

SOLICITATION NOTES

(Unless otherwise stated in the schedule, solicitation notes apply to all line items)

1. **SOLICITATION SECTION J ATTACHMENT 1 OFFER SUBMISSION** provides details on use of mandatory systems BULK OFFER ENTRY TOOL (OET) and SYSTEM FOR AWARD MANAGEMENT (SAM) for this procurement. See additional Attachments for further OET and offer submission guidance.
2. **FOR ALL OFFERS:** Evaluation of BARGE, TANKER, PIPELINE, and TRUCK OFFER volumes may be limited to basis of supply chain constraints such as, throughput capacity, provisions of governing tariff/shippers manual, asset availability, and solicited minimum/maximum parcel sizes. If the application of this provision results in a restriction to the quantity offered, then the Government will restrict the volume available for award.
3. **FOB DESTINATION OFFERS:** Offerors are responsible for ascertaining and following delivery location access procedures, including obtaining any necessary clearances to access the delivery location. Access procedures and clearance processing times may vary greatly depending on the delivery location. Any questions regarding delivery location access procedures and processing times should be directed to the specific delivery location. Contact information for the specific end-location can be obtained through your assigned Contract Specialist.
4. **TANKER RATES:** For evaluation purposes per M4 SUPPLEMENT: EVALUATION OF OFFERS INVOLVING F.O.B. TANKER LOADING, Tanker rate is **\$133,157.97**.
5. **REMOVED**
6. **TRANSPORTATION EVALUATION PENALTIES:** The following transportation penalties will be applied for evaluation purposes in accordance with M4 SUPPLEMENT: EVALUATION OF OFFERS INVOLVING F.O.B. TANKER LOADING and M10 SUPPLEMENT: EVALUATION OF OFFERS INVOLVING F.O.B. BARGE OR SHALLOW DRAFT TANKER LOADING:
 - a. A 12-hour transportation penalty will be assessed against offers that indicate daylight berthing only. With a 24- hour per day window, berthing is limited to 12 hours.
 - b. A 12-hour transportation penalty will be assessed against offers that indicate daylight loading only. With a 24- hour per day window, loading is limited to 12 hours.
 - c. A 12-hour transportation penalty will be assessed for vessel shifting for offers with intra-harbor movements.
7. **PANAMA CANAL TRANSIT:** Offers that require Panama Canal transit will not be considered for delivery on an FOB Origin basis.
8. **PORT ASSESSMENT:** All Tanker Origin offers will require a Port Assessment (PA) post

award. PA will be performed by Naval Criminal Investigative Service (NCIS) prior to performance period. Offerors are required to provide a Facility Security Officer point of contact for awarded shipping points to coordinate with NCIS, as applicable. Validity terms are based on Force Protection Condition (FPCON) and may range from one to three years.

9. M7 SUPPLEMENT: EVALUATION OF OFFERS INVOLVING OTHER THAN F.O.B.

TANKER: Tank truck rates used in the BEM are those in effect at the time of receipt of initial offers including the fuel surcharge in effect at that time. The applicable surcharge is now based on mileage instead of percent of line haul cost. Offerors wanting to review information on weekly rate changes resulting from fuel surcharges may do so at: <https://www.eia.gov/petroleum/gasdiesel>

10. SUPPLEMENT: SHIPMENT AND ROUTING: The requirement for seals is not applicable for JAA tank trucks unless/until the Government provides notification of an elevated security requirement. The offeror is required to begin sealing all applicable conveyances within 24 hours of being notified of elevated security requirement (e.g., rise in threat level conditions (THREATCON level)). The sealing of all applicable conveyances will continue until the THREATCON level is reduced, and all offerors will be required to acknowledge and accept this condition as part of the terms and conditions of any resultant award.

11. SECTION C AND SECTION E QUALITY ASSURANCE PROVISIONS (QAPs): For all Quality and Technical provisions please review via the DLA Internet Bid Board System (DIBBS) website. You will need a DIBBS account to access the Technical Data tab, which leads to the C Folders containing the applicable provisions. The web address is <https://www.dibbs.bsm.dla.mil/default.aspx>. This is also applicable for Section E provisions; all of the Inspection provisions will be viewable under the E Folders. If you have issues setting up your DIBBS account, please call the DLA Enterprise Helpdesk at 1-855-352-0001. The QAPS are provided for your convenience as an attachment to the solicitation (**see Solicitation Attachment 7 – C&E QAPs**); however, *vendors are responsible to check for any updates using the above process, to ensure they are using the most recent versions.*

12. SELF RESTRICTIONS: Minimum and maximum quantities must be consistent throughout all OET sections, i.e., minimum, and maximum quantities in Section A – Standard Offeror Sheet(s) must be consistent with minimum and maximum quantities in Section D – Offeror Conditions, and Section E – Sources of Supply. For example, under Section A – Standard Offeror Sheet(s), if you are offering a maximum amount of 150,000,000 USG of JAA by FOB Origin pipe from a refinery in San Pedro, CA, but limit your maximum quantity to 100,000,000 USG under Min/Max for Individual Shipping Location in Section D – Offeror Conditions, you are self-limiting a potential contract award by 50,000,000 USG (100,000,000 USG in Section E vice 150,000,000 USG in Section A). Please ensure all minimum and maximum quantities in your Origin and/or Destination offers are consistent with any conditions (OET Section D) and/or production amount in Source of Supply (OET Section E).

13. SMALL BUSINESS: For questions concerning Small Business matters, contact Mr. Gregory Thevenin at DLA.Energy.OSBP@dla.mil or (571) 767-9732.

14. NOTICE TO POTENTIAL SMALL BUSINESS OFFERORS: DLA Energy plans to

evaluate and award small business set-asides in the same way it has historically. We anticipate issuing an amendment to add 52.219-7 NOTICE OF PARTIAL SMALL BUSINESS SET-ASIDE before the date for receipt of final offers. However, in the interim, 52.219-7 without the deviation has been incorporated into the solicitation

15. SET-ASIDES: For line items of which a portion is set-aside for Small Businesses, the volume is denoted after the “SA Quantity” subheading on the Quantity line. This quantity is a portion of the total requirement stated for that line item and not in addition thereto.

16. SUSPENDED, DEBARRED OR INELIGIBLE OFFERORS: Any award to a contractor, who, at the time of award, was suspended, debarred, or ineligible for receipt of contracts with Government agencies or in receipt of a notice of proposed debarment from any Government agency, is voidable at the option of the Government.

17. EMERGENCIES: For emergency situations during non-duty hours, the number to contact is (571) 767-8420 at the DLA ENERGY Operations Center, Contingency Plans and Operations Division (DLAENERGY-QED).

18. INVOICE NUMBERING REQUIREMENTS

Each invoice submitted for payment under contracts awarded from this solicitation shall be identified by an individual invoice number. The number shall not be duplicated on subsequent invoices. Duplicate invoice numbers or invoices that do not include numbers may be rejected.

19. INTENT TO USE GATED APPROACH: In accordance with Department of Defense Source Selection Procedures memorandum dated August 20, 2022, and L3 SUPPLEMENT: GATED APPROACH, the Contracting Officer intends to establish phases after receipt of initial proposals utilizing the following gated approach:

Phase 1: Inherent Capability

In accordance with M11 SUPPLEMENT: GATED APPROACH CRITERIA, Offerors must meet the following minimum standard to be included in evaluations under Phase 2:

- The Offeror is a refiner/manufacturer; or
- The Offeror provides a Letter of Supply Commitment that meets the standard set in L2 SUPPLEMENT EVIDENCE OF RESPONSIBILITY; or
- The Offeror has held a DLA Energy Bulk Petroleum Products contract within the past 3 years.

Phase 2: Lowest Price/Technically Acceptable Evaluation

20. SOLICITATION QUESTIONS: Questions relating to the solicitation should be submitted via email no later than 1:00 P.M. EDT on Friday, February 20, 2026, to Mr. Matthew Padfield at Matthew.Padfield@dla.mil and Ms. Susannah Chung at Susannah.Chung@dla.mil.

Delivery Notes: THE VENDOR IS REQUIRED TO CONDUCT A FULL-SPECIFICATION (A SERIES) TEST ON ALL PRODUCTS UNDER THIS CONTRACT. TESTING WILL BE PERFORMED FOR ALL CHARACTERISTICS; HOWEVER, DISCHARGING SHALL COMMENCE ONLY AFTER THE C LEVEL TESTING RESULTS SHOW CONFORMANCE TO SPECIFICATION. C LEVEL TESTING WILL BE DONE BY THE GOVERNMENT LAB AT THE USCG LAB AT KODIAK FOR DELIVERIES INTO KODIAK CG SUPPORT CENTER. THE VENDOR SHALL RETAIN DESTINATION SAMPLES FROM DELIVERIES TO KODIAK CG SUPPORT CENTER AND PERFORM AN A SERIES TEST AT THE EARLIEST TIME. THE VENDOR IS REQUIRED TO PROVIDE THE FULL-SPECIFICATION TEST RESULTS TO THE RECEIVING TERMINAL AND CONGNIZANT QUALITY ASSURANCE REPRESENTATIVE (QAR) AS SOON AS COMPLETED. THE VENDOR IS ALLOWED TO DISEMBARK THE VESSEL AFTER COMPLETION OF DISCHARGE AND PRIOR TO THE COMPLETION OF FULL A SERIES TESTING; HOWEVER, THE VENDOR ACCEPTS ALL RISK AND RESPONSIBILITY OF THE FUEL SHOULD THE A SERIES TESTING FIND THE DISCHARGED PRODUCT TO BE OFF SPECIFICATION.

B1 SUPPLEMENT: ECONOMIC PRICE ADJUSTMENT – PUBLISHED MARKET PRICE – DLA ENERGY DOMESTIC BULK

- (a) **Warranties.** The Contractor warrants that the contract prices do not include any amounts to protect against price adjustments covered by this supplement.
- (b) **Definitions.** As used throughout this Supplement, the term –
- (1) **Commodity Price Index** – Indicated below in Table 1 Column 4 below. Indices are intended to track sales prices in the marketplace for one or several items or commodity groups as reported in a consistent manner in a publication, electronic database, or other form, as determined by an independent trade association, governmental body, or other third party independent of the Contractor.
 - (2) **Base Commodity Price Date** – Means the effective date of the Base Commodity Price, as stated in Table 1, column 7 note below.
 - (3) **Base Commodity Price** – Means the Commodity Price calculated in accordance with Table 1, column 7 Note below, as of the Base Commodity Price Date resulting in the value used in determining economic price adjustments to the Base Award Unit Price of an individual product for the commodity market area and time period specified in this Supplement.
 - (4) **Adjusted Commodity Price** – Means the Commodity Price Index value in effect on the Date of Delivery, calculated in accordance with Table 1, number 9 Notes below.
 - (5) **Base Award Unit Price** – Means the awarded unit price set forth opposite the Contract Line-Item Number (CLIN) in the SF1449 Block 20 SCHEDULE OF SUPPLIES/SERVICES.
 - (6) **Price Payable** – Means the Base Award Unit Price increased or decreased by the same number of cents, or fraction thereof, that the Adjusted Commodity Price applicable at Date of Delivery increases or decreases, per like unit of measure, from the Base Commodity Price.

	Base Award Unit Price
	<u>Base Commodity Price</u> (as of Base Commodity
-	Date)
	Differential
	Adjusted Commodity Price (as of Date of
	Delivery)
+	<u>Differential</u>
	Price Payable (for Date of Delivery)

- (7) **Date of Delivery** – Is defined as follows:
- (i) For Tanker or Barge deliveries:
 - (A) Free on board (F.O.B. Origin. The date and time vessel commences loading.
 - (B) F.O.B. Destination. The date and time vessel commences discharging.

- (ii) For Pipeline deliveries: The date and time product commences to move past the specified F.O.B. point.
- (ii) For all other types of deliveries. The date product is received.

(8) Revision of Commodity Price Indicator. In the event –

- a. Any applicable Commodity Price Indicator is discontinued or its method of derivation is altered substantially –
 - i. If requested in writing, the parties will mutually agree to choose a new Commodity Price Index. No retroactive adjustments will be made.

(c) Adjustments.

- (1) **Prices Payable** shall be adjusted in accordance with the formula described in paragraph (b)(6) above. Price Payable shall be expressed in U.S. dollars per U.S. gallons (USD/USG) and shall be rounded to six decimal places unless otherwise indicated.
- (2) **Calculations.** All calculations are expressed in U.S. dollars per U.S. gallons (USD/USG) and shall be rounded to six decimal places unless otherwise indicated.
- (3) **Modifications.** Any resultant price changes to the Base Commodity Price and Base Award Price are searchable under the Prices to Web link at the Energy CIS Main Page
https://cis.energy.dla.mil/energy_cis/
- (4) **Failure to deliver.** Notwithstanding any other wording of this supplement, no upward adjustment shall apply to product scheduled under the contract to be delivered before the effective date of the adjustment, unless the Contractor's failure to deliver according to the delivery schedule results from causes beyond the Contractor's control and without its fault or negligence, within the meaning of paragraphs (f), Excusable Delays, and (m), Termination for Cause, of the Contract Terms And Conditions - Commercial Items clause of this contract, in which case the contract shall be amended to make an equitable extension of the delivery schedule.
- (5) **Upward ceiling on economic price adjustment.** The Contractor agrees that the total increase in any contract unit price, pursuant to these economic price adjustment supplement shall not exceed **300** percent of the original Base Award Unit Price in any applicable program year (whether a single year or multiyear program), except as provided hereafter.
 - (i) If at any time the Contractor has reason to believe that within the near future a price adjustment under the wording of this supplement will be required that will exceed the current contract ceiling price for any item, the Contractor shall promptly notify the Contracting Officer in writing of the expected increase. The notification shall include a revised ceiling which the Contractor believes is sufficient to permit completion of remaining contract performance, along with appropriate explanation and documentation as required by the Contracting Officer.

- (ii) If an actual increase in the Adjusted Commodity Price would raise a Price Payable for an item above the current ceiling, the Contractor shall have no obligation under this contract to fill pending or future orders for such item, as of the effective date of the increase, unless the Contracting Officer issues a contract modification to raise the ceiling. If the contract ceiling will not be raised, the Contracting Officer shall so promptly notify the Contractor in writing.

(6) Revision of market price indicator. In the event —

- (i) Any applicable Commodity Price Index is discontinued, or its method of derivation is altered substantially; or
- (ii) The Contracting Officer determines that the Commodity Price Index consistently and substantially fails to reflect market conditions, -the parties shall mutually agree upon an appropriate and comparable substitute and the contract shall be modified to reflect such substitute effective on the date the indicator was discontinued, altered, or began to consistently and substantially fail to reflect market conditions. If the parties fail to agree on an appropriate substitute, the matter shall be resolved in accordance with paragraph (d), Disputes, of the Contract Terms and Conditions - Commercial Items contract text of this contract.

- (d) **Conversion factors.** If this Supplement requires quantity conversions for economic price adjustment purposes, the conversion factors for applicable products as specified in F5 Supplement CONVERSION FACTORS apply, unless otherwise specified in the SCHEDULE.
- (e) **Examination of records.** The Contractor agrees that the Contracting Officer or designated representative shall have the right to examine the Contractor's books, records, documents, or other data the Contracting Officer deems necessary to verify Contractor adherence to this Supplement.
- (f) **Final invoice.** The Contractor shall include a statement on the final invoice that the amounts invoiced hereunder have applied all decreases required by this Supplement.
- (g) **Table 1:**

- **SECTION C – DESCRIPTION/SPECIFICATIONS/STATEMENT OF WORK**

Note: The C-QAPS are included in Attachment 7 to this solicitation and have been included with this Solicitation package at www.SAM.gov for your convenience.

SECTION E – INSPECTION AND ACCEPTANCE

Note: The E-QAPs are incorporated as addenda to FAR 52.212-4 and included in Attachment 7 to this solicitation.

SECTION F: DELIVERIES OR PERFORMANCE

FAR 52.211-16 VARIATION IN QUANTITY (APR 1984)

(a) A variation in the quantity of any item called for by this contract will not be accepted unless the variation has been caused by conditions of loading, shipping, or packing, or allowances in manufacturing processes, and then only to the extent, if any, specified in paragraph (b) of this clause.

(b) The permissible variation shall be limited to:

10 Percent increase
10 Percent decrease

The increase or decrease shall apply to **each delivery order**.

(End of Clause)

F1 SUPPLEMENT: DELIVERY CONDITIONS

(a) On items calling for delivery at Contractor's refinery, terminal, or bulk plant f.o.b. tank car, boxcar, truck, transport truck, truck and trailer, tank wagon, or pipeline --

(1) Supplies ordered hereunder shall be delivered, at Contractor's expense, into equipment specified in the Schedule.

(2) Unless otherwise specified in the Schedule, all deliveries shall be made upon the day specified in the order provided that the Contractor shall have received the order at least 48 hours prior to the day so specified, except for deliveries--

(i) By pipeline (other than into vessel, or barge for use as ships' bunkers) for which the Contractor shall be given 15 days' notice prior to the date so specified; and

(ii) Into vessel, or barge by any means of delivery including pipeline for use as ships' bunkers, for which deliveries the Contractor shall be given 24 hours' notice prior to the specific time delivery is to be made.

(3) All packaged or drummed material to be delivered f.o.b. boxcar, or truck shall be loaded (braced and blocked where necessary) by the Contractor as follows:

(i) **RAIL SHIPMENTS IN CONTINENTAL UNITED STATES AND ALASKA.** In accordance with best commercial practices and local regulations, or as indicated in the Schedule.

(ii) **TRUCK SHIPMENTS IN THE UNITED STATES.** In accordance with ICC Regulations and best commercial practices.

(iii) **RAIL SHIPMENTS AND TRUCK SHIPMENTS - OVERSEAS, POSSESSIONS AND**

TERRITORIES. In accordance with best commercial practices and local regulations, or as indicated in the Schedule.

(4) Except for supplies delivered f.o.b. boxcar, truck, or lighter, title to the supplies delivered, and risk of loss thereof, shall pass from the Contractor to the Government when the supplies pass into the receiving conveyance. Title to supplies delivered f.o.b. boxcar, truck, or lighter, and risk of loss thereof, shall pass from the Contractor to the Government at the time the car, truck, or lighter is released to, and accepted by, the carrier.

(b) On items calling for delivery f.o.b. destination by means of tank car, boxcar, truck, transport truck, truck and trailer, tank wagon, pipeline, or lighter--

(1) Supplies ordered hereunder shall be delivered, all transportation charges paid to the destination and by means of the transportation equipment specified in the Schedule or, if no specific destination is indicated in the Schedule, to the destination specified in the order. Delivery shall be accomplished at Contractor's expense into Government storage or into the type of receiving equipment otherwise specified in the Schedule or in the order, except for--

(i) Delivery by tank car which shall be accomplished by spotting the car alongside the unloading manifold connection at the specified destination.

(ii) Delivery by boxcar which shall be accomplished at the specified destination as follows:

(A) If such activity has a railroad siding, by spotting the car alongside the unloading platform or elsewhere at such destination as may be designated by the receiving activity; or

(B) If such activity does not have a railroad siding at the unloading platform of the railroad siding serving such activity, and if the freight tariff provides for free pickup and delivery service, delivery shall be made to the activity specified in the order;

(iii) Delivery by truck which shall be accomplished by spotting the truck at the unloading platform at the specified destination.

(2) Unless otherwise specified in the Schedule, all deliveries by tank car or boxcar shall be made within 24 hours from the time specified in the order, provided that such order shall have been received by the Contractor at least 120 hours prior to the time so specified; all other deliveries, except as hereinafter indicated, shall be made on the day specified in the delivery order and unless otherwise authorized by the receiving activity during normal working hours of such activity, provided that such order shall have been received by the Contractor at least 48 hours prior to the days so specified. Pipeline deliveries (except those into vessel, or barge) shall be made on the day specified in the delivery order, provided the order shall have been received by the Contractor at least 15 days prior to the day so specified. Delivery into vessels, or barges from a marine service station or by means of transport truck, truck and trailer, tank wagon, or pipeline shall be made at the specific time specified in the order, provided that such order shall have been received by the Contractor at least 24 hours prior to the specific time such delivery is required to be made.

(3) The Contractor shall not be required to deliver by transport truck or truck and trailer a quantity less than a full load nor into more than one storage tank, with the following exceptions:

Where the Schedule provides for multiple drop delivery, the Contractor may be required to deliver into more than one storage tank. Where truck and trailer are the method of delivery specified, the Contractor may, at its option, make delivery by transport truck. In the case of deliveries in Alaska, where truck and trailer or transport truck is the method of delivery specified, the Contractor may, at its option, make delivery by tank wagon.

(4) The Contractor shall not be required to deliver by tank wagon a quantity of less than 575 liters (or 150 gallons) but, at the Government's option, may be required to deliver into more than one storage tank.

(5) When delivery of fuel oil or lubricating oil is made by tank car, such car shall be equipped with steam coils, if specified in the order, to facilitate the unloading of such product.

(6) When delivery is made by tank wagon, such wagon shall be equipped with pump, meter, and a minimum of 100 feet (30 meters) of hose. Where delivery is made by transport truck or truck and trailer, such delivery equipment shall be equipped with a minimum of 15 feet of hose.

(7) When delivery is made by tank wagon, transport truck, or truck and trailer to a Government facility--

(i) The Contractor shall provide properly maintained delivery equipment and properly trained delivery personnel to reasonably assure that delivery can be made without damage to vegetation and asphalt pavement adjacent to storage facilities being filled. The Contractor's delivery personnel who have not exercised reasonable care and delivery equipment, which is poorly maintained, may be refused entrance to the installation by the installation Commander.

(ii) The Contractor shall present delivery equipment and product in such condition at destination so as to permit complete off-loading within the prescribed free time.

(8) Except for supplies delivered by tank car, boxcar, or truck title to supplies delivered, and risk of loss thereof, shall pass from the Contractor to the Government when the supplies pass into the receiving facilities. Title to supplies delivered by tank car or boxcar, and risk of loss thereof, shall pass from the Contractor to the Government at the time the car is released by the carrier for unloading. Title to supplies delivered by truck, and risk of loss thereof, shall pass from the Contractor to the Government when the drummed or packaged supplies are removed from the truck. Title to supplies delivered by lighter, and risk of loss thereof, shall pass from the Contractor to the Government at the time the receiving vessel's tackle is attached to the supplies to be unloaded.

(End of Supplement)

F2 SUPPLEMENT: DELIVERY AND CONTRACT PERIODS (DOMESTIC PL/TANK CAR)

(a) The period of this contract during which the Ordering Officer may order, pursuant to the Supplement DELIVERY- ORDER LIMITATIONS, is from date of award through **September 30, 2027.**

(b) Notwithstanding (a) above, except at its option, the Contractor shall not be required to make delivery before **October 1, 2026.**

(c) In so far as practicable, the Government will attempt to lift in approximately equal monthly quantities. Except at its option, a supplier which offered product over the period **October 1, 2026, through September 30, 2027** shall not be required to—

- (1) Make deliveries of any grade of product at a daily rate in excess of the contract quantity of such grade of product for delivery at or shipment from each designated refiner or bulk plant location divided by 365 days; or
- (2) Accumulate any such product at any such location and to subsequently make deliveries in excess of 8.33% in any one month of the contract quantity of the applicable grade of product; provided, however, that where the maximum quantity available for individual deliveries as specified in the contract is greater than 8.33% percent per month, the supplier will accumulate any such product at any such location and subsequently make deliveries equal to the specified maximum quantity available for individual deliveries and, provided further, that the supplier will be required to make delivery in excess of 8.33% per month if the delivery is to be made f.o.b. tanker at origin and no other quantities have been ordered for delivery during the applicable month and the 30,000 barrels minimum, under (d) below, is greater than such 8.33% quantity.

(End of Supplement)

F3 SUPPLEMENT: DELIVERY AND CONTRACT PERIODS (DOMESTIC TANK TRUCK)

(a) The period of this contract during which the Ordering Officer may order pursuant to the DELIVERY-ORDER LIMITATIONS supplement is from date of award through September 30, 2027 plus a 30-day carryover.

(b) Notwithstanding (a) above, except at its option, the Contractor shall not be required to make delivery before October 1, 2026.

(c) Insofar as practicable, the Government will attempt to lift in approximately equal monthly quantities. Except at its option, a supplier which offered product over the period October 1, 2026 through September 30, 2027 shall not be required to—

- (1) Make deliveries of any grade of product at a daily rate in excess of the contract quantity of such grade of product for delivery at or shipment from each designated refiner or bulk plant location divided by 260 days; or
- (2) Accumulate any such product at any such location and to subsequently make deliveries in excess of 8.33% in any one month of the contract quantity of the applicable grade of product; provided, however, that where the maximum quantity available for individual deliveries as specified in the contract is greater than 8.33% per month, the supplier will accumulate any such product at any such location and subsequently make deliveries equal to the specified maximum quantity available for individual deliveries and, provided further, that the supplier will be required to make delivery in excess of 8.33% per month if the delivery is to be made f.o.b. tanker at origin and no other quantities have been ordered for delivery during the applicable month and the 30,000 barrels minimum, under (d) below, is greater than such 8.33% quantity.

(End of Supplement)

F4 SUPPLEMENT: DELIVERY AND CONTRACT PERIODS (DOMESTIC TANKER/BARGE)

(a) The period of this contract during which the Ordering Officer may order pursuant to the DELIVERY-

ORDER LIMITATIONS - SCOPE OF CONTRACT contract supplements are from date of award through **September 30, 2027.**

(b) Notwithstanding (a) above, except at its option, the Contractor shall not be required to make delivery before **October 1, 2026.**

(c) In so far as practicable, the Government will attempt to lift in approximately equal monthly quantities. Except at its option, a supplier which offered product over the period **October 1, 2026 through September 30, 2027** shall not be required to accumulate any such product at any such location and to subsequently make deliveries in excess of **8.33%** in any one month of the contract quantity of the applicable grade of product; provided, however, that where the maximum quantity available for individual deliveries as specified in the contract is greater than **8.33%** percent per month, the supplier will accumulate any such product at any such location and subsequently make deliveries equal to the specified maximum quantity available for individual deliveries and, provided further, that the supplier will be required to make delivery in excess of **8.33%** per month if the delivery is to be made f.o.b. tanker at origin and no other quantities have been ordered for delivery during the applicable month and the 30,000 barrels minimum, under (d) below, is greater than such **8.33%** quantity.

(d) Except at its option, the Contractor shall not be required to deliver f.o.b. tanker at origin in any one delivery a quantity of product(s) less than 30,000 barrels, except when the minimum quantity available for individual deliveries as specified in the contract is less than 30,000 barrels, or when on the last delivery, the quantity available pursuant to the DELIVERY-ORDER LIMITATIONS - SCOPE OF CONTRACT supplements is less than 50,000 barrels.

(End of Supplement)

F5 SUPPLEMENT: DETERMINATION OF QUANTITY

Quantity. The quantity of supplies furnished under this contract shall be determined as follows:

- (a) **FREE ON BOARD (F.O.B.) ORIGIN.** All invoice quantities shall be converted to net gallons at 60 degrees Fahrenheit (or liters at 15 degrees Celsius).
- (1) **DELIVERIES INTO TANKER OR BARGE.** On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis into a tanker or barge, the quantity shall be determined (at the Contractor's option) on the basis of calibrated meter; or Shipping/shore tank measurement.
- (2) **DELIVERIES INTO PIPELINE.** On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis into a pipeline, the quantity shall be determined (at the Contractor's option) on the basis of calibrated meter; or shipping tank measurements.
- (3) **DELIVERIES INTO RAILCAR.** On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the quantity shall be determined (at the Contractor's option) on the basis of calibrated loading rack meter; or, using calibrated scales; or certified capacity table for the railcar.
- (4) **DELIVERIES INTO TRUCK.** On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis into a truck, the quantity shall be determined (at the Contractor's option) on the basis of calibrated loading rack meter; or weight, using calibrated scales; or certified capacity table for the conveyance or container.

- (5) **DELIVERIES INTO INTERMODAL CONTAINER.** On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis into an intermodal container, the quantity shall be determined (at the Contractor's option) on the basis of calibrated loading rack meter, loading either through top or bottom tank outlets (top loading requires loading gantry or "fall arrest" system), or certified capacity table for the container, or weight, using calibrated scales.

(b) **F.O.B. DESTINATION.**

- (1) **DELIVERIES BY TANKER OR BARGE.** On items requiring delivery on an f.o.b. destination basis by tanker or barge, the invoice quantity shall be determined (at the Government's option) on the basis of calibrated meters on the receiving tank system; or receiving tank measurements. All invoice quantities shall be converted to net gallons at 60 degrees Fahrenheit (or liters at 15 degrees Celsius).
 - (2) **DELIVERIES BY PIPELINE.** On items requiring delivery by pipeline on an f.o.b. pipeline junction or f.o.b. destination basis, the invoice quantity shall be determined (at the Government's option) on the basis of calibrated meters on the pipeline junction or the receiving tank system; or receiving tank measurements. F.o.b. pipeline junction is defined as the junction between a Contractor-owned or controlled pipeline and a Government-owned or controlled pipeline. All invoice quantities shall be converted to net gallons at 60 degrees Fahrenheit (or liters at 15 degrees Celsius).
 - (3) **DELIVERIES BY RAILCAR.** On items requiring delivery on an f.o.b. destination basis by railcar, the quantity of supplies furnished under this contract shall be determined (at the Government's option) on the basis of calibrated meter on the receiving tank system; or weight, using calibrated scales at the receiving location; or certified capacity table for the railcar; or receiving tank measurements. All invoice quantities shall be converted to net gallons at 60 degrees Fahrenheit (or liters at 15 degrees Celsius).
 - (4) **DELIVERIES BY TRUCK/INTERMODAL CONTAINER.** On items requiring delivery on a f.o.b. destination basis by truck or intermodal container, the quantity shall be determined—in the following order of preference:
 - (i) Calibrated temperature compensating meters on the receiving system (as identified in the schedule).
 - (ii) Calibrated temperature compensating meter on the delivery conveyance (as identified in the schedule).
 - (iii) Weight, using calibrated scales at the receiving location (as identified in the schedule).
 - (iv) Calibrated meters on the receiving system, requiring manual volume correction (as identified in the schedule).
 - (v) Loading ticket mechanically imprinted with the volume corrected (net) quantity. The ticket must be generated at the time of loading and be based on a calibrated loading rack meter or calibrated scales.
 - (vi) Calibrated meter on the delivery conveyance, requiring manual volume correction.
 - (vii) Loading ticket, not volume corrected (requiring manual volume correction).
- (c) Invoice quantities for all residual fuels and lubricating oils and invoice quantities for other products that are in excess of 5,000 gallons (or 18,900 liters) shall be converted to net gallons at 60 degrees Fahrenheit (or liters at 15 degrees Celsius).
- (d) Invoice quantities of nonresidual fuels which are less than 5,000 gallons (or 18,900 liters) do not require correction to net gallons (or liters). For this purpose, residual fuels are any products with a

viscosity equal to or greater than a regular (not light) number 4 fuel oil (ASTM D 396).

(e) WATER BOTTOMS. Every delivery must be free of all water bottoms prior to discharge; and the Contractor is responsible for their removal and disposal.

(f) MEASUREMENT RESTRICTIONS. All methods of measurement described in this Supplement are subject to government safety and environmental restrictions, foreign or domestic. Such restrictions may prohibit, or render ineffective, a particular method in some cases._

(g) MEASUREMENT STANDARDS. All measurements and calibrations made to determine quantity shall be in accordance with the most recent edition of the API Manual of Petroleum Measurement Standards (MPMS). Outside the U.S., other technically equivalent national or international standards may be used. Certified capacity tables shall mean capacity tables prepared by an independent inspector or any independent surveyor to the aforementioned measurement and calibrations standards. In addition, the following specific standards will be used as applicable:

- (1) API MPMS Chapter 11.1, Temperature and Pressure Volume Correction Factors for Generalized Crude Oils, Refined Products, and Lubricating Oils (this chapter is an adjunct to ASTM D 1250, IP 200 and International Organization for Standardization (ISO) 91-1). Either the 2004 or 1980 version of the standard may be used. Either the printed tables (an adjunct to the 1980 version) or the computer subroutine version of the standard may be used. In case of disputes, the computer subroutine for the 2004 version of the standard will be the referee method.
- (2) For crude oils, JP4, and Jet B, use Volume I, Tables 5A and 6A; Volume VII, Tables 53A and 54A; or Volume IV, Tables 23A and 24A.
- (3) For lubricating oils, use Tables 5D and 6D, Tables 53D and 54D, or Tables 23D and 24D.
- (4) For all other fuels and fuel oils, use Volume II, Tables 5B and 6B; Volume VIII, Tables 53B and 54B; or Volume V, Tables 23B and 24B.
- (4) For chemicals/additives use Volume III, Table 6C (or Volume IX, Table 54C), or volume correct in accordance with the product specification.
- (5) Volume XII, Table 52, shall be used to convert cubic meters at 15 degrees Celsius to barrels at 60 degrees Fahrenheit. Convert liters at 15 degrees Celsius to cubic meters at 15 degrees Celsius by dividing by 1,000. Convert gallons at 60 degrees Fahrenheit to barrels at 60 degrees Fahrenheit by dividing by 42. Should foreign law restrict conversion by this method, the method required by law shall be used.
- (6) As an option to (b) (1) (v), liters may be converted to gallons using Table 1 (see below). If this option is used, it must be agreed upon by both parties and shall remain in effect for the duration of the contract. Should foreign law restrict conversion by this method, the method required by law shall be stated in the offer.
- (7) If the original measurement is by weight and quantity is required in U.S. gallons, then—
 - (i) Volume XI, Table 8, shall be used to convert pounds to U.S. gallons at 60 degrees Fahrenheit.
 - (ii) Volume XII, Table 58, shall be used to convert metric tons to U.S. gallons at 60 degrees Fahrenheit.
- (8) API MPMS, Chapter 4, Proving Systems. All meters used in determining product volume shall be calibrated using this standard with the frequency required by local regulation (foreign or domestic). If no local regulation exists, then the frequency of calibration shall be that recommended by the meter manufacturer or every 12 months, whichever is more frequent. A meter calibration log/calibration certificates shall be maintained which as a

minimum contains number/name of each meter; calibration frequency; date of the last calibration; due date for next calibration; name and signature of the person performing the calibration; traceability to master meter/prover used for calibration; and calibration report number.

- (i) Each meter shall be marked with the date of the last calibration and due date for the next calibration. All calibration meter records and logs/certificates shall be kept on file and made available upon request. All calibration records (including logs or certificates) shall be retained on file for a period of three years.
- (h) **API MPMS CHAPTER 12, CALCULATION OF PETROLEUM QUANTITIES.** All calculations of net quantities shall be made in accordance with this chapter. Outside the U.S., use of a tank shell correction factor is not required unless its use is a customary practice for custody transfer.

Table 1: Conversion Factors		
Density @ 15°C	Gallons at 60°F to Liters at 15°C; Multiply by	Liters at 15C to Gallons at 60F, Multiply by
0.723 – 0.768	3.78286	0.26435
0.769 – 0.779	3.78309	0.26433
0.780 – 0.798	3.78334	0.26432
0.799 – 0.859	3.78356	0.26430
0.860 – 0.964	3.78381	0.26428
0.965 – 1.074	3.78405	0.26427

- (i) **SHIPPING DOCUMENTATION.** When the Contractor's shipping document (such as a truck's metered ticket) is used to determine, or verify, the payment quantity under this contract, the following information shall be provided on that shipping document: gross and net quantity (gallons or liters, as required), observed and corrected API gravity/density, and the temperature (Fahrenheit or Celsius) at which the product was measured. This information shall be mechanically imprinted on the shipping document. Although this will apply primarily to the use of meters in various applications, it also applies to any other quantity determination method. The following exceptions apply:
- 1) Where Government documents are the sole basis for payment, such as Department of Defense (DD) Form 250/250-1s, the information is not required.
 - 2) Where conveyances with temperature-compensating meters are used, the shipping document shall only be annotated with the corrected API gravity/density, the net quantity, and a statement that a temperature-compensating meter was used to determine net quantity.
 - 3) Where conveyances with temperature compensating meters are not used, the shipping document shall be only be annotated with the API gravity (or density), gross quantity, and a statement that volume correction was not required.
- (j) **RIGHT TO REPRESENTATIVE.** For f.o.b. origin deliveries, the Government has the right to have a representative present to witness the measurement of quantity. For f.o.b. destination deliveries, the Contractor has the right to have a representative present to witness the delivery and measurement of quantity.

(End of Supplement)

F6 SUPPLEMENT: TRANSPORT TRUCK AND/OR TRUCK AND TRAILER FREE TIME AND DETENTION RATES (BULK/LUBES)

COMPLETE IN OFFER ENTRY TOOL (OET) FOR FOB DESTINATION TRUCK OFFERS

F7 SUPPLEMENT: SHIPMENT AND ROUTING

(a) The Contractor shall make shipments of the supplies called for by this contract, or ordered hereunder, if this is an indefinite delivery contract, by the method specified in the Schedule, to the delivery point, in the quantity, and according to the delivery date specified in the Schedule or the order.

(b) On items calling for delivery at Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, transportation equipment will be furnished by the Government. Whenever any item of the Schedule specifies delivery by more than one method, selection of the method to be used shall be at the Government's option. Government-furnished transportation equipment that the Contractor finds unsatisfactory for loading shall be reported as follows:

1. **Tankers and Barges.** Report to the Quality Assurance Representative (QAR).

2. **Tank Cars.** Report to the QAR/Government Representative and Military Surface Deployment and Distribution Command, ATTN: Rail Fleet Manager, 1 Soldier Way, Scott AFB, IL 62225 or email usarmy.scott.sddc.mbx.dodx@mail.mil. Any shortage or overage of tank cars shall be similarly reported.

3. **Pipeline, Transport Trucks, Trucks and Trailers, and Tank Wagons.** Report to the QAR/Government Representative and to carrier's general office, or to home base or station, of such equipment.

4. In each case above, also report to the Defense Logistics Agency (DLA) Energy Regional Office having jurisdiction over the area in which shipment originates.

(c) If the supplies are to be delivered f.o.b. pipeline, barge, tank car, truck, transport truck, truck and trailer, or tank wagon

1. For f.o.b. origin deliveries, unless otherwise directed by the DLA Energy Regional Office placing orders, the Contractor shall create shipments for transportation services using USBank's Syncada, with software and training to be provided by USBank. All Syncada users must complete the following annual training:

- (i) Certifying Officer Legislation (COL)
- (ii) Transportation Pay
- (iii) Advanced Syncada Training

2. **Daily Load List.** For f.o.b. origin and destination truck deliveries, on each day truck(s) are loaded, the Contractor shall send by email a daily load list to the DLA Energy Regional Office having oversight of the contract and receiving locations.

3. For f.o.b. origin truck deliveries:

(i) The Contractor shall upload all Bills of Lading (BOLs) at time of shipment transaction using USBank Syncada.

(ii) The Contractor shall comply with transportation and routing instructions furnished by the DLA Energy Regional Office. Such instructions will include carrier names, routes, route order numbers, and other pertinent shipment information. The Contractor shall be responsible for the scheduling of commercial transport trucks to its plant in accordance with such routing instructions and consonant with the applicable order. All charges due to Contractor caused delays at the loading facility, including improper equipment scheduling, will be the responsibility of the Contractor.

(iii) Motor Carrier Performance Reporting. The Contractor shall maintain a daily written log of motor carrier performance to include carrier, destination, number of trucks ordered, number of trucks furnished, and deficiencies. On the last business day of each calendar month, the Contractor shall forward a copy of the daily written logs to the DLA Energy Americas office having oversight of the motor carrier contract.

4. On f.o.b. destination items involving multiple car or truck load shipments, the Contractor shall assign one shipment number for shipments of supplies made on the same day, to the same destination, against the same contract line item.

(d) On all tank car shipments, whether delivery is made on an f.o.b. origin or f.o.b. destination basis, the Contractor shall send to the consignee at the time of shipment a prepaid telegraphic notice that shall indicate grade of product, date of shipment, car and seal numbers, bill of lading number, and net quantities.

(e) When required by the contract, or requested by the Government, the Contractor shall furnish serially numbered seals and effectively seal all tank cars, transport trucks, trucks and trailers, and tankers and barges (where sea suction and overboard discharge valves are present), whether delivery is made on an f.o.b. origin or f.o.b. destination basis. The marking on the seal shall be indicated on all shipping documents.

(f) 1. If Government-owned or leased tank cars are furnished, the Contractor will maintain records showing each day a car is received or forwarded, by car number, and will furnish this information to the DLA Energy Regional Office upon receipt.

2. Bottom outlet gaskets and manway cover gaskets, when required due to deterioration or loss, shall be furnished and applied to tank cars by the Contractor.

3. The Contractor shall (i) inspect empty Government-owned tank cars located on the Contractor's premises and (ii) ship tank cars located on the Contractor's premises to repair facilities as directed by the Government.

(g) Placards, as required by 49 CFR 172.506 and 49 CFR 172-508, shall be furnished and affixed to all tank cars and tank trucks by the Contractor unless placards are already affixed.

(h) The Contractor shall inspect all shipping conveyances, with the exception of government-furnished tankers and barges, prior to loading to ensure that product loaded will not be lost or contaminated

by the condition of the conveyance. (Authorization for the Contractor to participate in the inspection of Government-furnished tankers and barges rests with QAR. The QAR has the right to inspect any Government-furnished conveyance prior to loading and, in the event the Contractor and the QAR disagree on the suitability to load such a conveyance, the determination of the QAR shall govern.) Only qualified Contractor personnel may perform inspections. In the case of tank trucks, Contractor may not delegate inspection responsibility to the operator/driver. The tank truck operator/driver may be permitted to physically load the tank truck; however, the loading operation must be under the surveillance and direction of qualified Contractor personnel.

(End of Supplement)

F8 SUPPLEMENT: BARGE AND/OR SHALLOW DRAFT TANKER DEMURRAGE AND LOADING CONDITIONS

On items calling for delivery f.o.b. barge and/or shallow draft tanker at origin--

(a) DELIVERY DATES.

(1) Unless otherwise specified in the Schedule, orders placed under items of the Schedule calling for delivery f.o.b. barge and/or shallow draft tanker at Contractor's refinery, terminal, or bulk plant will be furnished to the Contractor at least 15 days in advance of the date on which delivery is to be made, which date is hereafter referred to as the "scheduled delivery date." Each order will specify the quantity to be delivered, the scheduled delivery date, and the cargo number, and, if then available, the name of the barge and/or shallow draft tanker (herein referred to as "vessel") to be loaded.

(2) The scheduled delivery date may be revised by the Ordering Officer at any time and, unless the Contractor registers objections with the Ordering Officer within 72 hours of receipt of such revised scheduled delivery date, such revised date shall become the new agreed scheduled delivery date. At the time the Contractor registers any such objections, the Contractor must provide a date, subsequent to the date proposed by the Ordering Officer, which represents the earliest date the Contractor can provide a berth. The Ordering Officer must confirm or reject the alternate date provided by the Contractor within 72 hours of receipt of the Contractor's objection. If the Ordering Officer chooses to accept the alternate date provided in the Contractor's objection, such revised date shall become the new agreed scheduled delivery date. If the Ordering Officer chooses to reject the alternate date provided by the Contractor, the scheduled delivery date will return to the previously scheduled delivery date.

(3) All communications regarding the establishment and revision of the scheduled delivery date and objections thereto shall be set down in writing at such time or promptly confirmed in writing.

(b) EXPECTED TIME OF ARRIVAL.

(1) For Barge deliveries, the vessel designated to lift the cargo will notify the Contractor's load facility at the method provided by the Contractor in K28.01 NOTIFICATION OF VESSEL EXPECTED TIME OF ARRIVAL (ETA) of the vessel name and the expected hour of arrival at least 24 hours before the expected time of arrival. When vessels are scheduled to load at more than one contract source within a port complex, the 24 hour notices will be provided by the vessels to all contract sources at the same time as the notice is provided to the first contract source and will stipulate the order of loading.

(2) For Shallow Draft Tanker deliveries, the vessel designated to lift the cargo will notify the Contractor's load facility by the method provided by the Contractor in K28.01 NOTIFICATION OF VESSEL EXPECTED TIME OF ARRIVAL (ETA) of the vessel name and the expected hour of arrival at least 72 hours before the expected time of arrival, and at additional intervals of 48 and 24 hours before expected arrival. When vessels are scheduled to load at more than one contract source within a port complex, the 72-48-24 hour notices will be provided by the vessels to all contract sources at the same time as the notice is provided to the first contract source and will stipulate the order of loading.

(c) **LAYTIME.** The Contractor shall provide as soon as possible, but within 3 hours after receipt of notice of readiness to load from the vessel designated to load the cargo, a reachable berth free of cost to the Government, where the vessel can be safely moored and remain afloat at all times, for loading of the ordered supplies. Laytime shall commence, berth or no berth, either at the expiration of 3 hours after notice of readiness, or immediately when the vessel moors alongside, with or without notice of readiness, whichever first occurs; PROVIDED, however, that--

(1) If the vessel is tendered for loading on a date earlier than the last scheduled delivery date as determined pursuant to paragraph (a) above, the Government scheduled vessel shall be loaded as soon as possible in its proper turn with other vessels, and laytime shall not commence until the vessel moors alongside or at 0300 local time on the last agreed schedule delivery date, whichever first occurs.

(2) If the vessel is tendered for loading later than noon on the day following the last agreed scheduled delivery date, as determined pursuant to paragraph (a) above, the vessel shall be loaded as soon as possible in its proper turn with other vessels. Laytime shall commence when the vessel moors alongside, provided a good faith effort is made by the Contractor to have the vessel loaded as soon as is reasonably possible under the circumstances prevailing at the time.

(3) Laytime shall continue 24 hours a day, 7 days a week, without interruption from its commencement until loading of the vessel is completed and the vessel has been released for sailing by the Government Quality Representative.

(d) **ALLOWED LAYTIME.**

(1) **BASIC ALLOWED LAYTIME.**

(i) For cargo movements under DLA Energy bulk petroleum contracts via barge, the Contractor shall be allowed 1 hour for each 2,000 barrels loaded.

(ii) For cargo movement under DLA Energy bulk petroleum contracts via shallow draft tanker, the contractor shall be allowed 1 hour for each 3,500 barrels loaded.

(2) **INCREASES TO BASIC LAYTIME.**

(i) If, after laytime commences, the condition of the vessel to be loaded does not permit loading, such basic allowed laytime shall be increased by the duration of such delay.

(ii) If the vessel is delayed in reaching its berth and the delay is caused by the fault of the vessel, such basic allowed laytime will be increased by the duration of such delay that occurred after laytime commenced.

(iii) If regulations of the owner, operator of the vessel, Customs Officials, or Port Authority prohibit loading at any time after laytime commenced, time so lost shall be added to the basic allowed laytime.

(iv) If for any reason the Contractor is delayed in loading the vessel or there is a delay in releasing the vessel for sailing because of action of the U.S. Government that arises out of causes beyond the control and without the fault or negligence of the Contractor, such basic allowed laytime shall be increased by the duration of such delay.

(v) If the vessel requests cargo tanks be cushioned or topped off during the loading process and the quantity of product cushioned or topped including the time spent cushioning/topping tanks is noted on the DD Form 250-1, Loading/Inspection Report, the basic allowed laytime shall be increased by the difference between the actual time taken to cushion/top tanks and the amount of time required to pump the same quantity of cushioned/topped product at the Contractor's actual loading rate exclusive of cushioning/topping time and cushioning/topping quantity.

(vi) Contractor will be allowed up to 4 hours of additional laytime following removal of cargo hoses until vessel is released by the inspector in order to accomplish tasks required under the CONTRACTOR INSPECTION RESPONSIBILITIES supplement.

(vii) There will be no increases made to the basic allowed laytime (nor other reductions to any resulting demurrage time) for saved laytime arising out of other loadings.

(viii) Delays, after commencement of laytime, attributed to causes beyond the control and without the fault or negligence of the Contractor or the U.S. Government will result in increasing basic allowed laytime for one half of the delay.

(e) For all hours of laytime that elapse in excess of allowed laytime for loading provided for by paragraph (d) above, demurrage shall be paid by the Contractor as follows:

(1) **TIME CHARTER VESSELS.** At the demurrage rate for the vessel loaded, computed to the nearest whole hour, as published by the U.S. Government, and in effect on the date loading of the vessel is completed.

(2) The demurrage rate set forth in the Carrier's Tender of Freight Services and Demurrage Invoice to the Government.

(3) **CONTRACT VESSELS.** At the hourly rate specified in the contract.

(f) Hoses for loading a vessel shall be furnished, connected, and disconnected by the Contractor; loading arm shall be connected and disconnected by the Contractor.

(g) Title to the supplies delivered and risk of loss thereof shall pass from the Contractor to the Government when the supplies pass the vessel's permanent hose connection.

(End of Supplement)

F9 SUPPLEMENT: DEMURRAGE AND UNLOADING CONDITIONS (FOB DESTINATION BARGE, SHALLOW-DRAFT TANKER)

On items calling for delivery f.o.b. destination by means of barge or shallow draft tanker--

(a) The term **shallow draft tanker**, as used herein, shall include coastal tankers.

(b) **DELIVERY DATES AND DESTINATION.** The supplies ordered hereunder shall be delivered, all transportation charges paid, to the destination specified in the Schedule. Unless otherwise specified in the Schedule, orders placed under items of the Schedule calling for delivery f.o.b. destination barge or shallow draft tanker will be furnished to the Contractor at least 15 days in advance of the date on which delivery is to be made, hereinafter referred to as the "scheduled delivery date." Each order will specify the quantity to be delivered and the scheduled delivery date. The scheduled delivery date may be changed by the Contractor at any time if the Ordering Officer approves.

(c) **PROVISION OF BERTH.** For deliveries occurring on the date of the latest approved scheduled delivery date, the Government will provide, free of cost, a reachable safe berth for the tug and tow or self-propelled barge or shallow draft tanker to be afloat at all times at the unloading port within 3 hours of the conditions at (c)(1) and (c)(2) being met. For deliveries occurring on a date other than the latest approved scheduled delivery date, the Government will provide safe berth within 12 hours of the conditions at (c)(1) and (c)(2) being met.

(1) Issuance of Notice of Readiness (NOR) to unload by the Master or Mate of the vessel designated to discharge; and

(2) The ordered product has been found acceptable in accordance with QAP E1
CONTRACTOR INSPECTION RESPONSIBILITIES.

(d) **COMMENCEMENT OF LAYTIME.** Laytime shall commence at the sooner of either: (i) the expiration of the provision of berth period prescribed by (c) above (the 3 hours or the 12 hour period, as the case may be), berth or no berth; or (ii) subject to the conditions in (c)(2) having been met, upon the barge's or shallow draft barge's arrival in berth. Laytime shall continue 24 hours a day, 7 days a week, without interruption from its commencement, until unloading of the barge or shallow draft tanker is completed and the hoses have been disconnected.

(e) **ALLOWED LAYTIME**

(1) BASIC ALLOWED LAYTIME.

(i) For barges, unless otherwise provided in the Schedule, the Government shall be allowed and will complete unloading within laytime determined as follows: 1 hour for each 2,000 barrels of supplies to be unloaded, plus 1 1/2 hours.

(ii) For shallow draft tankers, unless otherwise provided in the Schedule, the Government shall be allowed and will complete unloading within laytime determined as follows: 1 hour for each 3,500 barrels of supplies to be unloaded, plus 1 1/2 hours.

(2) INCREASES TO ALLOWED LAYTIME.

(i) If the condition of the barge or shallow draft tanker to be unloaded does not permit unloading within the number of hours determined in accordance with (e)(1) above, such allowed laytime shall be increased by a number of hours sufficient to permit the unloading of the barge.

(ii) If the barge or shallow draft tanker is delayed in reaching its berth within 3 hours or 12 hours, as the case may be, from the time the conditions in (c)(1) and (c)(2) have been met, and the delay is caused by the fault of the barge or shallow draft tanker, such allowed laytime shall be increased by the duration of such delay.

(iii) If regulations of the owner or operator of the barge or shallow draft tanker prohibit unloading at any time, time so lost shall be added to the amount of such allowed laytime.

(iv) Delays, after commencement of laytime, attributed to causes beyond the control and without the fault or negligence of the Contractor or the U.S. Government will result in increasing basic allowed laytime for one-half of the delay.

(f) **DEMURRAGE PAYABLE.** For all hours of laytime that elapse in excess of the allowed laytime for unloading provided for by (e) above, or as otherwise provided for in the Schedule, demurrage will be paid by the Government at the demurrage rate in the charter for the barge or shallow draft tanker unloading. Demurrage payable by the Government shall in no event exceed either: 1) the actual demurrage expense incurred by the Contractor under the charter as established by an invoice, and 2) the total amount paid to charter the vessel, absent demurrage costs. For purposes of computing demurrage payable by the Government, if the laytime allowed in the charter is a combined total for both loading and discharging, 1/2 thereof shall be allocated to the unloading operation, except when less than a full cargo is unloaded, where such allocation shall be determined on a pro-rata basis.

(g) In the event of breakdown of Contractor's equipment, which will prohibit unloading for 2 hours or more, the Contractor will be required to remove the equipment from the Government-provided berth, unless permission is granted by the Government to allow the equipment to remain on berth. When the Government grants permission for the Contractor equipment to remain on berth, the Contractor will be responsible to reimburse the Government for any cost incurred by the Government for furnishing personnel to remain with the barge or shallow draft tanker during repair; PROVIDED further, that if the Contractor removes the equipment from the Government provided berth, NOR to unload will be again required as provided in (c) above.

(h) Hoses for unloading a barge or shallow draft tanker will be furnished, connected, and disconnected by the Government.

(i) Title to the supplies delivered, and risk of loss thereof, shall pass from the Contractor to the Government when the supplies pass the permanent hose connections of the barge or shallow draft tanker unloading the supplies.

(End of Supplement)

F10 SUPPLEMENT: DEMURRAGE AND LOADING CONDITIONS (FOB ORIGIN TANKER,

BARGE)

On items calling for delivery f.o.b. tanker/ocean-going barge at origin--

(a) DELIVERY DATES.

(1) Unless otherwise specified in the Schedule, orders placed under items of the Schedule calling for delivery f.o.b. tanker/ocean-going barge at Contractor's refinery, terminal, or bulk plant will be furnished to the Contractor at least 20 days in advance of the date on which delivery is to be made, which date is hereinafter referred to as the "scheduled delivery date." Each order will specify the quantity to be delivered, the scheduled delivery date, the cargo number, and, if then available, the name and size of the tanker/ocean-going barge (herein referred to as "vessel") to be loaded.

(2) The scheduled delivery date may be revised by the Ordering Officer at any time and unless the Contractor registers objections with the Ordering Officer within 72 hours of receipt of such revised scheduled delivery date, such revised date shall become the new agreed scheduled delivery date. At the time the Contractor registers any such objections, the Contractor must provide a date, subsequent to the date proposed by the Ordering Officer, which represents the earliest date the Contractor can provide a berth. The Ordering Officer must confirm or reject the alternate date provided by the Contractor within 72 hours of receipt of the Contractor's objection. If the Ordering Officer chooses to accept the alternate date provided in the Contractor's objections, such revised date shall become the new agreed scheduled delivery date. If the Ordering Officer chooses to reject the alternate date provided by the Contractor, the scheduled delivery date will return to the previous scheduled delivery date.

(3) All communications regarding the establishment and revision of the scheduled delivery date and objections thereto shall be set down in writing at such time or promptly confirmed in writing.

(b) EXPECTED TIME OF ARRIVAL. The vessel designated to lift the cargo will notify the Contractor's load facility, at the telex/facsimile number provided by the Contractor, of the name and the expected hour of arrival of the vessel at least 72 hours before the expected time of arrival, and at additional intervals of 48 and 24 hours before expected arrival. When vessels are scheduled to load at more than one contract source within a port complex, the 72-48-24 hour notices will be provided by the vessels to all contract sources at the same time as the notice is provided to the first contract source and will stipulate the order of loading.

(c) LAYTIME. The Contractor shall provide as soon as possible, but within 6 hours after issue of notice of readiness to load from the vessel designated to load the cargo, a reachable berth, free of cost to the Government, for the loading of supplies ordered, where at least vessels with a maximum draft of 35 feet can be safely moored and remain afloat at all times. When vessels are scheduled to load at more than one contract source within a port complex, notice of readiness will be provided once by the vessel to all contract sources simultaneously. Laytime shall commence, berth or no berth, either at the expiration of 6 hours after notice of readiness is received or immediately when the vessel moors alongside with or without notice of readiness, whichever first occurs; **PROVIDED**, however, that--

(1) If the vessel is tendered for loading on a date earlier than the last agreed scheduled delivery date as determined pursuant to paragraph (a) above, the Government's vessel shall be loaded as soon as possible in its proper turn with other vessels, and laytime shall not commence until the vessel moors alongside or at 6:00 a.m. local time on the last agreed scheduled delivery date, whichever first occurs.

(2) If the vessel is tendered for loading later than noon of the day following the last agreed scheduled delivery date, as determined pursuant to paragraph (a) above, the vessel shall be loaded as soon as possible in its proper turn with other vessels. Laytime shall commence when the vessel moors alongside, provided a good faith effort is made by the Contractor to moor the vessel in its turn with other vessels as loading berths become available. If the vessel is not moored in its proper turn with other vessels, laytime will commence at 6:00 a.m. on the date the Government vessel's turn occurred, regardless of whether the cargo is available.

(3) For two or more contract sources within a port complex, laytime for the second or subsequent source begins when the vessel leaves the prior source. Laytime credit will be allowed for transit time between the prior and subsequent load source based on the actual transit time from the previous source to the subsequent source's loading berth or anchorage area if the berth is not available for the Government's vessel. In the event a berth is not available and the vessel is forced to anchorage, no additional laytime credit will be allowed when the vessel finally gets clearance to moor at the contractor's berth.

(4) Laytime shall continue 24 hours a day, 7 days a week, without interruption from its commencement until the entire loading of the vessel cargo is completed and the vessel has been released for sailing by the Government Quality Representative.

(d) ALLOWED LAYTIME.

(1) **BASIC ALLOWED LAYTIME.** For cargo movements under DLA Energy bulk petroleum contracts, the Contractor shall be allowed 36 hours of basic allowed laytime for loading a full vessel cargo. The 36 hours covers all operations for loading including cushioning and topping tanks. When partial vessel cargoes are to be loaded, a portion of the 36 hours basic laytime will be allocated to each loading port equal to the percentage of the total quantity loaded at each loading port or source.

(2) INCREASES TO BASIC ALLOWED LAYTIME.

(i) If after laytime commences, the condition of vessel to be loaded does not permit loading, such basic allowed laytime shall be increased by the duration of such delay.

(ii) If the vessel is delayed in reaching its berth and the delay is caused by the fault of the vessel, such basic allowed laytime will be increased by the duration of such delay which occurred after laytime commenced.

(iii) After laytime commences, when vessels are required to dock at anchorage due to vessel delays such as vessel inspection and inerting, laytime credit will be allowed for transit time from anchors away at anchorage until first line ashore berthing, not to exceed 2 hours.

(iv) If regulations of the owner or operator of the vessel prohibit loading at any time after laytime has commenced, time so lost shall be added to the basic allowed laytime.

(v) If for any reason the Contractor is delayed in loading the vessel or there is a delay in releasing the vessel for sailing because of action of the U.S. Government that arises out of causes beyond the control and without the fault or negligence of the Contractor, such basic allowed laytime shall be increased by the duration of such delay.

(vi) The Contractor will be allowed up to 4 hours of additional laytime following removal of cargo hoses until the vessel is released by the inspector in order to accomplish tasks required under the CONTRACTOR INSPECTION RESPONSIBILITIES contract provision.

(vii) There will be no increase made to the basic allowed laytime (nor other reductions to any resulting demurrage time) for saved laytime arising out of other loadings.

(viii) Delays, after commencement of laytime, attributed to causes beyond the control and without the fault or negligence of the Contractor or the U.S. Government will result in increasing basic allowed laytime for one-half of the delay.

(e) For all hours of laytime which elapse in excess of allowed laytime for loading provided for by paragraph (d) above, demurrage shall be paid by the Contractor as follows:

(1) **USS, USNS, OR TIME CHARTERED VESSELS.** At the demurrage rate for the vessel loaded, computed to the nearest whole hour, as published by the Military Sealift Command, and in effect on the date loading of the vessel is completed.

(2) **VOYAGE CHARTERED VESSELS.** At the demurrage rate cited in the charter, except that the demurrage payable by the Contractor shall in no event exceed the actual demurrage expense incurred by the Government under the charter;

(f) Hoses for loading a vessel shall be furnished, connected, and disconnected by the Contractor; loading arms shall be connected and disconnected by the Contractor.

(g) Title to the supplies delivered and risk of loss thereof shall pass from the Contractor to the

Government when the supplies pass the vessel's permanent hose connections.

(h) The temperature of any fuel oil loaded shall be at least 10oF below the flash point of the oil and in no case higher than 150oF if the cargo tanks are uncoated, or 135oF if coated; **PROVIDED**, however, that in no event shall the difference between the temperature of the oil entering the vessel manifold and the recorded temperature of sea water at the vessel's condenser intake exceed 70oF; **PROVIDED** further, that the Master of the vessel may authorize loading the product at a temperature higher than specified above, so long as the temperature of the product remains at least 10oF below the flash point of the product.

(End of Supplement)

F11 SUPPLEMENT: TANKER STANDARDS AND REQUIREMENTS

(a) All Government-furnished tankers used in the course of this contract will comply with the following:

(1) U.S.-flag tankers will hold and comply with the requirements of a current Certificate of Inspection (COI) from the U.S. Coast Guard and be in compliance with all requirements of Safety of Life at Sea (SOLAS) and International Convention for the Prevention of Pollution for Ships (MARPOL 73/78).

(2) In the event of a voyage charter, a non-U.S.-flag tanker will comply with SOLAS and MARPOL 73/78.

(3) Tankers on long term charter to the U.S. Government will be equipped with an Inert Gas System (IGS), which will be maintained in good working order. The U.S. Government will make best efforts to ensure voyage-chartered tankers are equipped with IGS when required by the terminal or port authority and shall maintain and operate same in good working order.

(4) All tankers will carry on board and will be guided by the requirements of the latest edition of the Oil Companies International Marine Forum (OCIMF) and International Safety Guide for Oil Tankers and Terminals (ISGOTT).

(5) All tankers will be equipped with tank level measuring devices in each cargo tank.

(6) All tankers will be capable of vapor recovery, which includes closed loading, gauging, and sampling where required by port regulations.

(7) All tankers shall be in full compliance with all applicable international conventions and all applicable laws, regulations, and other requirements of the nation of registry and of the nation(s) and local jurisdictions to whose port(s) and/or places the tanker may be ordered.

(b) The Contractor may, at its own expense and in a manner so as not to delay a scheduled delivery, inspect tankers for compliance with these requirements. In the event the Contractor believes a tanker does not meet a requirement contained herein, the Contractor shall notify DLA Energy in writing with a copy to the tanker captain of the specific details of the alleged deficiency as soon as possible. The Contracting Officer will make a determination as to compliance with these requirements. This determination will be binding on the parties.

(End of Supplement)

F12 SUPPLEMENTAL: DEADFREIGHT

(a) Any decrease in quantity not permissible under the VARIATION IN QUANTITY clause shall result in deadfreight, chargeable to the Contractor and calculated as follows:

Total days of the cargo
 TIMES
 Vessel daily cost
 DIVIDED BY
 Vessel capacity stated in barrels
 TIMES
 Total barrels scheduled to load MINUS Total barrels loaded
 EQUALS
 Deadfreight cost

(b) Explanation of terms used in (a) above follows:

(1) "Total days of the cargo," as used in this contract provision, is calculated as the elapsed days from the vessel's final departure date from previous cargo port through vessel's final discharge date for the cargo in question.

(2) "Vessel daily cost," as used in this contract provision, shall be determined as follows:

(i) **VOYAGE CHARTER TANKER.** At the per diem rate in the charter, except that the deadfreight payable by the Contractor shall not exceed actual expense incurred by the Government under the charter.

(ii) **USS, USNS, OR TIME CHARTERED TANKER.** At the per diem rate for the tanker loaded, as published by the Military Sealift Command and in effect on the date loading of the tanker is completed.

(3) "Total barrels scheduled to load," as used in this contract provision, is the total quantity (all products) reflected on the latest DD Form 1155.

(4) "Total barrels loaded," as used in this contract provision, is the total quantity (all products) shown as loaded on the DD Form 250-1.

(End of Supplement)

F13 SUPPLEMENT: IN-LINE BLENDING OF NON-AVIATION PETROLEUM PRODUCTS

(a) In response to this solicitation, offerors may offer nonaviation petroleum products that use In-Line Blending (ILB) procedures for delivery into tankers and barges (vessels). Offerors planning to use ILB procedures to blend finished product, as it is being delivered into vessels, must include with the offer a detailed description of the ILB procedures, including quantity determination. Automatic, on-line test procedures must be described in detail, including whether these tests are ASTM (or equivalent) approved. ILB procedures must be acceptable to the Government. The Contractor has the option of meeting the requirements of either (b) or (c) below.

(b) The Contractor is responsible for product quality on board the vessel.

(1) During an ILB operation, changes in the blend ratio may occur during vessel loadings. In order to assure the entire cargo is uniformly blended, sampling and testing on board the vessel are required. Although Section 4 of the Product Specification, Quality Assurance Provisions, defines a Bulk Lot as an indefinite quantity of a homogeneous mixture of material offered for acceptance in a single isolated container, sampling and full specification testing of each vessel tank system is acceptable.

(2) The following vessel sampling and testing must be performed by the Contractor and substitutes for the Sampling and Testing requirements contained in the CONTRACTOR INSPECTION RESPONSIBILITIES supplement. All tests must be on-specification as evidence that the Contractor has met the contract product quality requirements.

(i) An appearance, gravity, and flash point (if product specification has a flash point requirement) on an all-level sample from each tank used in the loading. A half (0.5) liter sample from each tank will be retained for 45 days.

(ii) A full specification test series on a multiple tank composite sample representing each vessel tank system used in the loading. If more than four systems are used, only four multiple tank composite samples need to be tested. In this case, the Contractor will ensure that multiple tank composite samples are representative of all product loaded, and the Contractor will determine which vessel tanks will be included in each multiple tank composite sample. A 20-liter multiple tank composite sample for each vessel tank system will be retained for 45 days.

(iii) All time and costs associated with sampling and testing the finished product aboard the vessel will be borne by the Contractor.

(iv) If the product does not conform to specification aboard the vessel, the Government has the option to require the Contractor to pump the cargo back to the Contractor's facility. In this circumstance, title for the nonconforming product will revert to the Contractor, and the Contractor will have no right to payment for such product. All delays and costs associated with the nonconforming product, including demurrage and any vessel cleaning determined necessary by the Government, will be borne by the Contractor.

(c) The Contractor is responsible for product quality at the custody transfer point.

(1) Subdivisions (b)(2)(i) and (ii) above, sampling and testing, must still be performed.

(2) The Contractor must also obtain samples at the custody transfer point that are representative of the product in the various vessel tanks. Samples must be taken in accordance with ASTM D 4177. As a minimum, an 8-liter composite sample, representative of each quarter cargo, will be taken. One 4-liter sample from each of these composites will be retained for a period of 45 days.

(3) If all vessel tests required by subdivisions (b)(2)(i) and (ii) above conform to specification, it will be concluded the Contractor met the contract quality requirements and no additional testing of custody transfer samples will be required.

(4) If any vessel tests in subdivisions (b)(2)(i) and (ii) above are off-specification, the Contractor must perform a full specification test series on the applicable custody transfer composite sample(s) that represents the on board off-specification product. If the custody transfer point sample(s) conforms to specification, it will be concluded the Contractor met the contract quality requirements. If the custody transfer point sample(s) does not conform to specification, it will be concluded the Contractor did not meet the contract quality requirements and the Government has the option to require the Contractor to pump the cargo back to the Contractor's facility. In this circumstance, title for the nonconforming product will revert to the Contractor and the Contractor will have no right to payment for such product. All delays and costs associated with the nonconforming product, including demurrage and any vessel cleaning determined necessary by the Government, will be borne by the Contractor.

(d) The Contractor may inspect tankers and barges for suitability to load the intended cargo. If the Contractor chooses the paragraph (b) option to guarantee product quality on board the vessel and the Contractor and the U.S. Quality Representative (QR) disagree as to the suitability to load Government-furnished vessels, the determination of the Contractor will govern. If the Contractor chooses the paragraph (c) option to guarantee product quality at the custody transfer point and the Contractor and QR disagree as to the suitability to load Government-furnished vessels, the determination of the QR will govern.

(e) The Contractor must state in its offer whether it will meet either the paragraph (b) or (c) requirements.

(End of Supplement)

SECTION G - CONTRACT ADMINISTRATION DATA

DFARS 252.232-7006 WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (JAN 2023)

(a) *Definitions.* As used in this clause—

“Department of Defense Activity Address Code (DoDAAC)” is a six-position code that uniquely identifies a unit, activity, or organization.

“Document type” means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

“Local processing office (LPO)” is the office responsible for payment certification when payment certification is done external to the entitlement system.

“Payment request” and “receiving report” are defined in the clause at [252.232-7003](#), Electronic Submission of Payment Requests and Receiving Reports.

(b) *Electronic invoicing.* The WAWF system provides the method to electronically process vendor payment requests and receiving reports, as authorized by Defense Federal Acquisition Regulation Supplement (DFARS) [252.232-7003](#), Electronic Submission of Payment Requests and Receiving Reports.

(c) *WAWF access.* To access WAWF, the Contractor shall—

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.sam.gov>; and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this web site.

(d) *WAWF training.* The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the “Web Based Training” link on the WAWF home page at <https://wawf.eb.mil/>

(e) *WAWF methods of document submission.* Document submissions may be via web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) *WAWF payment instructions.* The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:

(1) *Document type.* The Contractor shall submit payment requests using the following document type(s):

(i) For cost-type line items, including labor-hour or time-and-materials, submit a cost voucher.

(ii) For fixed price line items—

(A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer.

Receiving Report or Invoice and Receiving Report (Combo)

(B) For services that do not require shipment of a deliverable, submit either the Invoice 2 in1, which meets the requirements for the invoice and receiving report, or the applicable invoice and receiving report, as specified by the Contracting Officer.

(iii) For customary progress payments based on costs incurred, submit a progress payment request.

(iv) For performance-based payments, submit a performance based payment request.

(v) For commercial financing, submit a commercial financing request.

(2) Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213-1 is included in the contract.

(3) *Document routing.* The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

(4) *Payment request.* The Contractor shall ensure a payment request includes documentation appropriate to the type of payment request in accordance with the payment clause, contract financing clause, or Federal Acquisition Regulation 52.216-7, Allowable Cost and Payment, as applicable.

(5) *Receiving report.* The Contractor shall ensure a receiving report meets the requirements of DFARS Appendix F.

(g) *WAWF point of contact.*

(1) The Contractor may obtain clarification regarding invoicing in WAWF from the following contracting activity's WAWF point of contact.

DESC-BTechTeam@dla.mil.

(2) Contact the WAWF helpdesk at 866-618-5988, if assistance is needed.

SECTION I - CONTRACT CLAUSES

FAR 52.207-4 ECONOMIC PURCHASE QUANTITY-SUPPLIES (AUG 1987).

FAR 52.212-4 CONTRACT TERMS AND CONDITIONS—COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (NOV 2023)

(a) *Inspection/Acceptance.* The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair/replacement or reperformance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post-acceptance rights-

(1) Within a reasonable time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) *Assignment.* The Contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act ([31 U.S.C. 3727](#)). However, when a third party makes payment (*e.g.*, use of the Governmentwide commercial purchase card), the Contractor may not assign its rights to receive payment under this contract.

(c) *Changes.* Changes in the terms and conditions of this contract may be made only by written agreement of the parties.

(d) *Disputes.* This contract is subject to [41 U.S.C. chapter 71](#), Contract Disputes. Failure of the parties to this contract to reach agreement on any request for equitable adjustment, claim, appeal or action arising under or relating to this contract shall be a dispute to be resolved in accordance with the clause at Federal Acquisition Regulation (FAR) [52.233-1](#), Disputes, which is incorporated herein by reference. The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(e) *Definitions.* The clause at FAR [52.202-1](#), Definitions, is incorporated herein by reference.

(f) *Excusable delays.* The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires,

floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(g) Invoice.

(1) The Contractor shall submit an original invoice and three copies (or electronic invoice, if authorized) to the address designated in the contract to receive invoices. An invoice must include-

(i) Name and address of the Contractor;

(ii) Invoice date and number;

(iii) Contract number, line item number and, if applicable, the order number;

(iv) Description, quantity, unit of measure, unit price and extended price of the items delivered;

(v) Shipping number and date of shipment, including the bill of lading number and weight of shipment if shipped on Government bill of lading;

(vi) Terms of any discount for prompt payment offered;

(vii) Name and address of official to whom payment is to be sent;

(viii) Name, title, and phone number of person to notify in event of defective invoice; and

(ix) Taxpayer Identification Number (TIN). The Contractor shall include its TIN on the invoice only if required elsewhere in this contract.

(x) Electronic funds transfer (EFT) banking information.

(A) The Contractor shall include EFT banking information on the invoice only if required elsewhere in this contract.

(B) If EFT banking information is not required to be on the invoice, in order for the invoice to be a proper invoice, the Contractor shall have submitted correct EFT banking information in accordance with the applicable solicitation provision, contract clause (e.g., [52.232-33](#), Payment by Electronic Funds Transfer-System for Award Management, or [52.232-34](#), Payment by Electronic Funds Transfer-Other Than System for Award Management), or applicable agency procedures.

(C) EFT banking information is not required if the Government waived the requirement to pay by EFT.

(2) Invoices will be handled in accordance with the Prompt Payment Act ([31 U.S.C.3903](#)) and Office of Management and Budget (OMB) prompt payment regulations at 5 CFR Part 1315.

(h) *Patent indemnity.* The Contractor shall indemnify the Government and its officers, employees and agents against liability, including costs, for actual or alleged direct or contributory infringement of, or inducement to infringe, any United States or foreign patent, trademark or copyright, arising out of the performance of this contract, provided the Contractor is reasonably notified of such claims and proceedings.

(i) *Payment.-*

(1) *Items accepted.* Payment shall be made for items accepted by the Government that have been delivered to the delivery destinations set forth in this contract.

(2) *Prompt payment.* The Government will make payment in accordance with the Prompt Payment Act ([31 U.S.C.3903](#)) and prompt payment regulations at 5 CFR Part 1315.

(3) *Electronic Funds Transfer (EFT).* If the Government makes payment by EFT, see [52.212-5\(b\)](#) for the appropriate EFT clause.

(4) *Discount.* In connection with any discount offered for early payment, time shall be computed from the date of the invoice. For the purpose of computing the discount earned, payment shall be considered to have been made on the date which appears on the payment check or the specified payment date if an electronic funds transfer payment is made.

(5) *Overpayments.* If the Contractor becomes aware of a duplicate contract financing or invoice payment or that the Government has otherwise overpaid on a contract financing or invoice payment, the Contractor shall-

(i) Remit the overpayment amount to the payment office cited in the contract along with a description of the overpayment including the-

(A) Circumstances of the overpayment (*e.g.*, duplicate payment, erroneous payment, liquidation errors, date(s) of overpayment);

(B) Affected contract number and delivery order number, if applicable;

(C) Affected line item or subline item, if applicable; and

(D) Contractor point of contact.

(ii) Provide a copy of the remittance and supporting documentation to the Contracting Officer.

(6) *Interest.*

(i) All amounts that become payable by the Contractor to the Government under this contract shall bear simple interest from the date due until paid unless paid within 30 days of becoming due. The interest rate shall be the interest rate established by the Secretary of the Treasury as provided in [41 U.S.C. 7109](#), which is applicable to the period in which the amount becomes due, as provided in (i)(6)(v) of this clause, and then at the rate applicable for each six-month period as fixed by the Secretary until the amount is paid.

(ii) The Government may issue a demand for payment to the Contractor upon finding a debt is due under the contract.

(iii) *Final decisions.* The Contracting Officer will issue a final decision as required by [33.211](#) if–

(A) The Contracting Officer and the Contractor are unable to reach agreement on the existence or amount of a debt within 30 days;

(B) The Contractor fails to liquidate a debt previously demanded by the Contracting Officer within the timeline specified in the demand for payment unless the amounts were not repaid because the Contractor has requested an installment payment agreement; or

(C) The Contractor requests a deferment of collection on a debt previously demanded by the Contracting Officer (see [32.607-2](#)).

(iv) If a demand for payment was previously issued for the debt, the demand for payment included in the final decision shall identify the same due date as the original demand for payment.

(v) Amounts shall be due at the earliest of the following dates:

(A) The date fixed under this contract.

(B) The date of the first written demand for payment, including any demand for payment resulting from a default termination.

(vi) The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on–

(A) The date on which the designated office receives payment from the Contractor;

(B) The date of issuance of a Government check to the Contractor from which an amount otherwise payable has been withheld as a credit against the contract debt; or

(C) The date on which an amount withheld and applied to the contract debt would otherwise have become payable to the Contractor.

(vii) The interest charge made under this clause may be reduced under the procedures prescribed in FAR [32.608-2](#) in effect on the date of this contract.

(j) *Risk of loss.* Unless the contract specifically provides otherwise, risk of loss or damage to the supplies provided under this contract shall remain with the Contractor until, and shall pass to the Government upon:

(1) Delivery of the supplies to a carrier, if transportation is f.o.b. origin; or

(2) Delivery of the supplies to the Government at the destination specified in the contract, if transportation is f.o.b. destination.

(k) *Taxes.* The contract price includes all applicable Federal, State, and local taxes and duties.

(l) *Termination for the Government's convenience.* The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges the Contractor can demonstrate to the satisfaction of the Government using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred which reasonably could have been avoided.

(m) *Termination for cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) *Title.* Unless specified elsewhere in this contract, title to items furnished under this contract shall pass to the Government upon acceptance, regardless of when or where the Government takes physical possession.

(o) *Warranty.* The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(p) *Limitation of liability.* Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.

(q) *Other compliances.* The Contractor shall comply with all applicable Federal,

State and local laws, executive orders, rules and regulations applicable to its performance under this contract.

(r) *Compliance with laws unique to Government contracts.* The Contractor agrees to comply with 31 U.S.C. 1352 relating to limitations on the use of appropriated funds to influence certain Federal contracts; 18 U.S.C. 431 relating to officials not to benefit; 40 U.S.C. chapter 37, Contract Work Hours and Safety Standards; 41 U.S.C. chapter 87, Kickbacks; 49 U.S.C. 40118, Fly American; and 41 U.S.C. chapter 21 relating to procurement integrity.

(s) *Order of precedence.* Any inconsistencies in this solicitation or contract shall be resolved by giving precedence in the following order:

- (1) The schedule of supplies/services.
- (2) The Assignments, Disputes, Payments, Invoice, Other Compliances, Compliance with Laws Unique to Government Contracts, and Unauthorized Obligations paragraphs of this clause;
- (3) The clause at [52.212-5](#).
- (4) Addenda to this solicitation or contract, including any license agreements for computer software.
- (5) Solicitation provisions if this is a solicitation.
- (6) Other paragraphs of this clause.
- (7) The [Standard Form 1449](#).
- (8) Other documents, exhibits, and attachments.
- (9) The specification.
- (t) [Reserved]
- (u) Unauthorized Obligations.

(1) Except as stated in paragraph (u)(2) of this clause, when any supply or service acquired under this contract is subject to any End User License Agreement (EULA), Terms of Service (TOS), or similar legal instrument or agreement, that includes any clause requiring the Government to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability that would create an Anti-Deficiency Act violation (31 U.S.C. 1341), the following shall govern:

- (i) Any such clause is unenforceable against the Government.
- (ii) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or

similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(2) Paragraph (u)(1) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulations and procedures.

(v) Incorporation by reference. The Contractor's representations and certifications, including those completed electronically via the System for Award Management (SAM), are incorporated by reference into the contract.

(End of clause)

ADDENDA TO 52.212-4

The addenda to FAR 52.212-4 is in Attachment 12 to the solicitation.

FAR 52.216-18 ORDERING (AUG 2020)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from **October 1, 2026** through **September 30, 2027**.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) A delivery order or task order is considered "issued" when—

- (1) If sent by mail (includes transmittal by U.S. mail or private delivery service), the Government deposits the order in the mail;
- (2) If sent by fax, the Government transmits the order to the Contractor's fax number; or
- (3) If sent electronically, the Government either—

(i) Posts a copy of the delivery order or task order to a Government document access system, and notice is sent to the Contractor; or

(ii) Distributes the delivery order or task order via email to the Contractor's email address.

(d) Orders may be issued by methods other than those enumerated in this clause only if authorized in the contract.

(End of clause)

**FAR 52.216-2 ECONOMIC PRICE ADJUSTMENT-STANDARD SUPPLIES
(NOV 2021)[**

a) The Contractor warrants that the unit price stated in the Schedule for _____ [offeror insert Schedule line item number] is not in excess of the Contractor's applicable established price in effect on the contract date for like quantities of the same item. The term "unit price" excludes any part of the price directly resulting from requirements for preservation, packaging, or packing beyond standard commercial practice. The term "established price" means a price that-

(1) Is an established catalog or market price for a commercial product sold in substantial quantities to the general public; and

(2) Is the net price after applying any standard trade discounts offered by the Contractor.

(b) The Contractor shall promptly notify the Contracting Officer of the amount and effective date of each decrease in any applicable established price. Each corresponding contract unit price shall be decreased by the same percentage that the established price is decreased. The decrease shall apply to those items delivered on and after the effective date of the decrease in the Contractor's established price, and this contract shall be modified accordingly.

(c) If the Contractor's applicable established price is increased after the contract date, the corresponding contract unit price shall be increased, upon the Contractor's written request to the Contracting Officer, by the same percentage that the established price is increased, and the contract shall be modified accordingly, subject to the following limitations:

(1) The aggregate of the increases in any contract unit price under this clause shall not exceed 10 percent of the original contract unit price.

(2) The increased contract unit price shall be effective-

(i) On the effective date of the increase in the applicable established price if the Contracting Officer receives the Contractor's written request within 10 days thereafter; or

(ii) If the written request is received later, on the date the Contracting Officer receives the request.

(3) The increased contract unit price shall not apply to quantities scheduled under the contract for delivery before the effective date of the increased contract unit price, unless failure to deliver before that date results from causes beyond the control and without the fault or negligence of the Contractor, within the meaning of the Default clause.

(4) No modification increasing a contract unit price shall be executed under this paragraph (c) until the Contracting Officer verifies the increase in the applicable established price.

(5) Within 30 days after receipt of the Contractor's written request, the Contracting Officer may cancel, without liability to either party, any undelivered portion of the contract items affected by the requested increase.

(d) During the time allowed for the cancellation provided for in paragraph (c)(5) of this clause, and thereafter if there is no cancellation, the Contractor shall continue deliveries according to the contract delivery schedule, and the Government shall pay for such deliveries at the contract unit price, increased to the extent provided by paragraph (c) of this clause.

(End of clause)

FAR 52.216-22 INDEFINITE QUANTITY (OCT 1995)

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum." The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum."

(c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after **October 30, 2027.**

(End of clause)

FAR 52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within **15 days** provided that the Government gives the Contractor preliminary written notice of its intent to extend at least **30** days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed **nineteen (19) months (base contract + up to 6 months extension + 30 day carryover)**.

(End of Clause)

FAR 52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at these addresses:

FAR 52.252-6 AUTHORIZED DEVIATIONS IN CLAUSES (NOV 2020)

(a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the clause.

(b) The use in this solicitation or contract of any Defense Federal Acquisition Regulation Supplement (48 CFR Chapter 2) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of clause)

FAR 52.229-3 FEDERAL, STATE, AND LOCAL TAXES (FEB 2013)

(a) As used in this clause-

After-imposed Federal tax means any new or increased Federal excise tax or duty, or tax that was exempted or excluded on the contract date but whose exemption was later revoked or reduced during the contract period, on the transactions or property covered by this contract that the Contractor is required to pay or bear as the result of legislative, judicial, or administrative action taking effect after the contract date. It does not include social security tax or other employment taxes.

After-relieved Federal tax means any amount of Federal excise tax or duty, except social security or other employment taxes, that would otherwise have been payable on the transactions or property covered by this contract, but which the Contractor is not required to pay or bear, or for which the Contractor obtains a refund or drawback, as the result of legislative, judicial, or administrative action taking effect after the contract date.

All applicable Federal, State, and local taxes and duties means all taxes and duties, in effect on the contract date, that the taxing authority is imposing and collecting on the transactions or property covered by this contract.

Contract date means the date set for bid opening or, if this is a negotiated contract or a modification, the effective date of this contract or modification.

Local taxes includes taxes imposed by a possession or territory of the United States, Puerto Rico, or the Northern Mariana Islands, if the contract is performed wholly or partly in any of those areas.

(b)

(1) The contract price includes all applicable Federal, State, and local taxes and duties, except as provided in subparagraph (b)(2)(i) of this clause.

(2) Taxes imposed under [26 U.S.C. 5000](#) C may not be-

(i) Included in the contract price; nor

(ii) Reimbursed.

(c) The contract price shall be increased by the amount of any after-imposed Federal tax, provided the Contractor warrants in writing that no amount for such newly imposed Federal excise tax or duty or rate increase was included in the contract price, as a contingency reserve or otherwise.

(d) The contract price shall be decreased by the amount of any after-relieved Federal tax.

(e) The contract price shall be decreased by the amount of any Federal excise tax or duty, except social security or other employment taxes, that the Contractor is required to pay or bear, or does not obtain a refund of, through the Contractor's fault, negligence, or failure to follow instructions of the Contracting Officer.

(f) No adjustment shall be made in the contract price under this clause unless the amount of the adjustment exceeds \$250.

(g) The Contractor shall promptly notify the Contracting Officer of all matters relating to any Federal excise tax or duty that reasonably may be expected to result in either an increase or decrease in the contract price and shall take appropriate action as the Contracting Officer directs.

(h) The Government shall, without liability, furnish evidence appropriate to establish exemption from any Federal, State, or local tax when the Contractor requests such evidence and a reasonable basis exists to sustain the exemption.

(End of clause)

**DFARS 252.204-7012 SAFEGUARDING COVERED DEFENSE
INFORMATION AND CYBER INCIDENT REPORTING (DEVIATION 2024-
O0013, REVISION 1) (MAY 2024)**

(a) *Definitions.* As used in this clause—

“Adequate security” means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information.

“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

“Contractor attributional/proprietary information” means information that identifies the contractor(s), whether directly or indirectly, by the grouping of information that can be traced back to the contractor(s) (e.g., program description, facility locations), personally identifiable information, as well as trade secrets, commercial or financial information, or other commercially sensitive information that is not customarily shared outside of the company.

“Controlled technical information” means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

“Covered contractor information system” means an unclassified information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information.

“Covered defense information” means unclassified controlled technical information or other information, as described in the Controlled Unclassified Information (CUI) Registry at <http://www.archives.gov/cui/registry/category-list.html>, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies, and is—

- (1) Marked or otherwise identified in the contract, task order, or delivery order and provided to the contractor by or on behalf of DoD in support of the performance of the contract; or
- (2) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract.

“Cyber incident” means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

“Forensic analysis” means the practice of gathering, retaining, and analyzing computer-related data for investigative purposes in a manner that maintains the integrity of the data.

“Information system” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

“Malicious software” means computer software or firmware intended to perform an unauthorized process that will have adverse impact on the confidentiality, integrity, or availability of an information system. This definition includes a virus, worm, Trojan horse, or other code-based entity that infects a host, as well as spyware and some forms of adware.

“Media” means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which covered defense information is recorded, stored, or printed within a covered contractor information system.

“Operationally critical support” means supplies or services designated by the Government as critical for airlift, sealift, intermodal transportation services, or logistical support that is essential to the mobilization, deployment, or sustainment of the Armed Forces in a contingency operation.

“Rapidly report” means within 72 hours of discovery of any cyber incident.

“Technical information” means technical data or computer software, as those terms are defined in the clause at DFARS [252.227-7013](#), Rights in Technical Data—Other Than Commercial Products and Commercial Services, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) *Adequate security.* The Contractor shall provide adequate security on all covered contractor information systems. To provide adequate security, the Contractor shall implement, at a minimum, the following information security protections:

(1) For covered contractor information systems that are part of an Information Technology (IT) service or system operated on behalf of the Government, the following security requirements apply:

(i) Cloud computing services shall be subject to the security requirements specified in the clause [252.239-7010](#), Cloud Computing Services, of this contract.

(ii) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract.

(2) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1) of this clause, the following security requirements apply:

(i) Except as provided in paragraph (b)(2)(ii) of this clause, the covered contractor information system shall be subject to the security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations” (available via the internet at <http://dx.doi.org/10.6028/NIST.SP.800-171>) in effect at the time the solicitation is issued or as authorized by the Contracting Officer.

(ii)(A) The Contractor shall implement NIST SP 800-171, as soon as practical, but not later than December 31, 2017. For all contracts awarded prior to October 1, 2017, the Contractor shall notify the DoD Chief Information Officer (CIO), via email at osd.dibcsia@mail.mil, within 30 days of contract award, of any security requirements specified by NIST SP 800-171 not implemented at the time of contract award.

(B) The Contractor shall submit requests to vary from NIST SP 800-171 in writing to the Contracting Officer, for consideration by the DoD CIO. The Contractor need not implement any security requirement adjudicated by an authorized representative of the DoD CIO to be nonapplicable or to have an alternative, but equally effective, security measure that may be implemented in its place.

(C) If the DoD CIO has previously adjudicated the contractor's requests indicating that a requirement is not applicable or that an alternative security measure is equally effective, a copy of that approval shall be provided to the Contracting Officer when requesting its recognition under this contract.

(D) If the Contractor intends to use an external cloud service provider to store, process, or transmit any covered defense information in performance of this contract, the Contractor shall require and ensure that the cloud service provider meets security requirements equivalent to those established by the Government for the Federal Risk and Authorization Management Program (FedRAMP) Moderate baseline (<https://www.fedramp.gov/resources/documents/>) and that the cloud service provider complies with requirements in paragraphs (c) through (g) of this clause for cyber incident reporting, malicious software, media preservation and protection, access to additional information and equipment necessary for forensic analysis, and cyber incident damage assessment.

(3) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraphs (b)(1) and (2) of this clause, may be required to provide adequate security in a dynamic environment or to accommodate special circumstances (e.g., medical devices) and any individual, isolated, or temporary deficiencies based on an assessed risk or vulnerability. These measures may be addressed in a system security plan.

(c) Cyber incident reporting requirement.

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor's ability to perform the requirements of the contract that are designated as operationally critical support and identified in the contract, the Contractor shall—

(i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other

information systems on the Contractor's network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor's ability to provide operationally critical support; and

(ii) Rapidly report cyber incidents to DoD at <https://dibnet.dod.mil>.

(2) *Cyber incident report.* The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at <https://dibnet.dod.mil>.

(3) *Medium assurance certificate requirement.* In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see <https://public.cyber.mil/eca/>.

(d) *Malicious software.* When the Contractor or subcontractors discover and isolate malicious software in connection with a reported cyber incident, submit the malicious software to DoD Cyber Crime Center (DC3) in accordance with instructions provided by DC3 or the Contracting Officer. Do not send the malicious software to the Contracting Officer.

(e) *Media preservation and protection.* When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(f) *Access to additional information or equipment necessary for forensic analysis.* Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

(g) *Cyber incident damage assessment activities.* If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.

(h) *DoD safeguarding and use of contractor attributional/proprietary information.* The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released.

(i) *Use and release of contractor attributional/proprietary information not created by or for DoD.* Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD—

- (1) To entities with missions that may be affected by such information;
- (2) To entities that may be called upon to assist in the diagnosis, detection, or mitigation of cyber incidents;
- (3) To Government entities that conduct counterintelligence or law enforcement investigations;
- (4) For national security purposes, including cyber situational awareness and defense purposes (including with Defense Industrial Base (DIB) participants in the program at 32 CFR part 236); or
- (5) To a support services contractor (“recipient”) that is directly supporting Government activities under a contract that includes the clause at [252.204-7009](#), Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.

(j) *Use and release of contractor attributional/proprietary information created by or for DoD.* Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government’s use and release of such information.

(k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data.

(l) *Other safeguarding or reporting requirements.* The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor’s responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements.

(m) *Subcontracts.* The Contractor shall—

- (1) Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve covered defense information, including subcontracts for commercial products or commercial services, without alteration, except to identify the parties. The Contractor shall determine if the information required for

subcontractor performance retains its identity as covered defense information and will require protection under this clause, and, if necessary, consult with the Contracting Officer; and

(2) Require subcontractors to—

(i) Notify the prime Contractor (or next higher-tier subcontractor) when submitting a request to vary from a NIST SP 800-171 security requirement to the Contracting Officer, in accordance with paragraph (b)(2)(ii)(B) of this clause; and

(ii) Provide the incident report number, automatically assigned by DoD, to the prime Contractor (or next higher-tier subcontractor) as soon as practicable, when reporting a cyber incident to DoD as required in paragraph (c) of this clause.

(End of clause)

DFARS 252.204-7015 NOTICE OF AUTHORIZED DISCLOSURE OF INFORMATION TO LITIGATION SUPPORT (JAN 2023)

DFARS 252.204-7018 PROHIBITION ON THE ACQUISITION OF COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES (JAN 2023)

(a) *Definitions.* As used in this clause—

“Covered defense telecommunications equipment or services” means—

(1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation, or any subsidiary or affiliate of such entities;

(2) Telecommunications services provided by such entities or using such equipment; or

(3) Telecommunications equipment or services produced or provided by an entity that the Secretary of Defense reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

“Covered foreign country” means—

(1) The People’s Republic of China; or

(2) The Russian Federation. “Covered missions” means—

(1) The nuclear deterrence mission of DoD, including with respect to nuclear command, control, and communications, integrated tactical warning and attack assessment, and continuity of Government; or

(2) The homeland defense mission of DoD, including with respect to ballistic missile defense. “Critical technology” means—

- (1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;
- (2) Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled—
 - (i) Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons proliferation, nuclear nonproliferation, or missile technology; or
 - (ii) For reasons relating to regional stability or surreptitious listening;
- (3) Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);
- (4) Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);
- (5) Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part 73 of title 42 of such Code; or
- (6) Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

“Substantial or essential component” means any component necessary for the proper function or performance of a piece of equipment, system, or service.

(b) *Prohibition.* In accordance with section 1656 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91), the contractor shall not provide to the Government any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless the covered defense telecommunication equipment or services are covered by a waiver described in Defense Federal Acquisition Regulation Supplement [204.2104](#).

(c) *Procedures.* The Contractor shall review the list of excluded parties in the System for Award Management (SAM) at <https://www.sam.gov> for entities that are excluded when providing any equipment, system, or service, to carry out covered missions, that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless a waiver is granted.

(d) *Reporting.*

(1) In the event the Contractor identifies covered defense telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, the Contractor shall report at <https://dibnet.dod.mil> the information in paragraph (d)(2) of this clause.

(2) The Contractor shall report the following information pursuant to paragraph (d)(1) of this clause:

(i) Within 3 business days from the date of such identification or notification: the contract number; the order number(s), if applicable; supplier name; brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 30 business days of submitting the information in paragraph (d)(2)(i) of this clause: any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of a covered defense telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) *Subcontracts*. The Contractor shall insert the substance of this clause, including this paragraph (e), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial products or commercial services.

(End of clause)

DFARS 252.204-7021 CONTRACTOR COMPLIANCE WITH THE CYBERSECURITY MATURITY MODEL CERTIFICATION LEVEL REQUIREMENTS (NOV 2025)

(a) *Definitions*. As used in this clause—

“Controlled unclassified information” means information the Government creates or possesses, or information an entity creates or possesses for or on behalf of the Government, that a law, regulation, or Governmentwide policy requires or permits an agency to handle using safeguarding or dissemination controls (32 CFR 2002.4(h)).

“Current” means—

(1) With regard to Conditional Cybersecurity Maturity Model Certification (CMMC) Status—

(i) Not older than 180 days for Conditional Level 2 (Self) assessments and Conditional Level 2

(certified third-party assessment organization (C3PAO)) assessments, with—

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Conditional CMMC Status date (see 32 CFR 170.16 and 170.17); and

(B) A corresponding affirmation of continuous compliance by an affirming official (see 32 CFR 170.4); and

(ii) Not older than 180 days for Conditional Level 3 (Defense Industrial Base Cybersecurity Assessment Center (DIBCAC)) assessments, with—

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Conditional CMMC Status date (see 32 CFR 170.18); and

(B) A corresponding affirmation of continuous compliance by an affirming official;

(2) With regard to Final CMMC Status—

(i) Not older than 1 year for Final Level 1 (Self), with—

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Final CMMC Status date (see 32 CFR 170.15); and

(B) A corresponding affirmation of continuous compliance, not older than 1 year, by an affirming official;

(ii) Not older than 3 years for Final Level 2 (Self) assessments and Final Level 2 (C3PAO) assessments, with—

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Final CMMC Status date (see 32 CFR 170.16 and 170.17); and

(B) A corresponding affirmation of continuous compliance, not older than 1 year, by an affirming official; and

(iii) Not older than 3 years for Final Level 3 (DIBCAC) assessments, with—

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Final CMMC Status date (see 32 CFR 170.18); and

(B) A corresponding affirmation of continuous compliance, not older than 1 year, by an affirming official; and

(3) With regard to affirmation of continuous compliance (32 CFR 170.22), not older than 1 year with no changes in compliance with the requirements at 32 CFR part 170.

“Cybersecurity Maturity Model Certification (CMMC) status” means the result of meeting or exceeding the minimum required score for the corresponding assessment. The potential statuses are as follows:

(1) Final Level 1 (Self).

(2) Conditional Level 2 (Self).

(3) Final Level 2 (Self).

(4) Conditional Level 2 (C3PAO).

(5) Final Level 2 (C3PAO).

(6) Conditional Level 3 (DIBCAC).

(7) Final Level 3 (DIBCAC).

“Cybersecurity Maturity Model Certification unique identifier (CMMC UID)” means 10 alpha-numeric characters assigned to each CMMC assessment and reflected in the Supplier Performance Risk System (SPRS) for each contractor information system.

“Federal contract information (FCI)” means information, not intended for public release, that is provided by or generated for the Government under a contract to develop or deliver a product or service to the Government. It does not include information provided by the Government to the public, such as on public websites, or simple transactional information, such as information necessary to process payments.

“Plan of action and milestones” means a document that identifies tasks to be accomplished. It details resources required to accomplish the elements of the plan, any milestones in meeting the tasks, and scheduled completion dates for the milestones, as defined in National Institute of Standards and Technology Special Publication 800-115 (32 CFR 170.21).

(b) *Framework*. The Cybersecurity Maturity Model Certification (CMMC) is a framework for assessing a contractor’s compliance with applicable information security protections (see 32 CFR part 170).

(c) *Duplication*. The CMMC assessments will not duplicate efforts from any other comparable DoD assessment, except for rare circumstances when a reassessment may be necessary, for example, when there are indications of issues with cybersecurity and/or compliance with CMMC requirements.

(d) *Requirements*. The Contractor shall—

(1)(i) Have and maintain for the duration of the contract a current CMMC status at the following CMMC level, or higher: **CMMC Level 1 (Self)** for all information systems used in performance of the contract, task order, or delivery order that process, store, or transmit FCI or CUI; and

(ii) Consult 32 CFR 170.23 related to the flowdown of the CMMC requirements, and flow down the correct CMMC level to subcontracts and other contractual instruments;

(2) Only process, store, or transmit FCI or CUI on contractor information systems that have a CMMC status at the CMMC level required in paragraph (d)(1) of this clause, or higher;

(3) Complete on an annual basis, and maintain as current, an affirmation, by the affirming official (see 32 CFR 170.4), of continuous compliance with the requirements associated with the CMMC level required in paragraph (d)(1) of this clause in the Supplier Performance Risk System (SPRS) (<https://piee.eb.mil>) for each CMMC UID applicable to each of the contractor information systems that process, store, or transmit FCI or CUI and that are used in performance of the contract;

(4) Ensure all subcontractors and suppliers complete prior to subcontract award, and

maintain on an annual basis, an affirmation, by the affirming official (see 32 CFR 170.4), of continuous compliance with the requirements associated with the CMMC level required for the subcontract or other contractual instrument for each of the subcontractor information systems that process, store, or transmit FCI or CUI and that are used in performance of the subcontract; and

(5) If the Contractor has a CMMC Status of Conditional, successfully close out a valid plan of action and milestones (32 CFR 170.21) to achieve a CMMC Status of Final.

(e) *Reporting*. The Contractor shall—

(1) Submit to the Contracting Officer—

(i) The CMMC UID(s) issued by SPRS for contractor information systems that will process, store, or transmit FCI or CUI during performance of the contract; and

(ii) Any changes in the CMMC UIDs generated in SPRS throughout the life of the contract, task order, or delivery order, if applicable;

(2) Enter into SPRS the results of a current self-assessment for each CMMC UID, not covered by a C3PAO assessment or DIBCAC assessment, applicable to each of the contractor information systems that process, store, or transmit FCI or CUI and that are used in performance of the contract; and

(3) Complete in SPRS on an annual basis and maintain as current an affirmation of continuous compliance by the affirming official (see 32 CFR 170.4) for each self-assessment, C3PAO assessment, or DIBCAC assessment required under the contract in SPRS.

(f) *Subcontracts*. The Contractor shall—

(1) Insert the substance of this clause, including this paragraph (f) and excluding paragraph (e)(1), in subcontracts and other contractual instruments, including those for the acquisition of commercial products or commercial services, excluding commercially available off-the-shelf items, if the subcontract or other contractual instrument will contain a requirement to process, store, or transmit FCI or CUI; and

(2) Prior to awarding a subcontract or other contractual instrument, ensure that the subcontractor has a current CMMC certificate or current CMMC status at the CMMC level that is appropriate for the information that is being flowed down to the subcontractor based on the requirements at 32 CFR 170.23.

(End of clause)

DFARS 252.204-7025 NOTICE OF CYBERSECURITY MATURITY MODEL CERTIFICATION LEVEL REQUIREMENTS (NOV 2025)

(a) *Definitions*. As used in this provision, “controlled unclassified information (CUI),” “current,” “Cybersecurity Maturity Model Certification (CMMC) status,” “Cybersecurity Maturity Model Certification unique identifier (CMMC UID),” “Federal contract information (FCI),” and “plan of action and milestones” have the meaning given in the Defense Federal Acquisition Regulation Supplement [252.204-7021](#), Contractor Compliance With the Cybersecurity Maturity Model Certification Level Requirements, clause of this solicitation.

(b)(1) *Cybersecurity Maturity Model Certification (CMMC) level*. The CMMC level required by this solicitation is: **CMMC Level 1 (Self)**. This CMMC level, or higher (see 32 CFR part 170), is required prior to award for each contractor information system that will process, store, or transmit Federal contract information (FCI) or controlled unclassified information (CUI) during performance of the contract.

(2) The Offeror will not be eligible for award of a contract, task order, or delivery order resulting from this solicitation if the Offeror does not have, for each of the contractor information

systems that will process, store, or transmit FCI or CUI and that will be used in performance of a contract resulting from this solicitation—

- (i) The current CMMC status entered in the Supplier Performance Risk System (SPRS)

<https://piee.eb.mil>) at the CMMC level required by paragraph (b)(1) of this provision; and

- (ii) A current affirmation of continuous compliance with the security requirements identified at 32 CFR part 170 in SPRS.

(c) *Plan of action and milestones.* If the Offeror has a CMMC Status of Conditional, the Offeror shall successfully close out a valid plan of action and milestones (32 CFR 170.21) to achieve a CMMC Status of Final.

(d) *CMMC unique identifiers.* The Offeror shall provide, in the proposal, the CMMC unique identifier(s) (CMMC UIDs) issued by SPRS for each contractor information system that will process, store, or transmit FCI or CUI during performance of a contract, task order, or delivery order resulting from this solicitation. The Offeror also shall update the list when new CMMC UIDs are generated in SPRS. The CMMC UIDs are provided in SPRS after the Offeror enters the results of self-assessment(s) for each such information system.

(End of provision)

252.225-7056 PROHIBITION REGARDING BUSINESS OPERATIONS WITH THE MADURO REGIME (JAN 2023)

- (a) Definitions. As used in this clause—

Agency or instrumentality of the government of Venezuela means an agency or instrumentality of a foreign state as defined in 28 U.S.C. 1603(b), with each reference in section 1603(b) to a foreign state deemed to be a reference to Venezuela.

Business operations means engaging in commerce in any form, including acquiring, developing, maintaining, owning, selling, possessing, leasing, or operating equipment, facilities, personnel, products, services, personal property, real property, or any other apparatus of business or commerce.

Government of Venezuela means the government of any political subdivision of Venezuela, and any agency or instrumentality of the government of Venezuela.

Person means—

(1) A natural person, corporation, company, business association, partnership, society, trust, or any other nongovernmental entity, organization, or group;

(2) Any governmental entity or instrumentality of a government, including a multilateral development institution (as defined in section 1701(c)(3) of the International Financial Institutions Act (22 U.S.C. 262r(c)(3)); and

(3) Any successor, subunit, parent entity, or subsidiary of, or any entity under common ownership or control with, any entity described in paragraph (1) or (2) of this definition.

(b) Prohibition. In accordance with section 890 of the National Defense Authorization Act for Fiscal Year 2020 (Pub. L. 116-92), DoD is prohibited from entering into a contract for the procurement of products or services with any person that has business operations with an authority of the government of Venezuela that is not recognized as the legitimate government of Venezuela by the U.S. Government, unless the person has a valid license to operate in Venezuela issued by the Office of Foreign Assets Control of the Department of the Treasury.

(c) The Contractor shall—

(1) Not have any business operations with an authority of the Maduro regime or the government of Venezuela that is not recognized as the legitimate government of Venezuela by the U.S. Government; or

(2) Have a valid license to operate in Venezuela issued by the Office of Foreign Assets Control of the Department of the Treasury.

(d) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (d), in all subcontracts, including subcontracts for the acquisition of commercial products.

(End of clause)

DFARS 252.225-7967 PROHIBITION REGARDING RUSSIAN FOSSIL FUEL OPERATIONS (DEVIATION 2024- O0006, REVISION 1) (FEB 2024)

(a) Definitions. As used in this clause—

“*Business operations*” means knowingly engaging in commerce in any form, including acquiring, developing, maintaining, owning, selling, possessing, leasing, or operating equipment, facilities, personnel, products, services, personal property, real property, or any other known apparatus of business or commerce. The term does not include—

(1) Any shipment subject to price caps as specified in the—

Prohibition on Contracting with Russian Energy Fossil Fuel and Fossil Fuel Business Operations

(i) “Statement of the G7 and Australia on a Price Cap for Seaborne Russian-Origin Crude Oil”, issued on December 2, 2022, between member countries of that coalition; or

(ii) “Statement of the G7 and Australia on Price Caps for Seaborne Russian-Origin Petroleum Products Berlin, Brussels, Canberra, London, Ottawa, Paris, Rome, Tokyo, Washington”, issued on February 4, 2023, between such members, if such shipment complies with the applicable price caps; or

(A) Actions taken for the benefit of the country of Ukraine, as determined by the Secretary; or

(B) Actions taken to support the suspension or termination of business operations for commercial activities during the period beginning on the effective date and ending on December 31, 2029, including—

(1) Any action to secure or divest from facilities, property, or equipment;

(2) The provision of products or services provided to reduce or eliminate operations in territory internationally recognized as the Russian Federation or to comply with sanctions relating to the Russian Federation; and;

(3) Activities that are incident to liquidating, dissolving, or winding down a subsidiary or legal entity in Russia.

Fossil fuel company means an entity or individual that—

(1) Carries out oil, gas, or coal exploration, development, or production activities;

(2) Processes or refines oil, gas, or coal; or

(3) Transports, or constructs facilities for the transportation of, Russian oil, gas, or coal.

(b) *Prohibition.* In accordance with section 804 of the National Defense Authorization Act for Fiscal Year 2024 (Pub. L. 118-31), the Contractor is prohibited from entering into a subcontract or other contractual instrument for the procurement of products or services with any entity or individual that is known to be, or that is known to have fossil fuel business operations with an entity or individual that is, not less than 50 percent owned, individually or collectively, by—

(1) An authority of the government of the Russian Federation; or
 (2) A fossil fuel company that operates in the Russian Federation, except if the fossil fuel company transports oil or gas—

(i) Through the Russian Federation for sale outside of the Russian Federation; and
 Prohibition on Contracting with Russian Energy Fossil Fuel and Fossil Fuel Business Operations
 (ii) That was extracted from a country other than the Russian Federation with respect to the energy sector of which the President has not imposed sanctions as of the date on which the contract is awarded.
 (c) *Subcontracts.* The Contractor shall insert the substance of this clause, including this paragraph (c), in all subcontracts and other contractual instruments, including those for the acquisition of commercial products or commercial services.

(End of clause)

DFARS 252.225-7972 PROHIBITION ON THE PROCUREMENT OF FOREIGN-MADE UNMANNED AIRCRAFT SYSTEMS (MAY 2020) (DEVIATION 2020-O0015)

(a) *Prohibition.* In accordance with section 848 of the National Defense Authorization Act for Fiscal Year 2020, the Contractor shall not provide or use in the performance of this contract—

(1) An unmanned aircraft system (UAS), or any related services or equipment, that—
 (i) Is manufactured in the People's Republic of China or by an entity domiciled in the People's Republic of China;

(ii) Uses flight controllers, radios, data transmission devices, cameras, or gimbals manufactured in the People's Republic of China or by an entity domiciled in the People's Republic of China;

(iii) Uses a ground control system or operating software developed in the People's Republic of China or by an entity domiciled in the People's Republic of China; or

(iv) Uses network connectivity or data storage located in, or administered by an entity domiciled in, the People's Republic of China; or

(2) A system for the detection or identification of a UAS, or any related services or equipment, that is manufactured—

(i) In the People's Republic of China; or

(ii) By an entity domiciled in the People's Republic of China.

(b) *Subcontracts.* The Contractor shall insert the substance of this clause, including this paragraph (b), in all subcontracts or other contractual instruments, including subcontracts for the acquisition of commercial items.

(End of clause)

**DFARS 252.247-7003 PASS-THROUGH OF MOTOR CARRIER FUEL SURCHARGE
ADJUSTMENT TO THE COST BEARER (JAN 2023)**

(a) This clause implements section 884 of the National Defense Authorization Act for Fiscal Year 2009 (Pub. L. 110-417).

(b) Unless an exception is authorized by the Contracting Officer, the Contractor shall pass through any motor carrier fuel-related surcharge adjustments to the person, corporation, or entity that directly bears the cost of fuel for shipment(s) transported under this contract.

(c) *Subcontracts*. The Contractor shall insert the substance of this clause, including this paragraph (c), in all subcontracts, including subcontracts for commercial products or commercial services, with motor carriers, brokers, or freight forwarders.

(End of clause)

**DLAD 5452.233-9001 DISPUTES – AGREEMENT TO USE ALTERNATIVE DISPUTE
RESOLUTION (ADR) (DLAD, JUN 2020)**

**PROCUREMENT NOTE C02 MANUFACTURING PHASE-OUT OR DISCONTINUATION OF
PRODUCTION, DIMINISHING SOURCES, AND OBSOLETE MATERIALS OR
COMPONENTS (DEC 2016)**

The contractor shall notify the contracting officer immediately upon determining the unavailability of obsolete materials or components. The contractor may recommend a solution to include the impact on the contract price and delivery. The contractor shall not initiate any item redesign or incur any additional costs without the express, written authorization of the contracting officer. In the event that manufacturing phase-out or discontinuance of production of such items is contemplated, the contractor is required to notify the contracting officer and publish the discontinuance in the Government- Industry Data Exchange Program (GIDEP), where feasible; and to provide immediate advance notice of production phase-out to DLA DMSMS at dscs.dmsms@dla.mil.

**PROCUREMENT NOTE C03 CONTRACTOR RETENTION OF SUPPLY CHAIN
TRACEABILITY DOCUMENTATION (JUN 2023)**

(1) By submitting a quotation or offer, the contractor, if it is not the manufacturer of the item, is confirming it currently has, or will obtain before delivery, and shall retain documented evidence (supply chain traceability documentation), as described in paragraph (2) of this procurement note, demonstrating the item is from the approved manufacturer and conforms to the technical requirements.

(2) At a minimum, the supply chain traceability documentation for the item shall include: basic item description, part number and/or national stock number, manufacturing source, manufacturing source's Commercial and Government Entity (CAGE) code, and clear identification of the name and location of all supply chain intermediaries between the manufacturer to the contractor to item(s) acceptance by the Government. The documentation should also include, if available, the manufacturer's batch identification for the item(s), such as date codes, lot codes, or serial numbers. In addition, the contractor will obtain and supply any quality requirements necessary to prove the material meets the technical description. Evidence

of quality consist of test results, material certifications, and manufacturing process sheets, identified by the technical data.

(3) Contractors can find examples of acceptable supply chain traceability documentation at the Counterfeit Detection and Avoidance Program (CDAP) website

([http://www.dla.mil/LandandMaritime/Business/Selling/Counterfeit-Detection-Avoidance- Program/](http://www.dla.mil/LandandMaritime/Business/Selling/Counterfeit-Detection-Avoidance-Program/)).

(4) The contractor shall immediately make documentation available to the contracting officer upon request. The contracting officer determines the acceptability and sufficiency of documentation. The contractor shall retain supply chain traceability documentation for six years after final payment under this contract for audit and other valid government purposes. If the contractor fails to retain or provide the documentation, or the contracting officer finds the documentation to be unacceptable, the contracting officer may take corrective action, including, but not limited to, cancellation of undelivered orders or rejection of delivered supplies.

PROCUREMENT NOTE E05 PRODUCT VERIFICATION TESTING (MAY 2020)

(1) Product verification testing (PVT) under this procurement note will only apply when the contracting officer specifically invokes it in writing. The contracting officer may invoke PVT at or after contract award. If the contracting officer invokes PVT at contract award, the contract will explicitly state this testing requirement. If the contracting officer invokes PVT after contract the contractor and the cognizant DCMA ACO. The Government will perform PVT testing at a Government-designated testing laboratory.

(2) The contractor shall not ship or deliver any material until it receives notification of the acceptable PVT results, unless the contracting officer directs it to do so in writing. The Government will provide the PVT results to the contractor within 20 business days after receipt at the Government testing facility, unless the Government specifies otherwise in writing.

(3) The contractor shall provide and maintain an inspection system acceptable to the Government in accordance with FAR Clause 52.246-2 or 52.246- 3; and maintain and make available all records evidencing those details if requested by the Government. When the Government finds evidence of risk associated with the contractor's sampling process, the Government may witness and evaluate the contractors sampling process. The contractor shall randomly select samples from the production lot(s), unless the contracting officer specifies otherwise in writing. The contractor shall ship the selected PVT samples with a copy of the system of record receiving report (i.e., WAWF, DD Form 250, or commercial shipping document) and the contractor's signed DD Form 1222. The contractor shall prepare the shipping container(s) by marking the external packages in bold letters, "Product Verification Test Samples– Do Not Post to Stock," Contract Number [contractor insert] and Lot/Item Number [contractor insert]" adjacent to the MIL-STD-129 (latest revision) identification markings. The contractor shall use a hard copy of the system of record receiving report as a packing list, in accordance with DFARS Appendix F. The contractor shall mark the exterior of the shipping container in accordance with MIL-STD- 129 (latest revision), paragraph 5.11. The contractor shall send samples by traceable means (e.g., certified or registered mail, United Parcel Service, Federal Express). The contractor shall include the following in the interior package:

- (a) Hard copies of the contract;
- (b) Material certifications/process operation sheets; and
- (c) Drawings used to manufacture the units and return shipping information.

(4) The Government will return samples that pass testing and are not destroyed during evaluation to the

contractor at the Government's expense for the contractor to include as part of the total contract quantity to be delivered under the contract. The contractor and Government may agree to dispose of samples not destroyed when the cost of the item does not justify the shipping expense. If the Government does not return approved samples that pass testing to the contractor, the Government will consider those samples as part of the contract quantity for payment and delivery.

(5) If samples fail testing, the Government may reject the entire contract lot from which the contractor took the samples. The Government may, at its discretion, retain samples that fail testing without obligation to the contractor.

PROCUREMENT NOTE L06 Agency Protests (DEC 2016)

Interested parties may file an agency level protest with the contracting officer or may request an independent review by the chief of the contracting office (CCO). Independent review by the CCO is an alternative to consideration by the contracting officer and is not available as an appellate review of a contracting officer decision on a protest previously filed with the contracting officer. Absent a clear indication of the intent to file an agency level protest with the CCO for independent review, protests will be presumed to be protests to the contracting officer.

FAR 52.237-2 Protection of Government Buildings, Equipment, and Vegetation (Apr 1984)

The Contractor shall use reasonable care to avoid damaging existing buildings, equipment, and vegetation on the Government installation. If the Contractor's failure to use reasonable care causes damage to any of this property, the Contractor shall replace or repair the damage at no expense to the Government as the Contracting Officer directs. If the Contractor fails or refuses to make such repair or replacement, the Contractor shall be liable for the cost, which may be deducted from the contract price.

I 1 SUPPLEMENT: DEFINITIONS

As used throughout this contract, the following terms shall have the meanings set forth below:

(a) **Quality Assurance Representative (QAR)** is a Government Representative authorized to represent the Contracting Officer to assure the Contractor complies with the contractual requirements in furnishing petroleum products and services.

(b) **Ordering Officer** means the Contracting Officer or their designated representatives as applicable.

(c) **Delivery Modes** and corresponding acronyms are:

K means Tanker,

S means Shallow Draft Tanker,

B means Barge,

T means Truck,

P means Pipeline,

C means Railcar, and

V means Seavan (also referred to as "ISO Container")

(d) **Supplies** means all property, except land and interests in land, that is clearly identifiable for

eventual use by or owned by the DoD at the time of transportation by sea. An item is clearly identifiable for eventual use by the DoD if, for example, the contract documentation contains a reference to a DoD contract number or a military destination.

(e) **Acceptance** means the act of an authorized Representative of the Government by which the Government, for itself, or as an agent of another, assumes ownership of existing identified supplies tendered or approves specific services rendered, as partial or complete performance of the contract.

(i) **For f.o.b. origin delivery** acceptance occurs when the Government QAR signs the Material Inspection and Receiving Report (DD Form 250 series document).

(ii) **For f.o.b. destination delivery**, acceptance occurs when the authorized Government Representative signs the DD Form 250 series document or the contractor's shipping document.

(f) **Calibration** means the comparison of a measurement system or device of unverified accuracy to a measurement system or device of known or greater accuracy to detect and correct any deviation from required performance specifications of the unverified measurement system or device.

(g) The terms **isolated system** and **segregated system** mean a system that has a positive separation from other systems in a tank farm through the means of blind flanges, locked double-block and bleed type valves, etc.

(h) **Dedicated system** means a system that is self-contained and for the exclusive use of a particular product.

(i) **Common system** means a system that usually utilizes a manifold or pipeline that handles more than one product exclusively.

(End of Supplement)

I 2 SUPPLEMENT: DELIVERY-ORDER LIMITATIONS (BULK)

(a) The Government agrees to purchase, during the period of this contract and in accordance with the terms of this contract, at least a quantity (or quantities) of product that, under the contract terms, will be not less than 75 percent of the total estimated contract volume. Total estimated contract volume shall take into account all modifications to the contract. The Government may satisfy this obligation by purchasing against any or all of the contract line items.

(b) Except as authorized by paragraphs (c) through (d) below, the maximum quantity the Government is allowed to purchase and the Contractor is authorized to furnish will not exceed the total quantity of each grade of fuel specified in section B of the contract.

(c) If under a single solicitation, contract line items are not all awarded at the same time, then for purposes of this Supplement, the above mentioned total estimated contract volume shall be that of the contract after award has been made of all items and modifications to the contract have been issued.

(d) Notwithstanding the wording of the INDEFINITE QUANTITY Supplement--

(1) On the final order placed for each product from each line item, the Government shall be entitled to order, and if ordered, the Contractor shall be required to furnish the ordered quantity, which may exceed the quantity the Government would otherwise be entitled to order and is considered sufficient

to fill out the applicable mode of delivery or the maximum parcel size set by the applicable carrier or International agreement.. However, in no event shall this additional quantity exceed the maximum parcel sizes as defined in the contract unless agreed to by the Contractor.

(2) If requested by the Government, the Contractor may, at its option, make deliveries subsequent to 30 days after the expiration of the ordering period.

SECTION K – REPRESENTATIONS, CERTIFICATIONS AND STATEMENTS

FAR 52.203-11 CERTIFICATION AND DISCLOSURE REGARDING PAYMENTS TO INFLUENCE CERTAIN FEDERAL TRANSACTIONS (SEPT 2024)

(a) Definitions. As used in this provision-"Lobbying contact" has the meaning provided at 2 U.S.C. 1602(8). The terms "agency," "influencing or attempting to influence," "officer or employee of an agency," "person," "reasonable compensation," and "regularly employed" are defined in the FAR clause of this solicitation entitled "Limitation on Payments to Influence Certain Federal Transactions" (52.203-12).

(b) Prohibition. The prohibition and exceptions contained in the FAR clause of this solicitation entitled "Limitation on Payments to Influence Certain Federal Transactions" (52.203- 12) are hereby incorporated by reference in this provision.

(c) (Certification. The offeror, by signing its offer, hereby certifies to the best of its knowledge and belief that no Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on its behalf in connection with the awarding of this contract.

(d) Disclosure. If any registrants under the Lobbying Disclosure Act of 1995 have made a lobbying contact on behalf of the offeror with respect to this contract, the offeror shall complete and submit, with its offer, OMB Standard Form LLL, Disclosure of Lobbying Activities, to provide the name of the registrants. The offeror need not report regularly employed officers or employees of the offeror to whom payments of reasonable compensation were made.

(e) Penalty. Submission of this certification and disclosure is a prerequisite for making or entering into this contract imposed by 31 U.S.C. 1352. Any person who makes an expenditure prohibited under this provision or who fails to file or amend the disclosure required to be filed or amended by this provision, shall be subject to a civil penalty of not less than \$10,000, and not more than \$100,000, for each such failure.

(End of Provision)

DFARS 252.203-7005 REPRESENTATION RELATING TO COMPENSATION OF FORMER DOD OFFICIALS (SEP 2022)

(a) Definition. “Covered DoD official” is defined in the clause at 252.203-7000, Requirements Relating to Compensation of Former DoD Officials.

(b) By submission of this offer, the Offeror represents, to the best of its knowledge and belief, that all covered DoD officials employed by or otherwise receiving compensation from the Offeror, and who are expected to undertake activities on behalf of the Offeror for any resulting contract, are presently in compliance with all applicable post-employment restrictions, including those contained in 18 U.S.C. 207, 41 U.S.C. 2101-2107, 5 CFR part 2641, section 1045 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91), and Federal Acquisition Regulation 3.104-2.

(End of Provision)

DFARS 252.225-7055 REPRESENTATION REGARDING BUSINESS OPERATIONS WITH THE MADURO REGIME (MAY 2022)

(a) Definitions. As used in this provision—

Agency or instrumentality of the government of Venezuela, business operations, government of Venezuela, and person have the meaning given in the clause 252.225-7056, Prohibition Regarding Business Operations with the Maduro Regime, of this solicitation.

(b) Prohibition. In accordance with section 890 of the National Defense Authorization Act for Fiscal Year 2020 (Pub. L. 116-92), DoD is prohibited from entering into a contract for the procurement of products or services with any person that has business operations with an authority of the government of Venezuela that is not recognized as the legitimate government of Venezuela by the U.S. Government, unless the person has a valid license to operate in Venezuela issued by the Office of Foreign Assets Control of the Department of the Treasury.

(c) Representation. By submission of its offer, the Offeror represents that the Offeror is a person that—
 (1) Does not have any business operations with an authority of the Maduro regime or the government of Venezuela that is not recognized as the legitimate government of Venezuela by the U.S. Government; or
 (2) Has a valid license to operate in Venezuela issued by the Office of Foreign Assets Control of the Department of the Treasury.

(End of provision)

52.204-24 Representation Regarding Certain Telecommunications and Video Surveillance Services

or Equipment (Nov 2021)

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the Offeror has represented that it "does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument" in paragraph (c)(1) in the provision at 52.204-26, Covered Telecommunications Equipment or Services—Representation, or in paragraph (v)(2)(i) of the provision at 52.212-3, Offeror Representations and Certifications-Commercial Products or Commercial Services. The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it "does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services" in paragraph (c)(2) of the provision at 52.204-26, or in paragraph (v)(2)(ii) of the provision at 52.212-3.

(a) Definitions. As used in this provision—

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) Prohibition. (1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (<https://www.sam.gov>) for entities excluded from receiving federal awards for "covered telecommunications equipment or services".

(d) Representation. The Offeror represents that—

(1) It ☐ will, ☐ will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information required at paragraph (e)(1) of this section if the Offeror responds "will" in paragraph (d)(1) of this section; and

(2) After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that—

It ☐ does, ☐ does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds "does" in paragraph (d)(2) of this section.

(e) Disclosures. (1) Disclosure for the representation in paragraph (d)(1) of this provision. If the Offeror has responded "will" in the representation in paragraph (d)(1) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the original equipment manufacturer (OEM) or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(2) Disclosure for the representation in paragraph (d)(2) of this provision. If the Offeror has responded "does" in the representation in paragraph (d)(2) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique

entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the PSC of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(End of provision)

DFARS 252.204-7016 COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES— REPRESENTATION (DEC 2019)

DFARS 252.204-7017 PROHIBITION ON THE ACQUISITION OF COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES—REPRESENTATION (MAY 2021)

DFARS 252.219-7000 ADVANCING SMALL BUSINESS GROWTH (JUN 2023)

DFARS 252.225-7973 PROHIBITION ON THE PROCUREMENT OF FOREIGN-MADE UNMANNED AIRCRAFT SYSTEMS—REPRESENTATION (MAY 2020) (DEVIATION 2020-O0015)

(a) Prohibition. Section 848 of the National Defense Authorization Act for Fiscal Year 2020 (Pub. L. 116-92) prohibits DoD from using or procuring—

(1) An unmanned aircraft system (UAS), or any related services or equipment, that—

(i) Is manufactured in the People’s Republic of China or by an entity domiciled in the People’s Republic of China;

(ii) Uses flight controllers, radios, data transmission devices, cameras, or gimbals manufactured in the People’s Republic of China or by an entity domiciled in the People’s Republic of China;

(iii) Uses a ground control system or operating software developed in the People’s Republic of China or by an entity domiciled in the People’s Republic of China; or

(iv) Uses network connectivity or data storage located in, or administered by an entity domiciled in, the People’s Republic of China; or

(2) A system for the detection or identification of a UAS, or any related services or equipment, that is manufactured—

(i) In the People's Republic of China; or

(ii) By an entity domiciled in the People's Republic of China.

(b) Representations. By submission of its offer, the Offeror represents that it will not provide or use—

(1) A UAS, as described in paragraph (a)(1) of this provision, in the performance of any contract, subcontract, or other contractual instrument resulting from this solicitation; and

(2) A system for the detection or identification of a UAS, as described in paragraph (a)(2) of this provision, in the performance of any contract, subcontract, or other contractual instrument resulting from this solicitation.

(End of Provision)

DFARS 252.225-7966 PROHIBITION REGARDING RUSSIAN FOSSIL FUEL BUSINESS OPERATIONS— REPRESENTATION (DEVIATION 2024-O0006, REVISION 1) (MAR 2024)

(a) Definitions. The terms business operations and fossil fuel company have the meanings given in the 252.225-7067 clause of this solicitation.

(b) Representation. By submission of an offer, the Offeror represents it is not, or that it does not knowingly have fossil fuel business operations with an entity or individual that is, 50 percent or more owned, individually or collectively, by—

(1) An authority of the government of the Russian Federation; or

(2) A fossil fuel company that operates in the Russian Federation, except if the fossil fuel company transports oil or gas—

(i) Through the Russian Federation for sale outside of the Russian Federation; and

(ii) That was extracted from a country other than the Russian Federation with respect to the energy sector of which the President has not imposed sanctions as of the date on which the contract is awarded.

(End of Provision)

K1 SUPPLEMENT: RELEASE OF UNIT PRICES

(a) The Defense Logistics Agency Energy (DLA Energy) has routinely released the unit prices of successful and unsuccessful offerors to interested parties at the conclusion of the procurement. This information has been released in various formats, including abstracts of offers received, bid evaluation model reports, notices to unsuccessful offers, and other summary formats. Updated contract prices are also publicly posted on the DLA Energy website throughout the delivery period of some contracts. Offerors have not objected to DLA Energy's routine release or disclosure of these unit prices.

(b) DLA Energy will continue to release unit prices of successful offers after contract award pursuant to 10 U.S.C. 2305(g)(2), FAR 15.506(d)(2) and 32 CFR 286h-3.

(c) DLA Energy will continue to release unit prices of unsuccessful offers after contract award that are included in a Government document, such as the Bid Evaluation Model or other similar evaluation document, in accordance with DoD 5400.7-R (C5.2.8.2.).

OET SUBMISSION

SECTION L – INSTRUCTIONS, CONDITIONS AND NOTICES TO OFFERORS

FAR 52.212-1 INSTRUCTIONS TO OFFERORS – COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (SEP 2023)

(a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code(s) and small business size standard(s) for this acquisition appear elsewhere in the solicitation. However, the small business size standard for a concern that submits an offer, other than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition—

- (1) Is set aside for small business and has a value above the simplified acquisition threshold;
- (2) Uses the HUBZone price evaluation preference regardless of dollar value, unless the offeror waives the price evaluation preference; or
- (3) Is an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the [SF 1449](#), letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

- (1) The solicitation number;
- (2) The time specified in the solicitation for receipt of offers;
- (3) The name, address, and telephone number of the offeror;
- (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
- (5) Terms of any express warranty;
- (6) Price and any discount terms;
- (7) "Remit to" address, if different than mailing address;
- (8) A completed copy of the representations and certifications at Federal Acquisition Regulation (FAR) [52.212-3](#) (see FAR [52.212-3](#)(b) for those representations and certifications that the offeror shall complete electronically);
- (9) Acknowledgment of Solicitation Amendments;
- (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact

with telephone numbers and other relevant information); and

(11) If the offer is not submitted on the [SF 1449](#), include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with FAR [subpart 4.10](#)), or alternative commercial products or commercial services for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2) (i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and-

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.

(1) (i) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101–29, and copies of Federal specifications, standards, and product descriptions can be downloaded from the ASSIST website at <https://assist.dla.mil>.

(ii) If the General Services Administration, Department of Agriculture, or Department of Veterans Affairs issued this solicitation, a copy of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained from the address in paragraph (i)(1)(i) of this provision.

(2) Most unclassified Defense specifications and standards may be downloaded from the ASSIST website at <https://assist.dla.mil>.

(3) Defense documents not available from the ASSIST website may be requested from the Defense Standardization Program Office by—

(i) Using the ASSIST feedback module (<https://assist.dla.mil/feedback>); or

(ii) Contacting the Defense Standardization Program Office by telephone at 571–767–6688 or email at assisthelp@dlamail.

(4) Nongovernment (voluntary) standards must be obtained from the organization responsible for their preparation, publication, or maintenance.

(j) *Unique entity identifier.* (Applies to all offers that exceed the micro-purchase threshold, and offers at or below the micro-purchase threshold if the solicitation requires the Contractor to be registered in the System for Award Management (SAM).) The Offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "Unique Entity Identifier" followed by the unique entity identifier that identifies the Offeror's name and address. The Offeror also shall enter its Electronic Funds Transfer (EFT) indicator, if applicable. The EFT indicator is a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the Offeror to establish additional SAM records for identifying alternative EFT accounts (see FAR [subpart 32.11](#)) for the same entity. If the Offeror does not have a unique entity identifier, it should contact the entity designated at www.sam.gov for unique entity identifier establishment directly to obtain one. The Offeror should indicate that it is an offeror for a Government contract when contacting the entity designated at www.sam.gov for establishing the unique entity identifier.

(k) [Reserved]

(l) *Debriefing.* If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:

(1) The agency's evaluation of the significant weak or deficient factors in the debriefed offeror's offer.

(2) The overall evaluated cost or price and technical rating of the successful and the debriefed offeror and past performance information on the debriefed offeror.

(3) The overall ranking of all offerors, when any ranking was developed by the agency during source selection.

(4) A summary of the rationale for award;

(5) For acquisitions of commercial products, the make and model of the product to be delivered by the successful offeror.

(6) Reasonable responses to relevant questions posed by the debriefed offeror as to whether source selection procedures set forth in the solicitation, applicable regulations, and other applicable authorities were followed by the agency.

(End of provision)

ADDENDA TO FAR 52.212-1

(a) North American Industry Classification System (NAICS) code and small business size standard. In addition to the above, for NAICS code 324110 – To qualify as small for purposes of Government

procurement, the petroleum refiner, including its affiliates, must be a concern that has either no more than 1,500 employees or no more than 200,000 barrels per calendar day total Operable Atmospheric Crude Oil Distillation capacity. Capacity includes all domestic and foreign affiliates, all owned or leased facilities, and all facilities under a processing agreement or an arrangement such as an exchange agreement or a throughput. To qualify under the capacity size standard, the firm, together with its affiliates, must be primarily engaged in refining crude petroleum into refined petroleum products. A firm's "primary industry" is determined in accordance with 13 CFR § 121.107.

(b) Submission of offers. The following is hereby added:

(12) All price, quantity, delivery, and transportation terms as specified in the Offer Entry Tool and Offeror Submission Package.

(c) *Period of Acceptance.* Period of Acceptance shall be changed to **270 days.**

(g) Contract award. The following is hereby added: The Government may evaluate offers and award a contract after conducting discussions with offerors whose offers have been determined to be within the competitive range. If the Contracting Officer determines that the number of most highly rated offers that might otherwise be included in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of offers in the competitive range to the greatest number that will permit an efficient competition among the most highly rated offers. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint.

(End of Provision)

52.215-1 Instructions to Offerors-Competitive Acquisition – *Alternate I - DEVIATION* (FEB 2026)

(a) Definitions. As used in this provision-

In writing, writing, or written means any worded or numbered expression that can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.

Proposal modification is a change made to a proposal before the request for proposal closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.

Proposal revision is a change to material elements of a proposal made after the request for proposal closing date, at the request of or as allowed by a Contracting Officer, as the result of negotiations.

Time, if stated as a number of days, is calculated using calendar days, unless otherwise specified, and will include Saturdays, Sundays, and legal holidays. However, if the last day falls on a Saturday, Sunday, or legal holiday, then the period shall include the next working day.

(b) Amendments to requests for proposals. If this request for proposal (RFP) is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this RFP by the date and time specified in the amendment(s).

(c) Submission, modification, revision, and withdrawal of proposals.

(1)

(i) Proposals and modifications to proposals shall be—

(A) Submitted using the method and the format specified in the RFP;

(B) Addressed to the office specified in the RFP; and

(C) Showing the time and date specified for receipt, the RFP number, and the name and address of the offeror.

(ii) Offerors using commercial carriers should ensure that the proposal is marked on the outermost wrapper with the information in paragraphs (c)(1)(i)(B) and (C) of this provision.

(2) The first page of the proposal must show—

(i) The RFP number;

(ii) The name, address, and telephone number of the offeror (and electronic address if available);

(iii) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the RFP and agreement to furnish any or all items upon which prices are offered at the price set opposite each item;

(iv) Names, titles, and telephone number (and electronic addresses if available) of persons authorized to negotiate on the offeror's behalf with the Government in connection with this RFP; and

(v) Name, title, and signature of person authorized to sign the proposal. Proposals signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office.

(3)

(i) Offerors are responsible for submitting proposals, and any modifications or revisions, so as to reach the Government office designated in the RFP by the time specified in the RFP. If no time is specified in the RFP, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that proposal or revision is due.

(ii)

(A) Any proposal, modification, or revision received at the Government office designated in the RFP after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and-

(1) If it was transmitted through an electronic commerce method authorized by the RFP, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals; or

(2) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set

for receipt of offers; or

(3) It is the only proposal received.

(B) However, a late modification of an otherwise successful proposal that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(iii) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(iv) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the RFP, and urgent Government requirements preclude amendment of the RFP, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the RFP on the first work day on which normal Government processes resume.

(v) Proposals may be withdrawn by written notice received at any time before award. Oral proposals in response to oral RFPs may be withdrawn orally. Proposals may be withdrawn in person by an offeror or an authorized representative, if the identity of the person requesting withdrawal is established and the person signs a receipt for the proposal before award.

(4) Unless otherwise specified in the RFP, the offeror may propose to provide any item or combination of items.

(5) Offerors shall submit proposals in response to this RFP in English, unless otherwise permitted by the RFP, and in U.S. dollars, unless the provision at FAR 52.225-17, Evaluation of Foreign Currency Offers, is included in the RFP.

(6) Offerors may submit modifications to their proposals at any time before the RFP closing date and time, and may submit modifications in response to an amendment, or to correct a mistake at any time before award.

(7) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(8) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(d) Offer expiration date. Proposals in response to this RFP will be valid for the number of days specified on the RFP cover sheet (unless a different period is proposed by the offeror).

(e) Restriction on disclosure and use of data. Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall-

(1) Mark the title page with the following legend:

Mark the title page with the following legend: This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed—in whole or in part—for any

purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of, or in connection with, the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets [insert numbers or other identification of sheets]; and

(2) Mark each sheet of data it wishes to restrict with the following legend:

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

(f) Contract award.

(1) The Government intends to award a contract or contracts resulting from this RFP to the responsible offeror(s) whose proposal(s) represents the best value after evaluation in accordance with the factors and subfactors in the RFP.

(2) The Government may reject any or all proposals if such action is in the Government's interest.

(3) The Government may waive informalities and minor irregularities in proposals received.

(4) The Government intends to evaluate proposals and award a contract after conducting negotiations with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint.

(5) The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the proposal.

(6) The Government reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the Government's best interest to do so.

(7) The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.

(8) If a cost realism analysis is performed, cost realism may be considered by the source selection authority in evaluating performance or schedule risk.

(9) A written award or acceptance of proposal mailed or otherwise furnished to the successful offeror within the time specified in the proposal shall result in a binding contract without further action by either party.

(10) If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:

(i) The agency's evaluation of the significant weaknesses or deficiencies in the debriefed offeror's offer.

(ii) The overall evaluated cost or price and technical rating of the successful and the debriefed offeror and past performance information on the debriefed offeror.

(iii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection.

(iv) A summary of the rationale for award.

(v) For acquisitions of commercial products, the make and model of the product to be delivered by the successful offeror.

(vi) Reasonable responses to relevant questions posed by the debriefed offeror as to whether source-selection procedures set forth in the RFP, applicable regulations, and other applicable authorities were followed by the agency.

(vii) For DoD contracts in excess of \$10 million but not in excess of \$100 million with a small business or nontraditional defense contractor (10 U.S.C. 3014), an option for the contractor to request disclosure of the agency's written source selection decision document, redacted to protect the confidential and proprietary information of other offerors for the contract award.

(viii) For award of a DoD contract in excess of \$100 million, disclosure of the agency's written source selection decision document, redacted to protect the confidential and proprietary information of other offerors for the contract award.

(End of provision)

FAR 52.216-1 TYPE OF CONTRACT (APR 1984)

The Government contemplates award of a Fixed price with Economic Price Adjustment contract resulting from this solicitation.

(End of Provision)

FAR 52.204-6 Unique Entity Identifier (Oct 2016)

Electronic Funds Transfer (EFT) indicator means a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the commercial, nonprofit, or Government entity to establish additional System for Award Management records for identifying alternative EFT accounts (see subpart 32.11) for the same entity.

Unique entity identifier means a number or other identifier used to identify a specific commercial,

nonprofit, or Government entity. See www.sam.gov for the designated entity for establishing unique entity identifiers.

(b) The Offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "Unique Entity Identifier" followed by the unique entity identifier that identifies the Offeror's name and address exactly as stated in the offer. The Offeror also shall enter its EFT indicator, if applicable.

(c) If the Offeror does not have a unique entity identifier, it should contact the entity designated at www.sam.gov for establishment of the unique entity identifier directly to obtain one. The Offeror should be prepared to provide the following information:

- (1) Company legal business name.
- (2) Tradestyle, doing business, or other name by which your entity is commonly recognized.
- (3) Company physical street address, city, state and Zip Code.
- (4) Company mailing address, city, state and Zip Code (if separate from physical).
- (5) Company telephone number.
- (6) Date the company was started.
- (7) Number of employees at your location.
- (8) Chief executive officer/key manager.
- (9) Line of business (industry).
- (10) Company headquarters name and address (reporting relationship within your entity).

(End of provision)

FAR 52.222-56 CERTIFICATION REGARDING TRAFFICKING IN PERSONS COMPLIANCE PLAN (OCT 2020)

(a) The term "commercially available off-the-shelf (COTS) item," is defined in the clause of this solicitation entitled "Combating Trafficking in Persons" (FAR clause 52.222-50).

(b) The apparent successful Offeror shall submit, prior to award, a certification, as specified in paragraph of this provision, for the portion (if any) of the contract that-

(1) Is for supplies, other than commercially available off-the-shelf items, to be acquired outside the United States, or services to be performed outside the United States; and

(2) Has an estimated value that exceeds \$550,000.

(c) The certification shall state that-

(1) It has implemented a compliance plan to prevent any prohibited activities identified in paragraph (b) of the clause at 52.222-50, Combating Trafficking in Persons, and to monitor, detect, and terminate the contract with a subcontractor engaging in prohibited activities identified at paragraph (b) of the clause at 52.222-50, Combating Trafficking in Persons; and

(2) After having conducted due diligence, either-

(i) To the best of the Offeror's knowledge and belief, neither it nor any of its proposed agents, subcontractors, or their agents is engaged in any such activities; or

(ii) If abuses relating to any of the prohibited activities identified in 52.222- 50(b) have been found, the Offeror or proposed subcontractor has taken the appropriate remedial and referral actions.

(End of provision)

DFARS 252.204-7019 NOTICE OF NISTSP 800-171 DOD ASSESSMENT REQUIREMENTS (NOV 2023)

(a) Definitions.

“Basic Assessment”, “Medium Assessment”, and “High Assessment” have the meaning given in the clause 252.204-7020, NIST SP 800-171 DoD Assessments.

“Covered contractor information system” has the meaning given in the clause 252.204-7012, Safeguarding Covered Defense Information and Cyber Incident Reporting, of this solicitation.

(b) Requirement. In order to be considered for award, if the Offeror is required to implement NIST SP 800–171, the Offeror shall have a current assessment (i.e., not more than 3 years old unless a lesser time is specified in the solicitation) (see 252.204–7020) for each covered contractor information system that is relevant to the offer, contract, task order, or delivery order. The Basic, Medium, and High NIST SP 800–171 DoD Assessments are described in the NIST SP 800–171 DoD Assessment Methodology located at <https://www.acq.osd.mil/asda/dpc/cp/cyber/docs/safeguarding/NIST-SP-800-171-Assessment-Methodology-Version-1.2.1-6.24.2020.pdf> .

(c) Procedures.

(1) The Offeror shall verify that summary level scores of a current NIST SP 800-171 DoD Assessment (i.e., not more than 3 years old unless a lesser time is specified in the solicitation) are posted in the Supplier Performance Risk System (SPRS) () for all covered contractor information systems relevant to the offer.

(2) If the Offeror does not have summary level scores of a current NIST SP 800-171 DoD Assessment (i.e., not more than 3 years old unless a lesser time is specified in the solicitation) posted in SPRS, the Offeror may conduct and submit a Basic Assessment to for posting to SPRS in the format identified in paragraph (d) of this provision.

(d) Summary level scores. Summary level scores for all assessments will be posted 30 days post-

assessment in SPRS to provide DoD Components visibility into the summary level scores of strategic assessments.

(1) Basic Assessments. An Offeror may follow the procedures in paragraph (c)(2) of this provision for posting Basic Assessments to SPRS.

(i) The email shall include the following information:

(A) Cybersecurity standard assessed (e.g., NIST SP 800-171 Rev 1).

(B) Organization conducting the assessment (e.g., Contractor self-assessment).

(C) For each system security plan (security requirement 3.12.4) supporting the performance of a DoD contract—

(1) All industry Commercial and Government Entity (CAGE) code(s) associated with the information system(s) addressed by the system security plan; and

(2) A brief description of the system security plan architecture, if more than one plan exists.

(D) Date the assessment was completed.

(E) Summary level score (e.g., 95 out of 110, NOT the individual value for each requirement).

(F) Date that all requirements are expected to be implemented (i.e., a score of 110 is expected to be achieved) based on information gathered from associated plan(s) of action developed in accordance with NIST SP 800-171.

(ii) If multiple system security plans are addressed in the email described at paragraph (d)(1)(i) of this section, the Offeror shall use the following format for the report:

System Security Plan

CAGE Codes supported by this plan

Brief description of the plan architecture

Date of assessment

Total Score

Date score of 110 will achieved

(2) Medium and High Assessments. DoD will post the following Medium and/or High Assessment summary level scores to SPRS for each system assessed:

(i) The standard assessed (e.g., NIST SP 800-171 Rev 1).

(ii) Organization conducting the assessment, e.g., DCMA, or a specific organization (identified by

Department of Defense Activity Address Code (DoDAAC)).

(iii) All industry CAGE code(s) associated with the information system(s) addressed by the system security plan.

(iv) A brief description of the system security plan architecture, if more than one system security plan exists.

(v) Date and level of the assessment, i.e., medium or high.

(vi) Summary level score (e.g., 105 out of 110, not the individual value assigned for each requirement).

(vii) Date that all requirements are expected to be implemented (i.e., a score of 110 is expected to be achieved) based on information gathered from associated plan(s) of action developed in accordance with NIST SP 800-171.

(3) Accessibility.

(i) Assessment summary level scores posted in SPRS are available to DoD personnel, and are protected, in accordance with the standards set forth in DoD Instruction 5000.79, Defense-wide Sharing and Use of Supplier and Product Performance Information (PI).

(ii) Authorized representatives of the Offeror for which the assessment was conducted may access SPRS to view their own summary level scores, in accordance with the SPRS Software User's Guide for Awardees/Contractors available at https://www.sprs.csd.disa.mil/pdf/SPRS_Awardee.pdf.

(iii) A High NIST SP 800-171 DoD Assessment may result in documentation in addition to that listed in this section. DoD will retain and protect any such documentation as "Controlled Unclassified Information (CUI)" and intended for internal DoD use only. The information will be protected against unauthorized use and release, including through the exercise of applicable exemptions under the Freedom of Information Act (e.g., Exemption 4 covers trade secrets and commercial or financial information obtained from a contractor that is privileged or confidential).

(End of provision)

FAR 52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

2f2

Federal Acquisition Regulation (FAR): [FAR | Acquisition.GOV](https://www.acquisition.gov)

Department of Defense Federal Acquisition Regulation Supplement (DFARS):

[DFARS | Acquisition.GOV](https://www.acquisition.gov)

Defense Logistics Agency Directive (DLAD):
[Policy and Directives \(dla.mil\)](http://dla.mil)

L1 SUPPLEMENT: SITE VISIT

(a) It is the responsibility of the offerors/bidders to inspect the site where supplies are to be delivered and to obtain all available information about the site necessary to satisfy themselves about general and local conditions that may affect delivery and the cost of contract performance, to the extent that the information is reasonably obtainable. Offerors/bidders are responsible for any costs incurred for any site inspection and for obtaining information.

(b) In no event shall failure to inspect the site constitute grounds for a claim after contract award

(End of Supplement)

L2 SUPPLEMENT: EVIDENCE OF RESPONSIBILITY

(a) Any offeror not performing a significant portion of the contract with its own facilities and personnel may be determined by the Contracting Officer to be non-responsible.

(b) If the offeror's source of supply is a firm or refinery independent of the offeror, the offeror may be required to submit evidence of a supply commitment from such source(s) when submitting its offer under this solicitation. Evidence of supply commitments should extend to the subcontracting level at which the product is produced.

(c) Such evidence may be in the form of a signed copy of the contract between the offeror and its supplier or in the form of a contingency letter from the supplier or other satisfactory documentation. In any event, such evidence of agreement should clearly identify—

- (1) The volumes to be supplied;
- (2) The specification(s) of product(s) to be supplied;
- (3) The points of delivery and period of contract performance;
- (4) The escalation provision(s) applicable to products to be supplied; and
- (5) The supplier's delivery and inspection terms and conditions.

(d) If the offeror changes its source of supply, such change must be made no later than the time specified for the submission of Interim Proposal Revisions. If required, a notice of a change in the offeror's source of supply should include the documentation set forth in (c) above.

(e) Failure to comply with the above provisions may result in a determination of non-responsibility by the Contracting Officer.

(End of Supplement)

L3 SUPPLEMENT: GATED APPROACH

The Contracting Officer intends to establish a phased selection process after receipt of initial proposals. If an offeror fails to pass Phase 1 of the GATED APPROACH they will be notified and no negotiations will be conducted with no opportunity to revise their proposal. To pass Phase 1, offerors must meet one of the

criteria listed in M11 SUPPLEMENT: GATED APPROACH CRITERIA.

(End of Supplement)

PROCUREMENT NOTE L02 Electronic Order Transmission (JUN 2020)

Offerors shall select one of the following alternatives for paperless order transmission:

() American National Standards Institute (ANSI) X12 Standards through a value added network (VAN) approved by DLA Transaction Services; or

() Electronic mail (email) award notifications containing web links to electronic copies of the Department of Defense (DD) Form 1155, Order for Supplies or Services.

Offerors must register on the DLA Internet Bid Board System (DIBBS) (<https://www.dibbs.bsm.dla.mil/>) to receive email notification. If the offeror elects ANSI/VAN order transmission, DLA will send Electronic Data Interchange (EDI) transaction sets at time of award. The contractor shall acknowledge receipt of transaction sets with a functional acknowledgement or order receipt message within 24 hours. If the contractor receives the award transaction set on a weekend or Federal holiday, the contractor shall acknowledge receipt on the next business day. This acknowledgement will confirm that the contractor's interface with the system is working as needed for contract ordering.

Offerors can obtain information regarding EDI, ANSI X12 transactions, and VANs approved by DLA Transaction Services at Defense Automatic Addressing System (DAAS) Value Added Network List (<https://www.transactionservices.dla.mil/daashome/edi-vanlist-dla.asp>). Offerors should direct questions concerning electronic ordering to the appropriate procuring organization point of contact below:

DLA Land and Maritime, Helpdesk.EBS.L&M.LTCs@dlam.mil

DLA Troop Support, dlaedigroup@dlam.mil

DLA Aviation, avnprocsysproceddiv@dlam.mil, phone # 804-279-4026

SECTION M - EVALUATION FACTORS FOR AWARD

FAR 52.212-2 EVALUATION—COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (NOV 2021)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

FACTOR 1: TECHNICAL ACCEPTABILITY

The Technical Team members will evaluate each offeror based on the offeror's ability to meet and comply with the solicitation requirements. The offeror's proposal is the sole basis on which the Government will evaluate the technical merits of what is proposed.

The following subfactors will be used in determining technical acceptability:

SUBFACTORS:

1. Supplies or services and prices/cost, Section B:
 - a. Offer meets all schedule requirements in Section B
 - b. Offered line items meet the delivery requirements of the schedule for additives required, mode and FOB point
 - c. Offered line item meets the required minimum and maximum quantity of the schedule
2. Description/specifications/statement of work, Section C:
 - a. Offer meets all specification requirements outlined in Section C provisions
 - b. For F76 offers, offer includes a completed and signed Traceability Form IAW Provision C16.23 FUEL, NAVAL DISTILLATE.
3. Inspection and Acceptance, Section E:
 - a. Offer meets all inspection requirements outlined in Section E Provisions.
 - b. Offeror demonstrates an understanding of the quality assurance requirements in Quality Assurance Provisions (QAP) E1 of the solicitation by:
 - 1) Certifying that it has a Quality Control Plan (QCP), applicable to a DLA Energy bulk petroleum contract, on file with DLA Energy that is no more than 24 months old, by making this selection in Section J of its Offeror Submission Package (OSP); or
 - 2) Providing an outline, estimated two pages in length, of a proposed QCP describing the offeror's current inspection system and quality assurance procedures, with references to the corresponding requirements in provisions E1, and making the corresponding selection in Section J of its OSP.
4. Deliveries or performance, Section F:
 - a. Offer meets all requirements outlined in Section F provisions.
 - b. Offer includes completed information under Sources of Supply for all Products and Shipping Points (monthly product capacity for each source of supply and shipping points supplied by each refinery/source of supply).
 - c. Offer includes completed information under Parcel Shipping Sizes and Daily Capacity for all products, modes and shipping points offered.
 - d. Offer includes completed information under Barge/Tanker Loading Facility Data (if offering via Origin Barge/Tanker mode), including but not limited to map coordinates for shipping points in the proper format as specified in the Map Coordinate Desk Guide, attached to the solicitation.
 - e. Offer includes completed information under Port Restrictions (if offering via Origin Barge/Tanker mode).

Subfactors 1-4 will be rated either "Acceptable" or "Unacceptable". These ratings are defined as follows:

ACCEPTABLE: The offeror's proposal meets the Government's supply and schedule requirements in Section B, product specifications in Section C, product quality assurance in Section E, and delivery/transportation requirements in Section F.

UNACCEPTABLE: The offeror's proposal does not meet any one or more of the following requirements: the Government's supply and schedule requirements in Section B, product specifications in Section C, product quality assurance in Section E, and delivery/transportation requirements in Section F.

Proposals may be comprised of individual, independent offers, differentiated by product grade, shipping mode and/or FOB point. An individual offer within a proposal may be rated "Unacceptable", while remaining offers within the same proposal may be rated "Acceptable". A rating will be made for each individual offer within each proposal.

Each individual offer within a proposal must receive an "Acceptable" rating for every subfactor in order to be rated technically acceptable. If an individual offer within a proposal receives a rating of "Unacceptable" for one subfactor,

then it will be rated technically unacceptable. Therefore, some individual offers within a proposal may be considered technically acceptable while other individual offers within the same proposal may be considered technically unacceptable.

An offer that includes an exception to any solicitation requirement in Section B, C, E, or F will be rated technically unacceptable under the appropriate technical evaluation subfactor unless the exception is explicitly accepted by the Government in writing during negotiations, or the offer is subsequently revised to remove the exception. Any exception/deviation to the solicitation that is not in Section M of the OSP or in an attachment compliant with subsection (f) of M8 SUPPLEMENT: EVALUATION OF OFFERS (EXCEPTIONS/DEVIATIONS) will not be considered and will be rejected, regardless of whether the exception/deviation is explicitly labeled as an exception or a deviation. Final Proposal Revisions (FPRs) are the final opportunity to revise proposals to address any technical acceptability issues. If a FPR includes an unresolved technical issue or an exception that is not accepted by the Government, the offer will be found technically unacceptable and ineligible for award.

The Contract/Price Team is responsible for addressing “Unacceptable” ratings, questions, clarifications, and/or comments posed by Technical Team members and relative to each offeror's proposal during negotiations. Offerors must provide additional written details to address all areas rated “Unacceptable” prior to the receipt of Final Proposal Revisions, which the Government will review for technical acceptance.

FACTOR 2: PRICE

Fixed Price with Economic Price Adjustment (EPA) contracts will result from this solicitation. The Contracting Team will evaluate proposals for pricing purposes in accordance with FAR 52.212-2 – EVALUATION – COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (NOV 2021). Offerors are advised that DLA Energy intends to execute the option provision of any subsequent contract only if there are remaining quantities left on the contract. The option provision will only extend the ordering and delivery period of the contract, no quantities will be added.

The lowest price is defined as the lowest laid-down price, to include transportation costs as determined by the Bid Evaluation Model (BEM), which will provide the basis for making awards. The BEM is a computer evaluation model which analyzes numerous variables. These variables include the offeror's proposed prices, fuel types, minimum and maximum offer quantities, shipping locations, shipment method capabilities, customer receipt locations, and receipt mode capabilities. Transportation rates will be included for tanker, barge, pipeline, and tank truck transportation modes in accordance with M7 SUPPLEMENT: EVALUATION OF OFFERS INVOLVING OTHER THAN F.O.B. TANKER and M4 SUPPLEMENT: EVALUATION OF OFFERS INVOLVING F.O.B. TANKER LOADING. Government additive costs will be used to evaluate, where applicable, proposals of product that is not fully additized at the loading facility, but that instead is additized/injected enroute to a facility or customer location. The BEM will calculate the overall pattern of delivery of fuel from contractor facilities to specific customer locations that represents the lowest total combination of price for product, transportation, and other costs.

Offers will be submitted through the Offer Entry Tool (OET). There are two types of OET instances or “rounds” that are available for use during the solicitation process – the “standard” round and the “OET Price Reduction” round. A standard round is used for all offer inputs from initial offers on the solicitation through Final Proposal Revisions (FPR). In a standard OET round, the vendor can change most data fields in their offer, including adding and removing shipping locations, adding or removing origin and destination bid lines, quantities, prices, and offer conditions. However, for any standard OET round following submission of Interim Proposal Revisions (IPRs), offerors will not be able to add new shipping points, products, modes of delivery, sources of supply, FOB, escalators exception requests or new bid lines.

After the solicitation has been posted to Sam.Gov website, it will be posted to the OET as the initial standard round. There can be multiple standard rounds. All initial offers must be submitted via this OET standard round no later than the date and time specified for the receipts of initial offers. Only those offers who have submitted an initial offer by the date and time specified will be eligible to submit data in later OET rounds.

DLA Energy may request offeror submission of IPRs before the conclusion of negotiations. The solicitation will have a Two-Part Close of Negotiations. Part 1-Close of Negotiations will occur at IPR and will be an offeror's last chance to finalize shipping points, sources of supply, products, FOB, escalator exception requests, and modes of delivery. IPR submittal is also the last opportunity for offerors to submit additional bid lines. IPRs will be submitted through the OET and considered a standard round.

The information in the OET will be evaluated in the BEM. Each offeror will be provided with a "Minimum Cost Bid Evaluation Worksheet" (MCBEW). The MCBEW will provide detailed information on how an offer is evaluated to each demand location. This report includes offered price, method of delivery for each leg of the route, transportation and additive costs, any applicable evaluation factors, and the evaluated laid down price for each location. This information will be generated separately for each offeror, and each offeror will receive only the information applicable to its offer.

Offerors will be given time to review the MCBEW, after which DLA Energy will close negotiations and call for Final Proposal Revisions (FPRs). FPRs will be submitted through the OET and considered a standard round. FPRs will be evaluated in the BEM. If an offeror chooses not to revise its offer during the FPR standard round, then unless the offer is withdrawn, the offeror's most recent OET submission for this acquisition (initial offer or IPR, as applicable) will be evaluated as a final offer in the BEM for possible award. The Government reserves the right either to make awards based on the FPR BEM evaluation, or to conduct one or more additional standard or OET Price Reduction rounds.

In contrast to a standard round, in an OET Price Reduction round an offeror is only allowed to lower their offered price and may not make revisions to any other OET fields. All other OET fields, including but not limited to product type, shipping location, quantity, conditions, will be locked during an OET Price Reduction round. During an OET Price Reduction round, the offeror is responsible for ensuring that the "offered price" field for each submitted offer line contains the offer price they wish to have evaluated. The price in the "offered price" field can be equal to or lower than the previously offered price (shown in the field directly to the left of the offer price field in OET). As with the standard rounds, offerors are responsible for submitting revisions before the stated closing date and time for the OET Price Reduction round. Revisions received after the stated closing date and time will not be considered, and, unless withdrawn, the offer will be evaluated using the final offered price that was submitted prior to the stated closing date and time.

At the start of each OET Price Reduction round, offerors will be provided with an updated copy of the MCBEW. At this time, offerors will also be provided with a "Laid-Down Cost Report" (LCR). The LCR will provide information on the price currently in line for award at each demand location. This report is limited to providing the solicitation line item, location, quantity currently in line for award, and the laid down price for the quantity currently in line for award. The laid down price is an aggregate of product, additive and transportation costs, as well as any evaluation factor(s).

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s)." The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before

award..

(End of provision)

M1 SUPPLEMENT: EVALUATION (ALTERNATE ESCALATORS)

(a) **FOR EVALUATION PURPOSES ONLY**, an evaluation factor will be applied to offer prices based on alternate escalators in order to account for the difference in volatility between alternate escalators and DLA Energy's default escalator. Any escalators approved for use other than the default escalator are known as alternate escalators. Applying the evaluation factor to offer prices based on alternate escalators allows for evaluation of offers based on the relationship between the alternate escalator and the default escalator over a 12-month period. Offers based on the default escalator are not subject to an evaluation factor.

(b) The evaluation factor is calculated by finding the difference between each escalator's price on the base reference date and that escalator's 12-month average. The difference between the alternate escalator's base reference price and its 12-month average is subtracted from the difference between the default escalator's base reference price and its 12-month average to calculate the evaluation factor for the alternate escalator. That value, which can be positive or negative, is the evaluation factor and is added to offer prices tied to the corresponding alternate escalator for purposes of determining the total laid down offer price for evaluation (see FAR 52.212-2 EVALUATION – COMMERCIAL ITEMS).

(c) For the purposes of section (b) above, each escalator's 12-month averages are calculated by averaging the respective reference prices (as per the ECONOMIC PRICE ADJUSTMENT supplement) for each day during the full 12 months prior to the Base Commodity Price (BCP) date (e.g., if the BCP date is February 16, 2021, the prior 12-month period is February 2020 - January 2021).

Example Evaluation Factor Formula, pricing in US Dollars / US Gallons (USD/USG):

BCP (11/12/24)	West Coast Jet Kero LA/SF/Seattle AVE	Argus Jet Kero LA/SF Ave Pipe
Base Reference Price	\$2.374720	\$2.399720
12-month average	\$2.556472	\$2.552670
Difference	\$-0.181752	\$-0.152950
Evaluation factor		
		\$-0.028803

(End of Supplement)

M2 SUPPLEMENT: RIGHT TO APPLY F.O.B. ORIGIN OFFER

The Government reserves the right to apply an f.o.b. origin offer against any destination item for the same product.

(End of Supplement)

M3 SUPPLEMENT: BULK PETROLEUM PRODUCTS EVALUATION - ALL OR NONE

Definitions. As used in this text "All or None Offer" means a conditional offer of item(s) that are

“tied” to other offered items. For example, an offeror may submit a proposal stating “If awarded Item 0020, Items 0019 and 0021 must also be awarded.”

(b) *Evaluation of All or None Offers.*

- (1) Offers submitted on an "All or None" basis will be evaluated in the aggregate via the Bid Evaluation Model (BEM) in accordance with 52.212-2 Evaluation—Commercial Products and Commercial Services; the award for those items "tied" together will be made at the lowest overall cost to the Government, price and other factors considered.
- (2) Offerors may specify a minimum quantity for award; award will be made at the lowest overall cost to the Government, price and other factors considered.
- (3) Offerors may not tie different products together. For example, JP5 offers may not be tied together with JAA offers. Such offers will be rejected as unacceptable.
- (4) Offerors may not tie together the product or quantity from one refinery with the product or quantity from a separate refinery, nor include an overall minimum quantity for award that ties together the products or quantities of separate refineries. Such offers will be rejected as unacceptable.

(End of Supplement)

M4 SUPPLEMENT: EVALUATION OF OFFERS INVOLVING F.O.B. TANKER LOADING (ALL PROGRAMS)

(a) Transportation will be considered in the evaluation of all origin offers unless the solicitation specifically indicates otherwise in the Schedule. The transportation rate will be based on a nominal size U.S. flag tanker of approximately **48,633** Deadweight Tons (DWTs). The transportation rate will be an estimated market rate based on either market information or published prices, or actual rates paid by the Government or any combination thereof. This evaluation rate will be expressed as a daily rate for U.S. flag costs. DLA Energy will use the evaluation rate along with one way mileage over the tanker routes being evaluated to compute a transportation rate expressed in U.S. cents per gallon. This rate will then be added to the per gallon offered price to determine the evaluated price.

(1) For this solicitation, the rate to be used in the evaluation is **\$133,157.97** per day. This rate reflects the lowest available freight rates and related accessorial and incidental charges that are reasonably anticipated to be in effect on or before the date of initial shipment. The contracting officer may update the rate to be used in the evaluation if, after the initial deadline for submission of offers, new rates or related charges become available that were not accounted for in the original evaluation rate provided above.

(b) F.O.B. Tanker Origin offers of two product loads will be evaluated individually as one product loads.

(c) Transportation freight rates will be applied to all offers in the evaluation process as follows:

(1) The following procedures will be followed in applying transportation freight rates to offers in the evaluation process:

(i) **310,000** barrels of product will be considered sufficient to fully utilize vessels **48,519.70** DWTs and over.

(ii) In the event an offeror limits its offer to individual tanker lifting of less than **310,000**

barrels, the offer will be evaluated on the basis of:

(a) a single-port load plus shifting charges if it is determined that the same product will be available in the same port area,

(b) the least expensive two-port loading rate if it is determined that the same products will not be available in the same port area but will be available in another port area in the same geographical area under this solicitation, or

(c) total vessel freight rate prorated over the maximum parcel size offered if there are no other products offered for tanker loading in the same geographical area. The additional costs represented by the shifting charge, or the two-port loading will be assessed for evaluation purposes against such offer on a prorated basis per gallon on the quantity indicated by the offeror as the maximum lifting.

(2) Upon completion of the initial evaluation, if any portion of the product(s) utilized to fill the vessel fails to evaluate as the lowest laid down cost, the product(s) will be eliminated, and new transportation freight rates applied based on the successful portion of the product(s).

(d) EXCEPTIONS:

(1) Due to draft limitations or delivery restrictions, the following destinations cannot receive fully loaded vessels larger than **48,519.70** DWTs. Offers for these destinations will be evaluated on a two-port discharge or restricted parcel size:

JAA	JA1	JP5	F76
DFSP PUGET SOUND MAX LOAD QTY: 300,000 BBLS	DFSP ANCHORAGE MAX LOAD QTY: 235,000 BBLS	DFSP PUGET SOUND MAX LOAD QTY: 300,000 BBLS	DFSP POINT LOMA MAX LOAD QTY: 235,000 BBLS
DFSP VANCOUVER MAX LOAD QTY: 270,000 BBLS		DFSP SELBY MAX LOAD QTY: 270,000 BBLS	DFSP WEST OAHU MAX LOAD QTY: 120,000 BBLS
DFSP SELBY MAX LOAD QTY: 270,000 BBLS		DFSP POINT LOMA MAX LOAD QTY: 300,000 BBLS	DFSP PUGET SOUND MAX LOAD QTY: 300,000 BBLS
CARSON TERMINAL MAX LOAD QTY: 235,000 BBLS		DFSP PEARL HARBOR MAX LOAD QTY: 120,000 BBLS	

DFSP WEST OAHU MAX LOAD QTY: 120,000 BBLs			

(End of Supplement)

M5 SUPPLEMENT: EVALUATION OF OFFERS

(a) Offerors are requested to offer on all or any part of the products listed herein, and on the methods of delivery that the offeror's facilities will permit. The Armed Services prefer to use Government- owned railroad tank cars and/or to arrange for transport trucks for delivery to using activities (destinations) from origin, whether it be refinery, terminal, or bulk plant, unless the destination price offer is lower than the origin price plus commercial or negotiated Government rates. Even though offers are made on a destination basis, offers covering delivery on an origin basis at Contractor's refinery, terminal, and/or bulk plant are requested and should be included in the spaces provided. The Government reserves the right to award, as the interest of the Government may require, on the basis of origin delivery at refinery, terminal, and/or bulk plant or on the basis of destination delivery.

(b) When requirements are indicated as Alternate Delivery in the Schedule, evaluation will be made on the cost of delivery direct from offeror's refinery, terminal, or bulk plant and alternately on the cost of bulk water or pipeline liftings for refineries, transportation to the Government controlled terminals indicated, and transportation from the terminal to using activity. Awards will be made in whole or part on either basis, but not on both.

(c) The DELIVERY AND CONTRACT PERIODS contract provision contains provisions applicable to offers for deliveries over the full contract period. Notwithstanding said provisions, offers that restrict delivery of supplies hereunder to any particular time or times during said period will be considered for award if advantageous to the Government.

(d) Discounts for prompt payments will not be considered in the evaluation of offers.

(End of Supplement)

M6 SUPPLEMENT: QUANTITIES TO BE EVALUATED FOR TANKER AND BARGE OFFERS

(a) DLA Energy will add five days to offered tanker lift intervals and three days to offered barge or shallow draft tanker lift intervals to determine if the maximum total quantity offered for each offered item can be lifted under a resultant contract. These evaluation factors were derived from operational scheduling realities and will only be used for evaluation purposes. If the application of this supplement results in the evaluation of less than the maximum total quantity offered for that item, then the Government will not award more than the evaluated quantity. However, offerors should consider the Government's evaluation factors for tanker, shallow draft tanker, and barge lift intervals to assure lift intervals and parcel sizes provide for full evaluation of maximum total offered quantity for all items by

all modes of delivery.

(b) Unless defined otherwise by the offeror, lift interval is the time between the completion of loading (release of vessel by the Government inspector) until the scheduled delivery date of the next lifting for a specific product.

(c) For offers on an FOB destination basis, the additional days added in section (a) are not applicable.

(End of Supplement)

M7 SUPPLEMENT: EVALUATION OF OFFERS INVOLVING OTHER THAN F.O.B. TANKER

(a) Transportation rates and related costs shall be used in the evaluation of f.o.b. origin bids and proposals for all methods of delivery other than ocean-going tanker. The best available transportation rates and related costs in effect on or to become effective prior to the expected date of initial shipment, and on file or published at the date of the bid opening or initial proposal due date, shall be used in the evaluation. However, when transportation rates and related costs that cover the traffic are filed or published after the bid opening or initial proposal due date and there were no applicable rates or costs in existence on that date, these rates and costs shall be used in the evaluation.

(b) In addition to the requirements of paragraph (a), truck rates will be selected for evaluation purposes according to the following hierarchy:

- (1) In accordance with existing Government transportation contracts;
- (2) The lowest published point-to-point, zone-to-zone, or state-to-state tender;
- (3) Published state-to-region or region-to-state rates;
- (4) Published region-to-region rates;
- (5) Published region-to-9C or 9C-to-region rates;

(6) Quotation rates (rates from carriers participating in Powertrack will take precedence over those of non- Powertrack carriers);

(7) Published CONUS-wide rates, also known as 9C-to-9C rates or mileage rates.

(c) If the offeror desires to guarantee a rate other than that covered in (a) and (b) above, such rate shall be considered in the evaluation of offers and shall become a part of any resultant contract.

(d) When Government property is to be furnished and shipped by the Government under a contract to a point specified by the prospective supplier in its bid or proposal, transportation costs shall be a cost factor in the evaluation of bids or proposals.

(End of Supplement)

M8 SUPPLEMENT: EVALUATION OF OFFERS (EXCEPTIONS/DEVIATIONS)

(a) Offerors are expected to submit offers in full compliance with all terms and conditions of this solicitation.

(b) Any exceptions/deviations to the terms and conditions of this solicitation will result in the Government's determination that either—

- (1) The exception/deviation is material enough to warrant rejection of the offer in part or in full; or
- (2) The exception/deviation is acceptable.

(c) If the exception/deviation is in reference to a specification contained in this solicitation and the offeror cannot supply product fully meeting the required specification(s), the product can be offered for

consideration provided the offeror clearly indicates in Section M of its Offer Submission Package (OSP) the extent to which any product offered differs from the required specification(s).

(d) If the exception/deviation is in reference to a particular test, inspection, or testing method contained in this solicitation, the offer can be considered provided the offeror clearly indicates in Section M of the OSP the extent to which its offer differs from those requirements.

(e) If the exception/deviation is in reference to any aspect of the solicitation not covered by subsections (c) or (d) of this provision, the offer can be considered provided the offeror clearly indicates in Section M of the OSP the extent to which its offer differs from the solicitation.

(f) If the character limitation in Section M of the Offeror Evaluation Tool (OET) prevents the offeror from clearly detailing its exceptions, the offeror may include one attachment not to exceed two pages in length labeled "Section M - Exception Requests" where it consolidates and details all exceptions to the solicitation. If such an attachment is used, the offeror must clearly state in Section M of its OSP that the exceptions are in the properly labeled attachment.

(g) Any exception/deviation to the solicitation that is not in Section M of the OSP or in an attachment compliant with subsection (f) of this provision will not be considered and will be rejected, regardless of whether the exception/deviation is explicitly labeled as an exception or a deviation. Any exception/deviation to the solicitation shall be considered rejected unless the Government explicitly accepts the exception/deviation in writing during negotiations.

(h) If the exception/deviation is determined acceptable, offered prices may be adjusted, for evaluation purposes only, by the Government's best estimate of the quantitative impact of the advantage or disadvantage to the Government that might result from making an award under those circumstances.

(End of Supplement)

M9 SUPPLEMENT: USE OF DESP BY COMMERCIAL SUPPLIER OFFERING PRODUCT UNDER DLA ENERGY SOLICITATIONS

DLA Energy reserves the right to accept or reject offers that require movement of product through a Defense Energy Support Point to effect tanker loading. Rejection may be based on economics, detrimental logistical impact on the Government, or other good cause.

(End of Supplement)

M10 SUPPLEMENT: EVALUATION OF OFFERS INVOLVING F.O.B. BARGE OR SHALLOW DRAFT TANKER LOADING (ALL PRODUCTS SOLICITED FOR BULK FUEL)

(a) Transportation will be considered in the evaluation of all origin offers unless the solicitation specifically indicates otherwise in the Schedule.

(b) The following evaluation procedures will be used for f.o.b. origin barge/shallow draft tanker offers:

(1) _____ barrels of product will be considered sufficient to fully utilize a barge/shallow draft tanker.

(2) The Government will load no more than _____ barrels of fuel on a barge/shallow draft tanker per shipload.

(3) **EXCEPTION(S).** For product going to the following destinations, _____ barrels

of fuel will be considered sufficient to fully utilize a barge/shallow draft tanker:

JP5	JAA	JA1	F76

(i) The Government will load no more than the quantity specified in (b)(3) per shipload.

(End of Supplement)

M11 SUPPLEMENT: GATED APPROACH CRITERIA

(a) To pass Phase 1 of the GATED APPROACH offerors must meet one of the following criteria:

- (1) The offeror is a refiner/manufacturer; or
- (2) The offer provides a Letter of Supply Commitment that meets the standard set in L2
SUPPLEMENT: EVIDENCE OF RESPONSIBILITY; or
- (3) The offeror has held a DLA ENERGY Bulk Petroleum Products contract within the past 3 years.

(End of Supplement)
