract or specification. Those units of measure not in conformance with the contract or specification must be converted. Translations and conversions may be annotated on the certifications, if space permits, or placed in an addendum in the same format as the foreign certification data. Such translation or conversion shall remain traceable to the material and be identified as to origin with name, title, signature, and date of the authorized representative of the company making the translation or conversion.

7. Signature. The Certification Report shall contain the signature of the contractor's authorized representative responsible for ensuring that the equipment being delivered/service being performed is in accordance with contract requirements.
