252.211-7003 Item Unique Identification and 2023-01
Valuation.

ITEM UNIQUE IDENTIFICATION AND VALUATION (JAN 2023)

(a) Definitions. As used in this clause-

"Automatic identification device" means a device, such as a reader or interrogator, used to retrieve data encoded on machine-readable media.

"Concatenated unique item identifier" means-

(1) For items that are serialized within the enterprise identifier, the linking together of the unique identifier data elements in order of the issuing agency code, enterprise identifier, and unique serial number within the enterprise identifier; or

(2) For items that are serialized within the original part, lot, or batch number, the linking together of the unique identifier data elements in order of the issuing agency code; enterprise identifier; original part, lot, or batch number; and serial number within the original part, lot, or batch number.

"Data matrix" means a two-dimensional matrix symbology, which is made up of square or, in some cases, round modules arranged within a perimeter finder pattern and uses the Error Checking and Correction 200 (ECC200) specification found within International Standards Organization (ISO)/International Electrotechnical Commission (IEC) 16022.

"Data qualifier" means a specified character (or string of characters) that immediately precedes a data field that defines the general category or intended use of the data that follows.

"DoD recognized unique identification equivalent" means a unique identification method that is in commercial use and has been recognized by DoD. All DoD recognized unique identification equivalents are listed at <https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html>.

"DoD item unique identification" means a system of marking items delivered to DoD with unique item identifiers that have machine-readable data elements to distinguish an item from all other like and unlike items. For items that are serialized within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier and a unique

serial number. For items that are serialized within the part, lot, or batch number within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier; the original part, lot, or batch number; and the serial number.

" Enterprise " means the entity (e.g., a manufacturer or vendor) responsible for assigning unique item identifiers to items.

" Enterprise identifier" means a code that is uniquely assigned to an enterprise by an issuing agency.

"Government's unit acquisition cost" means-

(1) For fixed-price type line, subline, or exhibit line items, the unit price identified in the contract at the time of delivery;

(2) For cost-type or undefinitized line, subline, or exhibit line items, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery; and

(3) For items produced under a time-and-materials contract, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery.

"Issuing agency" means an organization responsible for assigning a globally unique identifier to an enterprise, as indicated in the Register of Issuing Agency Codes for ISO/IEC 15459, located at http://www.aimglobal.org/?Reg_Authority15459.

"Issuing agency code" means a code that designates the registration (or controlling) authority for the enterprise identifier.

"Item" means a single hardware article or a single unit formed by a grouping of subassemblies, components, or constituent parts.

" Lot or batch number" means an identifying number assigned by the enterprise to a designated group of items, usually referred to as either a lot or a batch, all of which were manufactured under identical conditions.

"Machine-readable" means an automatic identification technology media, such as bar codes, contact memory buttons, radio frequency identification, or optical memory cards.

"Original part number" means a combination of numbers or letters assigned by the enterprise at

item creation to a class of items with the same form, fit, function, and interface.

"Parent item" means the item assembly, intermediate component, or subassembly that has an embedded item with a unique item identifier or DoD recognized unique identification equivalent.

"Serial number within the enterprise identifier" means a combination of numbers, letters, or symbols assigned by the enterprise to an item that provides for the differentiation of that item from any other like and unlike item and is never used again within the enterprise.

"Serial number within the part, lot, or batch number" means a combination of numbers or letters assigned by the enterprise to an item that provides for the differentiation of that item from any other like item within a part, lot, or batch number assignment.

"Serialization within the enterprise identifier" means each item produced is assigned a serial number that is unique among all the tangible items produced by the enterprise and is never used again. The enterprise is responsible for ensuring unique serialization within the enterprise identifier.

"Serialization within the part, lot, or batch number" means each item of a particular part, lot, or batch number is assigned a unique serial number within that part, lot, or batch number assignment. The enterprise is responsible for ensuring unique serialization within the part, lot, or batch number within the enterprise identifier.

"Type designation" means a combination of letters and numerals assigned by the Government to a major end item, assembly or subassembly, as appropriate, to provide a convenient means of differentiating between items having the same basic name and to indicate modifications and changes thereto.

"Unique item identifier" means a set of data elements marked on items that is globally unique and unambiguous. The term includes a concatenated unique item identifier or a DoD recognized unique identification equivalent.

"Unique item identifier type" means a designator to indicate which method of uniquely identifying a part has been used. The current list of accepted unique item identifier types is maintained at <https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html>.

(b) The Contractor shall deliver all items under a contract line, subline, or exhibit line item.

(c) Unique item identifier.

(1) The Contractor shall provide a unique item identifier for the following:

(i) Delivered items for which the Government's unit acquisition cost is \$5,000 or more, except for the following line items:

Contract Line, Subline, or

Exhibit Line Item Number Item Description

(ii) Items for which the Government's unit acquisition cost is less than \$5,000 that are identified in the Schedule or the following table:

Contract Line, Subline, or

Exhibit Line Item Number Item Description

(If items are identified in the Schedule, insert "See Schedule in this table.")

(iii) Subassemblies, components, and parts embedded within delivered items, items with warranty requirements, DoD serially managed reparable and DoD serially managed nonreparables as specified in Attachment Number ____.

(iv) Any item of special tooling or special test equipment as defined in FAR 2.101 that have been designated for preservation and storage for a Major Defense Acquisition Program as specified in Attachment Number ____.

(v) Any item not included in (i), (ii), (iii), or (iv) for which the contractor creates and marks a unique item identifier for traceability.

(2) The unique item identifier assignment and its component data element combination shall not be duplicated on any other item marked or registered in the DoD Item Unique Identification Registry by the contractor.

(3) The unique item identifier component data elements shall be marked on an item using two dimensional data matrix symbology that complies with ISO/IEC International Standard 16022, Information technology - International symbology specification - Data matrix; ECC200 data matrix specification.

(4) Data syntax and semantics of unique item identifiers. The Contractor shall ensure that-

(i) The data elements (except issuing agency code) of the unique item identifier are encoded within the data matrix symbol that is marked on the item using one of the following three types of data qualifiers, as determined by the Contractor:

(A) Application Identifiers (AIs) (Format Indicator 05 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology - EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(B) Data Identifiers (DIs) (Format Indicator 06 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology - EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(C) Text Element Identifiers (TEIs) (Format Indicator 12 of ISO/IEC International Standard 15434), in accordance with the Air Transport Association Common Support Data Dictionary; and

(ii) The encoded data elements of the unique item identifier conform to the transfer structure, syntax, and coding of messages and data formats specified for Format Indicators 05, 06, and 12 in ISO/IEC International Standard 15434, Information Technology - Transfer Syntax for High Capacity Automatic Data Capture Media.

(5) Unique item identifier.

(i) The Contractor shall-

(A) Determine whether to-

(1) Serialize within the enterprise identifier;

(2) Serialize within the part, lot, or batch number; or

(3) Use a DoD recognized unique identification equivalent (e.g. Vehicle Identification Number); and

(B) Place the data elements of the unique item identifier (enterprise identifier; serial number; DoD recognized unique identification equivalent; and for serialization within the part, lot, or batch number only: original part, lot, or batch number) on items requiring marking by paragraph (c)(1) of this clause, based on the criteria provided in MIL-STD-130, Identification Marking of U. S. Military Property, latest version;

(C) Label shipments, storage containers and packages that contain uniquely identified items in accordance with the requirements of MIL-STD-129, Military Marking for Shipment and Storage, latest version; and

(D) Verify that the marks on items and labels on shipments, storage containers, and packages are machine readable and conform to the applicable standards. The contractor shall use an automatic identification technology device for this verification that has been programmed to the requirements of Appendix A, MIL-STD-130, latest version.

(ii) The issuing agency code-

(A) Shall not be placed on the item; and

(B) Shall be derived from the data qualifier for the enterprise identifier.

(d) For each item that requires item unique identification under paragraph (c)(1)(i), (ii), or (iv) of this clause or when item unique identification is provided under paragraph (c)(1)(v), in addition to the information provided as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the Contractor shall report at the time of delivery, as part of the Material Inspection and Receiving Report, the following information:

(1) Unique item identifier.

- (2) Unique item identifier type.
- (3) Issuing agency code (if concatenated unique item identifier is used).
- (4) Enterprise identifier (if concatenated unique item identifier is used).
- (5) Original part number (if there is serialization within the original part number).
- (6) Lot or batch number (if there is serialization within the lot or batch number).
- (7) Current part number (optional and only if not the same as the original part number).
- (8) Current part number effective date (optional and only if current part number is used).
- (9) Serial number (if concatenated unique item identifier is used).
- (10) Government's unit acquisition cost.
- (11) Unit of measure.
- (12) Type designation of the item as specified in the contract schedule, if any.
- (13) Whether the item is an item of Special Tooling or Special Test Equipment.
- (14) Whether the item is covered by a warranty.

(e) For embedded subassemblies, components, and parts that require DoD item unique identification under paragraph (c)(1)(iii) of this clause or when item unique identification is provided under paragraph (c)(1)(v), the Contractor shall report as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the following information:

- (1) Unique item identifier of the parent item under paragraph (c)(1) of this clause that contains the embedded subassembly, component, or part.
- (2) Unique item identifier of the embedded subassembly, component, or part.
- (3) Unique item identifier type.**

- (4) Issuing agency code (if concatenated unique item identifier is used).**
- (5) Enterprise identifier (if concatenated unique item identifier is used).**
- (6) Original part number (if there is serialization within the original part number).**
- (7) Lot or batch number (if there is serialization within the lot or batch number).**
- (8) Current part number (optional and only if not the same as the original part number).**
- (9) Current part number effective date (optional and only if current part number is used).**
- (10) Serial number (if concatenated unique item identifier is used).**
- (11) Description.

** Once per item.

(f) The Contractor shall submit the information required by paragraphs (d) and (e) of this clause as follows:

(1) End items shall be reported using the receiving report capability in Wide Area WorkFlow (WAWF) in accordance with the clause at 252.232-7003. If WAWF is not required by this contract, and the contractor is not using WAWF, follow the procedures at <http://dodprocurementtoolbox.com/site/uidregistry/>.

(2) Embedded items shall be reported by one of the following methods-

- (i) Use of the embedded items capability in WAWF;
- (ii) Direct data submission to the IUID Registry following the procedures and formats at <http://dodprocurementtoolbox.com/site/uidregistry/>; or
- (iii) Via WAWF as a deliverable attachment for exhibit line item number (fill in) _____, Unique Item Identifier Report for Embedded Items, Contract Data Requirements List, DD Form 1423.

(g) Subcontracts. If the Contractor acquires by subcontract, any item(s) for which item unique

identification is required in accordance with paragraph (c)(1) of this clause, the Contractor shall include this clause, including this paragraph (g), in the applicable subcontract(s), including subcontracts for commercial products or commercial services.

(End of clause)

252.232-7006 Wide Area WorkFlow Payment 2023-01
Instructions.

WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (JAN 2023)

(a) Definitions. As used in this clause-

"Department of Defense Activity Address Code (DoDAAC)" is a six position code that uniquely identifies a unit, activity, or organization.

"Document type" means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

"Local processing office (LPO)" is the office responsible for payment certification when payment certification is done external to the entitlement system.

"Payment request" and "receiving report" are defined in the clause at 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(b) Electronic invoicing. The WAWF system provides the method to electronically process vendor payment requests and receiving reports, as authorized by Defense Federal Acquisition Regulation Supplement (DFARS) 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(c) WAWF access. To access WAWF, the Contractor shall-

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.sam.gov>; and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this web site.

(d) WAWF training. The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the "Web Based Training" link on the WAWF home page at <https://wawf.eb.mil/>

(e) WAWF methods of document submission. Document submissions may be via web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) WAWF payment instructions. The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:

(1) Document type. The Contractor shall submit payment requests using the following document type(s):

(i) For cost-type line items, including labor-hour or time-and-materials, submit a cost voucher.

(ii) For fixed price line items-

(A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer.

(Contracting Officer: Insert applicable invoice and receiving report document type(s) for fixed price line items that require shipment of a deliverable.)

(B) For services that do not require shipment of a deliverable, submit either the Invoice 2in1, which meets the requirements for the invoice and receiving report, or the applicable invoice and receiving report, as specified by the Contracting Officer.

(Contracting Officer: Insert either "Invoice 2in1" or the applicable invoice and receiving report document type(s) for fixed price line items for services.)

(iii) For customary progress payments based on costs incurred, submit a progress payment request.

(iv) For performance based payments, submit a performance based payment request.

(v) For commercial financing, submit a commercial financing request.

(2)) Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213-1 is included in the contract.

[Note: The Contractor may use a WAWF "combo" document type to create some combinations of invoice and receiving report in one step.]

(3) Document routing. The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

Field Name in WAWF	Data to be entered in WAWF
Pay Official DoDAAC	_____
Issue By DoDAAC	_____
Admin DoDAAC	_____
Inspect By DoDAAC	_____
Ship To Code	_____
Ship From Code	_____
Mark For Code	_____
Service Approver (DoDAAC)	_____
Service Acceptor (DoDAAC)	_____
Accept at Other DoDAAC	_____
LPO DoDAAC	_____
DCAA Auditor DoDAAC	_____
Other DoDAAC(s)	_____

(*Contracting Officer: Insert applicable DoDAAC information. If multiple ship to/acceptance locations apply, insert "See Schedule" or "Not applicable.")

(**Contracting Officer: If the contract provides for progress payments or performance-based payments, insert the DoDAAC for the contract administration office assigned the functions under FAR 42.302(a)(13).)

(4) Payment request. The Contractor shall ensure a payment request includes documentation appropriate to the type of payment request in accordance with the payment clause, contract financing clause, or Federal Acquisition Regulation 52.216-7, Allowable Cost and Payment, as applicable.

(5) Receiving report. The Contractor shall ensure a receiving report meets the requirements of DFARS Appendix F.

(g) WAWF point of contact.

(1) The Contractor may obtain clarification regarding invoicing in WAWF from the following contracting activity's WAWF point of contact.

(Contracting Officer: Insert applicable information or "Not applicable.")

(2) Contact the WAWF helpdesk at 866-618-5988, if assistance is needed.

(End of clause)

252.204-7016	Covered Defense Telecommunications Equipment or Services-Representation.	2019-12		

COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES-REPRESENTATION (DEC 2019)

(a) Definitions. As used in this provision, "covered defense telecommunications equipment or services" has the meaning provided in the clause 252.204-7018, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services.

(b) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (<https://www.sam.gov>) for entities excluded from receiving federal awards for "covered defense telecommunications equipment or services".

(c) Representation. The Offeror represents that it [] does, [] does not provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument.

(End of provision)

252.204-7017	Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services-Representation.	2021-05
--------------	--	---------

PROHIBITION ON THE ACQUISITION OF COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES-REPRESENTATION (MAY 2021)

The Offeror is not required to complete the representation in this provision if the Offeror has represented in the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services-Representation, that it "does not provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument."

(a) Definitions. "Covered defense telecommunications equipment or services," "covered mission," "critical technology," and "substantial or essential component," as used in this provision, have the meanings given in the 252.204-7018 clause, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services, of this solicitation.

(b) Prohibition. Section 1656 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91) prohibits agencies from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

(c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) at <https://www.sam.gov> for entities that are excluded when providing any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless a waiver is granted.

(d) Representation. If in its annual representations and certifications in SAM the Offeror has represented in paragraph (c) of the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services-Representation, that it "does" provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument, then the Offeror shall complete the following additional representation:

The Offeror represents that it ☐ will ☐ will not provide covered defense telecommunications equipment or services as a part of its offered products or services to DoD in the performance of any award resulting from this solicitation.

(e) Disclosures. If the Offeror has represented in paragraph (d) of this provision that it "will provide covered defense telecommunications equipment or services," the Offeror shall provide the following information as part of the offer:

(1) A description of all covered defense telecommunications equipment and services offered (include brand or manufacturer; product, such as model number, original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable).

(2) An explanation of the proposed use of covered defense telecommunications equipment and services and any factors relevant to determining if such use would be permissible under the prohibition referenced in paragraph (b) of this provision.

(3) For services, the entity providing the covered defense telecommunications services (include entity name, unique entity identifier, and Commercial and Government Entity (CAGE) code, if known).

(4) For equipment, the entity that produced or provided the covered defense telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known).

(End of provision)

252.225-7000	Buy American--Balance of Payments Program Certificate.	2024-02
--------------	---	---------

BUY AMERICAN-BALANCE OF PAYMENTS PROGRAM CERTIFICATE-BASIC (FEB 2024)

(a) Definitions. "Commercially available off-the-shelf (COTS) item," "component," "critical component," "critical item," "domestic end product," "foreign end product," "qualifying country," "qualifying country end product," and "United States," as used in this provision, have the meanings given in the 252.225-7001, Buy American and Balance of Payments Program-Basic clause of this solicitation.

(b) Evaluation. The Government-

(1) Will evaluate offers in accordance with the policies and procedures of Part 225 of the Defense Federal Acquisition Regulation Supplement; and

(2) Will evaluate offers of qualifying country end products without regard to the restrictions of the Buy American statute or the Balance of Payments Program.

(c) Certifications and identification of country of origin.

(1) For all line items subject to the Buy American and Balance of Payments Program-Basic clause of this solicitation, the Offeror certifies that-

(i) Each end product, except those listed in paragraphs (c)(2) or (3) of this provision, is a domestic end product and that each domestic end product listed in paragraph (c)(4) of this provision contains a critical component or a critical item; and

(ii) For end products other than COTS items, components of unknown origin are considered to have been mined, produced, or manufactured outside the United States or a qualifying country. For those end products that do not consist wholly or predominantly of iron or steel or a combination of both, the Offeror shall also indicate whether these foreign end products exceed 55 percent domestic content, except for those that are COTS items. If the percentage of the domestic content is unknown, select "no".

(2) The Offeror certifies that the following end products are qualifying country end products:

Line Item Number	Country of Origin
_____	_____
_____	_____
_____	_____

(3) The following end products are other foreign end products, including end products manufactured in the United States that do not qualify as domestic end products. For those foreign end products that do not consist wholly or predominantly of iron or steel or a combination of both, the Offeror shall also indicate whether these foreign end products exceed 55 percent domestic content, except for those that are COTS items. If the percentage of the domestic content is unknown, select "no".

Line Item Number	Country of Origin (If known)	Exceeds 55% Domestic Content (yes/no)
_____	_____	_____

(4) The Offeror shall separately list the line item numbers of domestic end products that contain a critical component or a critical item (see Federal Acquisition Regulation 25.105).

Domestic end products containing a critical component or a critical item:

Line Item Number _____

[List as necessary]

(End of provision)

252.225-7020 Trade Agreements Certificate. 2014-11

TRADE AGREEMENTS CERTIFICATE-BASIC (NOV 2014)

(a) Definitions. "Designated country end product," "nondesignated country end product," "qualifying country end product," and "U.S.-made end product" as used in this provision have the meanings given in the Trade Agreements-Basic clause of this solicitation.

(b) Evaluation. The Government-

(1) Will evaluate offers in accordance with the policies and procedures of Part 225 of the Defense Federal Acquisition Regulation Supplement; and

(2) Will consider only offers of end products that are U.S.-made, qualifying country, or designated country end products unless-

(i) There are no offers of such end products;

(ii) The offers of such end products are insufficient to fulfill the Government's requirements; or

(iii) A national interest waiver has been granted.

(c) Certification and identification of country of origin.

(1) For all line items subject to the Trade Agreements-Basic clause of this solicitation, the offeror certifies that each end product to be delivered under this contract, except those listed in paragraph (c)(2) of this provision, is a U.S.-made, qualifying country, or designated country end product.

(2) The following supplies are other nondesignated country end products:

(Line Item Number)	(Country of Origin)

Offeror Identification (Feb 2026) (Deviation 2026-O0038)

If the Offeror will not have an active Federal Government contracts registration in the System for Award Management (<https://www.sam.gov>) when submitting its offer, it shall complete

paragraphs (c) and (d) of this provision and include its responses with its offer.

(a) Definitions. As used in this provision-

Commercial and Government Entity (CAGE) code has the meaning provided in the clause at FAR 52.204-91, Contractor Identification, of this solicitation.

Common parent means that corporate entity that owns or controls an affiliated group of corporations that files its Federal income tax returns on a consolidated basis, and of which the offeror is a member.

Electronic Funds Transfer (EFT) indicator means a bank account identifier to establish additional System for Award Management records for identifying alternative EFT accounts (see part 32) for the same entity.

Highest-level owner means the entity that owns or controls an immediate owner of the offeror, or that owns or controls one or more entities that control an immediate owner of the offeror. No entity owns or exercises control of the highest-level owner.

Immediate owner means an entity, other than the offeror, that has direct control of the offeror. Indicators of control include, but are not limited to, one or more of the following: ownership or interlocking management, identity of interests among family members, shared facilities and equipment, and the common use of employees. There may be more than one immediate owner (e.g., joint ventures).

Predecessor means an entity whose assets were acquired by the offeror or another entity (most often through merger or acquisition) and whose affairs are now carried out by the offeror or the other entity under a new name.

Taxpayer Identification Number means the number required by the Internal Revenue Service (IRS) to be used by the offeror to report income tax and other returns. It may be either a Social Security Number or an Employer Identification Number.

Unique entity identifier (UEI) has the meaning provided in the clause at FAR 52.204-91, Contractor Identification, of this solicitation.

(b) Unique entity identifier (UEI).

(1) The Offeror shall enter, in the block with its name and address on the cover page of its offer,

the annotation "Unique Entity Identifier" followed by the UEI that identifies the Offeror's name and address exactly as stated in the offer. The Offeror shall also enter its EFT indicator, if applicable.

(2) If the Offeror does not have a UEI, it shall go to <https://www.sam.gov> to obtain one. The Government will independently validate the existence and uniqueness of the Offeror before assigning a UEI.

(c) Taxpayer identification. The Offeror shall provide with its offer the following information that is necessary to comply with debt collection requirements of 31 U.S.C. 7701(c) and 3325(d); reporting requirements of 26 U.S.C. 6041, 6041A, and 6050M; and the implementing IRS regulations:

(1) Taxpayer identification number (TIN)

☐ TIN: _____;

☐ TIN has been applied for; or

☐ TIN is not required because:

☐ Offeror is a nonresident alien, foreign corporation, or foreign partnership that does not have income effectively connected with the conduct of a trade or business in the United States and does not have an office or place of business or a fiscal paying agent in the United States;

☐ Offeror is an agency or instrumentality of a foreign government; or

☐ Offeror is an agency or instrumentality of the Federal Government.

(2) Type of organization.

☐ Sole proprietorship;

☐ Partnership;

☐ Corporate entity (not tax-exempt);

☐ Corporate entity (tax-exempt);

☐ Government entity (Federal, State, or local);

☐ Foreign government;

☐ International organization per 26 CFR 1.6049-4; or

☐ Other.

(3) Common parent.

☐ Offeror is not owned or controlled by a common parent as defined in paragraph (a) of this provision; or

☐ Name and TIN of common parent:

Name: _____

TIN: _____

(4) The TIN provided in paragraph (c)(1) of this provision may be matched with IRS records to verify the accuracy of the Offeror's TIN. The Government may use the TIN to collect and report on any delinquent amounts arising out of the Offeror's relationship with the Government (31 U.S.C. 7701(c)(3)).

(d) Commercial and Government Entity (CAGE) code.

(1) The Offeror shall provide its CAGE code with its offer with its name and location address or otherwise include it prominently in its offer. The CAGE code shall be for that name and location address. Insert the word "CAGE" before the code. The Offeror may obtain a CAGE code as indicated in the following table.

If the Offeror is...	Then...
Located in the United States or its outlying areas	Submit a request to the DLA CAGE Branch via https://cage.dla.mil
Located outside the United States and its outlying areas and its country is a member of the North Atlantic Treaty Organization (NATO) or a sponsored nation	Contact the appropriate National Codification Bureau (https://www.nato.int/structur/ac/135/about/contacts)
Located outside the United States and its outlying areas and its country is not a member of NATO or a sponsored nation	Contact the NATO Support and Procurement

Agency (NSPA) (<https://eportal.nspa.nato.int/AC135Public/scage/CageList.aspx>)

(2) The Offeror shall provide the CAGE code and legal business name (Do not use a "doing business as" name) for-

(i) Its immediate owner(s), if any;

(ii) Its highest-level owner, if any; and

(iii) Any predecessor(s), or predecessor of an Offeror's predecessor, that held a Federal contract or grant within the last three years.

Owner Type	CAGE Code	Legal Business Name
Immediate owner	_____	_____
Highest-level owner	_____	_____
Predecessor*	_____	_____

* Predecessor CAGE code may be marked "Unknown."

(3) If the Offeror has more than one immediate owner (such as a joint venture), give the information for each owner (or joint venture participant). If the Offeror has more than one predecessor, provide information for each predecessor in reverse chronological order.

(End of provision)

52.209-2	Prohibition on Contracting With Inverted Domestic Corporations- Representation. (Deviation 2026- O0038)	2026-02
----------	--	---------

Prohibition on Contracting with Inverted Domestic Corporations-Representation (Feb 2026)
(Deviation 2026-O0038)

(a) Definitions. As used in this clause-

Inverted domestic corporation means a foreign incorporated entity that meets the definition of an inverted domestic corporation under 6 U.S.C. 395(b), applied in accordance with the rules

and definitions of 6 U.S.C. 395(c).

Subsidiary means an entity in which more than 50 percent of the entity is owned-

(1) Directly by a parent corporation; or

(2) Through another subsidiary of a parent corporation.

(b) Government agencies are not permitted to use appropriated (or otherwise made available) funds for contracts with either an inverted domestic corporation, or a subsidiary of an inverted domestic corporation, unless the exception at 9.108-3(b) applies or the requirement is waived in accordance with the procedures at 9.108-5.

(c) Representation. The Offeror represents that-

(1) It [] is, [] is not an inverted domestic corporation; and

(2) It [] is, [] is not a subsidiary of an inverted domestic corporation.

(End of provision)

INSTRUCTIONS TO QUOTERS

1. FURNITURE INSTALL INFORMATION:

A. Estimated award date is: **15 July 2026**

B. Required install dates are as follows:

Vandenberg Space Force Maintenance Facility

Furniture Install Start Date: **28 October 2026**

Furniture Install Completion Date: **17 March 2027**

Vandenberg Space Force Maintenance Facility

Contractor Furniture Install Start Date (FISD):

(insert date, not After Receipt of Order)

Contractor Furniture Install Completion Date (FICD):

(insert date, not After Receipt of Order)

C. Specific install instructions are contained in the Statement of Work (SOW), Attachment # 3.

2. SHIPPING/STORAGE INFORMATION

A. The Contractor shall ship goods on an FOB Destination basis.

B. Contractors shall quote six month's storage cost in the SF-1449 form to be considered eligible for award. If a storage fee is not included in pricing, the Contractor's quote may be considered a non-conforming response to the solicitation. This option for storage can be unilaterally exercised by the Contracting Officer for a combined total maximum of six months of storage. Storage needed for partial shipments will be prorated by the price of the items stored relative to the total price of all of the items ordered. Storage will only be funded by modification and at the discretion of the Contracting Officer. Storage will be a firm fixed price amount. Contractors shall take into account all costs necessary to store furnishings secure from theft, damage, and weather elements in case of any contingency en-route to installation. Storage shall include all costs to place furnishings into and remove furnishings from storage (ie. double handling, transportation, etc.). The quoted cost should include all costs necessary to complete delivery and installation of furniture at the terminal location. If storage is required in excess of 6 months, a new storage amount will be negotiated. If the storage cost is incurred, fast payment procedures may be implemented in accordance with FAR 52.213-1. If storage is required, payment may be approved for 85% of the total supplies only. Installation and the remaining 15% of supplies will be approved for payment once all responsibilities have been completed as set forth in the contract. Contractors shall coordinate delivery and installation with Government Technical Representative (TR) shown in the SOW, and save records of these communications with the goal of successful delivery and installation. This requirement for coordination includes, but is not limited to, communicating with the Government TR prior to shipping items in order to prevent unnecessarily expensive storage costs..

C. The Contractor shall provide a Certification of Conformance for any order that will be stored in a warehouse for which the Contractor desires partial payment in advance of installation of the furnishings. FAR 52.246-15 addresses how to complete a certificate of conformance, and can be found in Attachment # 4, "Order Clauses."

D. Destination/Ship to Address and Transportation Information: See Table 1 in SOW, Attachment # 3.

3. INSPECTION AND ACCEPTANCE

Inspection and Acceptance must be by the Government TR. See Table 1 in SOW, Attachment # 3.

4. LIST OF ATTACHMENTS

ATTACHMENT # 1 – LINE ITEM PRICING	01 page
ATTACHMENT # 2 – FURNITURE ITEM DESCRIPTIONS (FID)	15 pages
ATTACHMENT # 3 – STATEMENT OF WORK	11 pages
ATTACHMENT # 4 – CONTRACTOR PERFORMANCE EVALUATION	02 pages
ATTACHMENT # 5 – ACCIDENT PREVENTION PLAN	08 pages
ATTACHMENT # 6 – ORDER COMPLETION STATEMENT	01 page
ATTACHMENT # 7 – TECHNICAL DOCUMENTS CHECKLIST	02 pages

5. CONTRACTING OFFICER'S INSTRUCTIONS AFTER AWARD

A. Only a warranted Contracting Officer (either a Procuring Contracting Officer (PCO) or an Administrative Contracting Officer (ACO)), acting within their delegated limits, has the authority to issue modifications or otherwise change the terms and conditions of this contract. If an individual other than the Contracting Officer attempts to make changes to the terms and conditions of this contract you shall not proceed with the change and shall immediately notify the Contracting Officer.

B. The Contractor shall be responsible to coordinate the installation of its items with the site Technical Representative at least 30 days before the installation start date. At this time any special security/install instructions will be provided by the Government to that Contractor. The Contractor shall refer to the Statement of Work (Attachment #3) for additional installation instructions. If additional days for installation are needed, a justification should be provided at the time of quote for approval by the Contracting Officer.

C. Security issues (e.g. getting on and off post), logistical discussions of the installation process shall be coordinated with the Furniture Management Officer (FMO).

D. If a subcontracted item is found to be unavailable after a ward, and Government acceptance of a substituted item is requested, the Contractor shall submit to the Contracting Officer copies of the contract terms and conditions along with the technical data sheets for the proposed substitute item.

E. Safety Plans. The Contractor shall be responsible for submitting a completed safety plan within one month after contract award, or where expedited installation is required NLT 10 days before installation. NO installation will be permitted without an approved safety plan. The Contractor shall not begin installing items until a safety plan has been submitted to and approved by the Government. All safety plans shall be emailed to:
furnishinginvoices@usace.army.mil

F. The Contractor shall comply with all laws, rules and regulations of the installation, including but not limited to, the following: No weapons of any kind are to be carried by any person or transported in any vehicle entering an Army installation. Truck drivers carrying any kind of weapon will be denied access to the Army installation.

G. If requested by the Contracting Officer, the Contractor shall provide reports for quoted items.

6. INVOICES

A. Partial order invoices will not be accepted. Invoices may be submitted for one building of a multi-building delivery order only with the approval of the Contracting Officer, following the complete installation of the one building by the Contractor and acceptance by the Government.

B. All invoices shall be emailed to the following email address for processing: FurnishingInvoices@usace.army.mil

C. The Contractor shall return a signed Attachment # 7, Order Completion Statement, with its final invoice. Invoices shall not exceed the contract amount. A final invoice submitted without a signed Order Completion Statement will be rejected.

7. INSTRUCTIONS TO CONTRACTORS

A. The Contractor shall provide pricing for all items listed in the RFQ for the quote to be accepted by the Government.

B. The Contractor shall complete the furniture installation schedule under FURNITURE INSTALL INFORMATION and include in the quote submission.

C. All quoted items shall meet the specifications defined in the Furniture Item Description (FID), Attachment # 2.

D. Contractors shall provide name brand and model numbers for all quoted items, including pass-thru items and those manufactured by the Contractor.

E. Technical Data Sheets Required. The Contractor shall provide current and complete cut sheets for all items specified in the FID, unless otherwise specified. All salient features of items specified in the FID must be addressed on the cut sheets. When the Contractor provides more than one cut sheet for an item specified in the FID, the cut sheets and supporting documentation shall be highlighted or contain other markings that bring immediate attention to information, and enables the Government to remove all doubt whether a contractor has or has not met the specifications shown in Attachment #2. The burden of providing information, which shall be **organized and sequential according to the FID**, is the responsibility of the Contractor. The Government will not be held responsible for contractor information that is not organized and sequential according to Attachments # 1 & 2, or not highlighted (if within a larger document and used as proof), which prevents conclusive comparisons between the Contractor's quoted items and the requirements during technical review.

F. Electronic Price Quote is Required. Attachment #1, "Line Item Pricing," will be provided in an Excel spreadsheet format by the Government. The Contractor shall **submit the completed Attachment #1 in Excel format** to the Government by the deadline for submission of quotes set forth in this RFQ.

G. Attachment # 7, "Technical Documents Checklist," will be provided in Word format by the Government. The Contractor shall **submit a completed Attachment # 7 in Word format** to the Government by the deadline for submission of quotes set forth in this RFQ.

H. Product samples are not acceptable for this RFQ, unless otherwise directed by the Contracting Officer.

I. Multiple quotes are not acceptable for this RFQ. If multiple quotes are received, only one quote (as determined by the Contracting Officer) will be evaluated by the Government.

J. The Contractor shall list any specific special features, warranty, and environmental and energy efficiency features applicable to its quoted products.

K. The Contractor shall be bound by the monthly storage fee quoted for an option for a maximum period of six months that may be unilaterally exercised by the Contracting Officer in one-month increments. If a storage fee is not included in the Contractor's quote, the Contractor's quote may be considered a non-conforming response to the solicitation.

L. When drawings are included as attachments, they are for visualization purposes only. The FID takes precedence over drawings unless otherwise stated. Site conditions may not align with drawings. Post-award site verifications are the responsibility of the Contractor.

M. Contractors shall submit the following with its quotation:

Company Name:	_____
Cage Code:	_____
Taxpayer Identification Number:	_____
Duns Number:	_____
POC Name:	_____
Email Address:	_____
Phone Number:	_____
Mailing address	_____

N. The Contractor shall be actively registered in the System for Award Management (SAM) with no exclusions.

8. SUBMISSION, MODIFICATION AND REVISION OF QUOTES

A. Contracting documents (RFQ, SF30, Attachment # 1 in Excel format, Attachment # 7 in Word format) and technical documents (cut sheets and other supporting documents demonstrating quoted items meet the FID requirements) together create the quote. The terms, “quote,” “RFQ response,” and “response” have the same meaning in this section.

B. Quotes shall be submitted by the contractor to the Government in email, using as many emails as required to deliver a complete quote. When multiple emails are used to deliver a complete quote, contractors shall state their number to the Government. Currently, Huntsville Center supports up to 10MB of content per email.

C. It is recommended that Contractors use the Procurement Integrated Enterprise Environment (PIEE). A vendor portal for solicitations was introduced as an enterprise-level service for the Department of Defense (DoD) within the Procurement Integrated Enterprise Environment (PIEE) platform. This capability allows DoD to have a more automated and secure process for capturing solicitations and their attachments and responses from industry. To obtain additional information please visit:

<https://piee.eb.mil/xhtml/unauth/web/homepage/vendorGettingStartedHelp.xhtml>

i. PIEE Size Limit. Each uploaded attachment can be up to 1.9 gigabytes (GB) in size. The application supports different file extensions.

ii. Notifications when an amendment to the solicitation is posted: Within a solicitation, click the checkbox next to ‘Please notify me of amendments to this solicitation’ on the top left corner of the screen. You will receive email and system notification when an amendment is posted.

iii. Upload Multiple Documents in PIEE, multiple attachments may be uploaded at one time. After you click ‘Choose File,’ highlight all the files you want to upload and click ‘Open.’ If the total size of all the attachments exceeds 1.9GB (see 4.A above), upload the multiple attachments in batches that keeps each batch under the 1.9GB limit. Please contact your company’s Account Administrator for any account related issues. If you are experiencing technical problems with Procurement Integrated Enterprise Environment, please contact the DISA DECC Ogden Electronic Business Service Desk at link below: <https://piee.eb.mil/xhtml/unauth/web/homepage/vendorCustomerSupport.xhtml>

D. The Government must have in its possession the contractor’s entire quote by the RFQ due date and time.

E. Contractors shall return to the Government in the same Word version format received, their responses to the Government’s requests for clarification.

F. Contractors shall not merge into a single PDF document both the technical documents (cut sheets and other supporting documents demonstrating quoted items meet the FID requirements) and the contracting documents (RFQ, SF30, Attachment #1 in Excel format, Attachment # 7 in Word format).

G. Contractors shall not intentionally quote items that do not meet the specifications of the primary requirements. The primary requirements for Administrative Office Furniture (Admin) are defined as office furniture systems and, if included in the FID, wood case goods. The Government's intent is to receive timely quotes that are organized, complete and technically acceptable, with no need or a minimal need for clarifications. Quotes that do not meet the specifications of the primary requirements (documented during technical review) may receive no further consideration for award.

9. NON-CONFORMING RESPONSES

The Government is not required to accept non-conforming responses. Non-conforming responses may not receive a technical evaluation, and may not receive consideration for award. The following types of responses are considered non-conforming:

- A. A Contractor's quote that does not meet the specifications of the primary requirements.
- B. A Contractor's submittal of technical documents (cut sheets and other supporting documents demonstrating quoted items meet the FID requirements) and contracting documents (SF18, SF30, Attachment # 1 in Excel, and Attachment # 7 in Word) merged into a single PDF document.
- C. A Contractor's submittal of technical documents that is incomplete or is not organized and sequential according to the FID preventing a conclusive comparison between the Contractor's quote and the Government's requirement.
- D. A Contractor's failure to respond to the Government's request for clarifications in the same Word format received, in order for the Government to be able to continue to record communications with the contractor on the same form.
- E. A Contractor's submittal of electronic documents whose file names do not reflect their general content, which do not enable the reader to locate information without opening documents repeatedly to be reminded of their contents, and which harm the Government's ability to perform technical review or other examination.

10. LATE RESPONSES / NON-RESPONSIVENESS

Late responses are in all cases contractor responses that are not in the Government's possession by the stated due date and time. Late responses will not be evaluated by the Government.

11. AMENDMENTS

The Government may amend the RFQ for reasons that include extending the due date for submission of quotes, construction delays of buildings to be furnished, changing market conditions or Government requirements, or for other reasons that clarify the needs of the Government.

12. QUESTIONS

- A. All questions shall be submitted to the Contract Specialist no later than **12 May 2026 NLT 2:00 PM CST** at **teddy.hayes@usace.army.mil**. All answers to question's received will be posted and made available to all interested parties via an RFQ amendment. The Contracting Officer will not address any questions received following expiration of the aforementioned time in this paragraph. When the term "hour" is used to describe the time period for questions, then it means sequential hours without interruption (24 hours = 1 calendar day), unless otherwise specified.
- B. Notifications to the Government from contractors regarding limited- or non-available items, or potential errors in the Government's specifications are welcomed.
- C. A contractor's request to change the Government's requirement before quotes are due may not be addressed because it does not clarify the requirement for all potential quoters, and if accepted would change the requirement.

13. DOWN-SELECT PROCESS

A. It is the Government's intent to select a target of three quotes for a complete technical evaluation to determine whether the quoted products comply with the FID. The Contracting Officer has discretion to include more or less than three quotes in the down-select. The down-select will be based on price, receipt of completed Attachment # 7 - Technical Documents Checklist and the contractor's confirmation of their ability to meet the Government's Furniture Installation Start and Completion Dates.

B. At any time following the down-select, the Government may, at the discretion of the Contracting Officer, engage in exchanges with one or more of the contractors whose quotes were down-selected, or consider additional quotes for evaluation.

14. EVALUATION CRITERIA

A. Technical Evaluation – Technical will be rated “Acceptable” if all line items meet the specifications shown in the Attachment #2 Furniture Item Description (FID).

B. Schedule – Schedule will be rated “Acceptable” if the contractor install dates are within the dates shown below.

Vandenberg Space Force Maintenance Facility

Furniture Install Start Date: **28 October 2026**

Furniture Install Completion Date: **17 March 2027**

C. Past Performance – Past Performance will be rated “Acceptable” or “Unacceptable.” The Government will use any available information to evaluate past performance.

D. Price – Evaluated price will be the contractor's total quoted price, which includes all supplies, services, shipping, storage and optional items.

E. The Government may, at the discretion of the Contracting Officer, engage in exchanges with contractors. However, the Government reserves the right to make award without further exchanges.

15. SELECTION OF QUOTES FOR AWARD

The successful Contractor will be the one whose quote is rated acceptable on technical, schedule and past performance, and provides the best value to the Government. Best value will be determined by the quote that is technically acceptable and has the lowest total evaluated price.

Attachment #2 – Vandenberg Space Force Base, CA – Consolidated Maintenance Facility – Open Market

1.0 General

Item descriptions and quality requirements, as described in the Furniture Item Descriptions (FID), are for the quality, functional performance, and design intent of the furnishings required for this project. Products quoted that meet all functional and quality requirements, including all salient features listed in the product descriptions, will be considered responsive provided they are fully compliant with the Request for Quote (RFQ) requirements. Compliance shall be determined by performance, features, quality, design intent, and value. Any item descriptions, salient features, or quality requirements listed within this document are not intended to be proprietary.

1.1 Submittal and Clarifications Requirements

All manufacturers shall provide manufacturer's technical documentation and manufacturer's construction specifications for each item quoted for verification the proposed products meet all requirements listed in the FID. The RFQ response shall be submitted in the format outlined below. For assistance in preparing the RFQ Response, please contact the contracting specialist to request the How to RFQ Guide PDF.

1.1.1 RFQ Response

RFQ technical responses are the documents which, together with contractual documents (SF18, SF30, Attachment 1 in Excel, Attachment 8), make up an overall RFQ response (the quote). RFQ technical responses shall be clearly organized into (1) Adobe Acrobat (PDF) document. The PDF document shall be searchable, include bookmarks for each item number, and be in sequential order of the FID. Each RFQ is a separate contract activity, and specifications from previous projects will not be retrieved and reviewed. All product specifications and information presented shall be legible.

All technical documentation related to each item number shall be located **within the same tab/bookmark** in the RFQ response and **shall be submitted in the following order**:

1. Product Information Required for Each Item Number:
 - a. Item number for each product submitted in the RFQ response.
 - b. Manufacturer, product line, and model number for each item and its components.
 - c. Overall dimensions.
 - d. Product image.
 - e. Fabric and finish options proposed for RFQ that have been priced for each item.
2. Drawings:
 - a. Provide plan view drawings clearly legible and labeled showing legend of components and dimensions for each freestanding desk and panel-supported workstation, including clusters.
 - b. Provide elevations or isometrics.
 - i. Elevations required with stacking/segmented drawings for panel tiles.
 - c. Electrical and data shall be on a separate drawing from itemized component drawing. Drawing shall be clearly legible and labeled, identifying all locations of electrical and data/communication outlets.
3. Product Specific Compliance Documentation:

Attachment #2 – Vandenberg Space Force Base, CA – Consolidated Maintenance Facility – Open Market

- a. Provide published, detailed, technical documentation including, but not limited to, specification guides, price catalogs, and manufacturer's published Price List to demonstrate compliance with requirements.
- b. Highlight, circle, or mark the model, size, type, and any optional features proposed in the RFQ response.
4. Technical Supporting Compliance Documentation:
 - a. Provide manufacturer's technical and construction specifications demonstrating compliance to requirements.
 - b. Documentation shall only be submitted once for multiple items from the same product line.
 - c. Clearly indicate the item numbers that submitted documentation supports.
5. Testing Documentation:
 - a. **Contractors are NOT required to submit testing documentation with quotes; however, the Contracting Officer reserves the right to request actual copies of test reports at any time before or after award.**
6. Environmental Documentation:
 - a. **Contractors are NOT required to submit environmental documentation with quotes; however, the Contracting Officer reserves the right to request actual copies of environmental documentation at any time before or after award.**
 - i. Upon request, contractor shall provide certification for Indoor Air Quality (GREENGUARD or equivalent).
 - ii. Upon request, contractor shall provide documentation regarding recycled content and recyclability for all products submitted.
7. Warranty Documentation:
 - a. Warranty documentation is required to be submitted for seating only.
 - b. **Contractors are NOT required to submit warranty documentation with quotes; however, the Contracting Officer reserves the right to request actual copies of warranties at any time before or after award.**
 - c. Although all other items do not require warranty documentation, the contractor is responsible for providing warranty coverage as required in the FID.
 - d. Provide any additional or extended warranty that exceeds manufacturer's standard warranty; extended warranty shall be clearly stated on manufacturer's letterhead and include a verifiable digital signature containing encryption or handwritten signature, date, and title of the company official accepting technical responsibility.
 - e. Refer to item descriptions for specific warranty requirements by product type.

1.1.2 Non-Conforming RFQ Response

Submittal of product brochures shall **not** be acceptable in place of technical documentation or construction specifications. Submittal of a general price list containing large amounts of items not relevant to the procurement is not acceptable. Embedded objects, i.e., embedded links, files, and images within clarification responses shall be considered non-conforming. Submittals not in compliance with Section 1.1.1 of the FID shall be considered non-conforming and declined.

1.2 Post Award Submittal

Attachment #2 – Vandenberg Space Force Base, CA – Consolidated Maintenance Facility – Open Market

Refer to Statement of Work (SOW).

1.3 Contractor General Notes

1.3.1 General

1. All products proposed to be installed within one office, suite, or area shall consist of items of one style and finish. All products shall be free of rough or sharp edges. Proposed products shall include all components necessary to provide a complete and stable unit. Items shall have consistent quality standards as described and required in the FID.
2. Although such work is not specifically indicated, furnish and install all supplementary or miscellaneous items, appurtenances, and devices incidental to, or necessary for, sound, secure, and complete installation.
3. Awarded contractor is responsible for verifying all existing field conditions i.e., including, but not limited to base-infeed requirements and electrical conditions. Contractor shall coordinate with power plans.
4. Awarded contractor shall coordinate all furniture locations with all wall mounted equipment including, but not limited to: A/V, televisions, VTC equipment, Visual Communication Boards, etc.
5. Plans provided may not match project requirements in all instances. Follow FID descriptions and configurations and Attachment 1 quantities and locations.

END OF SECTION

Attachment #2 – Vandenberg Space Force Base, CA – Consolidated Maintenance Facility – Open Market

- 2.0 Construction Requirements - Panel Supported Workstations – NOT USED**
- 3.0 Construction Requirements - Benching Systems – NOT USED**
- 4.0 Construction Requirements - Console Systems – NOT USED**
- 5.0 Construction Requirements - Demountable Walls – NOT USED**
- 6.0 Construction Requirements - Metal/Laminate Desks – NOT USED**
- 7.0 Construction Requirements - Metal/Laminate Open Frame Technical Workstations – NOT USED**
- 8.0 Construction Requirements - Metal Furniture: Lateral Files – NOT USED**
- 9.0 Construction Requirements - Laminate Tables, Metal Bases – NOT USED**
- 10.0 Construction Requirements - Wood Casegoods, Executive II – NOT USED**
- 11.0 Construction Requirements - Wood Conference Tables, Executive II – NOT USED**
- 12.0 Construction Requirements - Laminate Casegoods – NOT USED**
- 13.0 Construction Requirements - Laminate Conference Tables – NOT USED**
- 14.0 Construction Requirements - Ergonomic Task & Conference Seating – NOT USED**
- 15.0 Construction Requirements - Executive Task Seating – NOT USED**
- 16.0 Construction Requirements - Ergonomic Task Stool – NOT USED**
- 17.0 Construction Requirements - Traditional Executive Seating – NOT USED**
- 18.0 Construction Requirements - Seating, Metal Frame – NOT USED**
- 19.0 Construction Requirements - Seating, Wood Frame – NOT USED**
- 20.0 Construction Requirements – Common Space Furnishings – NOT USED**
- 21.0 Construction Requirements - Industrial Storage Cabinet**

General Requirements:

1. Cabinets shall be constructed of cold rolled steel.
2. Cabinets shall be free of rust and scale. Unit shall be cleaned and pretreated with phosphate to resist rust and corrosion.
3. All exposed edges, corners and surfaces areas shall be smooth formed and free of sharp edges.

Attachment #2 – Vandenberg Space Force Base, CA – Consolidated Maintenance Facility – Open Market

4. Frames, sills, and headers shall be 16-gauge steel.
5. Doors shall be a minimum of 21-gauge formed steel, reinforced with full length stiffener, and include hinges.
6. Top, sides and back shall be a minimum of 22-gauge formed steel.

21.1 SN1/SN01: Industrial Storage Cabinet, Metal

Dimensions: 36"W x 18"D x 72-78"H

Item images are for general illustration purposes only and not an exact representation of the requirement.

General Requirements:

- a. Fully assembled, spot-welded, heavy gauge steel construction
 - i. Knocked down assembly is non-conforming
- b. 16-Gauge doorframe construction with heavy duty hinges
- c. (4) Adjustable, steel shelves with fixed bottom and top
- d. Shelves shall have a weight capacity of 175 lbs., minimum
- e. Provide (2) brushed chrome handles with one built in lock for both handles, standard locking system.
- f. Provide shims for leveling

Finish:

- a. Metal: Manufacturer's standard powder coat paint selection shall include gray

21.2 SL2/SL02: Corrosive Safety Cabinet, Metal

Dimensions: 43"W x 18"D x 65"H

Item images are for general illustration purposes only and not an exact representation of the requirement.

Attachment #2 – Vandenberg Space Force Base, CA – Consolidated Maintenance Facility – Open Market

General Requirements:

- a. Fully assembled, spot-welded, steel construction
 - i. Knocked down assembly is non-conforming
- b. (2) Steel shelves with fixed bottom shelf
- c. 45 gal capacity, minimum
- d. Hazardous warning label
- e. NFPA 30 compliant
- f. Polyethylene spill trays
- g. Manual close
- h. Padlock hasp

Finish:

- a. Metal: Manufacturer's standard powder coat paint selection shall include blue

22.0 Ancillary Items

22.1 SN2/SN02: Open Industrial Bulk Rack Storage Shelving, Metal Particleboard Decking

Overall Dimensions: 48"W x 24"D x 84"H

Item images are for general illustration purposes only and not an exact representation of the requirement.

General Requirements:

- a. Steel uprights punched for adjustment
- b. Provide box beams or fold-in lock tabs to prevent displacement
- c. (3) Adjustable shelves
- d. Provide particleboard decking
- e. Provide shelf assembly with a weight capacity of 2500 lbs. per shelf
- f. Provide manufacturer's recommended number of shelf supports based on shelf dimension and type
- g. Provide back-to-wall support or anchoring foot to secure unit to building structure if required; provide back-to-back support to gang units if required. Refer to floor plans for layouts

Finish:

- a. Metal: Manufacturer's standard powder coat paint selection shall include gray

Attachment #2 – Vandenberg Space Force Base, CA – Consolidated Maintenance Facility – Open Market

22.2 SS1/SS01: Open Industrial Bulk Rack Storage Shelving, Metal Particleboard Decking

Overall Dimensions: 36"W x 24"D x 84"H

Item images are for general illustration purposes only and not an exact representation of the requirement.

General Requirements:

- Steel uprights punched for adjustment
- Provide box beams or fold-in lock tabs to prevent displacement
- (5) Adjustable shelves
- Provide particleboard decking
- Provide shelf assembly with a weight capacity of 500 lbs. per shelf
- Provide manufacturer's recommended number of shelf supports based on shelf dimension and type
- Provide back-to-wall support or anchoring foot to secure unit to building structure if required; provide back-to-back support to gang units if required. Refer to floor plans for layouts

Finish:

- Metal: Manufacturer's standard powder coat paint selection shall include gray

22.3 SX1/SX01: Tool Storage Cabinet, Metal

Overall Dimensions: 27-29"W x 18-24"D x 38-44"H

Attachment #2 – Vandenberg Space Force Base, CA – Consolidated Maintenance Facility – Open Market

General Requirements:

- a. Rolling tool cabinet with (4) drawers, minimum
- b. Heavy duty liner in each drawer
- c. Drawers shall have ball bearing suspension system
- d. Minimum weight capacity shall be 900 lbs., total
- e. Heavy duty side handle
- f. Unit shall be locking, keyed to match adjacent furnishings within the room; each room shall be keyed separately
- g. Casters

Finish:

- a. Metal: Manufacturer's standard selection shall include black or blue
- b. Pulls: Manufacturer's standard selection

22.4 SX2/SX02: Tool Storage Cabinet, Metal

Overall Dimensions: 40-42"W x 18-24"D x 38-44"H

General Requirements:

- a. Rolling tool cabinet with (7) drawers, minimum
- b. Heavy duty liner in each drawer
- c. Drawers shall have ball bearing suspension system
- d. Minimum weight capacity shall be 2000 lbs., total
- e. Heavy duty side handle
- f. Unit shall be locking, keyed to match adjacent furnishings within the room; each room shall be keyed separately
- g. Casters

Finish:

- a. Metal: Manufacturer's standard selection shall include black, blue, or gray
- b. Pulls: Manufacturer's standard selection

22.5 SX3/SX03: Tool Storage Cabinet, Metal

Overall Dimensions: 48-52"W x 24-27"D x 37-44"H

Attachment #2 – Vandenberg Space Force Base, CA – Consolidated Maintenance Facility – Open Market

General Requirements:

- a. Rolling tool cabinet with (5) drawers, minimum
- b. Heavy duty liner in each drawer
- c. Drawers shall have ball bearing suspension system
- d. Minimum weight capacity shall be 900 lbs., total
- e. Heavy duty side handle
- f. Unit shall be locking, keyed to match adjacent furnishings within the room; each room shall be keyed separately
- g. Casters

Finish:

- a. Metal: Manufacturer's standard selection shall include black, blue, or gray
- b. Pulls: Manufacturer's standard selection

22.6 EQ1/EQ01: Tool Storage Cabinet, Metal

Overall Dimensions: 27-48"W x 18-27"D x 37-44"H

General Requirements:

- a. Rolling tool cabinet with (5) drawers, minimum
- b. Heavy duty liner in each drawer
- c. Drawers shall have ball bearing suspension system
- d. Minimum weight capacity shall be 900 lbs, total
- e. May have doors and shelf

Attachment #2 – Vandenberg Space Force Base, CA – Consolidated Maintenance Facility – Open Market

- f. Heavy duty side handle
- g. Unit shall be locking, keyed separately
- h. Casters

Finish:

- a. Metal: Manufacturer's standard selection shall include black, blue, or gray
- b. Pulls: Manufacturer's standard selection

22.7 TN1/TN01/TN2/TN02: Work Bench, Metal

Overall Dimensions: 72"W x 34-36"D x 34-37"H

General Requirements:

- a. 14-Gauge steel legs with stretcher
- b. Laminated hardwood worksurface
- c. Full width 18-gauge stringer
- d. Metal shelf/footrest below worksurface
- a. Freestanding or attached storage pedestal:
 - i. (1) Pedestal, 22-24"W with a minimum of (5) drawers
- e. (1) 72"W x 12"D Shelf or (2) 36"W x 12"D shelves with lip/s at back and full depth end panels with vertical wire management
 - i. Provide task lights with bulbs
 - ii. Provide power cord long enough to reach power source
- f. Provide full width column-mounted electrical beam/strip:
 - i. (8) Outlets, minimum
 - ii. Provide power cord long enough to reach power source
- g. Adjustable grounding wrist straps and grounding kit

Finish:

- a. Metal: Manufacturer's standard powder coat paint selection shall include blue
- b. Wood: Manufacturer's standard sealed hardwood selection
- c. Pulls: Manufacturer's standard selection shall include recessed or integral, if available

22.8 TN3/TN03/TN4/TN04: Work Bench, Metal

Overall Dimensions: 60"W x 30"D x 34-37"H

*Item shall be the same as TN1/TN01, except for the overall dimensions.

22.9 TN5/TN05: Work Bench, Metal

Attachment #2 – Vandenberg Space Force Base, CA – Consolidated Maintenance Facility – Open Market

Overall Dimensions: 72"W x 34-36"D x 27-37"H

General Requirements:

- a. 14-Gauge steel legs with stretcher
- b. Leg levelers adjust to raise/lower top
 - i. Height adjustment, 6" minimum
- c. Laminated hardwood worksurface
- d. Full width 18-gauge stringer
- e. Adjustable grounding wrist straps and grounding kit

Finish:

- a. Metal: Manufacturer's standard powder coat paint selection shall include blue
- b. Wood: Manufacturer's standard sealed hardwood selection

22.10 SL1/SL01: Double Tier Locker, Metal

Overall Dimensions: 12"W x 12"D x 72-82"H

General Requirements:

- a. Cold rolled steel double high lockers
- b. Provide starter/adder units as required per floor plan
- c. Heavy beaded or angle post uprights, punched for adjustment bumpers for sound control
- d. Ventilation louvers incorporated at top and bottom of door
- e. Minimum 16-gauge, one piece doors
- f. Full height continuous hinges
- g. (2) Doors with locks

Attachment #2 – Vandenberg Space Force Base, CA – Consolidated Maintenance Facility – Open Market

- h. Closed front base with legs
- i. Provide floor attachments or wall attachment kits, per manufacturer's recommendation

Finish:

- a. Metal: Manufacturer's standard powder coat paint selection

22.11 SX4/SX04: Heavy Duty Cart

Overall Dimensions: 40-53"W x 24-26"D x 30-40"H

Item images are for general illustration purposes only and not an exact representation of the requirement.

General Requirements:

- a. Heavy duty steel construction
- b. Integral handle
- c. Provide weight capacity of 1200 lbs., minimum
- d. Deck shall be 12-gauge steel
- e. (2) Fixed, (2) swivel 5-6" casters, minimum

Finish:

- a. Metal: Manufacturer's standard powder coat paint selection

END OF FID

Statement Of Work - Installation Of Furnishings

Vandenberg Maintenance Facility, Vandenberg Space Force Base

Revised 17 April 2026

1. General

1.1. Purpose: The Contractor shall provide all necessary furnishings, materials, equipment, labor, supervision, and management to coordinate delivery, load and unload new items, place/install items on Attachment 1 in designated rooms, assemble items as required, secure and store as designated and properly dispose of all associated packaging/crating materials. All quotes shall include field verification of building conditions (including verification of electrical connections where hardwired connections to furniture are required), delivery and installation. Refer to Section 2, Post-Award Verification and Finish Selection, for information on field verification requirements.

1.2. **NOT USED**

1.3. **NOT USED**

1.4. **Electrical Hardwiring:** The Contractor shall provide all furniture to building electrical connections, i.e., base feeds, power poles and accessory items as needed to fit existing conditions. This work shall be the responsibility of the contractor awarded the furniture contract; therefore, a licensed electrician will need to be retained for the work. The RFQ response shall include a separate quote for this work as shown in Attachment 1.

1.5. Reporting:

The following reporting is required to be provided to the Project Manager:

- Order Confirmation – Order confirmation for all products identified on the contract Attachment 1's is required within two (6) weeks of the post award kick-off meeting. The confirmation document(s) shall be submitted to the HNC Project Manager and TR via email.
- Manufacturing Schedule – Manufacturing schedule shall be provided bi-weekly once the order confirmation is submitted. The manufacturing schedule shall be submitted to the HNC Project Manager and TR via email.
- Shipping Schedule – The initial shipping schedule shall be provided three (2) weeks prior to trucks departing the manufacturing facilities to the port. Subsequent shipping schedules shall be provided bi-weekly until all products has arrived at the job site for install. The shipping schedules shall outline the total number of containers to be shipped, what is included in those containers along with a shipping schedule for those containers. This information must also detail the shipping company used. The shipping schedule(s) shall be submitted to the HNC Project Manager and TR via email.

1.6. **Project TR:** The Technical Representative(s) (TR) for this project is shown in Table 1 of this document.

1.7 Anyone onsite representing the installation team or vendor must be a us citizen and shall be in good standing. **Additionally, anyone onsite representing the installation team or vendor must possess a valid driver's license or documentation proving such.**

2. POST-AWARD VERIFICATION AND FINISH SELECTION

Statement Of Work - Installation Of Furnishings

Vandenberg Maintenance Facility, Vandenberg Space Force Base

Revised 17 April 2026

2.1. **Post-Award Kick-Off (Verification) Meeting:** After contract award and prior to finalizing the order, the contractor shall schedule a site visit to field verify and document all existing building conditions. During this meeting the furniture Contractor shall also coordinate all final finish, fabric, and color selections with the TR and/or the HNC Project Manager, as applicable. This verification meeting shall be scheduled by the HNC PM with the TR and **shall occur within two weeks after award.**

2.2. **Building Conditions:** Furniture Contractor shall verify and document all existing building conditions and all product changes required due to field conditions. Examples of building conditions which may vary from those shown on drawings provided or interfere with the intended location or configuration of furniture include, but are not limited to, the following: placement of wall-mounted equipment such as SIPR boxes, thermostats, fire extinguisher cabinets; window and door placement; varying column sizes; size and/or placement of build-outs for mechanical chases; coordination of millwork openings for appliances; dropped ceilings in storage areas where industrial shelving is to be installed; appropriate code clearance for sprinkler heads; data/comms locations (**the Furniture vendor is NOT responsible for running, terminating and/or testing the data/comms**).

2.3. **Work Not in Place:** Furniture Contractor shall identify and document all conditions where critical work such as cabinetry, millwork, dropped ceiling areas, SIPR boxes, etc., are not in place at the time of the kick-off meeting so that field dimensions and locations can be determined. These shall be reported to the TR and HNC Project manager if the missing work will not be in place in time for items impacted by these conditions to be ordered and delivered per contract dates, or if a second site trip is required to obtain this information.

2.4. **Electrical Conditions:** Furniture Contractor shall verify and document all existing electrical conditions where powered furniture is required in the contract and all product changes required due to these conditions. Examples of electrical conditions to be verified include, but are not limited to, the following: type, location and quantity of wall or flush-floor outlets for plug-in electrical systems; location, quantity and suitability of wall, ceiling or floor junction boxes for hardwired electrical systems; building electrical configuration (2+2, 3+1, etc.); requirement for sharing of neutrals.

2.5. **Data/Telecom Conditions and Coordination:** Furniture Contractor is **NOT** responsible for running, terminating and/or testing any data cables or telecom cables through any furniture items in this contract. During the post award meeting the contractor will verify and coordinate the data/telecom locations prior to placing the furniture order. Coordination with the end users, NEC and/or IT contractor shall begin during the post award meeting and then continue throughout the entire installation.

2.6. **Documenting Conditions:** Contractor shall submit written documentation of conditions that impact the furniture and the proposed revisions necessary to the HNC Project Manager, the TR and the HNC Contracting Officer for follow-up action. Include sufficient documentation, such as a description of the existing condition, field notes, photographs, drawings, wiring schematics, etc., to identify **both** the issue and the solution proposed.

Documentation of field conditions and issues shall be provided **within five (5) days** of the kick-off meeting unless otherwise coordinated with the HNC Project Manager. If no issues requiring

Statement Of Work - Installation Of Furnishings

Vandenberg Maintenance Facility, Vandenberg Space Force Base

Revised 17 April 2026

action exist after the kick-off meeting, Furniture Contractor shall notify the TR and HNC Project Manager **within (3) days** of the kick-off meeting.

2.7. Finish Selections: Contractor shall provide all fabric, finish and color selections to TR for final selections. Actual material samples shall be provided; electronic samples or photographs of finish cards shall not be acceptable unless a virtual kick-off is held. Even if the meeting is virtual, the customer may require actual material samples prior to approval. Provide the number of different fabric/pattern/finish selections required in the Attachment 2 Furniture Items Description (FID) of the contract. Finish selections required per the FID requirements are those known at the time of RFQ and may not match actual building finishes selected. Therefore, samples of the entire range of colors available for each selection shall also be available at the meeting in case they are needed to coordinate with the final building finishes.

As part of this project a Comprehensive Interior Design (CID) **may** have been prepared that may provide insight into the color choices for carpet, paint and other finishes within this facility. This document, or actual finish samples selected for the building, shall be requested from the TR or HNC Project Manager at the same time the field verification meeting is being scheduled with the hope that one of these will be available for reference at the time of the meeting.

2.8. Finish Documentation: Contractor shall provide one set per building of a 3-ring binder including 8" x 11" product cut sheets for all furniture items, with a sample of the actual fabrics/finishes selected for each item, arranged in clear plastic sleeves. Upholstery selections shall include manufacturer's specifications and care/cleaning instructions. Where one finish has been selected for multiple items, a single sample may be provided and annotated with the item number for each furniture item with this finish. Organize items by FID/Attachment 1 number. This binder shall be delivered to the Garrison TR **one** week prior to furniture installation start date (FISD). Binder shall be updated at completion of project as part of Close-Out.

3. DELIVERY

3.1. The Contractor shall contact the TR at least 15 working days prior to product shipment to ensure each building will be ready for installation by the furniture install start date(s) listed in the contract. The Contractor shall coordinate item delivery from all sub-contractors and ship the goods only if the TR confirms that the building is ready. At this time, the Contractor shall ensure they fully understand all site security regulations and have started any required procedures to minimize the impact on installation personnel. The Contractor shall notify HNC of any issues related to the install schedule as defined in the contract.

3.2. In the event that a delay in delivery is requested by the TR, or if the Contractor is unable to confirm that the building is ready, the Contractor shall notify the HNC Project Manager and the Contracting Officer within one (1) working day.

3.3. Not Used

3.4. The Contractor shall provide the TR with a minimum of 72-hour notification as to the date and time the trucks will arrive. The Contractor shall also provide email notification as to the date and time the trucks will arrive to the HNC Project Manager at least 72 hours prior to scheduled arrival time.

Statement Of Work - Installation Of Furnishings

Vandenberg Maintenance Facility, Vandenberg Space Force Base

Revised 17 April 2026

- 3.5. Contractor must ensure the drivers of the delivery vehicles have copies of the Delivery Order (contract) for the items being delivered in order to gain entry to the facility.
- 3.6. Furniture shall be delivered to the job site in the manufacturer's original packaging with the item identification and project clearly shown.
- 3.7. Drivers of the delivery vehicles shall not attempt to deliver any items before the scheduled delivery date. In the event the delivery date falls on a Saturday, Sunday, or federally recognized holiday, the delivery date shall be the next workday after the Saturday, Sunday, or holiday, unless alternate arrangements are pre-approved by the TR.
- 3.8. Observed holidays: New Year's Day, Birthday of Dr. Martin Luther King, Jr., Presidents Day, Memorial Day, Juneteenth, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day and the following Friday, Christmas Eve, and Christmas Day. Any such holiday that falls on a Saturday shall be observed on the preceding Friday. Any such holiday that falls on a Sunday shall be observed on the following Monday. For OCONUS projects, ensure that the local countries holiday schedule is verified.
- 3.9. Shipping Label shall read as specified in Table 1 of this document. The Shipping Label is for the purpose of identifying the building location where furniture is being delivered. **Do NOT direct ship or drop ship any item to the site via USPS, FedEx, UPS or similar carrier to the building address. The government shall not be responsible for items delivered directly to the building by these shippers.**
- 3.10. Items shall be labeled with the building number(s) provided in the Contract.

4. REMOVAL OF EXISTING FURNITURE – NOT USED

5. RECEIVE AND UNLOAD

- 5.1. Contractor shall start assembling and installing items in rooms upon delivery between the hours specified in Table 1. The Contractor may work outside this time frame with prior approval of the TR.
- 5.2. If the Contractor is unable to complete the assembly and placement of all unloaded items before end of the workday, the contractor will transport those remaining items to a location designated by the TR or a staging area within the building for storage until the next workday. The Contractor will be responsible for moving the items from the overnight storage site or the staging area to the designated positions in the building.
- 5.3. The Contractor shall verify and inspect all items. Any deficiencies (damage/overage/shortage) shall be brought to the attention of the TR. The Contractor shall store damaged items in the location designated by the TR.
- 5.4. The Contractor shall maintain a complete file of all documents relating to each shortage, deficiency or damage. Copies of these reports shall be forwarded to the TR on a daily basis.

Statement Of Work - Installation Of Furnishings

Vandenberg Maintenance Facility, Vandenberg Space Force Base

Revised 17 April 2026

5.5. The Contractor shall repair or coordinate for replacement of damaged, defective, or missing items.

6. PLACE AND INSTALL

6.1. Contractor shall place items in building(s) noted in all CLINs of the contract. Items shall be placed in the rooms in accordance with the drawings provided with the RFQ. If no drawings are provided or the drawings do not accurately represent actual field conditions, the furniture shall be placed as directed by the TR or as directed in paragraph 1.7. Information about the building may be found in Table 1.

6.2. The Contractor shall complete installation of furnishings under this Statement of Work in the time period specified per the contract.

6.3. The contractor shall clean and polish all items that have been installed.

6.4. The Contractor shall ensure all light fixtures have the appropriate bulbs as identified in the contract and ensure they are in working order.

6.5. The Contractor shall remove all protective coverings off of any item (such as protective film on the furniture, protective wrapping on light fixtures, etc.).

6.6. The Contractor shall ensure that all stickers and labels are removed, and no adhesive residue remains on the surface.

6.7. The Contractor shall ensure items which require batteries are provided with new alkaline batteries, and the items are working properly.

6.8. If powered furniture is provided in this procurement, the contractor shall be responsible for providing equipment, material and expertise needed to assemble and properly install the furniture to include connections to the building electrical system in compliance with local and/or national codes.

6.9. The contractor shall provide power cords for all furniture electrical items and other accessories required to have a fully functioning unit. The cords shall be appropriate for the item and the building's electrical service and shall be plugged in and the unit fully operational. If appliances are provided in this procurement, the Contractor shall install the appliances. In addition, the Contractor shall be responsible for providing all equipment and material to install the refrigerators, electric ranges, microwaves, clothes washers, and electric dryers as identified in the contract. The contractor shall provide power cords for all electrical items, which are appropriate for the item and the building's electrical service, as well as hoses, vent kits, and/or other accessories required to have a fully functioning unit.

6.10. If marker boards or other hanging items are provided in this procurement, the Contractor shall provide equipment and material needed to install those items in the rooms identified in the contract. The TR will provide locations for placement of those items. Mount items at an appropriate height for each item.

Statement Of Work - Installation Of Furnishings

Vandenberg Maintenance Facility, Vandenberg Space Force Base

Revised 17 April 2026

6.11. The Contractor shall be responsible for installing other items that have been shipped to and/or stored at the installation as noted in block 13 of Table 1. If no items are identified in these blocks, then there are no other items that must be installed under this contract.

6.12. The Contractor shall be responsible for notifying the TR, HNC PM and Contracting Officer of any discrepancy between the actual placement of furnishings against the provided floor plans, as also referenced in paragraph 2.2.

6.13. If artwork is provided in this procurement, the Contractor shall install the artwork. In addition, the Contractor shall be responsible for providing equipment and material needed to install artwork as identified in the contract. The TR will provide locations for placement of artwork. Mount artwork at standing eye-level height of 5'-6" on center above finished floor, or at seated eye-level or 4'-4" on center above finished floor, per direction from TR.

7. ASSEMBLY

7.1. The contractor shall uncrate all items received and perform all required assembly in accordance with the manufacturers' instructions.

7.2. All furniture, equipment and accessories shall be level, plumb, square, free of rough or sharp edges and in proper alignment with adjoining furniture. Furnishings shall be securely attached to the building where applicable.

7.3. All assembly shall be accomplished using conventional tools found in any hardware store. If special tools are required, they shall be furnished by the Contractor at no charge. One set per building of any special tools shall be provided to the TR.

7.4. The Contractor shall ensure the furniture is free of surface dirt and defects, and that the installation is complete, and the furniture is ready to use.

8. PROTECTION OF PROPERTY

8.1. The Contractor shall perform an inspection of the buildings and grounds with the TR prior to starting work and document any existing damage accordingly. A copy of the documented conditions shall be retained by both the Contractor and the TR until installation is complete. If the building requires joint occupancy during installation period, inspections may be required on a more frequent basis, such as prior to beginning installation in an area where work by other trades has just been completed. The Contractor shall protect all items from damage during removal (where required) and installation. The Contractor shall take precaution against damage to the building, grounds, and other furnishings, installing protective coverings as necessary to protect these.

8.2. If the building entrances available for installation are not identified in Table 1 of this document, the Contractor shall coordinate the location(s) of those to be used for delivery of furniture with the TR. The Contractor shall provide floor and/or wall protection for the corridors, stairways, elevators and other parts of the building. Protective coverings shall remain in place for the duration of any furniture delivery.

Statement Of Work - Installation Of Furnishings

Vandenberg Maintenance Facility, Vandenberg Space Force Base

Revised 17 April 2026

8.3. The Contractor shall repair or replace any items in the buildings, components or grounds damaged due to negligence and/or direct action by the Contractor using materials of the same quality, size, texture and color to match adjacent work. All repairs beyond simple surface cleaning require concurrence of the TR before the Contractor or anyone other than the facility construction contractor (or its sub-contractors) may perform any significant repair work. Use of the facility contractor (or appropriate sub-contractor) is required for all significant repairs so that the building warranty is maintained.

8.4. Prior to completion and transfer to the Government, the Contractor shall be responsible for security of the area where work is being performed. The Contractor shall maintain accountability and control of any keys provided and shall return them to the TR upon completion of work.

8.5. Material-handling equipment shall have rubber wheels.

9. PUNCH LIST INSPECTIONS

9.1. Inspection of workmanship and materials shall be performed by the TR listed in Table 1 unless otherwise noted.

9.2. Inspection of each building of the installation shall occur the next business day following the FICD for that building. The date of inspection of the completed phase will coincide with the start of the next phase. Installation shall continue on the next building without pause. Refer to contract dates for the building order and the period of performance for each.

9.3. The Contractor shall maintain a complete list of all items to be corrected (i.e., punch list) by phase that shall include the deficient item and its location, description of the corrective action, order date for replacement items and estimated ship/delivery date for replacements and the dates that corrective action is planned to be complete.

9.4. The Contractor shall provide a copy of the punch list to the TR and HNC Project Manager within one week after the completion of each phase.

9.5. The Contractor shall provide updates to the punch lists to the TR and HNC Project Manager as work on the items progresses.

9.6. The furniture contractor is **NOT** responsible for running, terminating and/or testing data/telecom cables through workstations, tables or another furnishing item provided under this contract.

10. CLOSE-OUT DOCUMENTATION

10.1. The Contractor shall ensure all owners' manuals, warranty information to include a list of manufacturers with a point of contact for every item, assembly instructions, maintenance and care instructions, operating instructions, electrical system descriptions, wiring schematics, and any other information is provided to the TR upon installation start date. Provide one set per building of the above to the TR. Maintenance and care instructions for furniture finishes shall be provided with the information required in 2.7.

Statement Of Work - Installation Of Furnishings

Vandenberg Maintenance Facility, Vandenberg Space Force Base

Revised 17 April 2026

10.2. The Contractor shall turn over, to the TR, any special assembly tools, security hardware wrenches, and spare parts provided with the furnishings.

10.3. The Contractor shall provide two copies of the final furniture layout on a CD (not DVD) in both AutoCAD and PDF formats no later than 2 weeks after furniture installation start to the Garrison TR and HNC Project Manager. This furniture layout will include the final building conditions that affect the furniture layout and all furniture awarded in the contract drawn to correct sizes and located per actual conditions. Draw all furniture on one layer for ease of AutoCAD use.

11. CLEANUP

11.1. The Contractor is responsible for the removal and disposal of all trash connected with uncrating and assembling furniture and other items installed under this contract. Final acceptance of the furniture (TR signing DD Form 1155 or SF 1449) from the Contractor will not occur until all installation trash is removed from the site.

11.2. Recyclable cardboard products shall be disposed of in accordance with Table 1.

11.3. Packing materials will not be stored in the building for any period exceeding 24 hours.

11.4. Personal trash (food wrappers, drinks, etc.) shall be removed from the site on a daily basis by the contractor.

12. EXCESS ITEMS

12.1. Once furniture and equipment are installed, the Contractor shall coordinate with the TR where any excess items will be stored. Contractor will be responsible for delivery of excess items to storage area designated by TR.

13. AT-OPSEC

13.1. General security requirements and guidance: The security requirements described below apply to all contract personnel (including employees of the prime Contractor ("Contractor") and all subcontractor employees) supporting the performance requirements of this contract. The Contractor is responsible for compliance with these security requirements. Questions regarding security matters shall be addressed to the designated Government representative (e.g., Contracting Officer Representative (COR), Requiring Activity (RA) representative, or Contracting Officer (if a COR or other RA representative is not appointed)). Contract personnel are critical to the overall security and safety of US Army Corps of Engineers (USACE) installations, facilities and activities, and security awareness training contributes to those efforts. The Department of Defense (DoD) and Army security training requirements specified below, if applicable, are performance requirements; all applicable contract personnel shall complete initial training within 30 days of contract award or the date new contract personnel begin performance on the contract. Within five business days from the completion of training, the Contractor shall provide written documentation (e.g., email or memorandum) to the Government representative. The documentation shall include the names of contract personnel trained and which training they completed; the Contractor shall maintain training records as part of their contract files and be prepared to provide copies of training certificates to the

Statement Of Work - Installation Of Furnishings

Vandenberg Maintenance Facility, Vandenberg Space Force Base

Revised 17 April 2026

Government representative. Contractor personnel and vehicles are subject to search when entering federal installations. Additionally, all contract personnel shall comply with Force Protection Condition (FPCON) measures, Random Antiterrorism Measures (commonly referred to as "RAMs"), and Health Protection Condition (HPCON) measures. The Contractor is responsible for meeting performance requirements during elevated FPCON and/or HPCON levels in accordance with applicable RA plans and procedures --this includes identifying mission essential and non-mission essential personnel. In addition to the changes otherwise authorized by the changes clause of this contract, should the FPCON or HPCON levels at any individual facility or installation change, the Government may implement security changes that affect contract personnel. The Contractor shall ensure all contract personnel are aware of their security responsibilities, including any site-specific requirements identified in local policies or procedures.

13.2. Suspicious Activity Reporting training (e.g., iWATCH, CorpsWatch, or See Something, Say Something): All contract personnel shall receive initial and annual refresher training from the RA representative on the local suspicious activity reporting program. This locally developed training provides contract personnel with general information on suspicious behavior, and guidance on reporting suspicious activity to the project manager, security representative or law enforcement entity.

13.3. Escorting in classified and/or sensitive areas: In accordance with applicable regulations, all contract personnel who do not possess the appropriate security clearance or access privileges will be escorted in areas where they may be exposed to classified information or operations, sensitive information or activities, or restricted areas.

13.4. Pre-screen candidates using E-Verify Program: Contractors shall comply with the requirements set forth in FAR clause 52.222-54 Employment Eligibility Verification and FAR Subpart 22.18 in using the E-Verify Program at (<https://www.e-verify.gov/>) (website subject to change) to meet the contract employment eligibility requirements. The Vendor must ensure that the Candidate has two (2) valid forms of Government issued identification prior to enrollment to ensure the correct information is entered into the E-Verify system. Contractors are encouraged to cooperate with Federal and State agencies responsible for enforcing labor requirements to include eligibility for employment under United States immigration laws in accordance with FAR 22.102-1(i). An initial list of verified/eligible candidates shall be provided to the COR no later than three business days after the initial contract award. When contracts are with individuals, the individuals will be required to complete a Form I-9, Employment Eligibility Verification, and submit it to the Contracting Officer to become part of the official contract file.

13.5. All contractor and all associated sub-contractors' employees shall comply with applicable installation or facility access and local security policies and procedures (provided by government representative). The contractor shall also provide all information required for background checks or background investigation and to meet installation access requirements to be accomplished by installation Provost Marshal Office, Director of Emergency Services or Security Office. Contractor workforce must comply with all personal identity verification requirements as directed by DoD, HQDA and/or local policy. In addition to the changes otherwise authorized by the changes clause of this contract, should the Force Protection Condition at any installation or facility change, the Government may require changes in contractor security matters or processes.

Statement Of Work - Installation Of Furnishings
Vandenberg Maintenance Facility, Vandenberg Space Force Base

Revised 17 April 2026

Statement of Work Information Sheet		
1. Installation:	Vandenberg Space Force Base	
2. Technical Representative (TR):	Toby Heywood Alternate: David McCombs	
3. TR Phone # (cell and work):	801-499-7371 Alternate: 910-750-4734	
4. Acceptable Hours of Delivery:	0800-1600 Monday-Friday [PST]	
5. Building #:	6500	
6. # of Floors:	2	
7. Elevator (Yes/No). If no, what alternative access is there to additional floors? (i.e stairs, glazing system removal, etc)	YES/passenger	
8. Is phased delivery required? If yes, please provide a schedule by floor or building	Delivery will occur by quadrants – A through F.	
9. All recyclable cardboard products to be delivered to:		
10. Security Requirements (include items such as what gate to enter, who must escort, forms of ID, etc.). Be specific. This block can NOT be left blank; if no requirements, so state:	Lompoc Commercial Gate, AFNWC will provide escorts where necessary in secure spaces. See attachment for base access. Drivers license required. Random screenings of product will be performed; furniture for secure areas will receive total 100% screen.	
11. Shipping Label for Furniture: Please include DODAAC if required (OCONUS shipments)	Building 6500,	
	6500 13th st VSFB 93437	
12. Warehouse # (CONUS) or Warehouse Location (OCONUS):		
13. Items stored, at location noted in block 12 above, to be installed under this contract: (See Statement of Work regarding mattresses and boxsprings)	per SOW, contract	QTY:
	per SOW, contract	QTY:
	per SOW, contract	QTY:
	per SOW, contract	QTY:
	per SOW, contract	QTY:

Statement Of Work - Installation Of Furnishings Vandenberg Maintenance Facility, Vandenberg Space Force Base

Revised 17 April 2026

Other Information (such as directions, truck parking, etc.):	
17. If furniture is being removed from the rooms as part of this contract, old furniture to be delivered to:	N/A
18. If applicable, please list typical items to be removed:	N/A
19. Will building be occupied during removal/installation, thereby requiring a staged effort?	No
20. Is there a designated staging area for furniture unpacking and assembly? If yes, provide location.	East bay of facility
21. Are there defined work areas so that multiple crews could work concurrently? If yes, how many work areas are there?	Entire Facility open. Some coordination will be needed as AFNWC will have 4 contracts running concurrently, 3 HNC contracts (FF&E, AV,ESS) and 1 equipment contract. Equip contract will be confined to rooms 1253 and 1257.
22. Will you require workstations to be connected to building power? Data connections are NOT part of HNC contracts.	Yes
23. Are there any other special requirements that would affect the installation of furnishings within this facility?

CONTRACTOR PERFORMANCE EVALUATION

N/A= Not Applicable O= Outstanding A= Above Average S= Satisfactory M= Marginal U= Unsatisfactory

PART III – EVALUATION OF PERFORMANCE ELEMENTS

15. Quality Control	N/A	O	A	S	M	U	16. Effectiveness of Management	N/A	O	A	S	M	U
a. Quality of Product							a. Cooperation and responsiveness						
b. Quality of service							b. Management of resources/personnel						
c. Implementation of the CQC plan							c. Forecast and control of costs						
d. Met Contract requirement							d. Adequacy of site clean-up						
e. Storage of materials							e. Effectiveness of jobsite supervision						
f. Adequacy of materials							f. Compliance with laws and regulations						
g. Adequacy of submittals							g. Professional conduct						
h. Adequacy of as-builts							h. Review/resolution of subcontracting plan						
j. Use of specified materials							i. Accomplishments under						
k. Identification/correction of deficient work in a timely manner							18. Compliance with Labor Standards						
17. Timely Performance							a. Correction of noted deficiencies						
a. Adherence to delivery schedule							b. Payrolls properly completed and submitted						
b. Resolution of delays							c. Compliance with labor laws and regulations: Davis Bacon/Service Act and EEO Requirements						
c. Submission of required documentation							19. Compliance with Safety Standards						
d. Correction of minor deficiencies Warranty response							a. Adequacy of safety plan						
							b. Implementation of safety plan						
							c. Correction of noted deficiencies						
20. Remarks: <u>Explanation of evaluation is required.</u> Continue on separate sheet if needed.													

U.S. Army Corps of Engineers (USACE)
ACCIDENT PREVENTION PLAN (APP) WORKSHEET

For use of this form, see EM 385-1-1; the proponent agency is CESO.

This form serves as a guide. It does not replace or eliminate the need to comply with the requirements set forth in Engineering Manual 385-1-1, Safety and Occupational Health Requirements Manual. The references included in this form correspond to the applicable chapters of EM 385-1-1. No work will begin onsite until the accident prevention plan (APP) is developed according to the EM 385-1-1, reviewed to ensure minimum requirements are met, and approved by the appropriate personnel identified in "Part 1 -Signatures"

PART 1 - SIGNATURES

Plan Preparer - For example: Qualified Person (QP), Competent Person (CP), or project Quality Control (QC).

1. Name:	2. Title:
3. Email Address:	4. Phone Number:
5. Signature	

Plan Approver - Corporate Safety Official

1. Name:	2. Title:
3. Email Address:	4. Phone Number:
5. Signature	

Plan Concurrence - For example: Industrial hygienist, Project Manager, Superintendent, Site Safety & Health Officer, Quality Control, etc.

1. Name:	2. Title:
3. Email Address:	4. Phone Number:
5. Signature:	

PART 2: PROJECT INFORMATION

1. Project Name:	
2. Project Address (attach map in Appendix 1):	
3. Estimated Project Start Date:	4. Estimated Project Completion Date:
5. Project Description / Description of work to be performed:	

PART 3: PRIME CONTRACTOR INFORMATION

1. Prime Contractor Name:

2. Contract Number:

3. Project Manager Name:

4. Quality Control (QC) Manager Name:

5. Contractor Corporate Safety Official Name:

6. Primary Site Safety & Health Officer (SSHO) Name:

7. Alternate Site Safety & Health Officer (SSHO) Name(s):

PART 4: SOH COMMITMENT AND POLICY

1. Provide a statement of safety and health policy detailing commitment to providing a safe and healthful workplace for all employees on this project.

2. Provide a statement outlining the Contractor's safety program goals and objectives.

3. Identify policies and procedure regarding non-compliance with safety requirements.

4. Provide written procedures for holding managers and supervisors accountable for safety.

5. Prime contractor is responsible for the implementation and enforcement of the SOH program for contractor employees, subcontractors, suppliers, and visitors at the site of work?

☐ Yes☐ No

6. Prime contractor will require subcontractors, suppliers, and visitors to comply with the APP and EM 385-1-1?

☐ Yes☐ No

7. No work will be performed unless a designated SSHO is present on the site of work.

☐ Yes☐ No

8. A list of all known subcontractor(s) and supplier(s) are listed in Appendix 2.

☐ Yes☐ No

9. If all subcontractor(s) and supplier(s) are not known at the time of initial APP submittal, Appendix 2 will be updated and resubmitted to the KO/COR for acceptance prior to the start of any work activities.

☐ Yes☐ No

10. All subcontractors will have a copy of the APP, applicable AHAs and will be required to comply with them.

☐ Yes☐ No

11. Subcontractors and suppliers at the site of work will abide by the EM 385-1-1, this APP, and all AHAs.

☐ Yes☐ No

12. This APP and AHAs will be available to all workers at the site of work.

☐ Yes☐ No

PART 5: TRAINING

1. All employees will be trained according to applicable EM 385-1-1, federal, state, and local requirements prior to the commencement of work. ☐ Yes ☐ No
2. The following personnel are identified and designated as personnel responsible for SOH on this project. Add the following documentation to Appendix 3 of this worksheet: 1) SSHO designation letter (ENG Form 6282), 2) instructor signed OSHA 30-hour card (or course completion certificate if within 90 days of having completed the OSHA 30-hour training), and 3) proof of 24 hours of competency of SOH training within the last 3 years for the personnel identified below. (EM 385-1-1, Chapter 2, 2-3 Personnel Qualification/Training):
(Check and list names of personnel being designated)
- ☐ Primary SSHO Name:
- ☐ Alternate SSHO Name(s):
3. QP(s) and CP(s) required by EM 385-1-1 (for example, excavation, confined space, scaffolding, fall protection, etc.) for this project will be included in Appendix 3. Include 1) List of names or designation letters and 2) proof of qualification/competency.

PART 6: SOH INSPECTIONS

1. All applicable inspections required by EM 385-1-1, contract, federal, state, and local requirements will be completed. ☐ Yes ☐ No
2. The following personnel are assigned to conduct inspections, the type of inspection and frequency for the worksite. At minimum the SSHO must conduct daily site inspections.
- | Who will conduct inspection? | Frequency? | What type of inspection? |
|------------------------------|------------|--------------------------|
| | | |
3. Employees that conduct inspections will have technical proficiency needed to perform inspections. Proof of inspector's training/qualification is included in Appendix 3. ☐ Yes ☐ No
4. Deficiencies will be documented and tracked as required by this EM 385-1-1? ☐ Yes ☐ No
6. Will any external inspections be required (for example, USCG, OSHA, etc.)? ☐ Yes ☐ No
If yes, describe:

PART 7: ACCIDENT REPORTING AND INVESTIGATION

1. Exposure data (man-hours worked) will be reported to KO/COR as required by the contract? ☐ Yes ☐ No
2. All accidents will be reported as soon as possible according to EM 385-1-1? ☐ Yes ☐ No
3. All accidents occurring incidentally to an operation, project, or facility for which the EM 385-1-1 is applicable will be thoroughly investigated and analyzed. Corrective actions to prevent reoccurrence will be implemented as soon as reasonably possible. The KO/COR will be notified when corrective actions are completed. ☐ Yes ☐ No
4. Accident notification will be provided to the KO/COR as stated below: ☐ Yes ☐ No
- | ACCIDENT TYPE | KO/COR NOTIFICATION TIME |
|---|--|
| Fatality, permanent and partial disability, or property damage over \$600,000 | Immediately, no later than (NLT) 8 hours |
| All other accidents and near misses | Immediately, NLT 24 hours |

PART 8: SOH OVERSIGHT

1. A risk management process that meets or exceeds the requirement of the EM 385-1-1 will be implemented on this project site?	☐ Yes	☐ No
2. Hazardous conditions and unsafe acts will be immediately corrected?	☐ Yes	☐ No
3. APP and AHAs will be prepared by a QP or CP according to the EM 385-1-1 prior to the start of any work activities on the site of work (as much as the information can be known at that point in time).	☐ Yes	☐ No
4. The plans and AHAs will be updated throughout the life of the project to include changes in personnel, equipment, conditions, etc. Additional revisions must be incorporated as necessary to reflect changing site conditions, construction methods, personnel roles and responsibilities and construction schedules.	☐ Yes	☐ No
5. No activity/work will be started at the site of work until the APP is reviewed and submitted to the KO/COR for acceptance, with the site-specific plans and procedures required by the EM 385-1-1 to complete the project?	☐ Yes	☐ No
6. APP and AHAs will be provided to and reviewed by all workers involved in the activity prior to work?	☐ Yes	☐ No
7. Workers will sign AHA(s) to concur with identified job steps and controls needed to mitigate hazards?	☐ Yes	☐ No

PART 9: SEVERE WEATHER PLAN

1. The SSHO or designated onsite personnel is responsible for checking the weather conditions at a minimum of twice a day?	☐ Yes	☐ No
2. What severe weather forecast will require the SSHO to monitor weather conditions continuously? Describe.		
3. What are the training requirements for severe weather precautions and actions?		
4. Identify area of retreat or other actions to be taken such as evacuation, shelter in place, etc.		
5. Identify procedures to stop outdoor activities if extreme weather conditions to include thunderstorms are in the area.		

PART 10: ACTIVITY HAZARD ANALYSIS (RISK MANAGEMENT)

1. Major phases of work anticipated:

2. Definable Features of Work (DFOW)

Note. An activity-specific AHA will be submitted to the KO/COR for each DFOW prior to any work being performed.

3. List equipment to be used:

4. Anticipated High-Risk Activities: (See examples below, check all that apply):

☐ Electrical and/or Hazardous Energy	☐ Confined Space
☐ Working at Heights	☐ Excavations & Trenching
☐ Scaffolding	☐ Other: _____
☐ Diving	☐ Other: _____
☐ Load Handling Equipment	☐ Other: _____
☐ Occupational Exposure	☐ Other: _____

5. Detailed project-specific hazards and controls will be provided utilizing AHAs for each activity/DFOW.	☐ Yes	☐ No
6. No work will begin on an activity/DFOW until the initial AHA addressing the project-specific hazards has been developed, reviewed, and accepted by the KO/COR. (See EM 385-1-1 Chapter 2 section 2-6).	☐ Yes	☐ No
7. AHAs are living documents and are intended to be created, utilized in the field, and updated (by the workers) as necessary.	☐ Yes	☐ No
8. Workers/crews will have accepted AHA(s) that reflects current site conditions, personnel, equipment, control measures, etc. while the work is being performed?	☐ Yes	☐ No
9. AHA will be used by the contractor personnel to assure work is being performed consistent with the AHA?	☐ Yes	☐ No
10. Once the activity has been completed, the AHA will be available and kept onsite for the length of the contract.	☐ Yes	☐ No
11. AHAs for unknown work activities will be submitted to the KO/COR prior to work and attached to Appendix 4 of this document.	☐ Yes	☐ No
12. Who has the authority to accept residual risk on AHA(s)? (List below)		

Category of Risk	Approval Authority (Name and Title)
Extremely High Risk	
High Risk	
Medium Risk	
Low Risk	

PART 11: REQUIRED PROJECT SITE-SPECIFIC PLANS AND PROCEDURES

1. Based on a risk assessment of contracted activities and on mandatory OSHA compliance programs, the contractor will ensure that all applicable SOH risks and associated compliance plans are in place.		☐ Yes	☐ No
2. Include all project-specific compliance plans, as applicable to the work being performed, and as identified below. The plans will incorporate project-wide procedures to control hazards to which the employees of all project employers may be exposed.		☐ Yes	☐ No
3. These plans and procedures will be coordinated with all project employers and be included in project-specific emergency response and evacuation procedures.		☐ Yes	☐ No
4. Address each of the plans in the outline below in the order that they are listed. Option 1: If a plan is applicable, develop and attach it to Appendix 5. Submit to the KO/COR with this worksheet for acceptance prior to work. Option 2: If a plan is applicable, but all of the minimum required information for the plan is not yet known, provide justification next to each plan title, and provide an expected date the plan will be created, reviewed, and attached to Appendix 5. Submit to the KO/COR with this worksheet for acceptance prior to work. Option 3: If a plan is not applicable because of the nature of the work to be performed, provide justification next to each plan title.			
Minimum plans required by EM 385-1-1	Reference EM 385-1-1 paragraph:	Select Option	Justification for Option 2 and Option 3
Exposure Control Plan	3-7.a		
AED Program	3-7.b		
Construction Site Plan	4-7.a		
Access/Haul Road Plan	4-7.b

PART 12: PROJECT SITE COORDINATION

1. Provide procedures for coordinating SOH activities with other employers on the site of work:

PART 13: REQUIRED APPENDICES

Indicate if each of the following items are, or are not, attached to this plan.

Appendix 1. Project Map	☐ Yes	☐ No
Appendix 2. Subcontractor/Suppliers	☐ Yes	☐ No
Appendix 3. Personal Qualifications and Designations	☐ Yes	☐ No
Appendix 4. Activity Hazard Analysis	☐ Yes	☐ No
Appendix 5. Site-specific plans and procedures	☐ Yes	☐ No
Appendix 6. Any additional plans, procedures, etc. can be added to this appendix and will be coordinated with the KO/COR.	☐ Yes	☐ No

Order Completion Statement

Delivery Order Number: _____

Vendor: _____

Address: _____

I acknowledge that I have received final payment on the total order amount of \$_____, and that no other invoices or demands for payment under the Delivery Order will be submitted. The total order amount accurately accounts for any discounts or other changes from the original award amount. The Delivery Order may be closed out upon receipt of the final payment.

***** PLEASE SUBMIT COMPLETED FORM WITH FINAL INVOICE *****

Technical Review Round #1

Vandenberg Space Force Maintenance Facility

Vendor Instructions: The Technical Documents Checklist must be completed and returned in Word format by the contractor performing as the lead quoter. Each Vendor shall demonstrate in written form how they are meeting the FID (Att. 2) requirements. Manufacturer's published catalogs and CAD drawings are acceptable forms of demonstrations. A blanket statement that Vendor is "meeting the FID requirement" or a quote submitted without the necessary documentation is considered non-conforming. Vendors must comment in the light blue fields only, in black text. HNC's comments in the white fields in **red text** denotes the item is technically unacceptable or will be in black text when the item is technically acceptable. Vendor shall not modify prior rounds or HNC comments.
