(Please read instructions on back before completing form.)

#	CLASS	COMPONENT AND POC NAME, PHONE, AND E-MAIL	PAGE	PARA	COMMENT TYPE (C/S)	COMMENTS, JUSTIFICATION, AND ORIGINATOR JUSTIFICATION FOR RESOLUTION	A/ R/ P
1		03-20-2026 email question				Bidder Comment: Is a bid bond required for this proposal? Resolution: No bid bonds are required.	
2		04-23-2026 email question				Bidder Comment: Page 6 of solicitation (FAR 52.228-15) states bond premiums to be placed under 151.01 Mobilization. This line item does not exist on the bid form. Resolution: That will be a line item will be on the Task Orders, as they are issued.	
3		04-23-2026 email question				Bidder Comment: Schedule B Service Attachment 002 – Your bid form on pages 21 thru 25 have columns to adjust for current fuel prices derived from specific websites detailed on pg 14. Current Diesel fuel prices exceed the highest fuel price column of \$4.99 shown. I think you will need to add an additional column for higher fuel prices. Resolution: See Amended Attachment 002 Schedule B Service and Construction FILLABLE, as part of amendment 0001 for updated/corrected fuel categories.	
4		04-23-2026 email question				Bidder Comment: Contractor Furnished Pit Run Material – Page 45 and page 46 gives gradation for Contractor provided pit run material to be used in line items 113(05) of the bid form on pages 21 thru 25. The nature of pit run is native material prior to any screening or grading activities and will not pass any gradation testing. Please clarify. Resolution: May have to add sand, clay, or washed gravel to the native mix and road mix to meet specs.	
5		04-23-2026 email question				Bidder Comment: Class III Rip Rap – Gradation for Class III Riprap given on page 50 differs from gradation given in the STANDARD SPECIFICATIONS FOR CONSTRUCTION OF ROADS AND BRIDGES ON FEDERAL HIGHWAY PROJECTS FP-24 Section 705 on page 799. Please clarify. Resolution: See attached	
6		04-23-2026 email question				Bidder Comment: Class II Rip Rap – Item number 21 on bid forms pages 21 thru 25 request Class II Rip Rap. No gradation is provided for Class II Rip Rap. Please clarify. Resolution: See attached	
7		04-23-2026 email question				Bidder Comment: Slide Removal and Slump Repair – Item number 28 on bid form pages 21 thru 25 request “slide removal and slump repair”. No specification is given for the activity. Please clarify. Resolution: May be removing debris in a road or filling a hole where soil left.	
8		04-23-2026 email question				Bidder Comment: Ditch Reconstruction – Item number 29 on bid form pages 21 thru 25 request “ditch reconstruction”. No specification is given for the activity. Please clarify. Resolution: 303.04 Ditch Reconditioning. Remove slide material, sediment, vegetation, and other debris from existing ditches and culvert inlets and outlets. Reshape ditches and culvert inlets and outlets to achieve positive drainage and uniform ditch width, depth, and grade or as shown in the plans.

(Please read instructions on back before completing form.)

#	CLASS	COMPONENT AND POC NAME, PHONE, AND E-MAIL	PAGE	PARA	COMMENT TYPE (C/S)	COMMENTS, JUSTIFICATION, AND ORIGINATOR JUSTIFICATION FOR RESOLUTION	A/ R/ P
9		04-23-2026 email question				Bidder Comment: Roadway Preparation – Item number 212(02) on bid form pages 21 thru 25 requests “roadway preparation”. No specification is given for the activity. Please clarify. Resolution: 212.01 This work consists of performing linear and site grading at designated locations within specified tolerances. 212.02 Definitions. (a) Linear grading. Consists of constructing and grading roadways on a designated alignment. (b) Site grading. Consists of constructing and grading designated areas outside the roadway prism. Construction Requirements 212.03 Roadway and Site Preparation. Clear the area of vegetation and obstructions according to Sections 201 and 203.	
10		04-23-2026 email question				Bidder Comment: Routine Mowing / Roadside Brushing – Item number 19 on bid form pages 21 thru 25 request “routine mowing/roadside brushing”. No specification is given for the activity specifically. There is a specification for routine mowing but not “roadside brushing”. Please clarify. Resolution: Repetitive Lines have been removed. Descriptions of Each type of mowing/brushing are listed on page 48 of 120 and are used based on severity of need when the task orders are issued.	
11		04-23-2026 email question				Bidder Comment: Reclamation Mowing – Item number 401(02) and Item number 20 on bid form pages 21 thru 25 both call for “reclamation mowing”. Is there a difference in these two line items or is this a mistaken double listing? Please clarify. Resolution: Repetitive Lines have been removed. Duplicate Lines are being removed. Descriptions of Each type of mowing/brushing are listed on page 48 of 120 and are used based on severity of need when the task orders are issued.	
12		04-28-2026 Phone Question				Bidder Comment: Line Item 607(01)** 5.8.1 CULVERT REPLACEMENT GOV. FURNISHED is not broken down by culvert size, like the Contractor furnished culverts line items.. Resolution: Per subtask 5.8.1 on page 36 of 120, “This item is restricted to locations with no more than five-foot depth to the bottom of the culvert.” Please, formulate your bid for this line item based on this information.	
13		04/30/2026 Email question				Bidder Comment: Please confirm whether bonding capacity documentation (e.g., surety letter demonstrating single and aggregate bonding limits) is required at time of bid submission or post-award. Resolution: Payment and Performance are post award, task order specific requirements.	
14		04/30/2026 Email question				Bidder Comment: How many contracts are anticipated to be awarded per Ranger District? Resolution: One contract per district is anticipated.	
15		04/30/2026				Bidder Comment: Please confirm whether bidders shall include all applicable federal, state, and local

#	CLASS	COMPONENT AND POC NAME, PHONE, AND E-MAIL	PAGE	PARA	COMMENT TYPE (C/S)	COMMENTS, JUSTIFICATION, AND ORIGINATOR JUSTIFICATION FOR RESOLUTION	A/R/P
		Email question				taxes, including Louisiana sales/use tax, fuel taxes, payroll taxes, and material/equipment taxes, in the Schedule B unit prices. If any tax exemption applies to this USDA Forest Service IDIQ or future task orders, please provide the applicable exemption certificate/procedure and identify which taxes bidders should exclude from pricing. Resolution: That is dependent upon the State's determination. The following link can be used to contact the Louisiana Department of Revenue. https://revenue.louisiana.gov/tax-forms/businesses/r-1356-tf-07-01-2007/	
16		04/30/2026 Email question				Bidder Comment: Please clarify the bonding requirements for this IDIQ. Addendum 01 states that no bid bonds are required. The solicitation states performance and payment bonds are required for construction projects over \$35,000, while Schedule B appears to include "Mandatory Construction Bonds Pay/Per Over \$30K." Please confirm whether the applicable threshold for task-order performance/payment bonds is \$30,000 or \$35,000, and whether the Schedule B bond line item is intended to compensate bond premiums separately at the task-order level or whether bond premiums must be included in Mobilization or other unit prices. Resolution: The Threshold is \$35,000. Bid bonds will be required at the task order level, and will be accounted for with a "mobilization and bonding" line item on construction task orders.	
17		04/30/2026 Email question				Bidder Comment: Please provide a definitive labor-standard classification matrix for each Schedule B pay item identifying whether SCA or DBA applies. If a task order contains both SCA and DBA work, please clarify whether the entire order will be classified by predominant work type or whether line-item labor standards will apply separately. Resolution: The task orders will be classified by predominant work type. If the task order contains any construction line items, then DBA wages must apply, and certified payrolls will be required.	
18		04/30/2026 Email question				Bidder Comment: Schedule B lists "6 Road Reconstruction includes 6.1 and 6.2," and also lists 6.1 Slide Removal and Slump Repair, 6.2 Ditch Reconstruction, and Roadway Preparation as separate pay items. Please clarify whether item 6 is a separately payable line item or only a heading/summary item. If item 6 is payable, please define what work is included in item 6 versus work paid under 6.1, 6.2, and Roadway Preparation to avoid double-counting. Resolution: It is a separate line item that may be used on task orders when a section of road will require both slide removal and slump repairs and ditch reconstruction.	
19		04/30/2026 Email question				Bidder Comment: Please clarify how the diesel fuel pricing columns will be applied. Identify the controlling fuel index/source, geographic location for the price determination, date/time of measurement, and whether the fuel price will be determined by district, parish, statewide average, or

#	CLASS	COMPONENT AND POC NAME, PHONE, AND E-MAIL	PAGE	PARA	COMMENT TYPE (C/S)	COMMENTS, JUSTIFICATION, AND ORIGINATOR JUSTIFICATION FOR RESOLUTION	A/R/P
						another method. Resolution: The contracting Officer, on the day of task order issuance, will verify the fuel prices for the state, and attach a printout from one of the listed sites, to the task order.	
20		04/30/2026 Email question				Bidder Comment: Schedule B appears to include fuel bands of ≤\$2.99, \$3.00–\$3.99, and ≥\$4.99. Please confirm which price column applies when diesel is between \$4.00 and \$4.98. Resolution: The price bands have been adjusted on the amended attachment 002, Schedule B.	
21		04/30/2026 Email question				Bidder Comment: Would the Government Please provide historical annual quantities by Ranger District for each Schedule B pay item for the last three to five years, including the number of task orders issued, average task-order value, typical mobilization distance, and approximate distribution between SCA maintenance work and DBA construction work. Resolution: This needs to be requested under a Freedom of Information Act request and will be answered within 90 days. Requests can be made with: Southern Regional FOIA Service Center Forest Service Southern Region sm.fs.r8foia@usda.gov	
22		04/30/2026 Email question				Bidder Comment: Please confirm the order of precedence between Attachment 003 PWS, Attachment 007 FSSS, Attachment 008 FP-24, Schedule B, drawings/maps, and individual task orders. If FP-24 includes requirements not expressly listed in Schedule B, please confirm whether those requirements are incidental to existing pay items or will be separately ordered and paid. Resolution: FAR 52.215-8 Order of Precedence-Uniform Contract Format Any inconsistency in this solicitation or contract shall be resolved by giving precedence in the following order: (a) The Schedule (excluding the specifications). (b) Representations and other instructions. (c) Contract clauses. (d) Other documents, exhibits, and attachments. (e) The specifications.	
23		04/30/2026 Email question				Bidder Comment: Please confirm the measurement basis for all mile-based pay items in Schedule B. Specifically, please confirm whether blading is paid per centerline mile, mowing is paid per centerline mile including both sides, and ditch cleaning is paid per ditch mile measured separately for each side plus lead-off ditches. Please also confirm whether Schedule B's "1 Mile" quantity is intended as a pricing unit only and not a representative task-order quantity. Resolution: Blading is full width of the road for the length specified in miles. Ditching is length cleaned per side (left or right) separately for miles specified.	
24		04/30/2026				Bidder Comment: Please clarify anticipated task-order response times, work windows, seasonal

		Email question				restrictions, emergency call-out expectations, and whether mobilization/demobilization will be separately paid for each task order or included in unit prices. If multiple roads or districts are included in one task order, please clarify whether separate mobilizations will be paid. Resolution: Mobilization and demobilization is incidental to each task order.	
25		04/30/2026 Email question				Bidder Comment: Please clarify whether time awaiting Forest Service equipment-cleanliness inspection for invasive species will be considered compensable or excusable delay if it affects the task-order schedule. Please also confirm whether equipment cleaning, inspection standby time, movement between infested and non-infested areas, and any required re-cleaning are incidental to unit prices or separately payable. Resolution: Time waiting is not compensable	
26		04/30/2026 Email question				Bidder Comment: Would the Government Please provide the current invasive-species list and maps for all work areas Resolution: Work area maps are included, and current invasive species lists are the responsibility of the contractor to obtain but can be found online.	
27		04/30/2026 Email question				Bidder Comment: Please confirm whether temporary traffic-control signs, cones, barricades, flaggers, pilot vehicles, and daily sign movement are incidental to each unit price or separately payable. Resolution: Any traffic control needed will not be added as a separate pay item	
28		04/30/2026 Email question				Bidder Comment: Please also confirm whether traffic control requirements differ for roads open to public traffic, closed/gated roads, and roads under cooperative agreement or non-Forest-Service jurisdiction. Resolution: Traffic control will be as per regulation for any activity issued under this contract.	
29		04/30/2026 Email question				Bidder Comment: Please clarify how gate access will be coordinated for closed Forest Service roads. Will the contractor receive keys/combinations for each district, or must access be coordinated daily with Government personnel? If delays occur due to lack of gate access, will the task-order completion time be extended? Resolution: Unlocking of gates must be coordinated; Time waiting is not compensable	
30		04/30/2026 Email question				Bidder Comment: Please clarify whether the contractor is expected to perform emergency response work, after-hours callouts, storm clearing, or road reopening under this IDIQ. If yes, please provide the applicable pay items, labor standards, response times, minimum callout payment, and whether after-hours, weekend, or holiday premium costs are separately payable. Resolution: It will not be a requirement.	
31		04/30/2026				Bidder Comment: Please provide the required format for weekly accomplishment records, daily reports,

		Email question				measurement notes, and supporting documentation. Please clarify whether payment may be withheld only for the affected work item lacking documentation, or for the entire invoice/task order. Resolution: The COR typically keeps documentation and inspects.	
32		04/30/2026 Email question				Bidder Comment: Please clarify which documentation timing governs this contract: FP-24 measurement notes within 24 hours of completed work, weekly PWS accomplishment records, or both. If both apply, please provide the required form and approval workflow for each. Resolution: The COR typically keeps documentation and inspects.	
33		04/30/2026 Email question				Bidder Comment: For Government-furnished pit run, please provide gradation, quality/test data, estimated available quantities, stockpile maps, loading responsibility, scale/ticketing method, moisture/contamination condition, access restrictions, and expected haul distances to each Ranger District. Please also clarify whether the contractor is responsible for pit maintenance, restoration, or rejected material handling. Resolution: The gradation specification is not relevant for this purpose, however, access to the pit(s) will be granted in the event necessary. Distances will depend on specific project location. The contractor is only responsible for maintaining the integrity of the pit if used while in use.	
34		04/30/2026 Email question				Bidder Comment: Would the Government Please provide available utility records, known buried facilities, bridge/culvert inventories, cattle guard locations, and third-party improvements for all work areas. Resolution: No	
35		04/30/2026 Email question				Bidder Comment: Please clarify whether locating unknown utilities, potholing, and repair of unmarked or inaccurately marked facilities are incidental or compensable. Resolution: The contractor is responsible and assumes risks	
36		04/30/2026 Email question				Bidder Comment: Please clarify what work is excluded from the IDIQ due to timber sale pre-haul maintenance, emergency road clearing, storm recovery, or Government-performed routine maintenance. Please also clarify how the Government will determine that the contractor is “unable to meet the performance schedule” before self-performing or using another source. Resolution: Only funding determines what work is excluded from routine maintenance.	
37		04/30/2026 Email question				Bidder Comment: Please confirm required insurance coverages and limits applicable to this IDIQ and whether requirements will be established at the base contract or task-order level. Resolution: Proof of ability to obtain a bond must be presented. A letter from a bonding company is sufficient.	
37		04/30/2026				Bidder Comment: Please confirm whether laydown, staging, and equipment storage areas will be

		Email question				designated by the Government at the task order level, or if the Contractor will be responsible for identifying and securing such areas. Additionally, please identify any known restrictions, permitting requirements, or restoration obligations associated with staging within each Ranger District. Resolution: <i>There are areas that can be given permission for no fees</i>	
38		04/30/2026 Email question				Bidder Comment: Please confirm locations and requirements for disposal of unsuitable or excess materials, including haul distances, tipping fees, and whether disposal is incidental to unit prices. Resolution: <i>Typically, there are places along the road to dispose</i>	
39		04/30/2026 Email question				Bidder Comment: Please confirm how differing site conditions (e.g., subgrade instability, unforeseen drainage conditions) will be administered under this contract. Specifically, will equitable adjustments be evaluated and issued at the task order level, and what notification and documentation requirements will apply upon discovery of such conditions? Resolution: <i>Would typically have you stop work until we can figure out how to deal with the situation and address it</i>	
40		04/30/2026 Email question				Bidder Comment: Please confirm whether mobilization/demobilization will be paid per task order, per site, or considered incidental to unit prices. Resolution: <i>Mobilization and demobilization are incidental to each task order.</i>	
41		04/30/2026 Email question				Bidder Comment: Are there open pits on the Winn district for government furnished pit run/aggregate? Resolution: <i>No</i>	
42		04/30/2026 Email question				Bidder Comment: In executing this project, can one superintendent fulfill the supervision, safety, and QAQC roles? Resolution: <i>Safety needs to be an independent position. Supervision and QA/QC can be fulfilled by one individual.</i>	
43		04/30/2026 Email question				Bidder Comment: Are contractors required to issue a contract specific QA/QC Plan? Resolution: <i>Standard plans can be utilized.</i>	
44		04/30/2026 Email question				Bidder Comment: Are contractors required to issue a contract specific Safety Plan? Resolution: <i>Standard plans can be utilized.</i>

INSTRUCTIONS FOR COMPLETING SD FORM 818

COORDINATING OSD COMPONENT: Use this form to provide consolidated critical and substantive comments to the OSD Component that originated the issuance. Complete the classification header and footer, columns 1 through 5, and the first two entries in column 6. **REVIEW THE COMMENTS, RESOLVE ANY CONFLICTING VIEWS, AND CONFIRM THAT THE COMPLETED MATRIX ACCURATELY REPRESENTS YOUR COMPONENT'S POSITION.** Upload the form to the DoD Directives Program Portal in MICROSOFT WORD FORMAT, with a scanned copy of the sign SD Form 106, "DoD Directives Program Coordination Record," or coordination memorandum.

ORIGINATING OSD COMPONENT: Use this form to consolidate comments from all coordinators and to record adjudication of the comments. (To add comments from an SD 818 submitted by a coordinator, use the "Copy" and "Paste" tools on the Microsoft Word Standard Toolbar.) When consolidating comments, place them in the order of the pages/paragraphs they apply to (e.g., all comments from all coordinators that apply to page 1, paragraph 1.a., should be grouped together as the initial entries; all comments that apply to page 1, paragraph 1.b., should be grouped together next, and so on). Complete column 7 and the third entry in column 6. Adjust the classification header and footer and columns 1 and 2 as appropriate.

CLASSIFICATION – Enter the highest classification of the comments. If all are unclassified, mark the header and footer accordingly and ignore the column.

COLUMN 1 – Enter the number of the comment. Enter comments in the order of the pages/paragraphs they apply to.

COLUMN 2 – Enter the classification of the comment. If all comments are unclassified, mark the header and footer accordingly and ignore the column.

COLUMN 3 – Enter the appropriate information.

COLUMN 4 – Enter the appropriate information.

COLUMN 5 – Enter the appropriate information.

COLUMN 6 – Enter the comment type. Place only one comment per row. Do **NOT** include administrative comments concerning non-substantive aspects of an issuance, such as dates of references, organizational symbols, and/or grammatical errors.

(C) CRITICAL: When a Component has one or more critical comments, that Component's coordination shall reflect a nonconcur. **THE JUSTIFICATION FOR CRITICAL COMMENTS MUST IDENTIFY:**

– Violations of the law or contradictions of Executive Branch policy or of policy established in DoD issuances. The GC, DoD, or his or her representative shall identify legal objections as critical comments.

– Unnecessary risks to safety, life, limb, or DoD materiel; waste or abuse of DoD appropriations; or imposition of an unreasonable burden on a Component's resources.

(S) SUBSTANTIVE: Substantive comments are made when a section in the issuance appears to be or is potentially unnecessary, incorrect, misleading, confusing, or inconsistent with other sections, or when a Component disagrees with the proposed responsibilities, requirements, and/or procedures. A substantive comment is usually not sufficient justification for a Component to nonconcur on an issuance. Several substantive comments when taken together may be grounds for a nonconcurrence.

COLUMN 7 – COORDINATING COMPONENT: Enter the comment in the area provided. Enter your justification for the comment and your requested or recommended changes in the area provided. **YOU MUST PROVIDE CONVINCING SUPPORT FOR CRITICAL COMMENTS IN THE JUSTIFICATION.**

– **ORIGINATING COMPONENT:** Enter your justification for disposition of the comment in the area provided. Include any related communications with the coordinating Component. You must provide convincing support for rejecting critical comments.

COLUMN 8 – Enter whether you accepted (A), rejected (R), or partially accepted (P) the comment. Your justification for disposition of the comment in column 6 must be consistent with this entry.

Railroad Ballast: We don't fool with much of this so it would be better if you research maybe the KCS handbook or other railroad.

SB-2: Still trying to figure out what this is. Whoever is selling it should know.

	40	400 to 4000	16 to 35
	10 ^a	0 to 400	0 to 16

- (a) Furnish spall and rock fragments graded to provide a stable dense mass.
- (b) The volume of a rock with these cubic dimensions has a mass approximately equal to the specified rock mass.
- (c) Furnish rock with breadth and thickness at least one-third its length.

705.07_nat_us_04_17_2008

Table with gradation for streambed material. Include in contracts with 648 Streambed Simulation

Add the following:

705.07 Streambed Simulation Rock.

(a) General. Furnish a mixture of soil, gravel, cobble, and boulders to simulate a natural streambed. The cobbles and boulders should be hard, durable rock that conforms to test values in 705.02.

Table 705-5 – Gradation requirements for Streambed Simulation Material, inches or sieve size

Bed Class	100% passing	84% passing	50% passing	16% passing	10% passing
2	5	2	3/4	1/4	No. 10
4	10	4	1 3/4	1/2	No. 10
6	14	6	2 1/2	3/4	No. 10
8	22	8	3	1	No. 10
10	24	10	4	1	No. 10

12	30	12	5	1 1/2	No. 10
14	36	14	6	1 3/4	No. 10
16	42	16	7	2	No. 10
20	48	20	8	3	No. 10
24	60	24	10	3	No. 10
36	72	36	14	4	No. 10
48	96	48	18	6	No. 10

705.08_nat_us_04_17_2008

Table describing rock used in channels for weirs, fish rest stops, etc. Use with Section 648 Streambed simulation

705.08 Channel Rock.

(a) General. Furnish hard, durable rock that consists of intact blocks without open fractures, foliation, or other planes of weakness. Conform to test values in 705.02.

(b) Sized and shapes. Furnish rocks that are generally cubical, tabular, or rectangular in shape, with dimensions as designated, or as specified in the following table:

Table 705-6 gradation requirement for Channel Rock

Rock Size (Man Rock)	Mass (Pounds)	Approximate Cubic Dimension (inches)
-------------------------	---------------	---

1	50-200	12-18
2	200-700	18-28
3	700-2000	28-36
4	2000-4000	36-48
5	4000-6000	48-54
6	6000-8000	54-60

(c) Color. Furnish rocks with a color indigenous to the area. Rocks should be free of machine-made scratches, marks, or other damage to the visible surface. If requested, submit a 12 in sample of rock that is representative of the rock color for approval by the CO.
