- Reintegration of missing material

Estimated Total Value: \$49,000

SECTION 4: IDENTIFICATION OF THE STATUTORY AUTHORITY PERMITTING OTHER THAN FULL AND OPEN COMPETITION

This acquisition is conducted under the authority of 41 USC 3304, as implemented by FAR 6.103 and substantiated by the following:

- ☒ FAR 6.103-1 – Only one responsible source and no other supplies or services will satisfy agency requirements.

SECTION 5: DEMONSTRATION THAT THE PROPOSED CONTRACTOR'S UNIQUE QUALIFICATIONS OR THE NATURE OF THE ACQUISITION REQUIRES USE OF THE AUTHORITY CITED

QHAPAQ ÑAN SAC is the only responsible source reasonably available capable of meeting the Government's requirement without unacceptable risk to historically significant property.

a. Specialized Cultural Heritage Conservation Expertise

Global Acquisitions

U.S. DEPARTMENT of STATE

The requirement involves restoration of culturally significant furnishings requiring museum-quality conservation techniques, not standard commercial repair.

These include:

- Reversible restoration methods (e.g., hide glue, conservation adhesives)
- Preservation of original finishes (shellac, wax, oil)
- Non-invasive cleaning and stabilization
- Conservation-grade reintegration techniques

These standards align with internationally recognized conservation practices (AIC, Secretary of the Interior standards) and significantly limit the pool of capable vendors.

b. Proven Past Performance at the Ambassador's Residence

QHAPAQ ÑAN SAC has successfully performed prior restoration work on historically significant furnishings within the Ambassador's Residence.

This provides:

- Direct familiarity with the furnishings and materials
- Proven ability to meet representational and historical standards
- Reduced performance and technical risk

No other vendor has demonstrated comparable experience in this specific environment.

c. Unique Technical Capability Demonstrated in Proposal

The contractor's proposal includes specialized conservation techniques such as:

- Controlled humidity treatments
- Leather consolidation and capillary infiltration
- Microcrystalline wax protective finishes
- Structural stabilization of antique wood elements

These techniques are not offered by general commercial furniture repair vendors.

d. Other Sources Not Capable

Market research identified vendors capable of general furniture repair; however:

- They rely on modern refinishing methods (sanding, synthetic coatings)
- They do not perform reversible conservation treatments
- They lack experience with historically significant furnishings

Use of these vendors would result in irreversible damage and loss of historical integrity.

SECTION 6. DESCRIPTION OF EFFORTS TO ENSURE THAT OFFERS WERE SOLICITED FROM AS MANY POTENTIAL SOURCES AS IS PRACTICABLE, INCLUDING WHETHER A NOTICE WAS OR WILL BE PUBLICIZED AS REQUIRED BY FAR SUBPART 5.2 AND, IF NOT, WHICH EXCEPTION UNDER FAR 5.201 APPLIES

Market research was conducted within the last 12 months by U.S. Embassy Lima GSO staff.

This included:

- Review of local and regional restoration vendors
- Evaluation of technical capabilities
- Comparison of restoration methodologies

Findings:

- Multiple vendors provide general furniture repair
- None demonstrated conservation-level capability
- Only QHAPAQ ÑAN SAC met all technical requirements

Due to the specialized nature of the requirement, competition would not yield additional qualified sources.

A synopsis will be posted in accordance with FAR Subpart 5.2, as applicable.

SECTION 7. DETERMINATION BY THE CONTRACTING OFFICER THAT THE ANTICIPATED COST TO THE GOVERNMENT IS FAIR AND REASONABLE

The Contracting Officer has determined the price to be fair and reasonable based on:

- Independent Government Estimate (IGE)
- Comparison with similar conservation services
- Detailed cost breakdowns provided by the contractor

Examples:

- Leather chair conservation: **\$9,036.44**
- Dining furniture restoration: **\$39,784.88**

SECTION 8. DESCRIPTION OF THE MARKET RESEARCH CONDUCTED (SEE PART 10) AND THE RESULTS OR A STATEMENT OF THE REASON MARKET RESEARCH WAS NOT CONDUCTED

Market research was conducted in accordance with FAR Part 10 within the past 12 months.

This included:

- Identification of local vendors
- Capability assessments
- Review of restoration techniques

Results:

- General vendors lack conservation expertise
- Only one vendor identified with required qualifications
- Requirement is highly specialized

SECTION 9. ANY OTHER FACTS SUPPORTING THE USE OF OTHER THAN FULL AND OPEN COMPETITION

The furnishings are historically significant assets used for official representational purposes.

Improper restoration would result in:

- Irreversible damage
- Loss of cultural and historical value
- Potential replacement costs exceeding contract value

The Government must ensure preservation of these assets in accordance with professional conservation standards.

SECTION 10. LISTING OF THE SOURCES, IF ANY, THAT EXPRESSED, IN WRITING, AN INTEREST IN THE ACQUISITION

To date, no other sources have expressed interest in writing.

SECTION 11. STATEMENT OF THE ACTIONS, IF ANY, THE AGENCY MAY TAKE TO REMOVE OR OVERCOME ANY BARRIERS TO

Global Acquisitions

U.S. DEPARTMENT *of* STATE

COMPETITION BEFORE ANY SUBSEQUENT ACQUISITION FOR THE SUPPLIES OR SERVICES REQUIRED

The Government will continue to monitor market capability.

Due to the specialized nature of cultural heritage conservation, competition is expected to remain limited.

SECTION 12. CERTIFICATIONS

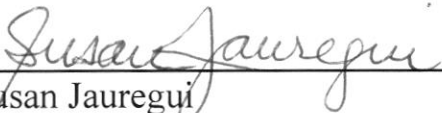

All reviews and approvals should be completed in the order listed unless otherwise authorized or required.
